TRANS-PACIFIC MAIL

Following schedule of sailing is provided by the Los Angeles Ford office:

December 27, from Los Angeles. Specially addressed correspondence for Panama, South and Central America.

December 28, from San Francisco. Mail for Honduras, west coasts Guatemala and Nicaragua. For connections at Salina Cruz mail must leave Los Angeles the special day prior to date of sailing, not later than 7:10 a.m.

To connect at San Pedro for the Hawaiian Islands every other Saturday, mail must leave Los Angeles at 8:30 p.m. on Saturday.

Note—To connect at San Francisco, mail must leave Los Angeles on dispatch made not later than 6:30 p.m. the day prior to date.

yard, 8 p.m., San Francisco; Admiral Benham, 9:30 a.m., Seattle.

Sailed: La Purisima, 5 a.m., Los Angeles; Admiral Evans, midnight, Seattle.

PANAMA CANAL, Dec. 24.—Passed, bound east: Abangan, Los Angeles for Lands End; Baldhill, Los Angeles for New York; Halo, Los Angeles for New York; Thomas H. Wheeler, Los Angeles for New York; Arizonan, Portland and San Francisco for New York; Brazil, Luckenbach, Seattle and San Francisco for New York; Point Fermin, Seattle and San Francisco for New Orleans; Guatemala, San Francisco for New York. Passed, bound west: Hawaii Maru, New Orleans for Los Angeles; Elgita Walker, New York for Pacific port; Loarris, New York for Australia; Cheviot, Hamburg for La Libertad; Chilcop, New York for Arica.

News of Ships and Sailings at Pacific Ports

SAN FRANCISCO, Dec. 26. (AP)—There was little activity on San Francisco's waterfront today because of the general Christmas holiday and except for commercial sailings, only one foreign bound vessel passed through the Golden Gate.

The Makura trans-Pacific steamer of the Union Line, under command of Capt. C. F. Spring-Brown, sailed for Australia with cargo and a good list of passengers. Christmas ties and presents were taken aboard and a yuletide celebration was scheduled to take place during the first night at sea.

John W. Chapman, head of the Dollar Steamship Company and Grayson Dixon, principal owner of the fleet of intercoastal freighters, arrived here today on a tour of inspection. During their stay here, the two officials will complete plans for the installation of steam-like radios on the vessels.

The steamer Pacific Oak on route here from the East Coast, was the first of the Dimon freighters to be thus equipped, and the Pacific Spruce, now in New York, will be the second to be fitted with the new rudder which increases the speed of a vessel half a knot.

SEATTLE, Dec. 26.—Christmas was observed generally along the waterfront with no movement of vessels except those of regular berth lines.

Sailings today included the motorship Bronxville, the first ship of the Kerr Line to the Orient to make this port.

TACOMA, Dec. 26.—Although hit by the worst wind storm this year, no damage was reported to have been done along the waterfront, an investigation disclosed here today. The severe winds hit the city at 9 a.m. this morning and swept over the harbor. Seven vessels including the U.S. Lexington rode out the storm with no trouble.

PORTLAND, Dec. 25.—Steady growth in the number of vessels plying in the Portland-Atlantic Coast intercoastal trade is reflected in statistics made public by the Merchants Exchange here as 296 carriers having entered here in eleven months this year, officials said there is no question but that the December total will establish a new mark as compared with 1928, when 300 vessels were entered.

Expansion of the Quaker and Arrow lines service here has been responsible in a large degree for the more frequent arrivals at this port, officials of the exchange declared.

ZIONIST MOVEMENT AND ITS IDEALS

"Zionism is the organized expression of the corporate will of the Jewish people to re-establish itself as a national entity in Palestine, where it will be subject neither to the brute force of physical oppression nor to the subtle but equally destructive hostility of alien environment," says Meyer W. Weisgal, editor of New Palestine, in an article in Current History, in which he presents the case of the Jews in the recent disturbances in Palestine.

In this article Mr. Weisgal refutes the Arabs' claims that Palestine belongs to them by agreement with Great Britain, that a Jewish settlement in Palestine will overpopulate the land and disturb the peace of the world, and that the Jews should be contented with a spiritual center in Palestine and should not demand political and economic security. To this last argument, Mr. Wisegal answers: "We are advised to revoke the Balfour Declaration; to stop Jewish immigration; to sweep away any and all rights granted to the returning sons of Israel. Then the Arabs would raise no objection to the development of a 'spiritual center.' Strange how an essential truth breaks through even the barriers of willful unfriendliness. It is not relevant to ask, 'If the Jewish people have no historic connection with Palestine—if their destiny lies outside of Palestine, what is the meaning of this spiritual center, so freely granted to us?' The answer is simple: Because there is no reality behind the bare words, 'spiritual center.'

"Spiritual centers do not exist in the air. They are born of politics, freedom and economic security. Commerce, industry, agriculture and the free exercise of the rights of a people to the land that they may call their own are the props upon which a spiritual center is built. If the Jews, as is believed, can make a significant contribution to a world culture by the development of a spiritual center in Palestine, that center implies the inalienable right of the Jewish people to migrate to that country and increase its settlements."

Prohibition Boosted Insurance

Some insurance men got together prosperity in recent years, decided that it was due to prohibition. It took 79 years for life insurance to total $50,000,000,000 while the liquor traffic was legalized. Under prohibition this amount has been doubled in six and a half years. According to these gentlemen this suggests not only the increased prosperity, the higher standards of living and the provision for the future accompanying prohibition, but also indicates where a considerable portion of the old-time annual drink bill of approximately $3,000,000,000 is now going.

Iron Rust in Cattle Feed

Iron rust mixed with cattle feed has been found to improve the condition of the animals to which it had been fed. The idea occurred to a member of the faculty of Iowa State College and a prolonged investigation vindicated the thought. About an ounce of iron rust per day was given to the animals under test.

ORTIZ RUBIO HONORED

Hoover Ignores Precedent

White House Visit Returned by Call at Mexican Embassy

Speeches in Pan-American Address Welcomes Noted Guest

WASHINGTON, Dec. 26. (AP)—President Hoover ignored precedent today to honor Pascual Ortiz Rubio, president-elect of Mexico.

With Mrs. Hoover, he visited the Mexican Chief Executive of the Mexican republic and Senora De Ortiz Rubio at the Mexican Embassy. A return visit to the White House by the distinguished visitors had preceded the call.

This was the first time in history that a President of the United States had left the White House so that a President-elect. The act was a formal acknowledgment of courtesies extended to Mr. Hoover when he toured South America as a President-elect last year.

Senor Ortiz Rubio and his suite arrived in Washington by train from Baltimore where he spent the last two days under medical treatment at Johns Hopkins Hospital. Military honors ordinarily reserved for government heads were paid him at the railroad station, on his journey through the city and at the Mexican Embassy, where he will stay four days with his wife and their three small children.

PAN-AMERICAN WELCOME

On arrival at the White House and Minister's to the Mexican Embassy, Mrs. Hoover subsequently entertained Senora De Ortiz Rubio at tea in the executive mansion while the governing board of the Pan - American Union, headed by Secretary Stimson, who represented the Mexican party at the White House, entertained Senor Ortiz Rubio at a reception in the Pan American Union Building.

Among the future President of Mexico the ambassadors and ministers of the twenty Latin republics of America that Ambassador Dwight C. Teller had been instrumental in continues working in behalf of a program which would solidify the ties that bind the countries of the Americas.

Senor Ortiz Rubio said Mexico would have been in favor of a league among the countries of America and therefore sympathetic with the Pan - American movement. He expressed appreciation for the cordial welcome he had received.

STIMSON'S ADDRESS

Secretary Stimson welcomed the distinguished Mexican guest in his address.

DRY RUMPUS INCREASES

Hoover Confers With Borah

Both Maintain Silence After Luncheon Discussion at White House

Mills Replies to Legislator With Details of Plans to Tighten Border

WASHINGTON, Dec. 26. (AP)—Senator Borah's despair of ever enforcing prohibition "with the present personnel from top to bottom" today led to a personal discussion on that inflammatory topic between him and President Hoover, during luncheon at the White House.

Not another subject was mentioned, but details of the views exchanged were withheld both by the Chief Executive and the Republican dry from Idaho. Having taken a leading role in the Hoover Presidential campaign through his emphasis on the prohibition issue, Senator Borah's Christmas Eve arraignment of the entire Volstead enforcement line-up has intensified the tension over prohibition in Washington.

LATEST FLARE-UP

The latest flare-up was another retort to the Idahoan from the Treasury Department today. Undersecretary Mills divulged plans for a unified border patrol and limitation of the number of Canadian ports of entry, as means to restrict smuggling liquors. He said the Treasury will submit these to Congress as soon as if names a joint committee to consider enforcement questions.

Only yesterday the Treasury, through Prohibition Commissioner Doran, had assailed Borah's condemnation of the whole Volstead personnel as "bound to have a disheartening effect" on the morale of those doing the work. At the same time Atty.-Gen. Mitchell blamed Congress for not strengthening the enforcement machinery.

Borah stood by his celebrated "top to bottom" indictment, with a consequent increase in speculation as to just who he considers to be at the "top." Neither before nor after his luncheon engagement at the White House did the Idaho Senator specify anyone he has in mind.

ANOTHER ENTRY

The latest Senator to enter the controversy is Sheppard of Texas, a Democrat, who wrote the Eighteenth Amendment. He took a directly opposite stand from that of Borah by contending that enforcement is a success when measured by the standard of a majority of people obeying the law and most cases against offenders resulting in convictions.

"Further action is merely a question

"Business as Usual!"

TWO FREEZE IN ALABAMA SNOWSTORM

Mother and Child Lost Short Way from Home Succumb to Cold

HUNTSVILLE (Ala.) Dec. 26.—(Exclusive)—Lost on a familiar mountain top only three-quarters of a mile from their home hearth a mother and her child died last Sunday in a raging blizzard while two of her other children wandered about the mountain until they located their home late this afternoon.

A pitiful tale of death, hunger, exposure and exhaustion was related by a 14-year-old girl, the oldest of the children, who staggered into her father's home today, carrying her baby sister. Her mother, Mrs. Frank Lincoln, died from the cold Sunday and a short time later the smallest child died. The girl said the party had driven from Lincoln, Ala., to the foot of Sharp's Mountain and began a three-mile walk up to the road to the summit where the father lived. They became lost and wandered through Friday and Saturday. Saturday night and Sunday the blizzard, one of the worst in ten years, raged through the entire South.

Following the death of the mother and small child the daughter wrapped herself and the sister in her mother's outer garments and continued wandering about until late today when she reached her father's cabin.

Mrs. Lincoln's body was found in a hollow tree where it had been dragged by the daughter for protection. An ambulance was sent to the remote mountain home, twenty-five miles from here, to bring the two girls to a hospital.

Gasparri Will Quit Papal Post

VATICAN CITY, Dec. 26. (AP)—Tevere, Rome daily, today said Cardinal Gasparri, papal secretary of state, will leave that post soon and will be succeeded by Cardinal Pacelli, papal nuncio to Berlin.

GIRLS MISS SHIP, BUT WHY FRET?

No Use When There Are Planes and Speedboats to Overtake It

SAN FRANCISCO, Dec. 26. (Exclusive) — Missing a ship these days is not such a disturbing matter, with airplanes handy. The Misses Peggy O'Neill and Sally Andrews had promised friends they would be aboard the Panama Mail liner Colombia when it docked—and they kept the promise.

They flew up from Los Angeles, where they had overstayed shore leave, engaged a harbor speedboat, boarded the incoming ship in the stream and tumbled into the arms of friends at the pier as if nothing had occurred to break the tranquil journey by water.

ALCOHOL LEAKS CHECKED

Thousand Persons Watched to Learn How Vast Stores of Spirits Get Into Gin Bottles

CHICAGO, Dec. 26. (Exclusive)—The Federal government wants to know how $50,000,000 worth of alcohol has gone from supposed legitimate industrial channels into the hands of Chicago bootleggers who supply Gold Coast drinkers and other patrons with gin, the chief ingredient of their cocktails.

Investigators already know a lot about it. They have been busy for six months looking into the transactions of nearly 1000 persons. These include business houses that have government permits to use alcohol in commercial enterprises, high prohibition officials, politicians and a raft of bootleggers and their agents.

LEAKAGE $50,000,000

Reports in Federal circles are that $50,000,000 worth of alcohol annually leaks from the drums of business into gin bottles.

Alexander Jamie, chief of the Washington prohibition unit, has been directing an investigation here for six months. He has had a dozen under-cover agents on the job. His report goes to U. S. Atty. Johnson in Chicago and to the Department of Justice in Washington.

Jamie's under-cover men were brought here from all parts of the country. His chief aide was Dan Vaccarelli.

COVER HOUSES USED

The investigators found that about 200 alcohol permittees who got their permits through the influence of politicians, presumably for the preparation of legal products, have been withdrawing from 100 to 3500 gallons of alcohol a month each. The percentage of this alcohol diverted to bootleg use in said to be astounding.

Diversion was accomplished through "cover houses." A cover house is a manufacturing plant which utilizes alcohol in its finished products. It does enough legitimate manufacturing to excuse the use of alcohol.

France Makes Debt Payment

WASHINGTON, Dec. 26. (AP)—The Treasury tonight announced the receipt of $12,067,934 from France, completing payment of annuities due up to this time under the Mellon-Berenger agreement for funding the $4,025,000,000 war debt France owes the United States.

The payment was the first made since Congress approved the Mellon-Berenger agreement, which was signed the 18th inst. by the President.

MANY HURT IN COLLAPSE OF BUILDING

Roof Falls on Card Party and Drops Players on Dance Crowd

LANCASTER (Pa.) Dec. 26. (AP)—Only two women were seriously injured while between thirty and forty other persons suffered minor hurts in the collapse of a building at Quarryville, in the course of a card party tonight.

One hundred and fifty persons were playing cards on the second floor of the building, a remodeled wagon shed, when the roof suddenly fell on the crowd. The weight carried the whole assemblage to the first floor where another crowd of more than 100 men and women were ready to start dancing.

The debris buried the crowd.

Mrs. Frank Forbes and Mrs. Carrie Haverstick were found to be suffering from severe injuries. They had been playing cards on the upper floor.

Five More Die of Meningitis

INDIANAPOLIS, Dec. 26. (AP)—Dr. Herman G. Morgan, secretary of the Indianapolis Board of Health, today compiled figures showing that within the last three weeks there have been thirty-four cases of cerebro-spinal meningitis in this city, of which twenty-three proved fatal. Five deaths occurred yesterday.

Dr. Morgan said that nearly all cases were contracted in places that are overcrowded and where hygienic conditions are poor.

DR. HARTLAND LAW WEDS

SAN FRANCISCO, Dec. 26. (Exclusive)—Friends of Dr. Hartland Law, capitalist, builder and bank director, learned today of his marriage in Kingman Ariz., Christmas Eve to Mrs. H. M. Pierce, who had been his private secretary for nineteen years.

CITY TURNS SELF INSIDE OUT

Houses All Moving Beyond Corporate Limits Since Bonds of Town Were Defaulted

CHEYENNE (Wyo.) Dec. 26. (AP)—House by house, Manville, Wyo., has been divested of its structures at the rate of two or three a week, and thus far no one has been able to do anything about it.

Property owners of Manville have been moving their houses out of the corporate city limits since bonds issued by the town were defaulted.

The Mayor of Manville appealed to the State Attorney-General, who replied that there was nothing in the Wyoming law to prevent a man moving his house. He suggested, however, that the town can pass an ordinance prohibiting moving of houses through the municipality.

Manville, once a thriving little town, slumped, and extensive municipal improvements for which the bonds were issued went into disuse. A large hotel built there recently was moved nearly a hundred miles to another town.

There now are between 100 and 125 houses left in Manville, many of them unoccupied, and the population of the town is barely 300. During its boom days the population was more than 2000.

FLORIDA HIT BY FROST

Cold Wind Hurts Vegetables

Low Temperatures Reported in Homestead District South of Miami

Strawberries, Tomatoes and Other Crops Damaged; Citrus Not Harmed

JACKSONVILLE (Fla.) Dec. 26. (AP)—Severe frost and cold wind caused damage today in some trucking sections of the State, reports to the State Marketing Bureau showed. Beans, strawberries, peppers, tomatoes and eggplant appeared to have been the heaviest sufferers.

The Weather Bureau reported that last night's frost line extended as far south as Homestead, below Miami. In the Miami area there was considerable damage to crops, with estimates ranging from slight to as high as 75 per cent in places.

STRAWBERRIES HIT

The Marketing Bureau's report from Plant City said that approximately 15 per cent of the strawberry crop had been covered against the cold but that of the rest approximately 50 to 75 per cent of the fruit and bloom was lost. About 80 per cent of the strawberry crop was killed at Starke and vicinity.

"Beans in this section virtually were wiped out," read the report from Fort Myers, which added that eggplant suffered a 10 per cent loss while peppers, tomatoes and other vegetables were only slightly hurt.

CITRUS UNHARMED

Tender growing crops were injured severely by the cold through a wide area, but the complete reports are lacking. There were no reports of any damage to citrus and the bureau believed this class of crop had escaped harm. There was no injury to the celery in the Sanford area, but reports said that eggplants, peppers and other tender vegetables suffered greatly.

The bureau said it is impossible at this time to make any estimates of the general damage and several days will be required for accumulation of the necessary reports.

MEXICO'S COLD FATAL TO FOUR

MEXICO CITY, Dec. 26. (AP)—The temperature dropped to 26 deg. above zero here last night, one of the lowest readings in several years. An unusual cold wave has prevailed here recently and temperatures have been subnormal all through the month.

Four persons were reported to have died from exposure on Christmas Day, bringing the total of such deaths to ten for the month. The victims were homeless persons sleeping in the streets.

CUBA'S WEATHER COLDEST IN TEN YEARS

HAVANA, Dec. 26. (AP)—The coldest weather of the year today gripped Havana and Western Cuba. Weather forecasts are for continued cold.

Dr. Carlos Millas, chief of the national observatory, said Cuba is experiencing its coldest weather in ten years.

Canada Names Peak in Rockies Mount Ishbel

MONTREAL (Que.) Dec. 26. (Exclusive)—Ishbel MacDonald, daughter of the British Prime Minister, will have her name perpetuated in a Canadian Rocky Mountain peak to commemorate her visit to Canada last fall.

'Mount Ishbel,' as the peak is to be called, is located in the Rockies twelve miles west of Banff. It is visible from Massive on the Canadian Pacific and also from the roadway between Banff and Lake Louise.

The peak is 10,000 feet high and stands out boldly. The announcement was made today by the Department of the Interior and the news has been cabled to Miss MacDonald.

LEARNING RUNS SECOND TO "IT"

Personality Wins Success Ahead of Scholarship, Professor Declares

DES MOINES (Iowa) Dec. 26. (Exclusive)—"It" is more important than sheer learning as a stepping-stone to financial and professional success in the business and executive world.

"If you are seeking success in business or industry, it pays to be impressive, agreeable and attractive and not to be too intellectual," is the way Prof. G. C. Brandenburg of Purdue University phrased it, speaking before members of the American Association for the Advancement of Science in annual session here. He added scholarship, like virtue, must be its own reward.

He was held to these conclusions by analysis of the records of 100 Purdue engineering students during the first five years after graduation.

Will Rogers Remarks:

BEVERLY HILLS, Dec. 26. [To the Editor of The Times:] The White House fire burned quite a while due to the following: When Mr. Hoover discovered that "some kind of condition existed" he sent out letters inviting all the fire departments in Washington, and when they arrived appointed them on a commission "to investigate and recommend remedies." They did investigate, and on account of there being no prominent business men on the commission they turned in their report fairly quick. "We find a fire does exist, and in keeping with the spirit of every amendment, recommend nothing but water to extinguish it."

Of course by this time the house had burned down, but it was nevertheless gratifying to Mr. Hoover, for it was the first commission that he had ever appointed in his life that had really ever turned in a report. So he figures the loss of the building well worth it. It will renew his faith in commissions.

Yours,
WILL ROGERS.

PARIS SHOWS NAVY HAND

Notice Issued to Other Powers

French to Base Stand at London Conference on League Covenant

Insistence on Later General Meeting at Geneva Thus Reaffirmed

PARIS, Dec. 26. (AP)—The French Foreign Office tonight made public a memorandum explaining to the four other powers to be represented at the London naval disarmament conference in January that the French policy will be based on the convenant of the League of Nations.

France thus has reaffirmed its insistence that the London conference be regarded mainly as a forerunner to a general disarmament conference at Geneva subsequently.

KELLOGG PACT INSUFFICIENT

The Quai d'Orsay, while recognizing the value of the Kellogg-Briand pact, affirmed it was not sufficient under present conditions to guarantee the security of nations, though it constituted a real progress toward disarmament.

The Foreign Office note explains that such a consideration probably was what had prevented the British government from envisaging an important reduction in its naval armament and the American government from abandoning the rapid completion of its last naval program.

The note adds that both these governments were in accord on the idea of excluding any chance of conflict between themselves but seemed to be obliged to consider that their navies had the protection of communications as their essential task. This did not seem to have excluded the hypothesis that they might be brought to intervene in a conflict caused by the violation of solemn engagements.

The note continues by saying that the nations will be in a position to consider disarmament effectively only in proportion to the outside help on which they may rely. An accord on naval disarmament would

(Continued on Page 2, Column 2)

RIVER MEET ARRANGED

January 6 Set Tentatively

Wilbur Announces Parley at Phoenix to Prevent Boulder Tie-up

Any Agreement Reached Will Have to be Ratified by States Concerned

BY LAURENCE M. BENEDICT
"Times" Staff Correspondent

WASHINGTON, Dec. 26. (Exclusive)—Following the exchange of numerous telegrams during the past week with the governors of California, Arizona and Nevada, Secretary of the Interior Wilbur announced this afternoon that a final lower-basin conference looking to the ironing out of Boulder Dam differences between California and Arizona will be held probably at Phoenix, Ariz., on January 6, next.

It is the hope of Secretary Wilbur and the Hoover administration that at this conference a way may be found to satisfy Arizona and prevent the court fight threatened by that State against the Colorado River project, to which she is the sole objector among a sisterhood of seven States in the river basin.

DONOVAN TO ATTEND

The announcement stated that Col. William J. Donovan, former assistant Attorney-General, will attend the conference as the representative of the Federal government. Col. Donovan was President Hoover's chairman of the ill-fated meetings earlier this year which resulted in failure to solve the lower-basin problem.

Secretary Wilbur's announcement said that the Phoenix meeting will be held with the advance understanding that no party will be bound by whatever agreements may be reached. This is a necessary concession, particularly to Arizona, and indicates the delicacy of the situation that exists between that State and California over their respective rights to water and other benefits from the proposed dam at Boulder Canyon. It likewise means that any agreements will have to await ratification of the States involved. Secretary Wilbur, for his part and that of the government, said in the announcement that he is willing to wait until February 1, next, for a satisfactory report, and that he "hopes that this final effort to bring about an agreement will avoid legal action."

FINAL EFFORT

The Phoenix conference of the three lower-basin States will represent the final effort of the Federal government to draw Arizona into the Colorado River compact and sidetrack Arizona's suit, now in preparation, which would hold the project up for several years. Secretary Wilbur has worked hard to bring the conference about. If it fails to produce an agreement whereby Arizona will drop legal action, he is prepared to go ahead with the power contracts ushering the project into actual existence and then to sit back and await the word of the United States Supreme Court.

The Interior Department announcement said that "for this meeting there will be added to the regular members of the Colorado River Commission of each of the participating States a special representative appointed by the Governor of each State."

"The general plan is that this shall be a friendly meeting to iron out certain differences which exist between the States," it added.

PHILLIPS TO INSIST ON WATER-PRICE DISCUSSION

PHOENIX, Dec. 26. (AP)—Gov. Phillips announced tonight that Secretary of the Interior Wilbur's suggestion that a conference between the Colorado River commissions of Arizona, California and Nevada be held in Phoenix, January 6, meets with his approval "if the conference is resumed on a basis tenable to Arizona."

The Governor said Arizona will insist that negotiations be taken up "where the Washington conference left off last June." This would include discussion of the price to be charged the city of Los Angeles and other out-of-State consumers for Boulder Dam water, and of the allocation and sales price of power to

(Continued on Page 2, Column 3)

MAZE IN SPELLING AMAZING

Educator Asserts Word "Circumference" Alone Might be Constructed in 396,000,000 Ways

DES MOINES, Dec. 26. (AP)—Poor spellers now may take comfort that they are not so dumb, for there are 396,000,000 ways of spelling the word "circumference" alone.

These millions of spellings for just one word are phonetic, spelling the word as it sounds, like using "thoro" for thorough. Moreover, all of them are from the live speech of daily English, and not mixtures of slang; they are made by using combinations of letters in other words which give one of the sounds in circumference.

They illustrate, said Dr. Ernest Horn of the State University of Iowa, at the education section of the American Association for the Advancement of Science, the extreme difficulties facing educators who would make spelling more rational.

PLENTY OF VARIATION

For example, Dr. Horn said, the second sound in circumference, "ir," is represented in twenty-one different ways in other words, some of the combinations being: Ir, er, or, ar, our, ear, ere, are, err, oar, eir, eur, re, yr, yrrh, irr, urr and orr.

The "s" sound in circumference, he went on, "is spelled in fourteen ways. The confusion caused by this variation in the spelling of both the vowel and the consonant naturally is very great. Circumference can be spelled in 396,000,000 different ways by using the spellings of identical or similar sounds in words likely to be known to a sixth-grade child.

ALPHABET ASSAILED

"Our alphabet is inefficient. There are more sounds in English than there are letters. The sound of long 'e' can be made in twenty-two ways. There are forty-seven sound-letter combinations which the child must learn for the letter 'a'

(Continued on Page 2, Column 3)

DRY LAW ROW ON INCREASE

Hoover and Borah Confer on Capital Rumpus

Mills Answers Attack With Border Plan Details

Sheppard of Texas Takes Issue With Idahoan

(Continued from First Page)

tion of making enforcement still more effective," said the Texan.

"I believe that President Hoover is doing everything within his power in this direction, that he is in intimate touch with his executives and investigators, that if there is anything wrong with them he will be the first to ascertain and correct it, and that these agencies are entitled to the confidence and support of the American people."

MORE MONEY URGED

Senator Harris of George, a pronounced dry among the Democrats, pitched into the dispute again with a declaration that the Treasury needs more money to combat bootleggers and smugglers. He maintained that more cash would make possible the employment of a better class of dry agents.

In his statement, Undersecretary Mills pointed out that all prohibition personnel except the prohibition commissioner is selected from lists submitted by the Civil Service Commission and that the Treasury and Prohibition Bureau have nothing to do with the selection of the men prior to the submission of the lists.

Explaining why the plans of prohibition reorganization are being delayed through failure of Congress to appoint the committee, Mills said the Treasury will call for the unification of the border patrol under the Coast Guard with certain designated ports of entry. In addition to getting Congressional approval, he said, the Canadian government will have to acquiesce.

PLANS FOR BORDER

The plan calls for the designation of certain ports of entry along the Canadian border with the establishment of a strong patrol between such ports. All persons entering the United States would be required to come in at the ports of entry and no entry at other places would be permitted. Mills said the plan would make the smuggling of liquor across the border more difficult.

Other plans which are expected to be submitted to the Congressional committee are those called for by President Hoover, which include the transfer of prohibition enforcement from the Treasury to the Department of Justice, means of relieving the congestion in the Federal courts and codification of the laws.

Senator Harris, one of the leaders in efforts to get a preliminary report from the Hoover Commission on Law Enforcement, said he cannot estimate how much more money will be needed for effective enforcement of the Volstead Act until the commission's report is received. Harris last February introduced legislation intended to provide the Treasury with $25,000,000 to be used for prohibition enforcement but the amount was cut to $2,700,000 before it finally was enacted.

DELAY ASSAILED

"To delay a report on prohibition until the study of the whole law enforcement situation is completed is to do all that the enemies of prohibition want them to do," Harris said. "This delay is causing the prohibition law to become increasingly unpopular and will lead to disrespect for other laws."

The resolution providing for appointment of the joint committee requested by the President, which was adopted by the Senate, now is before the Rules Committee of the House. While some House leaders have expressed an opinion that eventually it will be adopted, they have said they expect opposition to materialize.

President Hoover, in asking Congress last June to appoint the committee to co-operate with committees from the Department of Justice and the Treasury in drawing up a reorganization plan for prohibition enforcement, asked that it be done with utmost expedition. The Senate approved the resolution shortly before it adjourned for the Christmas holidays.

PARIS REVEALS NAVAL POLICY

(Continued from First Page)

presuppose a previous political accord.

WANT GENERAL AGREEMENT

The Quai d'Orsay believes that an agreement concerning naval disarmament at present presupposes a previous accord concerning the liberty of the seas, defining the rights of belligerents and of neutrals, and providing for the eventual collaboration of fleets against the navy of an aggressor.

The note seems to repudiate the system adopted by the Washington conference for the reduction of armaments.

He points out that the system failed when attempts were made to extend it to all navies and adds that the London conference cannot reach its full objective unless it makes possible a general agreement on the limitation of armaments at Geneva.

The note bases French policy for the conference on Article VIII of the League convenant and rejects the idea of basing disarmament or estimates of the strength of the five greatest naval powers.

It points out that the French outlay for naval construction was less this year than in 1913 though the protection of 20,000 miles of coast in the mother country and the colonies created an obligation that the French government could not lose sight of in fixing its minimum naval requirements.

WILBUR CALLS RIVER SESSION

(Continued from First Page)

be produced at the Boulder Canyon project.

YOUNG WILL REFER ISSUE TO COMMISSION

SACRAMENTO, Dec. 26. (AP)—Following receipt of a telegram from Secretary of the Interior Wilbur suggesting that Colorado River negotiations be reopened between California, Nevada and Arizona, Gov. Young announced today he will refer the matter to the California commission members so that they might officially represent the State in any such conference.

The Governor previously had announced that if Arizona agreed to resume deliberations on Federal allocation of Boulder Dam power and water California would take part. Arizona ended the tri-State consideration of the matter about two months ago, asserting that it could not arrive at a favorable conclusion.

ROSS STANDS FIRM FOR RIVER COURT ROW

TUCSON, Dec. 26. (AP)—"I would much rather litigate than accept anything California has so far proposed," was the comment here tonight of John Mason Ross, secretary of the Arizona Colorado River Commission, on the proposed plan for a conference in Phoenix January 6 between the lower-basin States on Colorado River matters.

Ross said that as a lawyer he always has taken the attitude "that it is better to reach an amicable agreement outside of court where possible, but there are cases where it is better to go to court than give up rights."

ASTRONOMY PROFESSOR DIES

CHINA FINALLY REJECTS OBATA

Informs Tokio Minister Not Acceptable

Japan Determined Not to Withdraw Name

May Result in Severance of Relations

TOKIO, Dec. 27. (AP) (Friday)—It was learned officially today that the Nationalist government of China has informed Tokio that Torikichi Obata, former Ambassador to Turkey, is not acceptable as Minister to China. Japan has urged Nanking to reconsider its decision, asking if China is fully aware of the serious consequences possibly arising from such a rejection.

Tokio has determined not to withdraw the nomination of Obata, considering it a vital test of Chinese-Japanese relations. The Chinese objections were based on Obata's connection with Japan's famous twenty-one demands on the Peking government in 1915. Obata was the Japanese Charge d'Affairs at Peking at that time.

To this objection Japan replied that the Chinese republic had accepted Obata as minister in 1918 and that he served at Peking until 1922, when he negotiated the Shantung settlement restoring the Shantung railway to China. Tokio also pointed out that the Chinese government decorated Obata for his services. Japan insists that there has been nothing since 1922 to make Obata unacceptable to China.

While officials depreciate newspaper suggestions that China's rejection of Obata will result in a rupture of diplomatic relations, it was admitted at the Foreign Office that the persistent refusal of the Chinese to accept Obata might lead to Tokio's asking Nanking to recall Wang Yung-Pao, its minister to Tokio.

HOOVER HONORS MEXICAN GUEST

(Continued from First Page)

capacity as chairman of the governing board.

"I am privileged to extend to you," he said, "on behalf of my colleagues of the board, a hearty welcome to the Pan - American Union and, at the same time, to assure you of the deep and warm feeling of friendship which we all feel for your great country.

"From the very beginning of its organization, the Pan - American Union has enjoyed the constant and enthusiastic co-operation of the government and the people of Mexico. The second international conference of American states, held at Mexico City in 1901, was one of the most important international gatherings ever held on the American continent.

"Your able representative of the governing board, Manuel C. Telles, has spared no effort to further the work of the union. We are grateful to you for the co-operation which Mexico has given to the union in the past, and we are certain that this co-operation will be equally fruitful in the future.

"I am certain that I am expressing what is in the minds of all my colleagues when I wish you the fullest measure of success in the great work which you are soon to undertake and to combine therewith the warmest wishes for the progress and prosperity of the Mexican people."

GUEST OF MORROW

In the evening, Dwight W. Morrow, United States Ambassador to Mexico, entertained in honor of the President-elect at dinner in the Carolton Hotel.

Tomorrow's program will begin at 9 a.m., with a trip to Arlington Cemetery, where Senor Ortiz Rubio will lay a wreath on the tomb of the Unknown Soldier, and will end with a state dinner at the White House by the President and Mrs. Hoover.

In between, there will be a luncheon by Secretary and Mrs. Stimson, a formal call upon Vice-President Curtis at his office in the Senate office building, and a call in reply by Vice-President Curtis.

PRESIDENT-ELECT REGARDS RELIGIOUS ISSUE CLOSED

WASHINGTON, Dec. 26. (AP)—When Pascual Ortiz Rubio takes office next spring as President of Mexico he will do so under the assumption that the religious question in that country is permanently settled.

He told newspaper men at a press conference in the Mexican Embassy tonight of that belief and said any further modification of the religious laws would have to be initiated by the Roman Catholic Church itself. Changes, he added, must come through the routine legislative channels of Congress.

He said he believes the Mexican land appropriation problem already has been settled and that indemnifications for such land, taken by the governments already has been paid by government bonds. Future indemnifications, he added, will be paid in cash and pointed out that a bill is now before Congress providing for special appropriations for lands.

The Mexican government, he said, is fulfilling its agreement with the New York bankers in refunding its bonds. He refused to entertain suggestions that his visit had any relation to the financial question.

He said his administration will be devoted to developing every phase of Mexican resources and that Gen. Plutarco Elias Calles, former President of Mexico, has been invited to take part in the development of the railway system of the country.

ASSOCIATE OF NOTED WESTERN HEROES DIES

HERINGTON (Kan.) Dec. 26. (AP) Patrick, Kelly, 87 years of age, Civil War veteran, plainsman, scout and guide in Kansas since 1863, and personal friend of Gen. Custer, "Buffalo Bill" Cody and "Wild Bill" Hickok, died here today.

By special appointment he was an aid in the party of Grand Duke Alexis of Russia in the Duke's buffalo hunt in Nebraska and Kansas in 1871.

CHILDREN AT WHITE HOUSE

Allan Hoover Plays Host to Mexican Youth While First Lady Entertains Senora de Ortiz Rubio

WASHINGTON, Dec. 26. (AP)—Young Allan Hoover today entertained half a dozen sons and daughters of the President-elect of Mexico and the Mexican Ambassador at a second childrens' Christmas in the White House—this one uninterrupted by fire as was the Christmas Eve party. Mrs. Hoover meanwhile made friends with the first lady of Mexico in such a manner that Senora de Ortiz Rubio said later she was "enchanted."

And though effusively she voiced appreciation of all this capital's official welcome with pomp and silk and circumstance, Senora de Ortiz Rubio added that to her the grandest part of it was the children's festival with goodies and toys.

The children were Ophelia, 8 years of age, Pascual, 6, and Eugenio Ortiz Rubio, 4, and Emilita, Jose Manuel and Luis Carlos, children of Ambassador Telles of Mexico, whose ages are identical with those of the Mexican President-elect's children.

ENDLESS TOYS

Sitting at the head of the table, young Allan kept them chattering with delight, Senora de Ortiz Rubio explained, while the sweets were passed again and again in the State dining-room. Then he and his mother led the young guests into a parlor on the lower floor of the mansion and gave them carte blanche at a Christmas tree.

Toys—many, many toys—Senora de Ortiz Rubio emphasized—made the children happy. Her word for Mrs. Hoover's son as host was that untranslatable "simpatico," meaning, in up-to-date American, "swell."

Dressed in black with the chic that is proverbially Parisian, and thoroughly American in fervor for sports, Senora de Ortiz Rubio bore out her own observation that her countrywomen are "not much different" from those in the United States. Short black hair showed under the close-fitting edge of her felt and straw hat. Her crepe gown was fashioned on princess lines, youthfully, and her coat was moderately furred.

MUCH IN COMMON

"Later," she prophesied, "Mexican women will be even more like their American sisters in participation in efforts toward world peace. They talk and read affairs now, and are deeply interested, and that later development will be, I think, good."

Declaring her hostess of the afternoon to be "the most charming in many lands," the wife of Mexico's next President said she would invite Mrs. Hoover to return the visit if opportunity offered. The two found much in common, chatting in Spanish, of their protracted sojourns in many countries.

EDUCATOR HITS SPELLING MAZE

(Continued from First Page)

alone by the time he has finished third grade. Such hope as exists for rationalizing spelling is to be found first in the gradual casting out of parasite letters—dropping the 'u' in words like honour—and second by teaching the rules by which prefixes and suffixes are added to base words to make derived forms."

Our spelling, however, gives variety ... correct pronunciation. The word "often" was used customarily without sounding the "t," but now more and more cultivated persons sound the "t." There are four cultivated ways of pronouncing "horse" in Minneapolis, said Dr. Horn. Cultured persons sound the "r" almost with a burr, but in Louisiana, Maine and Cambridge, Eng., they largely drop the "r" sound, and each place does it differently.

SCIENCE WILL HELP WOMEN BUY STOCKINGS

DES MOINES, Dec. 26. (AP)—Science is going to help American women buy their silken stockings to better advantage.

The plan for this was described at the education section of the American Association for the Advancement of Science today by Miss Rosamond Cook of the department of home economics, University of Cincinnati.

She said that women who buy for durability fail to get it, that those who buy for appearance get still less durability, and that price is no criterion of quality. These findings came from tabulating the actual purchases of hundreds of women, ranging from the conservative middle-aged to flappers. Their answers were compared with the real "low down" on the stockings, obtained in co-operation with manufacturers.

WEDDING HALL TO BE SPLENDID

Former Papal Seat Being Transformed

Marriage of Italian Prince to be Luxurious

Ancient Anthem Will be Sung at Ceremony

[Copyright, 1929, Chicago Tribune]

ROME, Dec. 26. (Exclusive)—Pauline Chapel, former seat of the papal elections when the pontiffs lived at Quirinal Palace, is being given a completely new aspect since the formidable transformation has changed it into a luxurious wedding hall. There will remain none of the austere gloomy atmosphere which characterized Pauline Chapel at the last election there of Pope Pius IX in 1846 to dampen the joyous feelings of the crowd of royalties who are to witness the nuptials of Crown Prince Humbert and Princess Marie Jose of Belgium there on the morning of January 8.

The altar is to have a new canopy of crimson velvet with golden fringes. Six golden chandeliers will be the only altar decorations. The crucifix, the chandeliers and other religious implements are to be rare chiseled pieces of workmanship. Gold and silver festoons on the walls and a revival of old frescoes will add new glamour.

SEATING PLANS

Sovereign princes are to take their places on special thrones erected around the altar, while government representatives, chiefs of diplomatic missions and other high state officials will be on a lower range of seats. In the center of the chapel is a handsome prayer stool with two armchairs behind, all covered with red velvet, for the royal couple. While red is the outstanding color of the decorations, white is chiefly to be worn by the ladies present. They will wear blue mantles with the embroidered coat of arms of the House of Savoy over white gowns.

A rectangular velarium with golden lace trimmings is to be held over the heads of the newlyweds by two Savoy princes at the moment they are answering the ritual question of the officiating cardinal.

An ancient anthem of the wild Sardinian mountaineers is to be sung by the choir when the couple enter the chapel and at the end of the ceremony.

NOTE OF SADNESS

A big arch of triumph is being erected near Termini station for the arrival of Princess Marie Jose here with her parents, King Albert and Queen Elizabeth of Belgium, in a week's time. Offerings in honor of the Crown Prince's wedding are being collected extensively throughout Italy.

A note of sadness was given to the preparations of the royal wedding by the death of Joseph Cardinal Gamba, archbishop of Turin, who succumbed to a heart attack in Turin early this morning. The cardinal was a close friend and adviser of the young Prince and had played a part in the arrangements of the nuptials.

Because of his close friendship with the Prince and the King, Cardinal Gamba had first been mentioned as one likely to officiate at the wedding of the Prince, and a few days ago he ordered a marble figure of the Madonna, which he intended to present to the royal couple when they arrived in Turin after the wedding.

ROYAL COUPLE WILL PAY VISIT TO POPE

VATICAN CITY, Dec. 26. (AP)—Crown Prince Humbert and Princess Marie Jose will visit Pope Pius privately on January 8, next, after their wedding. They will be accompanied only by their personal suites.

The Belgian sovereigns will be received officially the day before with the same ceremony as was used when the Italian royal family visited the Pope the 5th inst.

DOUGLAS HAS COSTLY FIRE

DOUGLAS (Ariz.) Dec. 26. (AP)—Fire of undetermined origin tonight destroyed the main portion of a building occupied by the Southern Arizona Automobile Company here. The loss was tentatively set at $200,000.

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

FATAL DRY SHOT INQUIRY STARTS

Buffalo District Attorney Questions Coast Guard

Federal Prosecutor Given Orders to Co-operate

Son of Police Officer Slain on Cruise in Harbor

BUFFALO, Dec. 26. (AP)—Dist.-Atty. Moore tonight started the State's investigation into the fatal shooting of Eugene F. Downey, Jr., last night by questioning Asa Ennis, Rudolph Thompson and Orville Lagrant, the crew of the Coast Guard patrol boat which fired on Downey's boat.

The three Coast Guardsmen, all listed as boatswains mates, second class, were produced at the office of the District Attorney by Martin W Rassmussen, district commander of the Coast Guard, after William D. Mitchell, Attorney-General of the United States, had instructed Richard H. Templeton, Federal District Attorney, to co-operate with Dist.-Atty. Moore in the investigation into the shooting.

Templeton said that in his opinion the Coast Guardsmen were by no means culpable.

"They acted in pursuit of their duty," he said. "They gave Downey's boat the customary warning to stop. When he did not stop they fired."

Downey, already under indictment in a liquor smuggling case in connection with the seizure of the barge Loretta, was shot while cruising in the harbor. He was taken to Emergency Hospital, but had lost so much blood that efforts to save him were unavailing. He leaves his widow and a child. His father is a lieutenant on the local police force.

A man who was with Downey in the boat when the shooting occurred escaped after making the craft fast to a wharf.

Mexican Cabinet Secretary Dies

MEXICO CITY, Dec. 26. (AP)—Felipe Canales, undersecretary in the Department of the Interior, who has been acting head of the department for some time, died suddenly today from heart disease.

He was about 45 years of age, and had been placed in charge of the Department of the Interior by President Portes Gil.

ONE-TIME PASADENA BEAUTY DIES

Mrs. Locker-Lampson Was Wife of British M.P. and Noted for Comeliness

LONDON, Dec. 26. (AP)—Mrs. Oliver Locker-Lampson, American wife of Commander Oliver Locker-Lampson, British M.P., died yesterday. She formerly was Bianca Jacqueline Paget of Pasadena, Cal.

She was taken ill Sunday night and was removed to a private clinic, where doctors operated on her in a vain effort to save her life.

Mrs. Locker-Lampson was considered a beautiful woman and her portrait was widely commented on at the last Royal Academy exhibition. She married the commander in 1923.

SOVIET SEARCH FOR FLYERS ON

Populace Asked to Help Find Eielson and Borland

Russia Offers $1000 Reward for Word of Aviators

Shestakov, Red Ace, to Head Rescue Expedition

MOSCOW (U.S.S.R.) Dec. 26. (AP) The soviet aviation authorities today issued an appeal to the population on the northeastern coast of Siberia to join in the search for the lost American aviators, Carl Ben Eielson and Earl Borland.

The government has offered a reward of 2000 rubles (the gold ruble is worth about 50 cents) to any person indicating the whereabouts of the plane or of the aviators.

The soviet Foreign Office announced earlier today that the Russian ace Shestakov will head a rescue expedition composed of several Russian airplanes.

BORAH RECEIVES PROMISE OF RUSSIAN AID

WASHINGTON, Dec. 26. (AP)—Assurances of an airplane search through the frozen north for Carl Ben Eielson and Earl Borland, missing American aviators, were conveyed today in messages received from the soviet government.

Although the United States does not recognize the soviet, a cablegram was received by Chairman Borah of the Senate Foreign Relations Committee from M. Litvinoff, acting Foreign Commissar at Moscow, which said an expedition will be sent out in a few days to search for the flyers.

WILBUR GETS ANSWER

Assurance of assistance also was transmitted to the Interior Department through Boris E. Skirvsky, Washington representative of the Soviet Union Information Bureau, who called on Secretary Wilbur. The Interior Secretary appealed to the soviet government for assistance last Monday through Skirvsky.

The cablegram to Borah, who sent a direct request for help to Litvinoff on Monday, said the expedition will be commanded by Semyon Shestakov, who recently completed a flight from Moscow to New York.

DOG TEAM SENT OUT

The cablegram added that two airplanes now located at Bay Providence also will participate in the search and that the steamer Stavropol had been instructed on December 18 to send out a dog team in an effort to locate the flyers. No word has been received from the Stavropol on account of a damaged radio set. It can receive messages, but cannot send them.

"The soviet government will be happy if the purpose of the expedition will be successfully achieved," the cablegram concluded.

SIXTEEN FLYERS PREPARING FOR SEARCH

NOME (Alaska) Dec. 26. (AP)—Ten airplanes and sixteen flyers from three nations today made preparations to take off in the search for Carl Ben Eielson and Earl Borland, down somewhere in Northeastern Siberia or in the frozen sea between Siberia and Teller, Alaska.

One plane has left Russia to aid and two more have been ordered to join in the undertaking. From North Cape, Siberia, Pilots Joe Crosson and Harold Gillam, based aboard the icebound fur trading ship Nanuk continued their flights over the region where natives said they heard Eielson's plane flying shortly after it disappeared from Teller November 9.

SIX CANADIAN AIRMEN JOIN RESCUE EXPEDITION

FAIRBANKS (Alaska) Dec. 26. (AP)—The Eielson-Borland rescue expedition arrived here at 2:15 p.m., today by train from Seward. The three big Fairchild cabin planes which six Canadian airmen will fly from here to Bering Strait to join in the search for the missing American flyers were immediately removed to hangars for assembling.

KENTUCKY POSSES IN MAN HUNT

Hundreds Join Search for Bandits Who Shot Down Banker After Robbery

SMITH'S GROVE (Ky.) Dec. 26. (AP)—The most extensive man hunt this Southern Kentucky section has ever known was in progress tonight as posses estimated at from 800 to 1000 men patrolled highways and guarded a small cave in the search for three bandits who today shot and killed J. Robert Kirby, 45 years of age, president of the Farmers' Bank, after robbing another bank of $1000.

Acting on information that two of the men had been seen to enter the cave, which is at Hays, a mile and a half from the scene of the shooting, one posse tonight was guarding the entrance and waiting for daylight to use tear-gas bombs.

Other groups of grim armed men patrolled all highways and the Louisville and Nashville Railroad a few miles to the west to prevent the escape of the desperadoes.

Kirby, one of the leading citizens of this community, was shot down as he and several others tried to halt the bandits' car after the three men had robbed the Bank of Oakland, near here, of approximately $1000.

COOK COUNTY DIVORCE RATE SHOWS INCREASE

CHICAGO, Dec. 26. (AP) — The divorce rate in Cook county courts for 1929 was revealed today, showing an average of one divorce every fifty-five minutes for the fiscal year. The number of divorces granted in Circuit and Superior courts was 9689, this being 220 more than in the preceding year. The figures were made known by the clerks of the two courts.

The Times Resort and Travel Bureaus

MAIN OFFICE—CORNER FIRST AND BROADWAY

are for the accommodation and benefit of persons seeking interesting routes of travel, desirable hotels and apartments, attractive eating places, or real recreation and recuperation at mountains, seashore or desert resorts and hotels. Particulars are furnished by competent attendants to the general public regarding rates and attractions of resorts, hotels and apartments, railroad and steamship lines, motor stage lines and travel by air. Descriptive literature are kept on hand for inspection and distribution. THIS SERVICE IS ABSOLUTELY FREE, AND IS ALSO AVAILABLE BY MAIL OR PHONE.

(The Times has established connections in Paris, France, whereby a similar service is offered to our readers at 1 Rue Scribe, Paris.)

Make Your Resort and Hotel **RESERVATIONS**

FREE OF CHARGE AT THE

Times Resort and Travel Bureau, Times Bldg., Bdwy. at First St., or at The Times Branch Office Bureau, 521 So. Spring St.

Telephone MAdison 2345

ALSO GENERAL INFORMATION OF ALL KINDS IS GRATUITOUSLY FURNISHED TO INQUIRERS.

"Direct-U"

Have you had difficulty in finding some particular advertised product? Have you had to hunt from store to store to find something you have seen advertised? The Times has established a department called "Direct-U," which has on file detailed data about thousands upon thousands of trade-named (advertised) products and stands ready to tell you just where you can find the thing you want.

The Times is glad to help its readers and advertisers through this service—so make free use of it—there is no charge, of course. All you need do is phone the Los Angeles Times—MAdison 2345—and ask for "Direct-U" Department.

BRIAND'S PEACE FIGHT INDORSED

Deputies' Vote Approves Reparations Policy

Minister Dares Foes to Show Better Plan

Defends Views for Closer Ties With Germany

PARIS, Dec. 26. (AP)—Premier Tardieu and Foreign Minister Briand will lead the French delegation to the second Hague reparations conference January 3 with a secure Parliamentary majority behind them to support their policy of French rapprochement with Germany and of integral application of the Young law.

M. Briand in a long speech during discussion of the foreign affairs budget defended staunchly his policy of closer relations with Germany in the Chamber of Deputies today. Eulogizing the achievements in the cause of peace at Locarno and Geneva, he asked Parliament to decide immediately whether it desires him to continue his work. He added that if it did not some one else can be called in.

The Deputies rallied to his support and upheld him by 303 votes to 266.

M. Briand made one of the most warlike political speeches ever pronounced in favor of peace in the French Chamber. He threw down his gauntlet to the opposition and dared them to denounce a policy that is more likely to bring peace and repose to Europe than any they can conceive.

"There is," he said, "an old Roman proverb that says that if you want peace you must prepare for war. This is all wrong.

"I take the responsibility for launching another one, which is, if you want peace prepare for peace. The train for The Hague has not started yet and if you desire to send another crew to The Hague conference just say the word right now.

"It is easier to whip nations into a fighting frenzy by heroic battle cries and the trumpets of turmoil than to make them listen to the words of peace," M. Briand cried fervently.

"The policy of peace is drab and unemotional. But in spite of all bitter attacks and the weight of ridicule I will remain at my post to preach this policy. If need be I will go through my country like a pilgrim telling my people that peace is the best policy. And I hope that my feeble means may find convincing argument to end wars forever," he added.

Tunney Victory in Suit Assured

HARTFORD (Ct.) Dec. 26. (AP)—Col. Lewis Field, counsel for Mrs. Katherine King Fogarty of Fort Worth, Tex., in her $500,000 breach of promise suit against James J. Tunney, announced today that a stipulation has been signed in which it is agreed that Tunney's motion for a judgment on his counter-suit will be uncontested in Bridgeport tomorrow and an injunction issued against Mrs. Fogarty.

The signing of the stipulation by counsel for both sides, Col. Field said, ends the case, which has been in Superior Court at Bridgeport since last May.

ST. LOUIS LAWYER DIES

ST. LOUIS, Dec. 26. (AP)—Colin McRae Selph, 63 years of age, lawyer, Democratic politician, civic leader and postmaster of St. Louis during the Wilson administration, died at his home here today.

HAVANA

... and the Glory of Going

CAPTURE new delights this year on your trip to Havana. Shun the commonplace. Instead of an interminable sea-voyage let your going be a succession of absorbing episodes in Mexico, Guatemala, Salvador, Nicaragua, the Canal Zone, even Colombia in South America. The cost is no more.

It's all a matter of routing. The route of the PANAMA MAIL CRUISE-Tour is the Route of Romance. Splendid liners depart from San Francisco and Los Angeles every two weeks. They put in at ten old world cities in Spanish America and allow in each a day of intriguing interest. Havana is the end of the golden trail, or if on business bent you can continue on to New York.

Your liner with its outside staterooms and PANAMA MAIL cuisine is your home throughout. New York this way is only $250. Havana is even lower. But only the PANAMA MAIL offers the CRUISE-Tour.

Write for detailed information.

ARMY AVIATORS PLAN ICY "WAR"

Flying Equipment Will Be Tested in Cold Areas

Short-Wave Radio Network To Report Progress

Amateurs Will Be Used in Communication Work

WASHINGTON, Dec. 26. (AP)—Flyers of the Army Air Corps will advance early in January over a 3500-mile "battle front" from Detroit to Spokane to measure the endurance of men and equipment in subzero weather and test the value of short-wave radio communication.

The War Department today announced its tentative plans for "the combat in the front yard of the Arctic Circle against the shock troops of winter—snow, ice and subzero temperatures."

Experiments in long-distance radio communication between the aircraft and permanent ground stations will be conducted in co-operation with the American Radio Relay League which will create a network through thousands of amateurs to span the country from coast to coast and border to border.

PLANES ON SKIS

January 5, next, has been set tentatively as the day when eighteen pursuit planes and two army transports equipped with skis instead of landing wheels, will start from Selfridge Field for Spokane by way of Duluth, Grand Forks, Glasgow, and other intermediate points. The return route will take the flyers through Helena, Butte, Miles City, Bismarck, Fargo, and Minneapolis

Maj. Ralph Royce, commanding officer of the first pursuit group, will be in charge of the flight. H. J. Adamson, assistant to F. Trubee Davison, assistant Secretary of War for aeronautics, and Lieut. Charles A Harrington, will supervise radio communication en route.

The co-operation of the American Radio Relay League, of which Hiram Maxim, famous inventor, is president, was enlisted by Mr. Davison and Maj.-Gen. James E. Fechet, chief of the Air Corps.

DAILY RADIO REPORTS

Daily reports of the pursuit units will be speeded from isolated places through thousands of amateur stations to the message centers in Washington, in charge of Lieut. Arthur I. Ennis, and in Hartford, Ct., in charge of F. E. Handy, and various army posts.

"Short-wave radio communication, under conditions such as will be encountered on the pursuit maneuvers," Mr. Davison said in announcing the project, "is still highly experimental. While it may be possible for the mission to establish direct contact with the message centers, it is quite certain that communication may have to be relayed from point to point.

VALUABLE DATA

"The route followed by the relays and the speed with which they function will furnish valuable and interesting data. I am certain that short-wave radio soon will play an important role in civil as well as military operations."

Complete details for the maneuvers will be worked out at Selfridge Field but, aside from the various tactical and combat tests the flight will afford the opportunity to determine the efficiency of winter flying equipment, including new goggles for snow flying, heaters and covers for engines, and the effect of zero weather on engine efficiency.

FRENCH WILL GIVE PARDON TO ROYALIST

Exiled Leon Daudet May Eat His New Year's Meal at Home in Paris

PARIS, Dec 26 (AP)—Leon Daudet, Royalist leader who has been exiled in Belgium for nearly three years, will celebrate New Year's Day in his home in Paris. The Tardieu government today decided to grant him amnesty on his sentence for criminal libel and on his escape from jail in June 1927.

The pardon probably will be presented to President Doumergue for signature tomorrow. It was recommended by the pardon board and by a number of Deputies of nearly all the parties in the Chamber who visited Premier Tardieu recently.

Death Summons D.A.R. Leader in Eastern Home

LYNBROOK (N. Y.) Dec. 26. (AP) Mrs. Harriet J. Weeks Walker, 83 years of age, widow of Rev. Edwin S. Walker of Springfield, Ill., died at the home of her son, Robert G. Walker, today.

Mrs. Walker, a member of the General Society of Mayflower Descendants and the Daughters of the American Revolution, was author of a book giving the names and locations of graves of 500 Revolutionary War veterans buried in Illinois. She was a leader of the movement to mark properly the graves of Revolutionary War soldiers.

Mrs. Walker had lived in Los Angeles after the death of her husband in 1912 until a short time ago, when she moved here with her son. A stepson, Robert G. Walker of Tacoma, Wash., also survives. She was born in Fairfax, Vt.

GRAPEFRUIT GROVES ORGANIZATION FORMED

SACRAMENTO, Dec. 26. (AP)—Articles of incorporation were filed with Secretary of State Jordan today by the Imperial Grapefruit Groves, Ltd., a Los Angeles county organization formed for the purpose of "selling, marketing and buying agricultural and horticultural products." The concern is to capitalize through issuance of 1000 shares of stock bearing no par value. Directors named are Rick Burrows, Louis E. Kearney, Henry Lientig and Winifred E. Wagner of Los Angeles, and May D. Winn of Alhambra.

FLYERS FIND BODIES OF THREE FRENCH AIRMEN

TRIPOLI (Syrenaica) Dec. 26. (AP)—The bodies of three French aviators who were on a flight from Le Bourget to Saigon, Indo-China, and have been missing for several days, have been found near Syrta by Italian aviators. The plane was wrecked and the men killed in the crash. The three airmen, Lieut. LaSalle, Pilot Rabard and Mechanic Faltot arrived at Tunis on December 15 and left the same evening for Bengasi, Cyrenaica.

WRECK CAUSED BY HIGH WIND

Number of Passengers on Santa Fe Train Hurt in Freak Mishap

SWEETWATER (Tex.) Dec. 26. (AP)—Four persons were seriously injured and more than a dozen others suffered minor hurts when a Santa Fe passenger train was sideswiped by a tank car in a freak accident in the railroad yards here today.

A high wind had put in motion a box car on one of the sidings and the box car struck the tank car just as the passenger train was entering the yard. The tanker was thrown from the rails and struck the passenger train.

HOOVER OFFICE HISTORIC STUDY

Shades of Many Presidents Hover About Him

Fire-Wrecked Building Now Being Repaired

Overheated Flue Blamed for Conflagration

WASHINGTON, Dec. 26. (AP)—For one brief day the President of the United States did his routine office work in the study replete with memories of other Presidents from Adams to Roosevelt, who directed the affairs of the nation from where Herbert Hoover spent most of today at an unfamiliar desk.

A few hundred feet away laborers were hammering and scraping to adjust the wreckage of the President's office building. The "busyness" was preparatory to restoring the fire-ruined structure, upon Mr. Hoover's order, so that the office work of the vast executive duties can be resumed as quickly as possible at the west wing of the White House.

Just across the street, too, other government employees were preparing the old offices of the Secretary of the Navy in the State, War and Navy Building for temporary occupancy These quarters were counted on to be ready for the President tomorrow. He hopes it will not be necessary to use them long.

WORK TO BE RUSHED

Because of the inconvenience that will be caused his staff and the curtailment it will force in his visitors' list, Mr. Hoover decided to have the restoration of his office quarters speeded

While he long has felt that more adequate quarters were needed for the executive staff, the length of time that would necessarily be lost in planning and constructing an office elsewhere is thought to have persuaded him against seeking an entirely new building at this time.

Terming the destroyed Presidential workshop as "cramped, inadequate, and inferior, Representative Britten, Republican, Illinois, today said he will lay before Chairman Elliott of the House Public Buildings Committee, two suggestions for housing the offices.

He proposed that the eastern side of the State, War and Navy Building be turned over to the Chief Executive or that an elaborate marble building be constructed south of the White House.

FLUE BLAMED FOR FIRE

Contradicting previous conclusions, the chief engineer of the District of Columbia fire department today blamed the blaze on an overheated flue in the office of Walter Newton, one of the Presidential secretaries. The fire first was blamed on defective wiring but investigation by the chief engineer and others is said to have failed to reveal any wires which had been short circuited.

When the President occupies the rooms in the State, War and Navy Building, he will have one of the most stately suites in that structure. Used of late years by Gen. Pershing as general of the armies, the apartment is furnished and decorated richly. Until the regime of Josephus Daniels, it was occupied by the Secretary of the Navy, but that office was moved during the war to the temporary Navy Building several blocks away.

To make way for the many workers attached to the Presidential office the entire war plans division of the army was moved out of its dozen or more rooms adjoining the Pershing office. An uptown office building will house them temporarily.

Freedom Won by Daughter of Morgenthau

RENO, Dec. 26. (AP)—Mrs. Alma Morgenthau Wertheim, daughter of Henry Morgenthau, former Ambassador to Turkey, was granted a divorce here today from Maurice Wertheim, New York banker. Custody of the three minor children is granted to Mrs. Wertheim, and the father, by agreement, is to pay part of the cost of their maintenance.

Mrs. Wertheim charged her husband with mental cruelty. They were married in New York April 15, 1919.

Execution of Sino-Russian Pact Begins

TOKIO, Dec. 26. (AP)—Execution of the protocol between China and Russia for the control and operation of the Chinese Eastern Railway actually began, said a dispatch from Harbin to Rengo, Japanese news agency, with the return of soviet officials to the railroad zone today.

Inauguration of the agreement thus marks the end of five and one-half months of quasi-warfare along the Manchurian border.

Two Children Killed in Blaze

GREELEY (Colo.) Dec. 26. (AP)—Two children of Mr. and Mrs. Claude McKee, ranchers living twenty miles northwest of here, were burned to death, and Mrs. McKee was hurt, perhaps fatally, in a fire which destroyed their home today. The father also was burned, but not seriously.

The children were a 10-day-old baby boy and a girl of 3.

Group to Honor Herrick Named

PARIS, Dec. 26. (AP)—President Doumergue himself has accepted the presidency of a committee charged by the municipality of Paris with the erection of a statue in memory of the late Myron T. Herrick, American Ambassador to France.

CALLES ADVISES NEW LAND LAWS

Former President Suggests Changes in Policy

Immediate Payment Urged for Seized Lands

Consolidation of All Debts of Mexico Favored

MEXICO CITY, Dec. 26. (AP)—El Universal today published an interview with Gen. Plutarco Elias Calles in which the former Mexican President advocated changes in the national agrarian policy.

Principally, the former President said, there should be advance or immediate payment for lands which under the agrarian laws it may be necessary to take over, this payment to be taken from the public funds since otherwise the virtue of the operation is lost.

The former President advocated also a study of national distribution methods to avoid the bad results likely to arise if the land is handed out in too small parcels, such as, he said, has been done in cases in France.

Consolidation of all the nation's debts so as to become payable from the country's resources, leaving a surplus for payment for lands was the closing recommendation in the interview which was granted to Antonio Calvan Duque, a close friend and former chief of his secretarial staff, while Gen. Calles and his party were coming back recently from Europe.

The former President pleaded also for divorce of the agrarian problem from politics. Although Gen. Calles now holds no official post he generally is termed by the Mexican press the national "strong man." His recommendations therefore probably will have considerable weight.

Two San Quentin Ferries Collide

SAN QUENTIN, Dec. 26. (AP)—Two automobile and passenger ferries plying between Richmond and San Quentin crashed today in a heavy fog that blanketed San Francisco Bay. Damage was slight and no injuries were reported.

The boats involved were the San Rafael and the Richmond. Part of the San Rafael's railing was torn away. The Richmond continued in service but the San Rafael was temporarily laid up for repairs.

HIGH TAKES SEAT AS KIWANIS PRESIDENT

VAN NUYS, Dec. 26.—J. M. Turner of the Bank of America of Los Angeles spoke on "The Employer and Employee" at the Van Nuys Kiwanis Club luncheon at noon today. I. H. Malin, manager of the Van Nuys branch of the Bank of Italy, led the singing of Christmas songs.

One of the features of the luncheon was the seating of Floyd N. High, assistant manager of the Van Nuys branch of the Security-First National Bank, as new president of the club, and the retirement of Dr. Charles B. Canby, who served during 1929. Every member of the club attended the meeting.

THREE NEW CARRIERS AT HUNTINGTON PARK

HUNTINGTON PARK, Dec. 26.—Three new mail carriers are to be placed on three new routes in the Huntington Park district, beginning January 1, this order having been received from the Postal Department at Washington by Postmaster Walter L. Cleveland. The new carriers who will begin regular duty are R. P. Barclay, D. M. Grauel and J. B. Hughes, who are now substituting. With the addition of these carriers there will be thirty-one working out of the local office. The number of employees at the office here is now more than fifty.

CHILDREN MUST NOT PLAY WITH MATCHES

SOUTH GATE, Dec. 26.—Parents of children throughout the city are being warned that children must quit playing with matches, the fire department reporting that three fires have recently been started by children and matches. One was at a residence on San Vicente street, when children set fire to a playhouse near a garage, the loss being $25. Another was at a residence on Liberty Boulevard, when children in a playhouse set fire to the small structure, and a third was on San Miguel street, when children playing with matches at the side of a garage started a blaze.

LONG-SOUGHT CHECK SUSPECT ARRESTED

OMAHA, Dec. 26. (AP)—John W. Williams, hunted by special agents of several large railroad systems as a check forger, was arrested here today by agents of the Burlington railroad. C. C. Palmer, chief special agent of the road, says Williams cashed railroad and express checks totaling $30,000 in the last several years.

CLOUDS DISAPPEAR IN MARITAL SQUALL

[A. P. photo]
Joan Lowell

NEW YORK, Dec. 26. (AP)—A squall has subsided, all the old seams have been patched up and Thomas Buchanan and Joan Lowell, his wife, author of sea stories, as they describe it, are trimming ship, taking on a cargo of kisses and setting sail. Threatening clouds of divorce have vanished.

They had a merry Christmas together.

Berlin Envoys Agree on Papal Nuncio for Dean

BERLIN, Dec. 26. (AP)—After two days of heated discussion the Diplomatic Corps today finally appointed the new papal nuncio, who has not yet been named, to be dean of the corps succeeding Cardinal Pacelli.

Ambassador De Margeri of France read a memorandum from Count Tattenbach, chief of the protocol at the German Foreign Office, expressing the government's desire to have the new nuncio chosen for this post of honor.

Ambassador Schurman then declared to the thirty-six heads of foreign missions gathered as a group that he has been instructed by Washington to support the choice of the nuncio. His example was followed by Japanese Ambassador Nagaoka and by the entire Diplomatic Corps of Latin America with the exception of Uruguay.

Chicago Streets Stay Snowbound

CHICAGO, Dec. 26. (Exclusive)—With the streets and alleys clogged with snow all over the city and with ten days' garbage piled up in many sections, Chicago went listlessly along its straitened way today. Except for snow removal attempted by the surface lines and bus operators and by the park boards no work has been done outside of the Loop other than at the main car line intersections.

"The city's broke," was the explanation of Joseph Butler, in charge of the street activities.

Prices of Eggs Suffer Slump

CHICAGO, Dec. 26. (AP)—Egg prices declined as much as 8 cents a dozen today from prices that were prevalent Tuesday.

Dealers said excessive supplies which had accumulated because of indifferent buying before Christmas caused the break.

Body Believed Author's ex-Wife

CHICAGO, Dec. 26. (AP)—A woman tentatively identified as Mrs. Tennessee Mitchell Anderson, divorced wife of Sherwood Anderson, the novelist, was found dead in her apartment tonight.

Physicians said death apparently was due to natural causes and occurred several days ago.

FAREWELL TO FIANCEE ENDS IN DEATH CRASH

SAN FRANCISCO, Dec. 26. (AP)—A speeding automobile ended Joseph Hawks's farewell to his sweetheart today. As he lifted his hand to wave good-by to his fiancee, Miss Ann Dolley and while standing in a safety zone at Italy and Mission streets, he was killed by a machine driven by Harold D. Towers. Towers was booked at the City Prison on a manslaughter charge.

HOLD-UP LINKED TO TWO KILLINGS

Robbery Faked to Obtain Murder Contract

Startling Story Revealed at Officer's Trial

Chicago Gunman Beaten Out of Slaying Pay

NEW YORK, Dec. 26. (AP)—A year ago July 1 Frankie Yale was killed. Last June 24 Frank Marlow was taken for a ride from which he didn't come back. On the 7th inst., a dinner party being given for Magistrate Vitale was held up. Today the two unsolved gangster murders and the hold-up of the dinner for the city magistrate were linked together, all because a detective lost his pistol.

The hold-up was "faked," Police Inspector Donovan testified today at the departmental trial of Detective Arthur Johnson who is under charges of conduct unbecoming an officer and consorting with criminals, growing out of the publicity given the loss of his pistol. What the hold-up men wanted, Donovan said, was a contract for the killing of Yale and Marlow, which was signed by a Bronx racketeer and on which $15,000 still is due.

GUNMAN TRAPPED

The contract, Donovan said, was in the pocket of a "man from Chicago" who, lulled into a sense of false security, walked into the trap the New York slickers had set for him.

When seven robbers held up the Vitale dinner they took Johnson's pistol, several hundred dollars in cash and jewelry (that made it look like a good robbery) and the contract. All but the contract was returned within a few hours to the "victims," most of whom, Donovan said, knew about the hold-up two hours before it was committed.

The contract, the inspector explained, was signed by Ciro Terranova, who was a guest at the dinner and who is most familiarly known as "the artichoke king," and has been many times arrested but never convicted.

As Inspector Donovan told it, Yale and Marlow, who had many rackets, had been poaching on preserves Terranova claimed as his own. Terranova didn't like it. He got in touch with some friends in Chicago who agreed—for $20,000—to get the two men out of his way. He paid them $5000 on account.

PAY DEMANDED

Yale and Marlow were killed. The Chicago man wanted his $15,000. On the night of the 7th inst., he was in New York with the contract in his pocket. They could pay, he said, or he would drop the contract and an explanatory letter in a mail box, addressed to Police Commissioner Whalen.

"We'll pay," he was told, "but first why not go to a little dinner party and have a good time."

It was a good party, for a city magistrate and other judges would be there, and Detective Johnson would sit beside him so he wouldn't come to harm.

He didn't come to harm, but when the hold-up men came in on the dinner one of the first they searched was "the guy next to Johnson." From his pocket they took the contract.

Terranova is at liberty. Yale and Marlow are dead, as per contract. The "man from Chicago" apparently has gone home.

William Bailey of Brooklyn is held as Yale's murderer, but never has been brought to trial. Parker Henderson, son of a former Miami (Fla.) Mayor, was brought here to testify as to whether he had any information pointing to a connection between the killing and Al Capone, then a resident of Miami, now a prisoner in Pennsylvania. Nothing ever came of it.

FIGHTER UNDER BOND

Johnny Wilson, former middleweight boxing champion whom Marlow at one time managed and with whom he ate his last supper; Edward L. Lewis and Al Seigel are held in from $20,000 to $50,000 bail in Marlow's murder. No one has been charged with the actual killing.

Magistrate Vitale, who was a friend of Terranova's and sat in a box with him at the last annual party of the Tepecano Club, which is not the regular Democratic organization of the district, is under investigation by the City Bar Association.

Johnson's trial was adjourned today until next Monday after he had testified in his own defense that he did not know Terranova, that he thought the hold-up was "bona fide" and that when Magistrate Vitale returned his pistol to him a few hours after the stick-up the magistrate declined to tell him where he had gotten it.

Tonight Commissioner Whalen departed for Chicago to confer with officials there on allegations concerning the Chicago gunmen.

The commissioner considered his mission so important he refused to intrust it to detectives, believing he could accomplish more personally.

RECORD DINNER GIVEN BY NEAR EAST RELIEF

LENINAKAN (Soviet Armenia) Dec. 25. (AP)—(Delayed) — Within the shadow of Mt. Ararat, traditional site of the landing of Noah's Ark, 12,000 homeless and parentless Armenian boys and girls who were rescued from starvation and massacre by the American Near East relief organization, sat down today to a gigantic Christmas feast procided by the American people. This is believed to have been the largest single Christmas dinner given by American charity in any part of the world. Nothing like it ever has been seen in soviet Russia.

FINDING GIRL'S BODY ENDS KANSAS SEARCH

IOLA (Kan.) Dec. 26. (AP)—Mystery which has shrouded the disappearance of Louise McCollum, 17 years of age, from her home near Moran, Kan., the 6th inst., was cleared today by the finding of her body in a fence corner on the McCollum farm. A shotgun lay beside the body. Coroner Carlinchouse of Iola pronounced the case a suicide. The body was found by Ira McCollum, the girl's father, and her 13-year-old brother.

AGE OF REVOLT IN YOUTH FIXED

Twelfth-Grade Period Seen as "Deviation" Time

Questions on Familiar Laws Used in Novel Test

Survey Made by Scientist in Schools of Iowa

DES MOINES (Iowa) Dec. 26. (AP) The age when flaming youth begins to revolt was identified in a report to the education section of the American Association for the Advancement of Science today.

That period is the twelfth grade, the seniors in high school. The revolt then, scientifically called "deviation," is definite and uniform, whether for city, suburban or country youth. But it also is slight, giving little basis for anathemas against modern young folks, and there is both a recovery of ideals later on, and the youngsters, despite their tendency to crack, appear to have a higher rating than some, though not all, of their elders. In the period of outbreak the boys outflare the girls.

CRITICAL PERIOD

The report appears to fix a time when it may be especially valuable to guard the development of youth. The twelfth-grade deviation was found during a study of the attitudes of 3500 Iowa school children toward law. It was made this year by Dr. E. G. Lockhart, professor of psychology at Drake University. The youngsters answered fifty-one questions about twenty laws more or less familiar to children, the standard used for measuring their answers being the replies to the same questions by fifty lawyers of the highest rank in Iowa. The children ranged from the fourth grade to the twelfth.

The lawyers scored a percentage of 48.08 and the fourth-graders, 44.07. The children's percentages mounted until their peaks was in the eleventh grade with 47.29. Then the twelfth grade dropped to 46.08. The higher group, however, college graduates, rose to 47.58, a point higher than the grades.

A small-town civic club was below even the twelfth-graders, with a score of 45.73.

FINDINGS SET FORTH

"We found," said Dr. Lockhart, "that attitude toward law improves with each intelligence until high school. At the highest level of intelligence in high school we discovered a tendency to fall below, or perhaps we had better say deviate, from the attitude held by adults. This group stubbornly persists in an attitude that does not conform to the adults. It is the influence of this group in grade twelve that pulls down their mean score. The significance of this finding may be far-reaching and worthy of exhaustive research.

"Sex appears to have no influence of consequence on attitude toward law. In grades eleven and twelve the girls are shown to have an attitude slightly nearer that of adults than the boys. This difference is small, but constant.

"Social and economic status is of no consequence of determining attitude toward law. The outstanding conclusion is that children do not differ greatly from adults in this attitude. We find a lawless attitude as frequently among those of high intelligence as among those of low. Lawless attitude seems to be a problem of the individual."

DOG LEADS SEARCHERS TO HIS MASTER'S BODY

HOLLISTER, Dec. 26. (AP)—Led to the scene by the frantic barking of his dog, neighbors today discovered the body of Charles Smith, pioneer rancher of the Hernandez district, crushed to death under the fallen branch of a tree.

Smith, 58 years of age, and a wealthy cattleman, apparently had been pinned beneath the branch while attempting to set fire to the dead tree.

SIXTEEN-HOUR BLAZE IN NEW MEXICO TOWN

MAGDALENA (N. M.) Dec. 26. (AP)—A fire that burned for sixteen hours destroyed the principal business section of Magdalena with an estimated loss of $80,000 before it was extinguished late today.

Besides the Magdalena Hotel and the Princess Theater, a cafe, two pool halls and a barber shop were destroyed.

PASSENGERS NOT HURT IN AIRPLANE MISHAP

OAKLAND, Dec. 26. (AP)—The northbound Western Air Express plane from Los Angeles snapped off a wing and lost its landing gear tonight when it struck a soft spot while taxiing to the hangar after landing at the Oakland Municipal Airport at 7:50 o'clock. None of the eleven passengers or crew was injured.

FIFTY-YEAR WOOING ENDS

Montana Millionaire Rancher and Missouri Bride on Way to Florida for Honeymoon

PARIS (Mo.) Dec. 26. (AP)—Miss Willie Hayden and Robert Sprinkle were married quietly in Moberly, Mo., yesterday and tonight are on their way to honeymoon in Florida.

The prosaic announcement ended a courtship of more than fifty years, for the couple who promised faithfulness in grammar school and lived up to their respective words, though each has celebrated more than seventy birthdays.

Sprinkle, who carried his sweetheart's books home from school in Granville, a little community twelve miles away, left as a youth after promising undying affection for her while he made his fortune. She also agreed to wait. The bridegroom and his brother, dreaming of the wealth and adventure, promised by the Golden West, went to work on a Montana ranch and together homesteaded a tract from their joint savings and prospered.

Now Sprinkle is regarded as a millionaire sheep and cattle rancher in Chinook, Mont., while Mrs. Sprinkle is a retired business woman, after having owned and operated a millinery store for more than thirty years.

During the half-century of courtship they have been regular correspondents and for the last forty years Sprinkle has been a regular winter visitor here. Each time friends forecast an immediate marriage, but Sprinkle returned without a bride to his Montana holdings.

The reason for their extended courtship is their own secret.

RADIO MAY OPEN GARAGE DOORS

Promise of New Device for Auto Owners Comes From Switzerland

WASHINGTON, Dec. 26. (AP) Radio research promises to relieve the automobile driver of the occasional awkward necessity of getting out to open his garage door when he wants to put his car away at night.

The Commerce Department, from its Berne (Switzerland) office, is responsible for foreshadowing the possibility of this novel use of electric waves. As the new invention is described, the driver of a car approaching the garage will press a button and the apparatus on his machine will emit waves reaching a radio aerial affixed to the garage top, and these will start a motor which automatically will throw open the doors.

AIR CRASH ATTRIBUTED TO DRINKING

Instructor and Pupil Killed While Fighting for Plane's Controls

SPRINGFIELD (Mo.) Dec. 26. (AP) An airplane flying instructor and his pupil crashed to their death near Cabool yesterday when their craft went into a nose dive. They were Sam Bartell, 35 years of age, of Springfield, a World War flyer, and W. B. Allen, 24, of Mountain Grove, Mo.

They had been refused permission to take aloft passengers on Christmas Day flights by Mayor McKinney of Cabool. McKinney said he took action as the result of several complaints reaching him of Bartell's asserted intoxicated condition, while a gasoline station owner refused to sell the aviator fuel for the same reason.

Witnesses said it appeared that the men were fighting for control of the dual-control plane when it crashed. An examination of the wreckage today revealed that the dual controls were hooked up.

Bartell's divorced wife, Mrs. Grace King of Springfield, said today that her husband frequently had threatened that "some day I'll get drunk and go up and kill myself." She said she divorced Bartell because he drank excessively.

Dry Chief Plans Retaliation for Jail Fare Rise

PHOENIX, Dec. 26. (AP)—Striking back at the Maricopa county Board of Supervisors for their refusal to feed and lodge Federal prisoners at 75 cents a day, John Udall, prohibition administrator for Arizona, stated today that hereafter he will file all complaints against liquor violators in the State instead of Federal courts.

The United States marshal's office has been turning Federal prisoners to the City Jail here since the Board of Supervisors adopted a resolution Monday to the effect that no more Federal prisoners will be accepted unless the government pays $1 a day for each prisoner's food and lodging. The government had been paying 75 cents.

Seaplane Crash Kills Five Men

ATHENS (Greece) Dec. 26. (AP)—An Italian postal seaplane with a crew of five was wrecked today near the small island of St. Eustratios, near the Turkish coast in the Aegean.

The Greek cruiser Helle failed to find a trace of the machine or of its crew. The sea was rough and the wind high.

ONLY ONE YULE RUM DEATH IN NEW YORK

NEW YORK, Dec. 26. (AP)—Only one death from alcoholism over Christmas was recorded today. Fully clothed, Joseph Brown, 58 years of age, was found dead in his room on Eighth avenue. Alcoholism was given as the cause of death. Numerous alcohol victims are in hospitals.

BOXING WRITER DIES

CLEVELAND, Dec. 26. (AP)—Ray Campbell, widely known boxing authority and writer for the Cleveland News, died at his home here last night after an illness of three weeks from typhoid fever and influenza.

Deaf Lad Signed for Lasky Picture Role

BY GRACE KINGSLEY

A fine season of comedy is setting in at Metro-Goldwyn-Mayer, what with the musicals and with various other fun films planned.

MARIE DRESSLER

Marie Dressler and Polly Moran, having made such a sensation in a Christie comedy in which they costarred, are now to be costarred in a feature length M.-G.-M. comedy. It will be about happenings in the stock market.

Buster Keaton is to appear in a comedy with a desert locale following his completion of work on his current production.

Willard Mack is writing both stories. Having finished work on the Dressler-Moran opus he and Buster will start soon for the desert country to work out the Keaton story.

FOX PLAYERS WILL GO TO SOUTH SEAS

No producing company feels that its location record is quite complete without a trip to the South Seas.

Therefore, we aren't surprised to learn that Fox is sending a company of players to these tropical isles to film "The Mad Singer," a story of South Sea love.

Hamilton McFadden, young New York stage director, who has just completed "Harmony at Home," which introduces William Collier, Sr., as a Fox-Movietone artist, has been assigned as director.

Al Rockett, who will be the associate producer in charge, is busy preparing for the casting of the picture. Several Latin beauties, it is said, are being interviewed for the leading feminine role.

Ethel Allis In It

Paul Page isn't to keep all the fame in his family to himself, it seems.

His beautiful young wife, Ethel Allis, whom he married a few months ago, is about to make her picture debut in a Vitaphone short.

Miss Allis was formerly leading lady for Eddie Dowling, in his New York production of "Honeymoon Lane." She also was a bright light of the Follies.

Boy With Paramount

An important part in Paramount's all-talking production, "Sarah and Son," was the Christmas gift received yesterday by Frank Richmon, 11-year-old Los Angeles youngster.

Director Dorothy Arzner has selected Master Richmon, who has been completely deaf since he was 3 years old, to play the part of a deaf-mute in the picture.

One of the highly dramatic points of the story of "Sarah and Son" occurs when Sarah, portrayed by Ruth Chatterton, meets the little deaf-and-dumb boy, believing that he is her son who was stolen ten years before.

Miss Arzner refused to allow a boy who could hear to play the part. She declared that the ordinary youngster would betray through his expression the fact that he understood Miss Chatterton completely. The Board of Education sent Frank to the studio, where a screen test proved that he had real acting talent.

Virginia Sale In It

Virginia Sale has been a busy young woman these past few days. Between enacting scenes for "Back Pay," in which she is playing a comedy secretarial role for Corinne Griffith at First National, she has been spending off hours entertaining with her character sketches the disabled veterans at Sawtelle.

De Wolf Hopper's Plans

De Wolf Hopper, is likely to have a busy year next year.

At present he is appearing in the big M.-G.-M. revue which Chuck Reisner is directing. After that, he is scheduled to proceed to San Francisco, where he is to appear in a stage comedy seen last season in New York.

DE WOLF HOPPER

Following this engagement, it is possible he may return to Hollywood for other pictures, inasmuch as several companies have been negotiating for his services.

Walter O'Keefe In It

That versatile artist, Walter O'Keefe, doesn't just have to write songs for a living. He is a good actor, too; so good, indeed, that he has been cast for an important part in David Butler's next Fox picture, not yet titled, starring Janet Gaynor and Charles Farrell.

FUNERAL FOR BROTHER OF CHIEF OF POLICE

SAN FERNANDO, Dec. 26.—Funeral services were conducted this afternoon for Clement Hellyer, 52 years of age, brother of Chief of Police Hellyer of San Fernando. He was run down by an automobile in Los Angeles. He was a Mason and a Shriner of long standing. The death is the fifth to occur in the family within the last eight months. Chief Hellyer has lost his father, two brothers and a nephew.

CALIFORNIAN HONORED

BETHLEHEM (Pa.) Dec. 26. (AP)—Prof. E. R. Hedrick, University of California, was nominated president of the American Mathematical Society at the opening session of its convention today.

OLD MEXICO SETTING OF LOVE TALE

"Romance of Rio Grande" Pleasantly Pictorial; Players Well Cast

BY EDWIN SCHALLERT

The charm of a Mexican setting . . . of hacienda, love songs, and the fiesta . . . of the enticing old-world enchantment of life below the border—that is what "Romance of the Rio Grande" offers to the view, along with conversation liberally embellished with accents.

This feature in which Warner Baxter, Antonio Moreno and Mary Duncan are the chief players, as billed, is showing at Loew's State Theater. The names of its pictorially prominent could also very well include Mona Maris, who is rare and distinctive in her placidity—a girl with a sort of radiant calmness.

"Romance of the Rio Grande" is a picture in the manana mood of a sunny southern clime—sometimes almost too manana to prove wholly enthralling. However, it has its melodramatic flashes, which serve to rouse the audience from a pleasant lethargy, that may even wear at times a little into the domain of weariness.

Aside from its slowness, this picture is unusually attractive—with its story of the young railroad-builder wounded in an encounter with bandits, and brought back to health at the homestead of his forefathers, which he had thought closed to him.

Baxter appears in the leading role, playing a romantic character in whose veins flows the mingled blood of a Mexican mother and an American father. Reared as an American, he feels that he has nothing in common with his maternal relations, for his grandfather had cast off his daughter when she had married against his wishes.

Nevertheless, the lure of home and kin prove too great. He becomes reconciled with his grandparent, and upon the latter's death assumes the rule of the hacienda. His inimical rival is eventually disposed of. So, too, the girl whom he feels it necessary to marry. Finally he realises that he loves only the serene Manuelita, played by the tall and stately Miss Maris.

The bandit raid, the gay fiesta scenes, the death of Carlotta, beauteous, but wayward, ward of Don Fernando, at the hands of her lover, Juan, and the fight between Juan and Pablo (Baxter) are among the high spots of a picture that is poetic rather than dramatic in character, and that may prove of limited appeal on this account.

Al Santell has directed with discrimination as to scene and setting. The story as told lacks the more vital interest, but is withal pleasing. Baxter and Moreno give excellent performances, and Miss Duncan is splendid in the more dramatic moments, although not exactly well cast. Robert Edeson is effective as Don Fernando, Agostino Borgato, Mrs. Jiminez and others are competent.

The stage production achieves its best moments in spectacle, like the adagio number with full ensemble. A comedy duo who appear are excellent. "Overture" is the idea expressed, but the musical selections included and played under George Stoll's direction, run the full gamut of grand opera, with a jazz accent. The staging and costuming is unusually good, and the well-contrived adagio number is surpassing.

Belasco Plans Special Show on New Year's

As a special New Year's Day attraction for the Belasco Theater and for four performances thereafter Jack Berlin announces that his sister, the popular Jewish actress, Mollie Cohn, will be brought from New York.

Miss Cohn will appear in her most popular play, "Dance to Death," in which she scored on her last visit. She will be supported by Jack Berlin and a selected cast.

On the evenings of January third and fourth the actress and Berlin will be seen at the Belasco in the latter's popular drama, "Eternal Song," and for Sunday matinee and evening will appear together in "Manke From Odessa."

SCREEN ACTRESS TAKES STAGE ROLE

Pauline Garon

"Bad Babies," current attraction at the Figueroa Playhouse, is now being produced with a slightly changed cast. One new addition is Miss Pauline Garon, whose name is well-known to motion-picture fans. Miss Garon has been featured in numerous screen productions.

Other members of the "Bad Babies" cast are Mervin Williams, Franklin Lewis, Arthur Ranklin and Rhoda Cross.

New Operetta Makes Debut

Carlotta King

Costars with Wallace MacDonald in "Oh, Susanna!" which will be given for the first time on any stage tonight. The cast includes a hundred songsters, actors and dancers. The Mayan Theater will present the production.

Adventures of Acrobats Told at Boulevard

A third-rate theatrical boarding house, a Damon and Pythias friendship, a sacrifice by Damon for Pythias, and a happy ending all combine this week to make an interesting, if slightly overdrawn story on the Boulevard Theater screen. "Nix on Dames" is the inspiring title of this piece, written by Maude Fulton and directed by Donald Gallaher.

A woman in the case disrupts the acrobatic team of Lee and Willis, played by Robert Ames and William Harrigan, who are a pair of stage players recently come to the talkies. The lady, Mae Clarke, quite unknowingly is the cause of the friction between the strong men. There is an accident, a fight, a dislocated shoulder, doctor's words saying, "My boy, you'll never work again," and a second girl who soothes the loser and then marries him. There are no backstage scenes.

As far as presenting a typical theatrical atmosphere, "Nix on Dames" is satisfactory. All the jargon and the slang of snake charmers, banjo players, hoofers, bicycle riders and the like are carefully reproduced. And the sequence in which all these artists gather around the festive table to celebrate the homecoming of Lee and Willis is exceedingly amusing and well drawn.

The story of "Nix on Dames" may be called somewhat doubtful as to credulity. But whether one believes it or not, the acting of the three veteran players is sufficient to overshadow any outstanding loopholes.

Miss Clarke, who did splendid work in "Big Time," another recent picture, presents her character with charm and seeming sincerity. The nature of the tale occasioned little chance for dramatic acting, and what little finds its way to the screen is amply shared in by Miss Clarke. Robert Ames is no newcomer to the talking films and proves his ability to prevent a maudlin note which threatens to creep into the sentimental scenes.

William Harrigan is the other half of the acrobatic team, playing with restraint and further establishing the story in the realm of reality. Minor roles are well handled by Camille Rovelle and Maude Fulton, who was responsible for the dialogue and story. Gallaher's direction is noteworthy.

Stan Laurel and Oliver Hardy provide merriment in "Hoosegow" and the stage show brings Dave Good and his band in "New Year Revue."

German Comedy Starts Tonight

Victor Neuhas, director of the New German Theater, will present Impekoven and Mathern's German comedy, "Die Drei Zwillinge," (The Three Twins) tonight at the Windsor Square Theater. It will mark the American premiere of this humorous play, and a distinguished cast of German actors has been assembled for the occasion.

Both authors belong to the foremost of playwrights in the fatherland. Victor Neuhas is a former publisher and his efforts to create a center for German classics and other theatrical undertakings have aroused considerable interest in theatrical and educational circles in the city.

Miller Night on at Music Box

Monday night at the Hollywood Music Box, where "Maternality Yours" is playing, will be Miller night, according to Clarence O'Dell Miller. The coauthor has announced that he has mailed personal cards and letters to most of the Millers in the city. The general public is invited to share in the merriment when Miller meets Miller.

A special matinee is announced for New Year's Eve. This will eliminate the regular Wednesday matinee.

Gala Premiere Scheduled for 'Show of Shows'

Interest in the gala opening of Warner Brothers' all-Technicolor revue, "Show of Shows," at Warner Brothers' Downtown Theater on January 6, is high, owing to the fact that seventy-seven noted screen stars are members of the cast, and that most of them will appear at the gala premiere.

"Show of Shows" is credited with being one of the most elaborate revues staged in the history of motion pictures, and the local opening is awaited with interest. Included in the cast are John Barrymore, Richard Barthelmess, Frank Fay, Irene Bordoni, Betty Compson, Beatrice Lillie, Ted Lewis, Winnie Lightner and many others.

The present attraction at the Downtown is Irene Bordoni in "Paris." This is Miss Bordoni's first film and is a colorful story of the French capital. Jack Buchanan plays opposite the actress.

Whispers in the Wings

BY MURIEL BABCOCK

TAYLOR HOLMES is going to be Uncle Dudley for Henry Duffy. He will appear in the title role of this merry and human comedy by Howard Lindsay and Bertrand Robinson in San Francisco in about two weeks, later bringing it to Los Angeles.

Word of this, leaking out yesterday, sets to rest much speculation about who would be chosen for the role originally intended, in the Pacific Coast production, for the late Raymond Hitchcock. Walter Connolly, a former vaudeville favorite and a much beloved comic, is doing it in the East.

"Your Uncle Dudley" is one of the current comedy hits of New York. It has been playing at the Cort Theater since November 18, Henry Duffy seeing it there on his recent eastern trip.

Chauve Souris Plans

An advance brochure of what the rotund Nikita Balieff will have to offer Los Angeles in his Chauve Souris arriving at the Mason, January 13, was glimpsed yesterday.

One of the most colorful and impudently designed pieces of humor will be "Boublitchki," a caricaturist's cross-section of the streets of Moscow today with members of Tcheka rubbing shoulders brazenly and democratically with doughnut sellers, orphans, flappers, ice cream sellers Red army soldiers and Red fleet sailors, policemen, peasants, Nepmen and aristocrats down at the heels. A whirling panorama of a world upside down.

Then there will be a deeply reverent "Midnight Review," in which Napoleon arises from his grave to inspect the marshals and the myriads of his grand armies. This is something intimately French, yet international in aspect. The third high spot of the program will be Balieff's perennial travesty on grand opera. Yes, the immortal "Parade of the Wooden Soldiers" is also included.

From New York's Play Front

Further notes from New York include items such as the following: The Morosco offices in the Morosco Theater are being renovated and repainted, according to the wishes of Jed Harris—one more definite indication that he has come back to it all. That play in blank verse in which he is reported to be interested is Maurice Rostand's "The Last Czar" which is being or has recently been given performance in Paris.

Sophie Tucker, according to word from London, will be leading comedienne of a musical comedy upon which Jack Hulbert and Paul Murry will soon start work. The piece, it is said, will be done along spectacular lines and except for Miss Tucker the entire company will be British.

Mr. Skinner evidently still retains his faith in the play called "A Hundred Years Old," in which he acted here for a relatively brief engagement during the fall. At any events he has taken over its management from Gilbert Mills and will reopen it in Philadelphia on January 6. It will possibly go to the Pacific Coast before summer.

ENTOMOLOGIST AFTER PARASITE

Enemy of Black Scale Will be Sought in Africa

Experiment Station Sends Man on Vital Errand

Harold Compere Will Carry Infected Trees With Him

RIVERSIDE, Dec. 26.—Harold Compere, entomologist of the University of California experiment station, will leave tomorrow on a nine months' trip which will take him halfway around the world and has as its goal the securing of certain parasites of the black scale, one of the most destructive of insect pests which attack citrus trees. Compere's destination is Asmara, Abyssinia, where he hopes to be able to obtain black scale parasites known to exist in that part of Africa.

The method by which Compere expects to bring the black scale parasites back to California will necessitate taking living black scale to Africa. Compere will take small palms which have been infested with black scale with him. Upon reaching his destination he will attempt to obtain the parasites by parasitizing the black scale specimens. He will then bring back the parasites which during the trip will feed upon the scale taken from Riverside. If no serious difficulties are encountered, it is predicted that the parasites will be brought back to the experiment station late next summer.

Because of quarantine restrictions Compere will go to Africa by the western route. He will leave here tomorrow and sail for Japan Tuesday. In Japan he will transfer to an Italian liner for the remainder of the trip to Eritrea, the Italian colony in which the black scale parasites are to be found. The parasites which Compere seeks were discovered several years ago by a former member of the citrus experiment station staff, Dr. F. Silverstri, who went to Eritrea in search of enemies of the olive fly. Seven different species of black scale parasites were found, none of which occurs in California.

Compere already has been successful in similar work of obtaining parasites of citrus pests, as two years ago he was sent to Australia to obtain parasites of the citrophilus mealybug. He obtained five beneficiary insects which destroy it and successfully transported all of them to California in a living condition. These insects are now being propagated and colonized in groves and it is expected that the pest ultimately will be controlled by these parasites.

Woman Faints in Trimming Tree; Her Burns Fatal

SAN BERNARDINO, Dec. 26.—Death early today ended the suffering of Miss Edna Reckard, 37 years of age, who was frightfully burned yesterday when she fainted and fell on a gas heater while placing Christmas presents on a tree for her blind father, Walter Reckard. Miss Reckard, unconscious from her sudden illness, lay on the blazing heater for fully five minutes before she was rescued by her brother Carl, according to physicians at the Ramona Hospital, where she died.

Miss Reckard's incoherent moans attracted the attention of a neighbor. The woman was rushed to the hospital where, fully conscious, she gasped out the story of being stricken while dressing the tree. Her father, a familiar figure to San Bernardino residents, had gone for his morning walk around the block, tapping his way along with his cane. Seeing that he was out of the house, Miss Reckard quickly began arranging the presents on the tree, which she had previously described for her father. Mr. Reckard, nearly 90 years of age, was not informed of the seriousness of his daughter's burns until his son today told him that she succumbed to her injuries.

SCARLET FEVER GOES INTO MORE HOMES

WESTMINSTER, Dec. 26. — The scarlet fever epidemic, which seemingly had abated, again broke out with several more homes quarantined within the last four days. Mrs. Edna Day, who has been in quarantine for the past two weeks with her daughter Annabelle, has contracted the disease and will be confined for an additional twenty-eight days. Delbert Penhall became ill Friday and the F. E. Penhall home also is in quarantine, as is the Ned Clinton home. At Barber City the George Hawser home is under quarantine, and also two Belgian families. It is believed that during the holidays the epidemic will abate.

LONG SERVICE HONORED

San Buenaventura Lodge of Masons to Bestow Emblem of Fifty-Year Membership on Three Men

VENTURA, Dec. 26.—Charles Edward Healy, John Alfred Walker and Davis Rhodes Denison will be presented with fifty-year emblems at the installation of officers and annual roll call of the San Buenaventura Lodge, No. 214, F. and A. M., at the new Masonic Temple on the 31st inst. David J. Reese, Past Grand Master, will officiate at the impressive ceremonies to which members of the lodge and their wives have been invited.

Healy, now 78 years of age, has been a member of the Masonic lodge for fifty-six years; Denison, 90, and at present a resident of Glendale, has been a Mason for sixty-one years, and Walker, now 77, has been a Mason for fifty-six years. Gilpin Wallace Chrisman and Eugene Foster are listed as members of the lodge already in possession of the fifty-year emblems.

Following the ceremonies, the guests and members of the lodge will enjoy a dance and New Year's party in the ballroom of the new temple.

New officers to be installed are: Master, Fred George Merker; Senior Warden, Thomas Clarence Wallace; Junior Warden, Glenn DeLoyd Corey; Treasurer, Joseph Mayo Argabrite; Secretary, Frank Carlton Doty; Chaplain, George Samuel Sexton; Senior Deacon, Chester Bryan Trimble; Junior Deacon, courtland Rainslow Strong; Marshall, Michael Le Grand Brazil; Senior Steward, William Joseph Hewston; Junior Steward, Homer Wheeler; Tiler, Guy Robinson.

New Route Will Speed Up Ridge Route Traffic

SAN FERNANDO, Dec. 26.—The State Highway Commission today gave its sanction to relocate a twenty-six-mile section of the Ridge Route, between Bakersfield and San Fernando Valley, it is announced here. The new route will lie west of the present highway and at a lower level that will do away with many curves and steep grades.

It will leave the present highway at a point near Castaic to rejoin the highway north of Bailey's Station, via Piru, Liebre and Alamos creeks the greater part of the way. Bids will be asked on the work at once. The Highway Commission maintains that the present highway has reached its maximum of safety, necessitating the improvement.

When the new route is completed the old route will be taken into the Los Angeles county road system and maintained by the County Supervisors.

Jurisprudence Faces New Test

HUNTINGTON BEACH, Dec. 26.—A unique test in California justice of the peace jurisprudence will be tried in Justice C. P. Pann's court, Huntington Beach township, soon, according to a suit recently filed. Claims of under $1000 only are within jurisdiction of justice courts, but in this case a judgment of $97,032.42 is asked against thirty residents of this city, who are stockholders of the Orange County Bond and Mortgage Company, a defunct corporation.

The plaintiff asks judgment against each defendant in proportion, but by the wording of the complaint, plaintiff hopes to be able to collect the whole amount from a few. Dudley Chandler and Glen Behymer, with Behymer as attorney, are trustees for their clients, who assert they loaned $39,431.53 to a Callahan family, the Orange County Bond and Mortgage Company guaranteeing the note, which was dated December 27, 1926. No part of principal or interest having been paid, action is started for collection. The suit is the only one on record in which action has been brought against stockholders in a defunct corporation for liabilities of the corporation as a guarantor.

WATER COMPANY IS FORMED AT NEWHALL

NEWHALL, Dec. 26.—The Newhall Water Company, which has been planned for some time, has been organized with W. F. Erwin as president, and A. C. Swall, A. B. Perkins, W. W. Penhorwood and B. H. Willis as other officers. The authorized capital stock is $75,000, which is to be used to expand the present water system. There are a number of Newhall stockholders. As soon as plans are authorized by the State Railroad Commission, work of improvement will start, it is stated.

NEEDY FAMILIES AIDED

EL MONTE, Dec. 26.—Thirty needy families were provided with Christmas baskets of good things to eat, presents and clothing yesterday through donations made by the Chamber of Commerce, Lions' Club, other organizations and citizens.

JANITORS TO BRUSH UP

Third Annual Institute of School Custodians Opens Today in Glendale for Extensive Program

GLENDALE, Dec. 26.—Delegates from all the districts embraced in the metropolitan area are scheduled to attend the sessions of the third annual institute of school custodians that will open here tomorrow in the Herbert Hoover High School. A. L. Ferguson, principal of the school, will welcome the visitors, and response will be made by E. L. Thompson, president of the Los Angeles County School Employees' Association.

Among the speakers who are to address the institute are: Forrest V. Routt, Alhambra school superintendent; Richardson D. White, Glendale superintendent; George Aspinal, Pasadena custodian; Irving Oliver, business manager of the Glendale Union High School District; George Wright, inspector of janitor service in the Los Angeles schools; Edgar Elder, instructor in janitor engineering in the Frank Wiggins Trade School, Los Angeles, and Mrs. Mary Connaught, matron of the Glendale High School. Topics listed for discussion cover both the physical care of school property and the relations of school custodians with the public, as well as technical subjects such as school heating and ventilating. The meeting place for 1930 will be selected at the institute.

POINT SAL PURCHASE CONSIDERED

County of Santa Barbara Makes Offer to University Regents for Beach Area

SANTA BARBARA, Dec. 26.—An offer to purchase some forty acres of land owned by the University of California near Point Sal, made by County Forester Frank Dunne and L. D. Waller to the Board of Regents on behalf of the county, was received favorably and may be approved, according to the county forester, who has returned from a four-day conference trip to Sacramento and Davis.

County Forester Dunne declared the Board of Regents indicated a favorable reception of the purchase offer, of which the price is not now being announced. The fact that the property is good for little else than a park makes the county forester hopeful that the board will act favorably on the matter.

It is planned to develop a natural camp site, which is located far up on the cliff overlooking the bay and point. Camp conveniences including a fireplace, barbecue pits, a water well and comfort stations will be built on the camp site.

"Point Sal is the most beautiful place along the coast," said County Forester Dunne. "It will become nationally known under proper development. The scenery around the point is some of the most spectacular along the whole coast. The road runs along the oceans brink on a cliff from 500 to 700 feet above the surface of the waves. There is black and red basilic rock along the coast and the waves beating in on it makes a beautiful picture. The coastline is rugged until one reaches the harbor of Point Sal. Here one sees a small horseshoe of sand extending around a gently rolling ocean, making ideal surf bathing."

Work on Airport at Newhall Has Been Completed

NEWHALL, Dec. 26.—Improvements at the Emergency Airport in this vicinity have been completed and work will start in the placing of weather instruments, F. R. Chugage of Eagle Rock has finished the well for the government and as soon as the pump is installed the department will move its equipment from the Markey ranch to the air field. Two civil service men will be in charge of the emergency field, twenty-four hours daily, with hourly weather reports.

J. T. Adams of the Department of Commerce, is here to obtain a tract of land on which the government plans to erect a radio beacon for use in air transportation. Four acres is sought for the plant. It is specified that the beacon must be near the air route and at least a quarter of a mile from the power lines in this section.

SAN FERNANDO PLANS TO CURB FLOOD WATER

SAN FERNANDO, Dec. 26.—City Engineer E. Brooks Curry with representatives of the county flood-control office yesterday went over the grounds in the vicinity of Eighth street and Anita avenue to work out a plan to control the storm waters from May Canyon which each year annoy San Fernando. The plan tentatively agreed on is for a desilting basin dear the head of Anita avenue, and from there a conduit to carry the waters easterly into Pacoima Wash. It was stated that there are about $30,000 of county funds that are available for the purpose. Actual work on the project is expected to start at once, in order to insure relief from floods expected this spring.

CLOSE CALL IN CRASH FOR BUS PASSENGERS

SANTA BARBARA, Dec. 26.—A half-dozen passengers of the Spreitz transportation system here miraculously escaped serious injury about 9:45 a.m. today when the bus in which they were riding clipped the back end of a car making a left-hand turn and crashed into a telephone pole. T. Yoshida, driver of the car which was turning to the left off Delavina street onto Michelorena, was not injured. Yoshida says he gave a signal for a turn while Tony Silva, driver of the bus, reports he did not.

The front end of the bus was caved in and practically all of the glass was broken out of the front windows. Outside of minor cuts and bruises no one was injured.

SMITH RE-ELECTED CHAMBER PRESIDENT

GARDENA, Dec. 26.—Milton G. Smith was re-elected president of the Gardena Valley Chamber of Commerce at its annual meeting. Other officers representing Gardena, Moneta, Western City and the Strawberry Park district are: J. H. Armstrong, vice-president; J. J. Bruckshaw, treasurer; W. A. Bogart, Oscar Lampman, Lewis T. Guild, R. C. Robertson, J. W. Bennet, T. D. Rose, Howard Hutton, Fred O. Haver, Harry G. Butler, G. F. Blocker and W. O'Leary.

HIS TIMEPIECE TICKS IN MIND

Santa Barbara Restaurant Man Has Never Owned Watch; Needs None

SANTA BARBARA, Dec. 26. J. H (Jack) Shepherd, manager and proprietor of Margaret Baylor Inn dining-room, has never owned a watch in his life, never wants one and will not even carry one.

"Watches are such useless things, after all," Shepherd said, explaining his eccentricity. "If I say I will be back in ten minutes and I see something which interests me more than my appointment, I have no watch to remind me that I am late for it."

In all of his nearly fifty years he has never carried a watch. He says a timepiece is really not necessary, as he now can tell the approximate time of day by sense, and he can almost guess a half-hour's or hour's wait to the minute. "Time is only relative," Shepherd concluded. "It is something we judge by something else. It is a space which we measure, some by ticks of a clock, others by living."

Car's Dive Into Ravine May be Fatal to Youth

UPLAND Dec. 26. — Whether Buron Hill 21 years of age, of Alta Loma will survive injuries received in a Christmas crash on Foothill Boulevard a short distance east of here was problematical today. Hill is a patient at San Antonio Community Hospital suffering a crushed chest, several broken ribs, a punctured lung and probable internal injuries.

Hill was driving an automobile toward Upland. With him in the machine were his brother, Kenneth; John Cometti and Clay Wilks, all of Alta Loma. In rounding a curve near the Pacific Electric viaduct the automobile left the highway, bounded swiftly along the edge of the road and then dived into a deep ravine, which almost hid the car from motorists on the highway.

But passing motorists who saw the wild plunge rushed the victims to the hospital. Kenneth Hill was cut and bruised about the face; Cometti's left ankle was fractured and Wilks's right ankle was sprained.

TWO MOTORISTS INJURED IN CRASH NEAR ONTARIO

ONTARIO, Dec. 26.—In a crash of two automobiles in East A street during the Christmas motoring rush, J. L. Blake of Bloomington received several broken ribs and possible internal injuries and A. A. Martinez nearly lost his left arm.

Automobiles driven by the two men crashed a short distance east of here. Martinez and Blake were taken to San Antonio Hospital and Blake was later removed to his home in Bloomington.

Half-Century of Christmas Suns Never So Warm

SAN DIEGO, Dec. 26. — This city experienced the fourth warmest Christmas in fifty-four years yesterday, when the official Weather Bureau thermometer registered a maximum temperature of 75 deg., according to report today by Dean Blake, local meteorologist. Last night's minimum temperature was 50 deg., and with the exception of those at Los Angeles, San Diego's maximum and minimum temperatures for Christmas day were higher than any reported at any other regular Weather Bureau station in the United States or Canada.

Back country stations reported higher maximum temperatures yesterday than that recorded here. Escondido topped the list with a high mark of 83 deg. El Cajon basked in a midwinter sun which sent the thermometer up to 82 deg., while Bonita reported a maximum temperature of 79 deg.

CHRISTMAS GIFT AUTO DOESN'T LINGER LONG

LANCASTER, Dec. 26.—Frederick H. Smith's Christmas present to himself was a Ford roadster. He drove it to his home on Beech street and went in to get his Christmas dinner. When he came out again the auto was gone. Local police are searching for the roadster and the thief who took it, but up to the present they have no clews.

TAPIA TAKES OFFICE SOON

New Governor of Northern District, Baja California, Expected to Arrive at New Post January 2

MEXICALI, Dec. 26.—Gen. Jose Maria Tapia, who had been named to succeed Gen. Abelardo Rodriguez as civil and military Governor of the northern district of Lower California, expects to arrive to assume his new post January 2, according to a telegram received here from the general from Mexico City this morning. Official confirmation of Tapia's appointment was received by Amundo Arragon, Mexican Consul in Calexico this morning. Lucas Rodriguez, territorial treasurer, who has been acting executive of the district in the absence of Abelardo Rodriguez, stated that he was preparing to turn over the office to the new Governor immediately upon his arrival here.

Gen. Tapia is one of the youngest state executives in the Mexican Republic, it was learned today. He is 33 years of age and was born at Nogales, Son. He received his advanced education in American schools.

News of his selection was received in Mexicali with many expressions of approval, both among territorial and Federal officials and business men of the city.

Information was received here today that Gen. Abelardo Rodriguez is now on his way to Mexicali to assist Tapia in taking over the work of the administration. Rodriguez expects to leave soon after the first of January with his family for a three-month trip to Europe.

DEATH TOLL IN TRAFFIC TAKES TWO

Christmas Day Saddened in Ventura County When Cars Snuff Out Lives

VENTURA, Dec. 26.—The irony of fate reached out its talons on Christmas Day and claimed the lives of two persons in Ventura county, one a 9-year-old girl from El Rio and the other a Stony Flats man.

Little Katina Lopez, daughter of Manuel Lopez, was on her way across the State highway last night at 7 o'clock, near the Cloverdale service station one-half mile east of El Rio, when a car driven by Herbert Lee of Moorpark is said by Lee to have grazed her and thrown her back on the other side of the road, where a car traveling in the opposite direction ran over and killed her instantly.

The other car did not stop, and Deputy Sheriffs Ed Hearne and Grant Fraser, who were called to the scene of the tragedy, are today working on a clew in an attempt to locate the driver of the machine.

Lem Melton of Stony Flats died instantly of a broken neck at 2:30 p.m. yesterday when the car he was driving collided with a machine driven by Fred Sager of Saticoy, and turned over four times after leaving the pavement on the road near that place.

M. Bentley of Huntington Park, a passenger in the Melton machine, told officers that they tried to pass Sager, but that the latter weaved around on the road and forced them off the highway.

Mrs. Betty Bentley, wife of Bentley, received bad cuts in the accident, and perhaps a fractured skull. Bentley received cuts and bruises.

Miss Eula Gwartney of Saticoy, the other passenger in the Melton car, was thought to have sustained a broken back.

Ventura County Pioneer Passes

SANTA PAULA, Dec. 26.—With the death at the home of her grand-daughter in Los Angeles early today of Mrs. Nellie Newby Bradley Sheldon, 92 years of age, Ventura county lost its oldest pioneer woman. Edith Bradley, daughter of the deceased, was the first white child to come to this county. She was the mother of C. L. Sheldon of this city. Her husband, the late John Bradley, published the first newspaper in Ventura county, the Ventura Signal.

The deceased had lived in Ventura county for forty-four years, going to Los Angeles to live with her grand-daughter a few years ago. Born in Indiana May 2, 1837, she came around the Horn with her parents and settled in one of the northern mining towns before coming to this county.

Epidemics Now Stamped Out

ONTARIO, Dec. 26.—All scarlet fever and measles having been declared stamped out, Laird Community Sunday-school in the district southeast of Ontario will be permitted to resume Sunday worship, it was said today.

The Sunday-school, and a school in that community were closed a few weeks ago, when the illness became too prevalent. A physicians' board has concluded a survey of the situation and pronounced the situation well in hand.

RESEDA MAY GET LIBRARY IN PARK

RESEDA, Dec. 26.—It is announced here today by William Courtney, secretary of the local Chamber of Commerce, that he has been notified there is a possibility of the Library Commission of Los Angeles erecting a branch public library building in the new Reseda-Tarzana park on Reseda Boulevard, soon after the park is equipped and properly landscaped. For some time Reseda has been making effort to get a branch library building, to keep abreast with Van Nuys and North Hollywood, towns on the east, in San Fernando Valley.

OIL SUPPLY DIMINISHING

President of Standard Company Says Situation Calls for Intelligent Effort

PASADENA, Dec. 26. The world's supply of petroleum eventually will give out, so intelligent effort should be made at once to conserve available resources, today asserted Grant McCargo, president of the Standard Oil Company of Pennsylvania and of the Pennsylvania Lubricating Company, who is a guest at the Hotel Huntington.

Mr. McCargo, who purchased the Pennsylvania Lubricating Company less than eight years after he was graduated from Western University (now the University of Pittsburgh) is looking forward to meeting old classmates who will attend the U.S.C.-Pittsburgh football game.

"Oil wells in Pensylvania were among the first discovered in the United States and the majority of the first wells, although yielding only a few barrels a day, are still being pumped," he revealed.

The oil company executive was formerly affiliated with the William Penn Hotel and Fort Pitt Hotel in Pittsburgh. At the present time, he is a large stockholder in the company that operates the William Penn.

Conference for Educators Will Convene Today

REDLANDS, Dec. 26.—Final preparations are being made for the first educational conference for the universities and colleges of Southern California, which will be held on the University of Redlands campus Friday.

First session will convene at 9 a.m. in the Fine Arts Building, when President Victor Leroy Duke will welcome the delegates and Prof. Barton Bachman will entertain with a short piano recital. Speakers of the morning are Dr. J. H. Sinclair of Occidental College and Dr. Aubrey A. Douglass of Pomona College.

Lunch will be served on the campus at noon, to be followed by a short organ recital by Prof. Arthur Poister. A tour of the Memorial Chapel is included in the afternoon's program. The two papers of the afternoon session will be delivered by Dean J. H. Coffin of Whittier College, and President Ellis M. Studebaker of La Verne College.

Free discussion of topics considered in the papers will follow the addresses, representatives from other colleges participating in the conference opening the discussion. A cordial invitation has been extended by the University of Redlands, not only to the colleges and universities of Southern California, but members of the faculties of junior colleges and high schools. It is expected that a considerable delegation from the Redlands schools will be present.

League to Ask State for Trout

EL MONTE, Dec. 26.—The local Izaak Walton League will immediately ask the State to stock a small stream south of this city with 100,000 trout, according to John Craven, president.

R. S. Drenner, who is in charge of field extension work for the national organization, visited the stream today, following a meeting of the local league, and declared it ideal for a trout stream.

Drenner spoke at the meeting and told of the work of the league. Craven then took him to the stream, which is four miles long and empties into the San Gabriel River near Montebello.

Drenner estimated the flow at 1000 inches. The water is clear and remains the year around. In the event that the creek is stocked the local league will ask the State to close it to anglers for a year or more.

VALLEY CIRCLE DRIVE GETS RIGHTS OF WAY

OWENSMOUTH, Dec. 26.—More than 50 per cent of the property owners along the proposed Valley Circle Drive, the long highway planned for the western edge of San Fernando Valley, have signed deeds for rights of way, it was reported today. The highway is to extend from Ventura Boulevard, skirting Lakeside Park; Chatsworth Lake and the Oakwood Cemetery properties, to Chatsworth and the Santa Susana Pass Route. Because of the recent decision to raise the surface level and increase the capacity of Chatsworth Lake, Valley Circle Drive will be constructed to conform with the new grade lines not long ago established by engineers of the San Fernando Valley district office.

CHAMBER PLANS TO SELECT DIRECTORS

NORTH HOLLYWOOD, Dec. 26. The nominating committee of the local Chamber of Commerce met here in its annual meeting and named the following as candidates for directors of the chamber for the coming year. They are: R. W. Blanchard, C. Newell Carns, Dr. W. R. Cook, F. J. Darnell, Dr. R. M. Dunsmoor, R. G. Eyth, A. P. Fudcher, Walter Griffin, A. G. Hanson, Earl D. Killion, B. C. McNamara, H. E. Oatman, Ezra F. Parker, Martin Pollard, Ray Whitson and Guy Weddington. Seven of the above number will be chosen as directors when the chamber has its annual meeting on January 10.

F. W. PRINCE ELECTED

NORTH LOS ANGELES, Dec. 26. Fred W. Prince, executive head of the San Fernando Valley Bank here, was elected president of the local Chamber of Commerce at the annual meeting. A. W. Huskins was chosen vice-president, J. H. Willis, secretary, and Earl Cline, treasurer.

BRUSH FIRE ON PALOMAR CONQUERED

Five Hundred Acres Toll of Flames Before Being Brought Under Control

SAN DIEGO, Dec. 26.—With 500 acres of the Palomar Mountain area charred by the brush fire which started early yesterday morning on the La Jolla Indian Reservation, a crew of about sixty fire-fighters directed by Luther Gordon, county fire warden, today battled to prevent further spread of the blaze. Working with Gordon was L. H. Anderson, supervisor, Cleveland National Forest.

Report by E. L. Christensen, forest ranger on duty at Hot Springs Lookout, today states that although the fire was controlled, a patrol crew was being maintained to watch for possible outbreaks. An east wind of twelve miles an hour prevailed at 9 a.m., Christensen said. The fire, at first reported to be within the Cleveland National Forest area, was declared by Christensen to be outside the National Forest lands.

Latest reports state that no damage, other than the burning of brush, has resulted from the fire. No great alarm was felt yesterday for the safety of mountain homes and the big trees in the Palomar area, and at dawn today fire officials reported they had the flames checked.

When word of the fire was received by Gordon early yesterday, he sent the county fire truck from Bostonia to the scene of the blaze and rounded up a fire crew. At 10 p.m. he reported that the flames were burning along several fronts, although spreading slowly. A truck from Riverside county and five men, requested by Gordon to aid in fighting the Rincon-Palomar fire, were sent at a late hour yesterday to be used in battling a fire which had started in Riverside county, and which burned over 150 acres of brush land before being brought under control.

'Rock' Eggs Turn Out to be Sure Enough Rocks

RESEDA, Dec. 26.—Local police are warning persons against buying a case supposed to contain thirty dozen pedigreed Plymouth Rock hen eggs, offered by a man who is asking about twice the price of an ordinary case of eggs. Buyers who have made purchases within the last week tell police that when they open the case the lower layers are filled with rocks about the size of eggs.

Mrs. M. P. Gresham of Calvert street, Van Nuys, is a victim. Buyers here and at North Hollywood have been cheated also, police report.

Former Official in Colorado Dies

HUNTINGTON PARK, Dec. 26.—Edward R. Hanley, for four years deputy State secretary of Colorado, and for a short time serving as secretary of that State, passed away at his home here Tuesday at the age of 78 years. Deceased was a native of England, and was married in New York City fifty-three years ago last February 13. Mr. and Mrs. Hanley celebrated their fifty-third wedding anniversary in this city. Mr. Hanley is survived by his widow; also one daughter, Grace R. Hanley of Los Angeles, and two sons, Warren T. Hanley of Santa Barbara, and Edward C. Hanley of Denver. The funeral services will be held on Thursday at 2 p.m. in the Wheat-Halverson chapel, Rev. S. S. Sampson, officiating. Interment will be in the Inglewood Park Cemetery.

LANCASTER SHINES IN HAY SHIPPING

LANCASTER, Dec. 26.—Lancaster is getting to be a large hay-shipping center. In the last week more than 900 tons were weighed up on the public scales, bringing the total of the season to 59,650 tons. This is more than 10,000 tons at this date last year. The increase of 1928 over 1927 was 15,000 tons, alfalfa growers said here today.

CLOCK TURNS STREET LIGHTS ON AND OFF

NORTH HOLLYWOOD, Dec. 26. Ornamental lights on Lankershim Boulevard, between Third street and Ventura Boulevard, which were installed as a part of the extensive improvements of the boulevard, at a cost of $47,000, have been turned on. The lighting system is controlled by an automatic clock, which turns off certain numbers of the lights between midnight and dawn.

GUESSES MADE ON FARM POL

Federal Board Said to Favor Absolute Control

Counsel for Mutual ... Distributors Tells

Bruce McDaniel ... Return from Capital

REDLANDS, Dec. 26.—The Federal Farm Board, as a whole, does not favor 100 per cent control of agricultural enterprises, in the opinion of Bruce McDaniel, counsel for the Mutual Orange Distributors, who recently met with members of the board in Washington.

"Whether or not the co-operative will pledge itself to the extent of ... ley remains to be seen but I ... the guess that the majority of ... men will not be swept into ... pitfall control offers to the ... he said.

In referring to the recent conference that came from ... Teague and was presided over by C. P. Barley, general manager of Mutual Orange Distributors, McDaniel said, "We do not believe in monopolistic control of the marketing of the California citrus crop. Hence we did not meet to discuss such a subject. On the other hand, Mutual Orange Distributors is now and has been ... with the Farm Board and is ... looking toward the solution of farm problems through constructive means. Whether control today is no more extensive than it ever has been, has been shown the efforts of ... tions and we do not wish to ... the citrus growers of California the waste, the acreage and ... tion which naturally ... 100 per cent control.

"During my stay in ... it was my privilege to ... several members of the Farm Board and to get a ... view of the attitude of ... bers relative to the policy ... which loans are to be ... agriculture. It was ... teresting to note the line ... which most of these ... approaching this problem. It ... to be their general idea to ... possible action be taken ... quickly and effectively on the problem of the producer.

"However, there is a ... note seen in the action ... particularly by one member, ... that no loans should be ... commodity where more than ... co-operative association was ... gaged in marketing their ... very frankly expressed ... the effect that he did not ... making loans to such ... until they merged into one ... my judgment such a position ... tenable. No one can see the ... elimination of all competition ... better days for the farmer. ... other hand, there is much ... the California citrus industry ... fact that the presence of ... tion between co-operatives ... in benefits to the individual ... ers. To withhold loans ... means to force growers ... date their co-operative ... opinion would be to ... of the Farm Board for ... intended. Farm relief ... Farm Board was created ... agriculture, not for any ... few; and to pick out one ... tive in preference to another ... deny financial aid, when ... til mergers take place, ... appears to me to be ... rather than a constructive ...

"That the Farm Board ... with opposition is a ... clusion. Its policies ... with certain selfish ... will probably exert every ... defeat the work of the ... legitimate co-operative ... tation engaged in handling ... commodities, however, ... that the board has an opportunity ... to be of real service to ... these groups, such as the ... Orange Distributors, are ... willing to co-operate with the ... in its work, so long as its ... are forward-looking and ... tive."

JUSTICES OF PEACE RESIGN UNDER ...

SIMI, Dec. 26.—E. L. ... justice of the peace of ... rillo township, and Charles ... ston of Simi, have tendered ... resignations to the Board of ... pervisors. The action was ... justices is said to come as a ... of criticism made against ... county grand jury, which ... fault with the conduct of ... which the accounts and ... the courts were kept. ... duct was charged. ... tions have been ... Supervisors will ... to fill out the ... Justice Colston will ... in his capacity as ... ers.

FATALITY BLAME PLACED

Pomona Coroner's Jury Holds One Redlands Y... to be Responsible for Death of Another in Cra...

POMONA, Dec. 26.—A Coroner's jury today held ... 610 East Stewart street, Redlands, at fault for the death of ... also of that city, Sunday morning in an automobile ... Boulevard, three miles west of this city, when the ... were riding turned over several times, killing ... the prison ward of the County Hospital, was ... asserted.

According to the evidence introduced at today's hearing, the occupants had all been drinking and Pair was charged with driving while intoxicated. The matter is in the hands of the District Attorney for disposition.

Another inquest held this morning ...

GUESSES MADE ON FARM POLICY

Federal Board Said Not Favor Absolute Control

Counsel for Mutual Orange Distributors Talks

Bruce McDaniel Quoted on Return from Capital

REDLANDS, Dec. 26.—The Federal Farm Board, as a whole, does not favor 100 per cent control of agricultural enterprises, in the opinion of Bruce McDaniel, general counsel for the Mutual Orange Distributors, who recently conferred with members of the board in Washington.

"Whether or not the entire board will pledge itself to the control policy remains to be seen but I have the guess that the majority of the men will not be swayed into the pitfall control offers to the unwary," he said.

In referring to the request for conference that came from C. C. Teague and was promptly refused by C. P. Earley, general manager of Mutual Orange Distributors, McDaniel said, "We do not believe in monopolistic control of the marketing of the California citrus crop. Hence we will not meet to discuss such a plan. On the other hand, Mutual Orange Distributors is now and always has been ready and willing to meet with the Farm Board any time looking toward the solution of the farm problem through any constructive means. Monopolistic control today is no more constructive than it ever has been. History has shown the effects of such operations and we do not wish to subject the citrus growers of California to the waste, the arrogance and dictation which naturally spring from 100 per cent control.

"During my stay in Washington it was my privilege to confer with several members of the Federal Farm Board and to get a broader view of the attitude of those members relative to the policy under which loans are to be made to agriculture. It was exceedingly interesting to note the broad way in which most of those members were approaching this problem. It seems to be their general idea that the best possible action be taken to stabilize quickly and effectively the financial problem of the producer.

"However, there is a discordant note seen in the action taken, particularly by one member, who feels that no loans should be made to any commodity where more than one co-operative association was engaged in marketing that crop. He very frankly expressed himself to the effect that he did not favor making loans to such co-operatives until they merged into one unit. In my judgment such a position is untenable. No one can say that the elimination of all competition would mean better days for the farmer. On the other hand, there is ample proof in the California citrus industry of the fact that the presence of competition between co-operatives results in benefits to the individual growers. To withhold loans and by that means to force growers to consolidate their co-operatives, in my opinion, would be to utilize the powers of the Farm Board for a purpose not intended. Farm relief through the Farm Board was expected for all agriculture, not for any favored few; and to pick out one co-operative in preference to another, or to deny financial aid, when needed, until mergers take place, at first hand appears to me to be a destructive rather than a constructive attitude.

"That the Farm Board will meet with opposition is a foregone conclusion. Its policies will certainly with certain selfish interests who will probably exert every effort to defeat the work of the board. But legitimate co-operative sales organization engaged in handling farm commodities, however, recognize that the board has an opportunity to be of real service to them. And Orange Distributors, are ready and willing to co-operate with the board in its work, so long as its principles are forward-looking and constructive."

JUSTICES OF PEACE RESIGN UNDER FIRE

SIMI, Dec. 26.—E. L. Norton, justice of the peace of the Conejo-Arrillo township, and Charles H. Crampton of Simi, have tendered their resignations to the Board of Supervisors. The action taken by the justices is said to come as a result of criticism made recently by the county grand jury, which found fault with the careless manner in which the accounts and records of the courts were kept. No misconduct was charged. Both resignations have been accepted, and the Supervisors will appoint successors to fill out the unexpired terms. Justice Colston will continue to act in his capacity as registrar of voters.

TY BLAME PLACED

's Jury Holds One Redlands Youth ble for Death of Another in Crash

—A Coroner's jury today held Haskell F. Fair, Redlands, at fault for the death of Joseph Story in an automobile accident on Pennsylvania avenue, west of this city, when the car in which Fair was driving overturned several times, killing Story. Fair, who is in the County Hospital, was driving the car, officials said.

Exonerated Charles W. Sailer, milk truck driver, of blame for the death of Phillip Perez of Redlands, killed last Sunday night when Sailer's truck ascertedly demolished Perez's car at the intersection of Second and Oak streets.

Both inquests were held in the Disbrow funeral home here.

EST HITTITE T UNEARTHED

Oriental Institute Party Makes Find

Discovered After Digging Through Eleven Others

Discovered Better Than Roman Ware

...NTINOPLE, Dec. 26. (Exclusive)—Digging through the ruins of successive cities built upon the site of Alishar, members of the University of Oriental Institute's Hittite expedition have just come upon the richest records of Anatolian history. The group has completed the season's work and is rushing preparations to return to the United States to put its findings in order before returning to Europe in April.

The mound adjoining the ethnological museum at Angora during the past year has brought a year's gleanings to the ancient Hittite mound have been on exhibition. All articles unearthed automatically become the property of the Turkish government but models and photographs are available for those in America who wish to see the results of the excavations which have been under way for the past three years.

Those in Egypt and Mesopotamia say there is a low percentage of valuable finds in this part of Turkey, therefore the harvest of pottery and burial urns brought to America this year is exceedingly prized. Many, lacking in ornamentation but beautiful in glaze and texture, have been uncovered. This is declared superior to Roman ware and equals the peak of the Anatolian pottery art, reached when it was a part of the Assyrian Empire.

It is believed that Alishar was once the site of a prosperous merchant colony was established on the house of a merchant prince in the period between 2000 and 1500 B.C. Here were found many of the 10,000 clay storage pots pointed at the top and set upright in supporting mud and brick, suggesting the establishment at Pompeii. Many of them wheat was still to be found.

The dig was in such excellent condition that it was assumed there was little destruction of the city by fire, but possibly a migration which led to the abandonment of the city in that particular era. In one place was found a cuneiform tablet dating very likely from the reign of King Hammarupee of Babylon, and also ample indications of contact with Egypt.

The dig is about forty miles from Angora, and requires a ride of much it from Angora. It is said that 200 sites located by surveyors in the last four years, before that time barely more than a half-dozen Hittite cities had been mentioned accurately enough to be located.

...LIAM FRY, AGED WOOD CARVER, DIES

...MONTI, Dec 26. (AP)—William Fry, artist and noted wood carver died at his home here today. He would have been 100 years of age February 8.

COOLIDGE'S ART DEMANDS TOLD

President Held Out For White Dress for Wife and Dog Dyed Red

NEW YORK, Dec. 26. (AP)—Howard Chandler Christy has a Coolidge story. The question rose as to what sort of a dress Mrs. Coolidge should wear when posing before him for a portrait. The artist suggested red, with a white dog beside the sitter for contrast.

The President preferred a white dress. There was a little argument which ended when the President said: "Let it be a white dress, if you please. To allow for your contrast let us have the dog dyed red.

BRITISH ISLE STORM LAYS AWAY LASH

Atlantic Gale Subsides After Dealing Death to European Coast Shipping

LONDON, Dec. 26. (AP) — A storm that had lashed the European side of the Atlantic since yesterday subsided tonight and was succeeded by mild and pleasant weather.

Ships that had sought shelter in ports from Southern England to Scotland before the menace of a seventy-mile gale crept out of their refuges. Several reported damage from the storm, but the only loss of life occurred on the Norwegian ship Aslaug, which sank with twenty-four on board off Farallones, Spain, early on Christmas Day.

Ten men were rescued by the trawler Embassy from the sinking Norwegian ship Junior in the North Sea.

Ford Promises on Auto Stock Hinted in Suit

PONTIAC (Mich.) Dec. 26. (AP)—A statement that Henry Ford made an oral promise to pay stockholders for their stock in the old Lincoln Motor Company which he bought at a receiver's sale eight years ago was made in a deposition filed here today in the $6,000,000 suit of the old stockholders against Ford.

The deposition was given by John H. Bourne, former secretary to Henry M. Leland, who was head of the old Lincoln company.

The present suit, in which the deposition was filed, is an amended bill of complaint, filed last April, after the Michigan Supreme Court held that Judge Covert had erred in denying a motion of Ford's attorneys to dismiss the original suit.

OTHER BASES TO BE VIEWED

Hunt for Coast Dirigible Site Will Widen

House Committee Gives Ear to Any Offerings

Inquiry Will be Thorough, Britten Points Out

By a "Times" Staff Correspondent

WASHINGTON, Dec. 26. (Exclusive)—The House Naval Affairs Committee will not limit its investigation of dirigible base sites to Sunnyvale and Camp Kearny in its hearings and proposed personal investigation, Representative Britten, chairman of the committee said today.

During the committee hearings in Washington, after the close of the London arms conference, members of the special investigating board, the Navy General Board and the Secretary of the Navy will be asked their opinions on the suitability of other sites on the Pacific Coast for this controversial base. Should it be found that other sites have a sufficiently high rating to justify first-hand investigation the House committee will inspect them as well as the two recommended sites on their proposed western trip.

MUST RATE 80 POINTS

"We cannot and do not intend," Chairman Britten said today, "to inspect all or even a majority of the sites offered for this purpose, but if after investigation here, we find that there are sites with a qualification rating of 80, using those of Camp Kearny as 100, I believe we should personally inspect those sites also."

"It may be," Mr. Britten continued, "that the navy experts will show that this further investigation is unnecessary. In that case we will concentrate our attention solely on Sunnyvale and Camp Kearny, but we wish to be assured fully on the ratings of the other sites investigated by the special board during the past summer."

PLEAS BRING NEW PLAN

The move of the chairman today does not change the status of Sunnyvale and Camp Kearny, he explained. He expects that the decision of the committee will be made between these two locations recommended by the Navy Department, but he feels that the committee should have as wide and clear a picture as possible of the whole situation.

It is understood that the decision to extend the inquiry was brought to a head by telegrams from the Sacramento Chamber of Commerce urging the consideration of Mather Field and from other localities urging San Joaquin Valley sites inspection by the House committee before definite action is taken by that body.

CANCER SURGEON DIES

WHEELING (W. Va.) Dec. 26. (AP) Dr Frank Le Moyne Hupp, 64 years of age, a charter member of the first board of governors of the American College of Surgeons and widely known as a cancer surgeon, died here today following a cerebral hemorrhage.

STAGE COUPLE THRICE WED

Annulment Followed by False Marriage, Then Real Ceremony

NEW YORK, Dec. 26. (AP) Eddie Prinz, stage dance director, and Keitha Rayne of Fort Worth, Tex., musical comedy dancer, have become Mr. and Mrs. Prinz for the third time. Ten months ago their first wedding was followed by an annulment. Later they met at a rehearsal. A second wedding proved to be a joke. The "minister" was an actor. He told them right after the ceremony. Forthwith they eloped to Media, Pa., and found a bona fide clergyman to officiate.

BYRD WILL ASK HONORS FOR AIDES

Fifteen to be Commended to Navy Department Upon Return of Expedition

WASHINGTON, Dec. 26. (AP)—Richard Evelyn Byrd, recently made rear-admiral by Congress, will recommend fifteen members of his expedition for commendation by the Navy Department as soon as they return from the south polar regions, because, he explained by radio today, they "deserve great credit for the work of the expedition for which the leader has been promoted."

The message from Byrd, acknowledging an announcement of his advancement in rank, was made public by the Navy Department. It came from the expedition base in Little America, to the Navy's radio station at Tutuila, Samoa, and thence to Secretary Adams.

Signed "Byrd," the message said: "The department's message informing me of my promotion to rear-admiral is respectively acknowledged and I send sincere appreciation for the department's congratulations.

"Immediately upon return to the States there will be forwarded to the Navy Department commendations of fifteen navy men who have contributed greatly to the success of our enterprise and who therefore deserve great credit for the work of the expedition for which the leader has been promoted."

Informal messages of gratitude also were addressed to Speaker Longworth and Chairman Britten of the House Naval Committee, and Senator Swanson of Virginia, author of the measure to make Byrd the youngest of rear-admirals.

KENTUCKY MOB VICTIM EXPIRES

Latest Feud Casualty Names Six as Ringleaders

All Relatives of Man Slain Earlier in Month

Five Surrender and Sixth Sends Word He Will

JACKSON (Ky.) Dec. 26. (AP)—Chester Fugate, who was taken from the Breathitt County Jail Christmas morning and shot and beaten, died late today after he had accused six men of being the leaders in the latest shedding of blood by members of the Fugate and Watkins families.

Five of the men, kinsmen of Clay Watkins, whom Fugate shot to death on the 18th inst., came in and surrendered and were held in $5000 bond each shortly before the death of Fugate, whose body showed thirteen bullet holes. Lee Watkins of Hazard, the sixth man named by Fugate, sent word that he will surrender. The warrants charged malicious shooting and wounding, and after Fugate's death, G. C. Allen, Commonwealth's Attorney, prepared to issue murder warrants.

The men bound over and released in bail shortly before Fugate died and their kinship to Clay Watkins are:

Samuel J. Watkins, brother; L. K. Rice, son-in-law; Allie Watkins, son, and Earl and Bent Howard, nephews. Estimates of the jailer and Fugate as to the total number of men in the mob ranged from thirty to forty, even as high as 100, and Combs said all the men he saw wore masks.

Local Boy Has Sad New York Yuletide Visit

YONKERS (N. Y.) Dec. 26. (AP)—Yesterday was not a merry Christmas for Richard Whittaker, 12 years of age, of 221 West Jefferson street, Los Angeles, for he journeyed more than 3000 miles in the hope of spending the holiday with his mother and stepfather here. On arrival the boy went to the address given him, only to find they had moved ten days ago and had not left an address.

The boy went to police headquarters and told his story. He was turned over to the care of the Society for the Prevention of Cruelty to Children. The society is making an effort to locate his parents, Mr. and Mrs. George McCurdy.

PART OF SHIP'S CARGO DESTROYED BY BLAZE

SINGAPORE (Straits Settlement) Dec. 26. (AP) — Approximately 150 tons of rubber were destroyed and 100 tons damaged by fire aboard the Dollar liner President Van Buren at its dock here today. The fifty passengers were disembarked safely to hotels, and it is expected they will continue their voyage tomorrow.

(AUTHORIZED ANNOUNCEMENT)

ddress by President Moncado at Opening of National Convention of Filipino Federation of America, Inc., December 26, 1929, Los Angeles, California

...dies and delegates of the Filipino Federation ..., Incorporated, and visitors, I extend to ... most hearty welcome.

...s president of your organization I have the ...easure of calling this third National Convention ... the Filipino Federation of America to order. ...ember 27th we are going to celebrate the ...niversary of our organization.

...particularly desire to thank and congratulate all ... had a part in the arrangement of this ...vention. All of us appreciate the partici... of those on the program December 23rd to ...der list, as well as the splendid co-operation ... have done so much to make this ...vention a real peaceful demonstration in ...or of World Service, which is the fundamental ... of the Filipino Federation of America, Inc. ...ority interest and good will of 12,000,000 people ... Philippine Islands, 70,000 Filipinos in Hawaii, ...pinos in the United States, and 5000 Filipinos in Los Angeles is a deep inspiration for those at this convention, which, as mentioned before is the third National Convention of its kind held in the United States. Our organization held its first state convention in Stockton and in Oakland, which, that was held July 1st to July 7th, and attended by between 10,000 and 15,000 interested people. We were the first to decorate the streets of Oakland and Los Angeles with Filipino and United States flags together. Our parade in 1927 and 1928 in Stockton attracted the attention of the population to a marked degree, and all were satisfied with the success at that convention.

...sincerely hope that this third national convention of the Filipino Federation of America, Inc., will leave a favorable lasting impression upon the minds of all those present, and that each and every one of you will spread the message to your fellowmen of the aim and purpose of the Filipino Federation of America, Inc., of Los Angeles, California.

...is customary for people to pay the price for ...thing of value, whether it be service, money or both. ...ver, whenever the memorial element is injected which has ...e lasting effect upon humanity.

...the purpose of reaching higher altitudes of ...ivilization, refinement and progress, many of us ...ve left and live in other countries.

...you have ever taken a trip to a far-off city ...re you did not know a soul and remained there ...weeks, then you will know to some degree, if ...ll remember that lonesome feeling, just how ...many Filipino people feel when they leave their ...country, the Philippine Islands, where their ...people live. After arriving in the United States ...th laudable purpose of advancing their education ...standard of living, these Filipinos are paying the ...price and perhaps a far bigger price than many of you would care to pay. Then what a stimulation, what a blessing it is to these Filipinos in a strange land to them, to know that they have free access to the wonderful modern advantages of an organization, such as the Filipino Federation of America, Inc., of which I have the honor of being the founder and president.

Let us reverse the situation. If, instead, the American members and guests at this National Convention of our organization, ever visited the Philippine Islands and mingled among the 75% literate natives, I am very safe in assuring you that their warm hospitality and apparent earnest desire to entertain you, would go a long way towards relieving that lonesome feeling of being among strangers in a strange land.

Among the chief purposes of the Filipino Federation of America, Inc., is that of creating a more thorough understanding and deeper feeling of friendship between the people of the United States and the natives of the Philippine Islands. In this connection, there is something worth while considering. Practically people from every nation of the world are to be counted among the 120,000,000 or more population of the United States, while in the Philippine Islands, there is a nation of 12,000,000 Filipinos, all natives of the Philippines, born and raised there, and the most of them never having left the Islands, their own home, for many centuries.

When a better understanding is created between the population of the Philippines and the Population of the United States, and when the people of the United States, composed of the literate population, are satisfied that the people of the Philippine Islands are sufficiently educated, progressive, along the standard of morality, just that soon will the Filipino Federation of America, Inc., plead in a peaceful manner, conforming with the constitution and laws of the United States government for the Independence of the Philippine Islands, thereby cementing an unbreakable bond of friendship and co-operation between the 120,000,000 people of the United States and the 12,000,000 people of the Philippine Islands, who are not to be blamed for earnestly desiring to become a world power nation.

Consider, if you please, the fact that the Philippine Islands are practically guarded and protected by Filipino police and Philippine constabulary, and also that many public offices, including that of the Mayor, are being held by efficient and educated Filipino natives, which is surely sufficient evidence to demonstrate the pride that the Filipinos demonstrate in self government.

The Filipinos, whose only country is the Philippine Islands, have never sanctioned inter-marrying with other races, and they have never been dominated by any race. The Chinese tried it centuries ago, but failed. The Japanese and natives of India also attempted it and did not succeed. Although the Spaniards attempted to rule the Philippines for over three centuries, there was always rebellion and discord.

HILARIO CAMINO MONCADO
President and Founder Filipino Federation of America, Inc.
First and only Filipino to appear in "Who's Who in California" 1928-1929 State Edition.

The Filipinos owe much to the United States Government for delivering their country from the rulership of Spain, thereby eliminating Spain usurpation and they feel that what the United States Government has done for them is far greater than that which any other government would have achieved. This condition is verified by the modern business, entertainment and educational system that prevails throughout the Philippine Islands, and which was begun by the United States Government twenty years ago. Naturally this big brother fellowship has had the tendency to gradually increase the self-reliance, education and efficiency of the native Filipinos. What better evidence could the United States ask for than the existence of 70,000 Filipinos in Hawaii and 65,000 or more Filipinos in the United States. If conditions were otherwise, this situation would not exist. Another indication of the good work of the United States is the fact that there are only 25 per cent of the population of the Philippine Islands illiterate. Compare this in proportion to population with the people of the United States, and you have more food for thought. In this connection it should not be forgotten that the Filipinos as a race—constituting the Malay race, are people who never forget—people who are grateful. One of the prevailing sins is ingratitude.

In discussing the aims and purposes of the Filipino Federation of America, Inc., as before mentioned, is sponsored by our organization, there are a few dominant factors to be considered.

The aim of the Filipino Federation of America, Inc., is to encourage clean living in accordance with the principles of strict morality. We help our members legally and through advice and information. We stimulate educational procedure and also maintain a home for our members at Los Angeles, Stockton and Fresno, where lodging and clean entertainment is provided. Our organization was started on December 27, 1925, to stimulate Christian fellowship and create a better understanding between Americans and Filipinos. We assist members who are in dire need of charity, who are ill, and provide the funds for funerals when necessary. Building up humanity and making better citizens is our method of serving the world.

If our teachings, which conflict with no one's religion, were closely adhered to, and universally adopted, there would be no judges, no lawyers, no jails, no prisons, no police, no soldiers, no wars, no physicians, no nurses, no hospitals, no asylums, no poor-houses or community chest to which we regularly contribute.

While this is Christmas week in which the spirit of Peace on Earth and Good Will toward Men should prevail, our organization, if possible, would have such an ideal condition prevail for all time upon this earth.

Any one may join the Filipino Federation of America, Inc. Filipinos are active members and divided into lodges of twelve members to a lodge, who have the right to vote and actively participate in the organization work. Americans in sympathy with the aim and purposes of the Filipino Federation of America may become inactive members without responsibility, and without right to vote, for the nominal fee of two dollars.

Many Americans have joined our organization for the benefit of meeting Filipinos of a progressive and moral character; for the privilege of attending our weekly programs every Sunday afternoon at 2 o'clock, held in the hall in the Stack Building on Fourth Street at Broadway, Los Angeles. Lectures and music by our Filipino orchestra and other innovations are appreciated by our members. Americans who become members also are assisting a humanitarian work with their influence, and many other reasons why Americans join, could be mentioned.

It is simply wonderful how our membership has increased since this organization was completed to conform with the laws of the United States Government as well as the State of California, and City of Los Angeles.

At this time the Filipino Federation of America maintains branches all over the United States, Hawaiian Islands and Philippines. Others will be established from time to time and announcements of such events are published in our official organ "Filipino Nation" magazine, that I began publishing prior to the organization of the Filipino Federation of America. It is published in English with the exception of some items in Filipino dialects, illustrated, and a circulation of 15,000 copies have been published of a single issue. Its advertisers and subscribers understand the work of the organization. The subscription price is $2.00 a year and subscription is included with membership to the Filipino Federation of America.

There was a notable occasion in Los Angeles, when for the first time in the history of the United States, the Filipino flag was displayed. The 1926 Rizal Day celebration by the Filipinos, revealed Broadway decorated profusely with Filipino and United States flags.

Your president was also grateful for the recognition that was extended to the mission of the Filipino Federation of America, while on his recent trip to Washington, D. C., in which he was also entertained by Mr. C. H. Tavenner, editor and publisher of the Philippine Republic, the finest magazine in the United States, in its loyalty to the interests of the Filipinos in the Philippine Islands. We were pleased to also have him with us at our 1927 National Convention, as he came here from Washington, D. C., to participate in our activities.

We cannot stand still

We go either forward or backward which reminds me of a well-known hymn, "Onward Christian Soldiers," which I would like to hear all of you sing.

When we meet again at our next convention I hope to be able to tell you of many thrilling developments revealing the expansion of the activities of the Filipino Federation of America, Inc.

First Row, Sitting—Board of Advisers and Board of Managers; Standing—Delegates and Members Attending Third Annual National Convention of the Filipino Federation of America, Inc. Los Angeles, Calif., U. S. A., Dec. 23, 1929 to Jan. 1, 1930

FINANCIAL

SECURITY LOAN TOTAL SHRINKS

Borrowings at Reserve Bank Drop $58,000,000

Volume Hits Lowest Mark in More Than Two Years

Figures for Local District Increase $556,972

WASHINGTON, Dec. 26. (AP)—Loans to brokers and dealers held by the New York Federal Reserve member banks for the week ended the 24th inst. were announced by the Federal Reserve Board today as $3,328,000,000, representing a decrease of $58,000,000 from the preceding week.

The loans for the week ending December 26, 1928, were $5,091,000,000.

The detailed distribution of the loans over the three weeks' dealt with in the board's report was:

	Dec. 24.	Dec. 18.	Dec 26, 1928.
For own account	$ 945,000,000	$ 932,000,000	$1,109,000,000
For account of out-of-town banks	716,000,000	750,000,000	1,660,000,000

Dec. 24	3,328,000,000	5,091,000,000

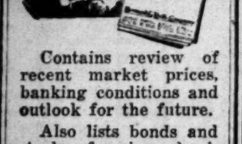
The loan total of $3,328,000,000 as of the 24th inst. is the lowest figure since September, 1927. The high for all time of $6,804,000,000 was recorded October 2, last.

The Los Angeles brokers' loans as reported yesterday by sixty-six members of the Los Angeles Stock Exchange for the week ending the 24th inst. total'd $29,883,820, an increase of $556,9 over the preceding week. The high for the year is $44,432,975 as of October 9 and the low for the year is $28,899,300 as of the 12th inst.

Corn Products Dividend Looms

NEW YORK, Dec. 26. (Exclusive) Directors of Corn Products Corporation, following their custom of disbursing extra cash dividends at the close of June and December quarters whenever deemed advisable, are expected at the regular meeting tomorrow to declare an extra cash dividend of at least 50 cents and probably 75 cents a share.

Net earnings for 1929 are placed at around $5.50 a common share, or between $2,000,000 and $3,000,000 ahead of the banner year of 1919 when net profits totaled $13,700,000. In 1928 net earnings were $12,745,000 or $4.35 a common share.



Contains review of recent market prices, banking conditions and outlook for the future.

Also lists bonds and stocks of various classifications in order to preference.

Reserve Bank Surveys Trade in Coast Area

SAN FRANCISCO, Dec. 26. (AP)—Trade conditions continued lower in the Pacific Coast States during November compared to a year ago, and to last month, Isaac B. Newton stated in the Federal Reserve survey of Twelfth Reserve District conditions tonight. He attributed the unfavorable aspect to the credit pinch preceding the recent readjustment, and the market tumble of October and November.

Brighter outlook for agriculture was brought by rain early this month. Smaller production in 1929, compared to 1928, left farmers no worse in financial position, due to improvement in prices, he said. "The total value of 1929 crops is likely to be slightly greater than, or approximately the same as the value of 1928 crops," he explained. He continued:

"Seasonal declines from October to November in building, lumber, mining and flour milling industries were greater than usual. Notwithstanding declines in production, stocks of lumber, metals and flour were substantially larger at the end of November, 1929, than at the end of November, 1928. Production of petroleum in California declined sharply early in November, reflecting partial success of continued attempts to exercise some degree of control over output. Employment in most industries declined.

New Financing Forecast Made

New financing in 1930 will show again many of the characteris" of 1923 and 1924, but with the scope of domestic transactions probably broader than in these years, according to a statement issued yesterday by Frank J. Reynolds, president of Albert Frank & Co., financial advertising organization. Both investment desires and the trend of money rates will again bring bonds to the fore, without, however, subordinating stock issues of corporations possessing long records of large earnings and stable dividends, he said.

"In consequence of more intensified effort in the distribution of investment securities, along with normal enlargement of bank publicity—chiefly in the trust field—I am confident that financial advertising will equal and perhaps exceed the extraordinary lineage carried by newspapers and magazines last year," Mr. Reynolds stated.

Lockheed Goes Into Production

Due to the receipt of orders for the immediate delivery of two air expresses to the New York-Rio-Buenos Aires line, Lockheed Aircraft Corporation, subsidiary of Detroit Aircraft Corporation, has resumed operations at its Burbank plant, officials said yesterday. The plant was closed the 23rd inst. to take inventory and was not expected to open until January 6, next.

Several other export orders have been booked, it was stated.

FEDERAL RESERVE BANK STATEMENT

WASHINGTON, Dec. 26. (AP)—Combined resources and liabilities of the twelve Federal Reserve banks at the close of business yesterday were reported tonight by the Federal Reserve Board in thousands of dollars as follows:

RESOURCES

Gold with Federal Reserve agents, 1,732,160.
Gold redemption fund with United States Treasury, 73,787.
Gold held exclusively against Federal Reserve Board, 489,879.
Gold settlement fund with Federal Reserve board, 489,879.
Gold and gold certificates held by banks, 525,814.
Total gold reserves, 2,821,640.
Reserves other than gold, 129,106.
Total reserves, 2,950,746.
Nonreserve cash, 61,310.
Bills discounted:
Secured by United States government obligations, 430,556.
Other bills discounted, 332,225.
Total bills discounted, 762,781.
Bills bought in open market, 354,943.
United States government securities:
Bonds, 68,837.
Treasury notes, 201,082.
Certificates and bills, 215,124.
Total United States government securities, 485,043.
Other securities, 9,770.
Total bills and securities, 1,612,537.
Due from foreign banks, 721.
Uncollected items, 776,546.
Bank premises, 89,329.
All other resources, 11,089.
Total resources, 5,472,278.

LIABILITIES

Federal Reserve notes in actual circulation, 1,989,159.
Deposits:
Member bank reserve account, 2,320,118.
Government, 30,671.
Foreign bank, 5,830.
Other deposits, 18,883.
Total deposits, 2,373,311.
Deferred availability items, 634,746.
Capital paid in, 170,760.
Surplus, 254,398.
All other liabilities, 5,472,278.
Ratio of total reserves to deposit and Federal Reserve note liabilities combined 67.6 per cent.
Contingent liability on bills purchased for foreign correspondents, 540,963.

SPONSORS TESTING MARKET

Several Groups Interested in Los Angeles Stocks Resume Activities as Experiments

BY EARLE E. CROWE

Sponsorship is beginning to reappear for some of the well-known stocks listed in the Los Angeles market. Within the last several days three or four issues have been tentatively lifted out of the sluggish trend in attempts to test the tenor of the public mind and the attitude of the professional sellers on the short side. So far these experimental operations have gone along without incident.

Constructive operations on the long side, even if predicated on developments calculated to affect earnings favorably, are likely to run into determined short selling for the next several months at least. Any pronounced decline in stock prices will convert large herds of chastened bulls into bears, believing that it is good policy to take the character and the name of the winning side. For a time the new members of the bear family are willing sellers of stock on any provocation.

RUMORS FABRICATED

Sometimes the new converts, in their anxiety to make good with their new friends, engage in guerilla warfare aimed at the stocks that offer resistance to legitimate selling attacks. This kind of outlawry is familiar in any bear market, and usually takes the form of baseless rumors intended to frighten bona fide stockholders into selling. The heads of Montgomery, Ward & Co. and the Richfield Oil Company have been forced to issue vigorous denials in the last week of this kind of rumor and to invoke the aid of legal authorities.

Nevertheless a few groups interested in Los Angeles stocks have recovered courage sufficiently to venture experimentally into buying operations with the idea of establishing their stocks at higher prices. These attempts have encouraged others to talk of and plan similar steps, and it would not be surprising to find a considerable number of pools at work in Los Angeles stocks before long.

BULLS AT WORK

The Transamerica group continues confidently with its program and is making an active and strong market in the stock. Operations in Universal Consolidated Oil suggest the activity of a group interested in lifting the stock to higher prices. Exeter Oil, another of the stocks in the lower price category, shows evidence of sponsorship on the long side.

While radio shares as a group are apparently in the doldrums, the action of Kemper Radio carries all the earmarks of organized operations to establish the stock in a higher price zone. The reason probably lies in the television connection recently made by Kemper under which the company will manufacture and sell television apparatus under the Farnsworth patents.

When the time is thought propitious, constructive operations probably will be renewed in stocks like Pacific Finance, Southern California Edison, Claude Neon of Delaware, Richfield, Union, Standard of California, etc. There still are plenty of bulls as willing to spend money as their friends on the other side, provided the incentive is available.

Many Courses Announced by Trojan Annex

University college, the downtown division of the University of Southern California, will institute close to fifty courses in commerce and business administration during week of January 6, next, the college announced yesterday. Registrations are being taken at the Transportation Building.

Regular faculty members of the Trojan college of commerce as well as outside lecturers who are specialists in various fields of business will conduct the classes.

Among the late afternoon and evening commerce courses to open in the winter quarter are accounting, C.P.A. problems, mathematics of finance, credits and collections, money and banking, markets and prices, business law, air law, economics, statistics, personnel management, apartment-house management, advertising, salesmanship, store organization, textiles, merchandising, meteorology and navigation, real estate courses, traffic management, foreign trade, commercial aviation and exporting and importing.

Loan Companies Plan Expansion

Permits for the sale of additional guarantee capital stock were issued to seven building and loan associations and a new association was approved for West Hollywood under the name of Southland Building and Loan Association during the week ended the 21st inst., according to a report issued yesterday by Charles A. Whitmore, State Building and Loan Commissioner.

The stock permits were issued to the following associations; Bay City Building and Loan Association, San Diego; Pan American Building and Loan Association, Long Beach; Equity Building and Loan Association, Beverly Hills; United States Building and Loan Association, Fresno; Hemet Home Builders' Association, Hemet; San Gorgonio Building and Loan Association, Banning, and Northern California Building and Loan Association, San Francisco.

Television Set Rights Granted Kemper Radio

SAN FRANCISCO, Dec. 26. (Exclusive)—In connection with the plans of the Kemper Radio Corporation of Los Angeles to manufacture and sell Farnsworth television sets for home use, Albert B. Mann, consulting engineer of San Francisco and managing director of Television Laboratories, Inc., today issued the following statement:

"In response to many inquiries and for the information of all concerned we deem it advisable to make this announcement. After four years of research and experimentation and at considerable cost Television Laboratories, Inc. of San Francisco, Cal., has developed the Farnsworth television apparatus to such a state of efficiency that its commercial application is now not only practical but also desirable in order that the public may derive the fullest benefits from this invention.

"With that end in view negotiations have been under way for some months as a result of which we take pleasure in stating that Television Laboratories, Inc. has granted to the Kemper Radio Corporation, Ltd., of Los Angeles, Cal., the first license to manufacture and sell television receiving sets under the patent rights and direction of Television Laboratories, Inc.

"In addition to the television system certain auxiliary short-wave equipment for use with radio receiving sets has been developed and Kemper will also be licensed to use this invention which will permit the reception of sound transmitted from great distances over short-wave lengths.

"Arrangements are being made for public demonstrations of the Farnsworth television apparatus before the California Chapter of the Institute of Radio Engineers, scientists from the University of California and Leland Stanford, Jr. University and representatives of various other engineering societies and of the press.

"Announcement of the Kemper plans for expansion will be made by the company officials in a short time."

Hahn Elected Vice-President of Union Bank

Herman F. Hahn, former Los Angeles banker, has been elected a vice-president of the Union Bank and Trust Company and will take up his new duties with that institution shortly after the first of the year, Ben R. Myer, president, announced yesterday following a directors' meeting.

Mr. Hahn began his banking career in 1920 with the California Bank. He was credit manager and a juninor vice-president. When the National City Bank was taken over by the California Bank, Mr. Hahn was transferred to the new offices as vice-president.

For the past year and one-half, Mr. Hahn has been in charge of the California business of the Chicago investment house of Gatzert Company, with headquarters in Los Angeles.

UTILITY PLANS FINANCING

NEW YORK, Dec. 26. (Exclusive) Stockholders of Standard Gas and Electric Corporation and Standard Power and Light Corporation are being notified that a special meeting has been called for January 7 to approve a plan for capital readjustment which will result in transfer of certain assets of Standard Power and Light into Standard Gas and Electric Corporation.

STEEL UNIT TO VOTE ON NEW TITLE

Consolidated Plans to Add "Limited" to Name Now on Roster

Consolidated Steel Corporation stockholders at the special meeting to be held today in addition to voting on the proposed authorization of $2,500,000 of 6 per cent notes will also vote on changing the name of the company by adding Ltd., and on increasing the authorized common shares from 480,000 to 690,000 shares. Issued common stock now totals 240,000 shares.

No statement has been made public by the company as to the purpose of the increase in authorized common stock. In the first public announcement regarding the creation of the bonded indebtedness, no mention was made of the proposed increase of common stock. It was stated that the purpose of the bond issue was to permit the immediate issuance of $1,500,000 convertible 6 per cent notes for the funding of certain obligations incurred in expansion of business and the acquisition of additional properties.

Stockholders were given the right to subscribe for one $1000 note for each 292 shares of stock, both common and preferred, held on the 9th inst., with the provision that their checks for the full face value of the notes subscribed for plus interest from the 1st inst. to the date of payment at the rate of 6 per cent were to be delivered to the company on or before the 26th inst., the day before the ratification meeting.

After the first public announcement of the bond issue proposal, Lee A. Phillips chairman of the board, announced that the company will pay an initial quarterly of 25 cents a share on its common stock, April 1, next.

Holiday Trade in Local Area Shows Pick-up

Sales by the department stores and mail-order houses operating retail stores received a last-minute impetus from the late Christmas shoppers which brought the totals near those of a year ago, according to the weekly business survey for Los Angeles, issued yesterday by the Bradstreet Company.

The stores reported that popular-priced merchandise was in great demand and little of this class of goods will be carried over. Higher-priced merchandise found a slow market. Chain food stores expect that 1929 sales will exceed those of last year by 11 to 15 per cent. Candy manufacturers reported that the holiday trade was much later than last year and that sales were lost due to the inability to take care of last-minute orders.

Lack of rain this season is worrying ranchers and the trade generally as farm and grazing lands are in poor condition, and unless we have rain in January early crops will be materially affected. Collections still continue to drag with little improvement over last week, the survey stated.

Sales of Laguna Land Unit Shade Off During Year

Laguna Land and Water Company and the Laguna-Maywood Land Corporation reporting yesterday for the fiscal year closed November 30, last, announced the total land sales of the combined organizations amounted to 18.51 acres valued at $150,802, or an average of $8148 per acre.

This is a slight decrease compared with the preceding year due, in part, to general quietness in the real-estate field, the statement points out. Sale of industrial lands by the railroads has also depressed prices, it was stated. Cash on hand, notes and accounts receivable as of November 30, amounted to $185,342.

Initial Voted by Holding Concern

Directors of the Los Angeles Corporation, an investment and management holding company, declared yesterday an initial quarterly dividend of 1 per cent on the 80,000 shares, of $10 par value, now outstanding, W. P. Jeffries, president, announced.

Mr. Jeffries also stated that the dividend was more than twice earned while the company has been active for little more than sixty days. Its prospects for 1930 are extremely bright, he stated. The dividend is payable on the 28th inst. to stockholders of record the 20th, and places the stock on a dividend basis of 4 per cent annually.

Bacon-Wardell to Shift Office

New offices of Bacon, Wardell & Co., formerly located in the Pacific Southwest Bank Building, will be formally opened today in the Bank of America Building. Local partners of the house, which operates in Los Angeles and San Francisco and holds memberships on the Los Angeles stock and curb exchanges, include William R. Bacon, Charles Jawetz, Frank Wood and Robert E. Keane.

William E. Hough, who has previously been identified with financial and realty institutions, is now associated with Bacon, Wardell & Co., Mr. Bacon announced.

BANK HOLDING IDEA GROWS

Bancohio of Columbus Latest to Make Bow; Eastern Concern May Enter Los Angeles Field

BY JOHN F. SINCLAIR

(Copyright, 1929, by the North American Newspaper Alliance.)

NEW YORK, Dec. 26.—Holding companies to control bank stocks are springing up in different parts of the country. The Bancohio Corporation of Columbus has acquired more than 90 per cent of the shares of the First Trust Company, the Ohio National Bank of Columbus, and the Fifth-avenue Savings Bank.

And in addition to this, more than 95 per cent of the shares of the First National Bank and Trust Company of Springfield, O., have been exchanged for Bancohio stock. This corporation has also acquired 93 per cent of the shares of the First Citizens' Corporation of the Ohio National Corporation, investment security subsidiaries of the First Citizens' Trust Company and the Ohio National Bank.

It is still relatively a small institution with resources of approximately $85,000,000. But it is expected to expand and enter the $100,000,000 class in 1930.

H. D. Ivey, president of the Citizens' National Trust and Savings Bank of Los Angeles, intimates that one of the larger eastern banks may enter California in 1930, establishing branches in that State.

The Wisconsin Bank Shares Corporation with sixteen banks in the city of Milwaukee, and eight banks in the State outside, has total assets now in excess of $300,000,000. It is being opposed by the La Follette group in that State.

The year 1930 should clarify a great deal the bank situation, now that the Comptroller of the Currency has come out in his recent annual report in favor of branch banking.

The life-insurance presidents have had their meeting. They have announced in the public press many interesting figures. They have stated that the total insurance in force with American companies is now well over $100,000,000,000.

Although the United States contains but one-sixteenth of the world's population, this great sum, equal to $840 for every person in the country, exceeds twice the aggregate outstanding life insurance in all of the rest of the world combined.

But in these calculations one should not forget Canada. There some of the most aggressive life-insurance companies in existence have their headquarters. The Sun Life of Montreal is a sample. It is the largest common stockholder in some of the most important corporations in the United States.

The investment trend of insurance companies makes a heavy subject for study. Insurance assets are growing at the rate of more than $120,000,000 a month. How will this great fund be invested? Four millions of dollars a day! And another $4,000,000 a day for reinvestment. Eight million a day—what would you invest it in so as to be safe fifty or 100 years from now? Not so easy to answer.

Common stocks represent an extremely small portion of the total investments of life-insurance companies. It is estimated that in 1928 they amounted to $232,000,000 (or all life-insurance companies—less than 2 per cent of the admitted assets.

One insurance official has estimated that if the expansion in insurance which has taken place during the last ten years continues over the next ten, it will require the companies to invest an additional $25,000,000,000 in the world's business activities.

The day may come when the insurance companies will exert a more powerful influence over business than the banks themselves.

STOCK TRADING TONE STRONG

Prices Show Heavy Gains in Last Two Weeks

Marked Slump in Selling Tax Losses Noted

Total Turnover on Stock Moderately Light

NEW YORK, Dec. 26 (AP)—Holiday cheer appeared to have overcome the bull party as trading was resumed on the stock market today, share prices were given the most decisive boost of the past two weeks. Trading, however, was not materially accelerated. Only 1,000,000 shares were transferred.

The early transactions were irregular and somewhat hesitant, but it soon disclosed that there had been a heavy accumulation of tax selling orders over the holiday. Shorts hastened to cover their commitments, as did professional speculators for the rise, while bulls took advantage of the situation to send prices higher, pressing their efforts in some of the more prominent moving utilities.

Credit continued in close keeping with the normal pre-holiday tendencies. Call money remained at 6 per cent, the highest rate since November, after repeated offerings. Banks called some $40,000,000 of loans. The flow of funds to the money centers in the direction of the banks after Christmas, kept the supply of "window dressing" by the corporations which withdrew their funds to make large cash statements appear in their annual reports.

LOANS DROP

The weekly brokerage loan statement disclosed a further reduction of $60,000,000, bringing the total down to $3,328,000,000, the lowest since the first week of October, 1927.

7.10% Yield from a well-protected security

When we say "well-protected," we mean protected far better than the average. For $9000 in security value stands back of each $1000 invested. And earnings over a five-year period have averaged more than 9.8 times interest charges.

At present prices, the issue yields 7.10%—exempt, in opinion of counsel, from California Personal Property Taxes. A conversion feature and a common stock bonus add to the attractiveness of this investment.

STOCK TRADING TONE STRONGER

Prices Show Heaviest Gain in Last Two Weeks

Marked Slump in Selling for Tax Losses Noted

Total Turnover at Session Moderately Light

NEW YORK, Dec. 26. (AP)—Bullish day cheer appeared to have revived the bull party as trading was resumed on the stock market today. Share prices were given the most decisive boost of the past fortnight. Trading, however, was but moderately accelerated. Only 2,367,5 shares were transferred.

The early transactions were quiet and somewhat hesitant, but disclosed that there had been no accumulation of tax selling orders over the holiday. Shorts hurried to cover their commitments, as professional speculators for the rise quickly took advantage of the situation to send prices higher, concentrating their efforts in some of the swift moving utilities.

Credit continued to tighten, in keeping with the normal year-end tendencies. Call money touched 6 per cent, the highest rate since last November, after renewing at 5. Banks called some $40,000,000 loans. The flow of funds normally turns in the direction of New York after Christmas, but this is often a "window dressing" by banks and corporations which withdraw their funds to make large cash balances appear in their annual statements.

LOANS DROP

The weekly brokerage loan compilation disclosed a further reduction of $58,000,000, leaving a total of $3,328,000,000, the lowest since the first week of October, 1927. T

AN OPPORTUNITY

for salesmen who wish to break into the Securities Game

OUR client, a well-established and successful Los Angeles investment house, plans to open several new offices in the next few months. It needs several more salesmen who have either sold securities or have been unusually successful in selling automobiles, insurance, real estate, etc., who wish to break into the securities game.

All members of our client's organization have been advised of this advertisement. For an interview, apply by letter only, stating qualifications fully.

NEW YORK CURB STOCKS

NEW YORK, Dec. 26. (AP)—Bullish sentiment was more pronounced in today's curb market, but trading continued relatively light in volume. The apparent completion of tax selling, except in isolated specialties, the recent inability of "bear" traders to dislodge any large volume of stock and the prospect of a good reinvestment demand around the turn of the year all helped to create a more cheerful feeling in speculative circles.

Standard Power and Light was the spectacular feature of the public utility group, soaring nearly 30 points on the announcement of a capital readjustment plan, and then losing nearly a third of its gain. Northern States Power "A" jumped 11 points and Commonwealth Edison fell 7½ on a few sales. Electric Bond and Share was in brisk demand all day, closing with a net gain of 4¼ points at 79½. American and Foreign Power warrants advanced 4 points and Cities Service improved fractionally.

Wide swings took place in a few high priced specialties, Great Atlantic and Pacific ran up 35¾ points to 261, closing at the top. Aluminum Company of America jumped 24½ points and Deere & Co., 8½, but Aluminum Industries and American Manufacturing preferred each broke about 11 points to new low records, and Tubize Artificial Silk fell 7½.

Oils were quiet but Gulf of Pennsylvania advanced 2 points and Imperial 1½, despite the increase in crude oil output last week. The motor shares attracted a little more attention. Cord and Ford of Canada recording moderate gains. The few changes in the aviation group were downward.

Slight improvement was shown by most of the investment trust, trading and holding corporation issues. Good distribution has been reported in this group in recent weeks despite the drastic shrinkage in the market values of some of the stocks held by these corporations in the November break.

Nearly a score issues again sank to new low levels for the year. The list included American Cigar, American Department Stores first preferred, Ceco Manufacturing, General Cable warrants, Gorham, Inc. A, Hormel Co., Marion Steam Shovel, Miller & Sons, National Baking, Safety Car Heating, Schulte-United preferred, Seiberling Rubber and United States Gypsum preferred.

The closing price is omitted when same as the low, and both low and close when same as the high.

WHERE IS THERE A BETTER INVESTMENT THAN THIS?

22% Yield During 1929, dividends of over 22% on present market prices were paid on Corporate Trust Shares—now selling at about 8¼ per share.

Unusual Security A participating ownership in 28 of America's greatest corporations, whose combined resources exceed $21,000,000,000 and which have paid cash or stock dividends continuously on the average for 31 years. Rated "A" by Moody.

Convenience This trust eliminates the annoying details attendant to handling separate securities, and also forestalls multiple inheritance tax difficulties. Further details on request below.

SAN FRANCISCO

SAN FRANCISCO, Dec. 26. (SF)—The passing of Christmas had a decided optimistic effect on Montgomery-street investment psychology, as reflected by prices of western stocks, and conversations of traders and commission-house advisers. The opening tone today was higher and a lowering around noon was replaced by a later rise which left most leading issues selling at good advances over Tuesday.

Trading volume also picked up somewhat, although the turnover of 44,636 shares, representing $1,101,672, was not impressive. Bonds attracted little interest, sales being only $3000.

Paraffine, Illinois Glass and Caterpillar were the leaders of the rise. These industrials moved up briskly as investors looked to coast stocks to be among the leaders in reflecting improvement in the business, when such improvement takes place, following the current recession.

Paraffine's gain on the day was 2¾ points, Illinois Pacific Glass 1¾, and Caterpillar 1½. Several industrials showed minor improvement in prices, including Byron Jackson, California Packing, Food Machinery, Hunt Brothers and Crown Zellerbach.

Utilities were prominent in the rise, although gains were modest and some were not held. Pacific Gas netted a point, Pacific Lighting was up a fraction at the close, after having sold a point above the last price.

The oil group improved in the average, although Tidewater and North American revealed a difference in opinion concerning the group, these two selling off fractionally. Gains in the others were limited to well under a point.

Transamerica was a perfect example of the succession of waves of shifting sentiment that swept over Montgomery street. Up enthusiastically at the opening, it mounted higher, was submerged in a selling backwash and then carried on the crest of another wave, failing to reach the day's high, and closing with a fractional gain. Announcement of the regular dividends of 40 cents in cash and 1 per cent in stock was made after the close of the market.

Industrials, while providing bright spots in the market picture, also furnished the shade. Union Sugar established another new low, adding to its recent series, reaching 4¼. A rally showed a gain for the day, however. Borden Company, long inactive on the San Francisco Exchange, dropped 1½ points to set a new low at 69. Clorox dived 4½ to a new low at 25. Other losses included California Cotton, down 2½; Aviation Corporation of California, down 2, and Western Pipe and Steel, down 1½. Several other industrials were a bit weak, losses being minor.

Southern California Building & Loan Association

OFFERS YOU

6% Guaranteed

Investment Certificates

Interest Paid Quarterly

Consider These Features

1. SAFETY. Certificates are backed by our resources of over ten million dollars, invested principally in small first mortgages on Southern California homes. A paid-in, nonwithdrawable guarantee fund of $625,000 is a permanent safeguard against loss.
2. YIELD. Certificates yield the generous return of 6% per annum, PAYABLE QUARTERLY by check OR COMPOUNDED QUARTERLY. Tax exempt.
3. MARKETABILITY. Certificates may be redeemed in cash at our offices at full par value after one year, with 6% interest to date of withdrawal. Worth full purchase price at any time.
4. CONVENIENCE. Any amount from $100 up in even hundreds may be invested at any time without the bother of renewal. No coupons. No entrance or withdrawal fees.
5. LEGAL FOR INVESTMENT by executors, trust, insurance and title companies; national and commercial banks.
6. STATE SUPERVISION. Operations are under the strict supervision of the State of California.
7. PROVEN RECORD. During 42 years of continuous operation, no investor has ever lost a penny through this association. We tell you what we HAVE done.

ASSETS OVER TEN MILLION DOLLARS
Over 42 Years Without a Loss to Any Investor

LOS ANGELES EXCHANGE

Security Quotations Close Unsteady as Liquidation Hits Several Issues

Irregular price fluctuations marked the resumption of trading yesterday on the Los Angeles Stock Exchange. Pacific Finance, Pacific Mutual Life and Security-First National Bank were forced down to new low levels under pressure while operations in Transamerica Corporation featured the market, the stock advancing a point to 42¾ after 7000 shares had crossed the board.

Richfield was the second most active issue and on steady support firmed up 1-4 to 23 3-4. Union of California moved up 3-4 to 44 1-4 and Rio Grande on light sales advanced 3-4 to 19½. Signal Oil and Gas "A" transferred at 29, off ½, and Bolsa Chica dropped 10 cents to 1.35.

Southern California Edison responded to a strong demand with an advance of 3-4 to 55½. More than 4000 shares of Pacific Finance were sold bringing quotations for the stock down a point to a new low mark at 36½. The close was at 37. Pacific Mutual Life fell off a point to a new bottom at 82½, and Security-First National Bank, under brisk sales, dropped down 1 point to a new record low at 110.

No changes of consequence took place in the balance of the list, where the volume of trading was practically at a standstill.

Sales totaled 23,975 shares, valued at $915,131; previous day, 13,828 shares, valued at $571,852.

METAL MARKETS

CLEVELAND, Dec. 26. (Exclusive)—Daily Metal Trade today says: Demand for heavy rolled steel products holds to the early December rate, with placing of forward tonnage slow to broaden. Merchants for consumers continue to buy mostly for immediate shipment. Stocks are low and although only a moderate tonnage has been placed for shipment after the first of the year, there are indications that there will be a revival of buying early in January. Automotive requirements of alloy steel bars for January as yet are indefinite, but mills look for only a moderate tonnage. Urgent desire for business continues to bring out some concessions on sheets in the East.

Semifinished steel demand is quiet at Chicago. Demand for wire products is light, although some slight improvement in automotive requirements is noted.

METAL PRICES

NEW YORK, Dec. 26. (AP)—Copper quiet; electrolytic, spot and future, 16.

Iron steady, unchanged.

Tin steady; spot and near by, 39.37; future, 40.37.

Lead steady; spot, New York, 6.25; East St. Louis, 6.10.

Zinc quiet; East St. Louis spot and future, 5.50.

Antimony, 8.50.

Irregular Tone Rules Trading on Wheat Mart

CHICAGO, Dec. 26. (AP)—Swayed by reports that the United States Department of Agriculture is backing up slashes in Argentine official crop estimates, wheat scored new advances late today. Earlier the market here had been depressed by unexpected downturns in Buenos Aires quotations and by at least temporary dearth of fresh export demand for wheat from North America. Toward the last, however, bidding at the Gulf of Mexico indicated pretty fair European inquiry notwithstanding that trans-Atlantic markets were still inactive because of holidays.

Chicago closing quotations on wheat were irregular, varying from 1c decline to a ⅛c advance, compared with Tuesday's finish. Corn closed unchanged to ⅛c down, oats ⅛c off to ⅛c up and provisions unchanged to a setback of 15 @17c.

According to trade advices current here late today, the United States Department of Agriculture has made a study of Argentine wheat yields, temperatures and rainfalls of the last thirty-four years, and has figured out that based on such data the 1929 wheat output in Argentina is about 152,000,000 bushels. That is closely in line with the latest Argentine government estimate, and tended to discredit unofficial Buenos Aires advices early today that private crop estimates were at variance with the official figures and were causing incredulity as to the Argentine government forecast being accurate. On the other hand, leading trade authorities here expressed themselves during the late transactions as attaching increased significance to reports of an unusually large percentage of lightweight wheat in Argentina this season. Regardless of total crop estimates, this would mean a relatively small amount of good milling wheat in Argentina available for export.

Special attention by wheat traders here was also given today to Omaha messages indicating that for the first time the Farmers' National Grain Corporation appears to be ready to purchase No. 2 hard winter wheat. These purchases would be in addition to buying of No. 1, the grade on which the Federal Farm Board is basing wheat loans. Spurred more or less by this circumstance, as well as by other bullish developments, many previous speculative sellers of wheat were making haste to change their market position as the day drew to an end.

Corn and oats trading was mainly of a holiday character, with predictions current that a good-sized movement of corn will develop whenever the weather permits.

Provisions averaged lower, influenced by late downturns in the value of hogs.

Milfeeds—	
White	1.30 @1.75
Red	1.30 @1.75

CAR RECEIPTS

Wheat, 17; barley, 7; corn, 33; oats, 2; milo, 9; kafir, 5; flour, 10; bran, 6; rice, 4; cottonseed, 7; beet pulp, 2; copra, 1; miscellaneous, 1. Total, 109. Hay, 7.

Local hay quotations corrected weekly by Los Angeles Grain Exchange:

Imperial alfalfa (new,) f.o.b. Los Angeles	
Lancaster alfalfa	26.00@27.00
Oat hay	28.00@29.00
Barley hay (new)	22.00@23.00
	20.00@21.00

NEW YORK BOND PRICES

NEW YORK, Dec. 26. (AP)—The bond market drifted idly in the doldrums of the holidays today. The session was one of the dullest since last summer, although volume slightly exceeded that of Tuesday. Price changes were highly irregular, but the tendency was downward in most groups. However, United States government issues and first-grade rails held firm and really weak spots in the remainder of the list were few.

Time money was unchanged. The renewal rate on call loans was 6% per cent but the charge advanced to 6 per cent early in the afternoon. The increase caused little surprise, and higher rates would not be unexpected in view of the requirements of banks and corporations as the new year approaches. Investment demand for bonds was small and such buying as did appear was selective. Some of the low coupon rails moved up a point or so, among them Central Pacific first 4s, Missouri Pacific general 4s, Southern Railway 5s, Louisville division 4s and Union Pacific 4s of 1968. Firmer tendencies were evident in Atchison General 4s, Rock Island 4½s, Erie 5s, Missouri Pacific 5s, New Haven refunding 4½s, Pennsylvania general 4½s and St. Louis and San Francisco prior lien 4s.

Heaviness of numerous low priced industrials reflected further tax selling, but this was offset to some extent by speculative purchases of issues in which this factor was not an influence. American Agricultural Chemical 7½s and certainteed 5s advanced 2 points.

The utility group was mixed, with telephone company bonds showing the best support.

Sluggishness marked the convertibles. American Telephone 4½s failed to keep pace with the shares and moved narrowly for a net gain of 1⅛. Missouri Pacific 5½s and New Haven 6s advanced 1 and 2½ respectively. American I. G. Chemical 5½s and Allegheny 5s of 1944 lost half a point.

European government obligations held up well, but Latin-American issues were heavy. Peruvian 6s losing about 2 points on the average while Rio De Janeiro 6½s went to a new low on a 3-point decline. Bonds of Chile, Argentina and Brazil were irregularly lower.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices in order given. Transactions when the close is the same as the low, and both low and close when same as high.

(Sales in $1000) High Low Close

OIL NEWS

BY HOWARD C. KEGLEY

That the General Petroleum Corporation plans to proceed with the exploration of its holdings eight miles west of Elwood, where it discovered heavy oil at shallow depth a few weeks ago, is indicated by the fact that it has started drilling its Erburu No. 3 at a point 500 feet west of its discovery well, which yielded oil of 20 deg. gravity from a depth of 1360 feet. The Erburu No. 2 is still a location. The initial test now is shut in. It was good for 150 barrels per day on the pump.

Offsetting General's discovery well the Shell Oil Company now is drilling below 1100 feet in Covarrubias No. 1, which is somewhat nearer the ocean. It is just west of the company's Rutherford lease, where Rutherford No. 1 was abandoned slightly below 6000 feet and Rutherford No. 2 abandoned at 1800 feet. In the Erburu area Shell and General have adjoining leases.

Storage Going Up

The Ohio Oil Company is rapidly constructing storage tanks in which to put the oil from Recreation Gun Club No. 1 southeast of Venice. The first 1000-barrel tank is filled and three 2000-barrel tanks are ready for use. Several more 2000-barrel tanks will be added to the present storage which, it is believed, will be adequate for the present.

Ohio's producer yesterday was flowing into the sump-hole at the rate of 2000 barrels of 24.3-deg. gravity oil per day cutting 2.1 per cent, according to officials, and was putting out 1,250,000 cubic feet of gas.

May Curtail

The principal producing companies at Maricopa Flat may voluntarily curtail production soon after the first of the year, according to reports yesterday, but no definite date has been set. Several companies have already pinched production in the Midway district. The Chanslor-Canfield Midway Oil Company and the Republic Petroleum Corporation have been retarding output there for a number of months, being among the first operators to fall in line with the general movement when it went into effect in Los Angeles basin fields.

Several companies have not yet been approached in the matter of pinching down at Maricopa Flat. Some apparently expect the first step to be taken by the major companies. In the event of an agreement to cut production, which now is from 10,000 to 15,000 barrels per day, little difficulty is anticipated.

New Production

Completion of half a dozen new wells at Santa Fe Springs during the last forty-eight hours has started a new production climb in that field, according to the umpire's report. The Texas Company brought in a pair of completions, which totaled about 7500 barrels daily. Its Weaver No. 6 was brought in for 5500 barrels of oil per day from a depth of 8097 feet and the Standlee No. 5 came in at 7880 feet for 2000 barrels per day.

The Superior Oil Company completed Wardman No. 4 at 7900 feet for 9678 barrels of oil per day, it being the best well brought in this week, and nearly equaling the Wardman No. 5 brought in several weeks ago. The Wilshire Oil Company brought in Peterson No. 2-A at 7950 feet for 3500 barrels of oil per day, and the Idaho Petroleum Company brought in Brunson No. 1 at 8042 feet for about 2500 barrels daily.

The General Petroleum Corporation completed a pair and then shut both in. They will be returned to steady production before January 1. These were Santa Fe No. 237, at a depth of 8000 feet, and Santa Fe No. 177-E, at 8060 feet.

Production yesterday at Santa Fe Springs was estimated at 159,251 barrels—considerably higher than the desired figure and indications are that a still greater output will be recorded within the next few days.

Starts Flowing

The Standard Oil Company's Koontz No. 7 at Santa Fe Springs started flowing yesterday at the rate of 250 barrels of 35.3 deg. gravity oil per day from a depth of 7784 feet and flow is rapidly cleaning up.

Completes One

The Shell Oil Company has brought in Taylor No. 47 in the Ventura-avenue field for 2000 barrels of oil per day from a depth of 7075 feet. There is a slight cut which is cleaning up. The company's Taylor No. 43 has completed drilling at 7200 feet and may be on production within a week.

Spuds In

Louis G. Cimmel has spudded in a new townlot test northwest of the present townlot activity at Potrero. The latest is about three-quarters of a mile from the Ring Exploration Company's Simons No. 1, in the brick yard, a dry hole which was abandoned seven months ago.

Drilling Permits Drop

The number of drilling permits issued last week by the State Mining Bureau totaled only thirteen, compared with twenty-five issued the preceding week. Of those issued, five were for fields in Kern county, three in Santa Barbara county, and one each at Huntington Beach, Newhall, Seal Beach and Whittier, and one in San Diego county.

Following are the permits: Union Oil Company's Sansinena No. 1 near Whittier; Rex Oil Company's No. 15 at Huntington Beach; Yorksmullin Oil Company's No. 1 near Newhall; Continental Oil Company's McGrath and Selover No. 22 at Seal Beach; Borderland Exploration Company's No. 1 in San Diego county; General Petroleum Corporation's Erburu No. 3, Bank No. 1 and Robert Bowler Oil Company's Tideland Permit No. 140 in Santa Barbara county; Petroleum Securities Company's Gardner No. 1 and Union Oil Company's Tribe No. 9 at Poso Creek; Doyle Petroleum Corporation's Son-Crail No. 2, Berta Wier No. 4 and Barnsdall Oil Company's Hazelton No. 2-A at Maricopa Flat.

LOS ANGELES MARKET

CATTLE—Light receipts carrying very few steers in slaughter flesh marked the cattle trade. Some well covered cows and heifers from the intermountain region were in demand, changed hands at about steady to slightly higher values. Other classes were unchanged. A few loads feeder steers and calves went out to Central California pastures.

Packers took a few part carlots common and medium steers at 10.00@10.50, and a load thin Mexican feeders went out to pastures at 6.50. Sales heifers sold at the same figure late Tuesday. Two loads light Arizona feeder steers also cashed late Tuesday at 6.75.

Two loads intermountain heifers, one load carrying a few young cows, realized 8.85. A load good 1130-pound intermountain cows made 8.50 and two loads 1025 pound averages, 8.10@8.35. The bulk trucked-in heifers sold at the common downward to 6.50 and low cutters 5.50@6.25. Bulls were in light supply with odd head lots common and medium at 6.25@7.85.

CALVES—Values were firm on the light supply. Odd head milk veals reached 14.00 and a part load 225-pound averages 13.00. A few part loads common and medium southwesterns made 10.25@10.75, this spread including some lots to the country. Culls and weighty kinds sold downward to 8.00.

HOGS—A brisk demand resulted in a prompt clearance at 30@40c higher values. Four loads 180 to 192-pound Nebraska butchers topped at 11.00, with three loads 165 to 197-pound Utah and Nebraskas 10.75@10.85, and 130-pound pigs, 10.00. Packing sows were scarce and quotably steady.

SHEEP—Receipts consisted of a truckload 109-pound mixed lambs and yearlings at 9.75. Quotations were nominally unchanged.

YESTERDAY'S QUOTATIONS

Slaughter cattle and calves: Steers, 800 pounds up, medium, 10.65@11.65; common, 7.90@10.65. Heifers, 850 pounds down, good, 8.75@9.75; common and medium, 6.25@8.75. Cows, good, 8.25@8.75; common and medium, 6.00@8.25; low cutters and cutters, 2.50@6.00. Bulls, yearlings excluded, good beef, 7.75@8.25; cutter to medium, 5.75@7.75. Calves, 500 pounds down, medium to choice, 10.50@13.50; cull and common, 7.50@10.50. Feeder steers, medium, 11.50@12.50; cull and common, 8.50@11.50.

Hogs, 250 pounds down, medium, 10.75@11.00; good and choice, 10.85@11.00; packing sows, rough and smooth, 7.50@8.25. Slaughter pigs, 90 to 130 pounds, good to choice, 8.35@9.85. (Sept. or above quotations.)

Slaughter sheep and lambs: Lambs, 84 pounds down, good and choice, 11.50@12.25; 92 pounds down, medium, 10.50@11.50; all weights, common, 9.00@10.50. Ewes, 120 pounds down, medium to choice, 5.00@6.50; all weights, cull and common, 2.25@5.00.

OUTSIDE MARKETS

SOUTH SAN FRANCISCO, Dec. 26. (AP)—Hogs, 800; barely steady; 165-pound Idahos, 10.25; 180 to 185-pound California, 10.00@10.10; packing sows, 8.25@8.50.

Cattle, 135; about steady; 1050-pound steers, 10.50; medium, 825-pound cows, 8.50; odd heifers, 8.25; good 940-pound cows, 8.50; dairy cows, 5.50@7.25; cutters, 3.50@4.50; odd bulls, 7.00@7.25.

Calves, none; choice veals quoted 13.50; choice wooled quoted to 11.75; good ewes and yearlings absent.

CHICAGO, Dec. 26.—Hogs, 25,000; 10@15c higher; 250 to 300 pounds, 9.90@10.00; 180 to 250 pounds, 9.90@10.00; packing sows, 8.15@8.60; pigs, 8.75@9.85.

Cattle, 12,000; calves, 2000; generally lower; 1300 to 1500 pounds, 12.50@15.50; 950 to 1100 pounds, 12.50@15.50; yearlings, 750 to 950 pounds, 11.75@14.25; heifers, 850 pounds down, 9.75@14.25; cows, 6.25@10.75; cutters, 4.50@6.40; bulls, 6.75@8.75; veal calves, 9.00@17.00; stocker and feeder steers, 10.50@12.75.

Sheep, 4000; active, steady; fat lambs, 13.50@14.00; fat ewes, 5.00@8.50; feeding lambs quotably steady; lambs, 90 pounds down, 12.25@13.50; ewes, 4.50@6.00; feeder lambs, 11.00@12.00.

DENVER, Dec. 26.—Sheep, 1200; no early sales; asking sharply higher or around 12.75 for fed wooled lambs.

Hogs, 2000; fairly active, strong to 10c higher; 170 to 240 pounds, 9.60@9.75; packing sows, 7.50@8.25.

Cattle, 800; steady; heifers, 10.25@10.85; cows, 6.50@8.00; practical top veals, 11.00; bulls, 6.50@8.00.

OMAHA, Dec. 26.—Hogs, 7000; slow, uneven; early top, 9.40; later top, 9.35; bulk 180 pounds down, 9.10@9.25; packing sows, 8.15@8.35.

Cattle, 4500; fed steers and yearlings uneven; fed steers and yearlings 11.00@12.00; practical top veals, 12.50; few stock steers, 10.00@11.00.

Sheep, 6500; sheep and feeders steady; bulk fed wooled lambs, 12.75@13.40; shippers up, 13.50; best slaughter ewes, 6.00; early sales feeding lambs, 12.25 down.

SOUTH ST. PAUL, Dec. 26.—Cattle, 1700; steady; 1221 pounds, 11.60; cows, 6.75; heifers, 7.75@9.00; cutters, 4.75@5.75; bulls, 8.25 down; stockers and feeders scarce, steady; calves, 800; 12.00@14.50.

Hogs, 8000; baut steady; 9.40 for lights and butchers; packing sows, 8.25 and better.

Sheep, 1600; strong, asking sharply higher, or around 14.00 on fed lambs; fat ewes, 6.50; 107-pound yearlings, 10.60.

KANSAS CITY, Dec. 26.—Hogs, 400; 10@15c lower; 170 to 270 pounds, 9.40@9.55; packing sows, 7.85@8.35.

Cattle, 6500; slow, steady to 25c lower; fed steers, 10.75@13.00; yearlings, 12.50; heifers, 10.00@12.00; cows, 6.75@8.25; Texas bulls, 8.00; vealers, 12.50 down.

PORTLAND, Dec. 26.—Cattle and calves taking mostly steady; cattle, 50; calves, 10.

Hogs, quotably steady; 850.

Sheep and lambs, quite quotably steady; 50.

ST. JOSEPH, Dec. 26.—Hogs, fairly active early, 5@15c higher, mostly 10c higher than Tuesday's average; closing quality 160 to 300 pounds, 9.40@9.60; sows, mostly strong; maiority, 8.00@8.50; stock pigs scarce; average cost Tuesday, 9.18; weight, 231 pounds.

Cattle, 1900; steers 25c lower at 11.00@11.40; heifers, 11.50; beef cows, 6.50 cutters, 4.50@5.75; medium bulls, 8.50@7.50; veal top, 13.50; stockers carrying considerable flesh, 11.65.

Sheep, 4000; around 25c higher; fed wooled skins, 13.25@13.45; native lambs, 12.25; fat ewes quotable up to 8.00.

PRODUCE MARKET

(United States Bureau of Markets)

Trading was very dull on yesterday morning's market with limited receipts of fresh stock. Most buyers bought in small quantities to replace stock which they had on hand. Prices held about steady, as there was not enough movement to materially change the market. Apples steady. Kentucky Wonder beans higher. Cauliflower steady. Citrus prices unchanged. Sweet potatoes steady. Tomatoes light, with good demand on best stock.

APPLES—Watsonville, pound, Bellflowers, 4½@5; Newtowns, 4½@4¾; Winter Bananas, 5@5½; best, 6½; Romes, 4½@5; Idaho, boxed, Jon

Whisky Rebellion Defense Scores Federal Morals

COEUR D'ALENE (Idaho) Dec. 26. (AP)—Defense witnesses in the so-called "Mullan whisky rebellion," trial sought today to embarrass the Federal government's case by attacks on prohibition investigators' morals.

The defense called a number of business men and others who testified that the reputations of M. D. Needham and Anthony McGill, two of the government's chief witnesses, were "very bad" with regard to "truth and veracity." Much of the government's picture of liquor, gambling and vice conditions was painted by these two witnesses.

Other witnesses charged that government investigators, particularly D. B. Rogers and Richard Cooper, "on several occasions" were so drunk that they had to be put to bed.

Auto Road Speed Record Broken

PHOENIX, Dec. 26. (AP)—Driving a stock model automobile, Ab Jenkins, cross-country speed driver, today established an unofficial record of 7h. 44m. between Los Angeles and Phoenix, a distance of approximately 400 miles. The route traveled was via Blythe.

The previous record of 8h. 37m. was set by Cannonball Baker.

PARACHUTE JUMP BY POLICE CHIEF BARRED

OAKLAND, Dec. 26. (Exclusive)—Ambition of Chief of Police Marshall to leap 5000 feet from an airplane tomorrow "for the thrill of a parachute jump" suffered a setback tonight. C. C. Young, Commissioner of Health and Safety, ordered the attempt abandoned on the ground that Chief is too valuable to the city to risk his life unnecessarily.

THE WEATHER
[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Dec. 26.—[Reported by H. B. Hersey, Meteorologist.] At 5 o'clock a.m. the barometer registered 30.10; at 5 p.m., 30.08. Thermometer for the corresponding hours showed 55 deg. and 67 deg. Relative humidity, 5 a.m., 23 per cent; 5 p.m., 39 per cent. Wind, 5 a.m., northeast, velocity 5 miles; 5 p.m., west, velocity 5 miles. Temperatures, highest, 77 deg.; lowest, 50 deg. Rainfall for season, .32 of an inch; normal to date, 4.26 inches; last season to date, 4.66 inches. Barometer reduced to sea level.

WEATHER CONDITIONS.—Dec. 26: Snow flurries have occurred during the past twenty-four hours in the Upper Ohio Valley and the eastern lake region and in Montana, and light rain has fallen on the Oregon and Washington coast. The temperature has risen rapidly in the Plains States and in the Middle and Upper Mississippi Valley, but it is still very cold in the Eastern Gulf and South Atlantic States. In Southern California clear, moderately warm weather prevailed yesterday. It was clear this morning at all stations, with temperatures generally a little below normal. Fair weather will continue in Los Angeles and vicinity Friday, with moderate temperature and low humidity.

SUN, MOON AND TIDES.—Los Angeles Dec. 27: Sun rises 6:57 a.m., sets 4:51 p.m. Moon rises 4:09 a.m., sets 2:23 p.m. Los Angeles Harbor, Dec. 27: High tides, 6:46 a.m. and 8:23 p.m.; low tides, 12:17 a.m. and 2:11 p.m.

LOCAL TEMPERATURES. — Dec. 26: Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations—	Max.	Min.
Imperial	72	36
Los Angeles Harbor	70	47
Mt. Wilson	66	46
Pasadena	75	42
Pomona	74	37
Porterville	64	27
Redlands	76	40
Riverside	76	34
San Bernardino	72	37
Santa Ana	78	32
Santa Barbara	77	38
Sierra Madre	76	53

LOCAL FORECAST

For Los Angeles and vicinity: Fair and mild Friday and Saturday.

FLYING WEATHER REPORT
(Courtesy Grand Central Air Terminal)

Los Angeles to San Francisco: Clear skies over and south of Tehachapi; ground fog over San Joaquin Valley and bay region; gentle to moderate northerly winds aloft.

Los Angeles to Las Vegas: Clear skies; gentle to moderate northeasterly winds aloft.

Los Angeles to Aubuquerque: Clear skies; moderate northerly winds aloft.

STATE FORECAST

SAN FRANCISCO, Dec. 26. — Weather forecast:

San Francisco and vicinity: Fair and mild Friday and Saturday, but with fog in the morning; gentle north to east winds.

Northern California: Fair Friday and Saturday; valley fog and frosts in the morning; gentle variable winds.

Sacramento, Santa Clara and San Joaquin Valleys: Fair and mild Friday and Saturday; fog and frosts in the morning; light variable winds.

Southern California: Fair and mild Friday and Saturday; low humidity and increasing fire hazard; moderate northeast winds.

Nevada: Generally fair Friday and probably Saturday; colder at night.

ARIZONA FORECAST

PHOENIX (Ariz.) Dec. 26.—Forecast for Arizona: Friday and Saturday fair; little change in temperature.

COLORADO RIVER

YUMA (Ariz.) Dec. 26.—[Exclusive Dispatch from the U. S. Reclamation Service.] Gauge height Colorado River, 17.96 feet. Discharge, Thursday, 5790 cubic feet.

Services today at 10 a.m. at the Bramble Funeral Church, 1816 South Toberman. Interment, Riverside.

GARSON, December 26, at 3504 Downing street, Glendale, Maurice M. Garson, beloved husband of Bettz Garson and loving father of L. M. Garson of Pittsburgh, Pa.
Services Saturday, December 28, at 11 a.m., from the Little Church of the Flowers, Forest Lawn Cemetery, under auspices of Glendale B. P. O. Elks, No. 1289. Pierce Brothers, directors.

GERISCHER, Carl F., late of 1136 West Seventy-third street, loving husband of Emma Gerischer and father of Helen Cato and Ernest and Harry Gerischer.
Services will be held Saturday at 1:30 p.m. from the chapel of the Southwest Funeral Home, Ninety-fourth and Vermont.

GILBERT, December 25, at 3707 Monticalr street, Henry J. Gilbert, aged 63 years, beloved husband of Annie M. Gilbert and father of Mrs. Dagmar Jackson, Mrs. Frank D. Cruse, Mrs. William K. La Roque and William H. Gilbert.
Services will be held Saturday afternoon at 2 o'clock in Garrett Brothers' Mortuary, 921 Venice Boulevard.

GILMORE, Funeral services for Mrs. Margaret H. Gilmore, wife of Charles F. Gilmore, who died December 23 in Sierra Madre, will be held at 10 a.m. Saturday at the Hartzell Methodist Episcopal Church, 2460 East Colorado street, Lomanda Park. Interment, Inglewood Cemetery. Turner & Stevens Co., Pasadena, directors.

GOTTSTEIN, A. B. Gottstein.
Services today at 2 p.m. at the Glasband & Groman Mortuary, 901 West Washington street.

GRIFFIN, At Seattle, Wash., John J. Griffin.
Notice of funeral later by Pierce Brothers.

HAMILTON, At Van Nuys, Cal., Andrew Porter Hamilton, beloved husband of Mrs. Minerva Jane Hamilton of Van Nuys and father of Mrs. Agnes Morel and Cloide Hamilton of Los Angeles, Sylvester W. and John Hamilton of Richmond, Ind.
Funeral services Saturday at 10 a.m. from St. Elizabeth's Church, Cedros and Kittridge avenues, Van Nuys. Cal. Interment, Calvary Cemetery. W. A. Brown, funeral director.

HANLAN, The funeral of James Hanlan will be held from Mercy Home chapel, 4069 West Washington street, Saturday at 7 a.m. The White Co., directors.

HICKS, Mary Anna Hicks of 2328 South Hope street.
Services Saturday at 2 p.m. from the Jones, Andrist & Martiz Mortuary, 717 West Washington street.

HOUSE, Louise Matthews House, at the residence, 1257 North Berendo, beloved wife of Melancthon House; loving mother of Edna MacNichol, Gladys Simpson, Gus L. and Elliott M. House.
Funeral services private. O'Donnell Sunset Mortuary, 8814 Sunset Boulevard, in charge.

HUDSON, December 25, Ruth Frances Hudson.
Strictly private services today at 3 p.m from the Washington Undertaking Co., 739 West Washington street.

HULL, Mary Edda Hull, mother of Edgar G. Hull, Mrs. E. C. Harrell, Georgia Hull, Mrs. S. M. Bernard and Le Roy L. Hull.
Funeral services Saturday at 2 p.m. in the chapel of Clark F. & Alice Mead, 6231 West Washington street.

HUTCHINGS, December 25, Marie Hutchings, beloved sister of Mrs. Harry Furry, Howard L. and Earl M. Stilwell.
Services today at 2 p.m. from Pierce Brothers' chapel. Interment, San Bernardino.

INSLEE, Edward P. Inslee.
Funeral services Saturday, December 28, at 10 a.m., from the Los Angeles Crematory chapel, Sixteenth and Catalina streets. Peterson & Duckworth, directors.

JACKSON, Emily Sarah Jackson, late of 1162 West Seventy-third street.
Services will be held today at 10 a.m. from Grace Memorial Church, Seventy-eighth and Figueroa. Southwest Funeral Home in charge.

KARNS, At 2432 East Hope street, Walnut Park, Mary Bell Karns.
Funeral services Saturday at 2 p.m. from the chapel of Graham & Isbell, 916 West Washington street.

LANDRY, December 26, at 212 West Sixty-first street, Catherine A. Landry, aunt of Dr. Olive A. Balzhiser and Mrs. F. F. Wadman.
Funeral services Saturday at 2 p.m. from the chapel of Wittler Brothers, Inc., 8500 Long Beach Boulevard, South Gate. Interment, Odd Fellows Cemetery.

LE MAIRE, Services for Louise Blanch Le Maire will be held today at 2 p.m. from Ruppe Mortuary, 950 West Washington street.

LINNEY, Mrs. Cora Linney.
Remains at the chapel of W. A. Brown, 1815 South Flower street.

LOYE, Christian Loye, husband of Louisa Loye; father of Fred, Arthur E. and Edward Loye, and brother of James L. and Albert H. Loye and Hilda Barnes.
Services Friday at 2 p.m. from the Le Roy Bazley Mortuary, 5440 Hollywood Boulevard. Interment, Hollywood Cemetery. (Aconomowoc, Wis., papers please copy.)

LUCE, Mrs. Eva Luce.
Funeral December 28 at 9:30 a.m. from the chapel of Gus Alvarez & Moore, corner North Olive and Court street.

MARAUS, Catherine Maraus, devoted wife of Edwin Maraus and sister of Rogers Haggerty of Boston, Mass.
Rosary this evening at 8 o'clock at the parlors of L. J. Uter Co., 4254 South Broadway. Mass Saturday at 10 a.m. from the Church of the Nativity.

McGAVRAN, Accidentally, Ellen McGavran, late of 637 East Twenty-third street, aged 74 years, loving mother of Clarence H. McGavran of this city and Mrs. J. F. Serowinsky of Venice.
Services Saturday, 2 p.m., at H. B. McCormick's funeral chapel, 4100 Central avenue.

MEDICUS, Mrs. Anna L. Medicus, beloved wife of Charles F. Medicus of 333 South Figueroa; mother of Charles W. and Fred E. Medicus.
Funeral services Saturday at 10 a.m. from the chapel of W. A. Brown, 1815 South Flower street.

MONTEZ, Jose Montez.
Funeral today at 2 p.m. from Plaza Church. Gus Alvarez & Moore, directors.

MORIN, The funeral of Evelyn Morin will be held from The White Co., 864 West Washington street, Saturday at 8 a.m. Requiem mass at St. Francis of Assisi Church at 9 o'clock.

MULVANE, December 26, Joab Mulvane. Remains at Bresee Brothers.

NEISSER, December 26, Otto Neisser, beloved husband of Hattie Neisser; loving father of Edward and Otto Neisser, Jr.; brother of Bernard Neisser of San Francisco, Alice and Otea Neisser and Mrs. Blanche Pahlen of Los Angeles.
Funeral at Hollywood Chapel Friday at 3:30 p.m. Bresee Brothers, directors. (San Francisco papers please copy.)

NOONAN, William Noonan.
Remains at the chapel of W. A. Brown, 1815 South Flower street.

ANTAGES FIGHT TO BE LENGTHY

Two of Fourteen Doctor Witnesses Testify

...ing of Plea for Release ...Bond Occupies Court

...May Demand Short ...Stay in Hospital

...ith only two of the fourteen ...ctors ready to give expert tes... ...ony committed by the time court ...ssed last night, hearing on ...ester Pantages's plea to be re... ...d from jail on bail, which ...ed in Superior Judge Fricke's ...t at 2 p.m. yesterday, last ...ok the aspect of a lengthy ...

...The hearing will be resumed at ...0 today and the issue is not ...ected to be decided before to... ...ow or Monday morning. From ...nature of the questioning of the ...ses it is indicated that Chief ...ty District-Attorney Stewart ...ably will suggest that instead of ...owing bail that Pantages be re... ...ed to a private hospital for ...ervision until he recovers suffi... ...ly to stand the rigors of jail ...confinement.

...The first witness called to the ...d yesterday was Dr. Benjamin ...l, County Jail physician. Dr. ...l testified with the aid of the ...ail hospital records and reported ...conditions when he examined ...ages while the latter was suf... ...ing from a heart attack. Exam... ...ed the physician asserted ...ad a heart lesion and some ...

WORRY BLAMED

...Pantages now is critically ill and ...on the verge of a nervous break... ...Dr. Blank testified in re... ...ply to questions from the de... ...ense counsel. "I do not believe ...he can get proper treatment ...in the County Jail."

...Dr. Charles W. Decker, called by ...the District Attorney's office, fol... ...lowed Dr. Blank on the stand. He ...stated that he had examined ...Pantages within the past few days ...and found no serious organic trou... ...ble. He said that the theater man's ...heart was enlarged slightly and that ...he detected a "heart murmur," but ...that condition in itself is not se...

...Dr. Decker stated that it is his ...opinion that Pantages's condition, ...which he admitted shows real de... ...terioration during the past few ...months, is due largely to worry ...rather than from any pathological ...cause.

...He repeatedly told me that he ...feared that he was going to die in ...jail," testified the physician. "I be... ...lieve that if he were assured that ...there was a remote possibility that it ...might help him."

SURPRISE SPRUNG

...Dr. Decker sprang something of a ...surprise when he declared that he ...knew that Pantages is 65 or more ...years of age.

..."He has given his age as 54," ...said Dr. Decker, "but ...told me he was born in Greece ...and has a hazy remembrance ...of parents and other facts that ...would establish his birthday. We ...know by experience that many of ...these countries do not keep authen... ...tic records of vital statistics. My ...opinion of his age is based upon ...my physical examination I made of ...him."

...Dr. Decker still was on the stand ...when court adjourned.

...Pantages reported still in the jail ...hospital from the effects of his lat... ...est attack, and was not taken into ...court. He was well represented, however, by four attorneys, Le ...Roy Davis, Jerry Geisler, W. I. ...Gilbert and Earl Daniels, in addi... ...tion to eight doctors ready to testi... ...fy in his behalf. Also watching the ...proceedings were Pantages's two ...brothers, Alex and Rodney, and daugh... ...ter Carmen Pantages.

...The prosecution has five doctors ...on the list of witnesses, of which Dr. ...Decker was the first. The others ...are to be called to testify today. Affi... ...davits already have been presented ...to the court from the eight defense ...witnesses and testimony will not be ...received from them unless Chief ...Deputy Dist.-Atty. Stewart elects to ...call them for cross-examination.

HIS ILLNESS DUE TO WORRY, DOCTOR SAYS

PRESS WINS HIGH PRAISE FROM JURIST

Henning Says Newspapers Do Service in Informing Public of Court Affairs

Modern newspapers are representatives of the people of the United States and, as such, are entitled to all consideration possible in giving news to the public, it was emphatically stated from the bench yesterday by United States District Judge Edward J. Henning upon the eve of his retirement from the Federal judgeship. Judge Henning announced Monday that he had sent his resignation to President Hoover and that he intends to enter the private practice of law in New York, but that his legal residence will be San Diego.

UNITED STATES DISTRICT JUDGE HENNING

Judge Henning was assistant Secretary of Labor from 1921 to 1925. In 1925 he was appointed United States district judge for the southern district of California. In part, Judge Henning's statement from the bench was as follows:

"The Constitution provides that one charged with crime shall have a speedy and public trial. The provision for the presence of the public in a criminal trial is based, of course, on sound philosophy. The founders had in mind the presence of the public in large numbers at a trial because they could not possibly imagine, when a monthly newspaper was a novelty, that the day would ever come when someone would publish a newspaper every day in the week. Today the newspaper supplies the requirements of the Constitution for a public trial.

"I want to express my appreciation of the gentlemen of the press who, during my years on the bench,

(Continued on Page 2, Column 6)

REPORT READY ON AQUEDUCT

Board of Review Will File Recommendations Today

Three or Four Routes Likely to Receive Approval

Engineers' Trio Has Studied Fifty-six Possibilities

That the engineering board of review retained by the Metropolitan Water District to select the best possible route for the Colorado River aqueduct will file its report with the district board of directors at today's session of the board was the announcement made yesterday by Chairman Whitsett.

Whitsett pointed out that the contents of the report will be made public today when it is officially filed with the district board of directors. In view of the fact that the Colorado River aqueduct is expected to deliver enough water to the cities of Southern California to meet the domestic water needs of 7,500,000 additional people, and is rated as by far the most gigantic domestic - water project ever launched in the world, considerable interest has been evidenced in the findings of the engineering board of review.

FIFTY-SIX STUDIED

It is not known definitely whether the engineers will recommend one particular route in preference to all other possible routes. However, it is believed that the report will recommend in favor of three or four possible routes out of a total of fifty-six studied.

Additional data and geological findings, it is expected, will be requested by the board of review upon the route or routes favored before a final recommendation is submitted.

The three members of the board of review are A. J. Wiley, a consulting engineer of international experience and a resident of Boise, Idaho; Thaddeus Merriman, chief engineer of the New York City water supply and distribution system, and Richard R. Lyman, a consulting engineer of Salt Lake City, Utah.

MONTH DEVOTED TO TASK

The report of the three engineers follows a month's intense study of the problem on the ground. The Engineers arrived in Los Angeles November 25, and immediately plunged into an investigation of the aqueduct route problem.

In the course of this investigation they have traveled more than 4000 miles by automobile and on pack animals in studying numerous proposed diversion points on the Colorado River and important sections of the various routes taken into consideration.

Fifty-six possible routes were submitted to the board of review by Chief Engineer Weymouth when that board commenced its studies. The detailed engineering data in connection with each of these routes have been painstakingly collected by field surveys that have been carried forward continuously during the past six years.

In the course of making these surveys Weymouth's engineers have charted a total of more than 50,000 square miles of territory, Mr. Whitsett stated yesterday.

INTAKE POINTS VISITED

In reviewing this great mass of engineering data, Wiley, Merriman and Lyman have visited and inspected possible aqueduct intake points at Bridge Canyon, Black Canyon, Bulls Head, Parker, Blythe and Picacho.

Several of the routes studied by the board would bring the water in by gravity; most of the projected lines would involve some pumping. The gravity lines, the field surveys have revealed, would in every instance involve greater initial construction cost; the pump routes would involve pumping costs. The balancing of these two costs, one against the other, and the consideration of a great mass of physical difficulties standing in the way of many of the proposed routes is the vitally important task faced by the board of review, Whitsett stated.

The members of the board of review actually finished dictating their report Tuesday and immediately left Los Angeles for their homes, Whitsett announced yesterday.

KOSLOFF TO LECTURE

Alexander Kosloff, Russian pianist, tonight will tell of "New Year's Day in Old Russia," accompanying his talk with native folksongs of the season, at the downtown branch of the Y.M.C.A.

CHRIST PLAY SERVICE PLANNED

Program to Be Given in Amphitheater

Looking Over the Ruins

Mrs. Robert J. Burdette and George L. Eastman. Mrs. Burdette is chairman of the committee to raise funds for the new theater.

NEW ATTACK DIRECTED AT ROCK PLANT

Pacific Palisades Citizen Gives Five Reasons for His Opposition to Bell Plan

Arthur C. Logan, president of Pacific Palisades, yesterday filed with the City Council his formal protest against granting to Alphonzo Bell his request for a permit to construct a rock-crushing and quarrying mill in the Santa Monica Mountains, and announced his intention of appearing, along with scores of other property owners, when the Council conducts its hearing on the matter January 9.

Logan sets forth five reasons for denying the permit. They are that the permit will cause property owners to lose confidence in the assurance given by the zoning laws; because this permit will encourage others to ask for industrial permits; because the possibility of establishing this plant already has depreciated values and the granting will further lower values; because hardship will accrue to those who already have invested for residential purposes; because trucking and blasting will constitute a nuisance, and the plant will introduce the problem of low-class labor.

Salvation Army Santa Host to 3000 Children

More than 3000 poor children of Los Angeles received gifts of dolls, toys and candy last night, when the Salvation Army Santa Claus was host at a Christmas party in the auditorium of Polytechnic High School.

The number was about 500 more than had been expected. It was announced by Brig. J. C. Bell, who, with Adjutant Doctor, was in charge of the affair. However, the supply was ample and there were a few presents left over when all had been supplied. More than a dozen men and women were kept busy handing out the gifts and the task required nearly two hours to accomplish as the throng marched past in single file.

ORDERS were issued yesterday for the clearing of debris from the burned area of the Pilgrimage Play amphitheater preparatory to a restoration service program on the site Sunday, January 5. President George L. Eastman of the Pilgrimage Play Association announced that the canyon will be cleared and cleaned up to accommodate at least 10,000 persons who are expected to attend this service.

The service is in charge of Mrs. J. J. Carter and will be free to the public. According to Mrs. Carter, several world-famed artists will contribute their services to this event. The names of the artists will be announced in a few days.

The Pilgrimage Play amphitheater, at the junction of Cahuenga and Highland avenues, just across from Hollywood Bowl, was burned to the ground October 24, when a brush fire swept the hills in that section. Unless work on reconstruction gets under way by February 1, the summer season will be interrupted for the first time in eleven years.

EXTENSION OF BUS LINE APPROVED

Utilities Board Sanctions Entry Into New Territory by San Pedro Company

Extension of the San Pedro Motor Bus Company's La Rambla line in San Pedro was approved yesterday by the Board of Public Utilities and Transportation. Felician Landier, operator of the line, explained it is his desire to improve the service in the district designated as territory to be developed.

The extension is to be from the present terminus to the intersection of Bandini and Sepulveda streets, to operate on Sepulveda to Paton street, southerly on the latter to Santa Cruz street, easterly on Santa Cruz to Hanford street, northerly on Hanford to Sepulveda and Bandini, there tying in with the present operation of the La Rambla bus line.

Applications by the San Pedro Motor Bus Company to extend the

ROSE FESTIVAL MARKS TO FALL

Record Throng Scheduled to Invade Pasadena

Rail Agents' Reports Give Idea of Size of Influx

Tickets for New Year's Day Grid Game Sold Out

By a "Times" Staff Correspondent

PASADENA, Dec. 26.—This city will be host to the greatest throng ever entertained within its boundaries on New Year's Day, it was stated today when reports were received from railroad agents and city officials in other States indicating that twice as many persons will journey here to witness the Tournament of Roses fete as in any previous year.

Twelve special trains will arrive in Pasadena the day before the festival, and the total number of special and private cars attached to regular trains will be more than thirty, it was announced today by Southern Pacific Santa Fe and Union Pacific officials.

GRID SQUAD EN ROUTE

The first "Tournament of Roses Special," bearing the Pittsburgh football squad, which will battle U.S.C. in the Rose Bowl following the floral parade, and 300 rooters, now is en route. It will arrive here over the Southern Pacific on Monday, after making stops at St. Louis, Dallas, El Paso and Tucson, where the players will hold practice scrimmages.

The big Tournament of Roses special will arrive at 8:40 a.m. on Tuesday, over the Santa Fe, and will bring Chicagoans and other easterners who wish to make a quick trip to see the famous pageant. Another Santa Fe train will carry San Diego Army and Navy Academy students and a third special train will run from Santa Ana for the convenience of Orange county residents.

OFFICIAL ARRIVALS

Mayor Rolph of San Francisco, who will serve as grand marshal of the parade, will arrive in a special car on Tuesday and Gov. Young and party have chartered a spacial car which will arrive on the morning of New Year's Day.

Union Pacific trains are running in extra sections due to the rush of easterners to arrive here in time for the event.

C. Hal Reynolds, Tournament of Roses Association president, and Herlan W Hall association manager, informed a long line of football ticket applicants this afternoon that, "there is not a ticket in sight even for our best friends and assistants." Hall asserted that the association is short forty-five tickets for parade officials, alone.

PACIFIC ELECTRIC PREPARES FOR RUSH

Prepared to transport 50,000 persons to Pasadena on New Year's Day, the Pacific Electric yesterday announced plans for handling the Tournament of Roses throngs. The announcement was made by D. W. Pontius, president of the railway.

Beginning early New Year's Day three-car trains will leave the Sixth and Main-street station at two-minute intervals, continuing throughout the rush period. Special trains, direct to Pasadena without change, are scheduled from practically every point on the system. Twelve special through trains from Long Beach, and three each from Santa Monica Bay district and Hollywood, are among the service arranged.

Beginning at noon three-car trains will operate without change direct to the football stadium, where the Pittsburgh-Southern California football classic will be played. After the parade many extra local cars in Pasadena will be run to the stadium for the accommodation of football fans, and also after the game.

D. W. Pontius, president, stated that the same plans that were used last year, resulting in unusually expeditious service, again will be in effect. The movement last year was accomplished with a minimum of delay. Three hundred and fifty cars are available to handle this year's throngs. A rehearsal of details of the plans has been undergone by operating forces during the past two weeks in order that the increasing number of travelers may be handled with the utmost dispatch.

HILL EMPLOYMENT APPROVED

City Attorney Werner yesterday filed with the City Council his approval of the employment of Clarence S. Hill to assist in water-rights litigation involving the city.

CHOICE OF PORTER FOR BOARD VACANCY

Edgar A. Elkins

ELKINS MAY FILL PLACE OF DELOREY

Ex-Army Captain Named for Board of Public Works by Mayor Porter

Mayor Porter yesterday sent to the City Council the nomination of Edgar A. Elkins as a member of the Board of Public Works to fill the vacancy created by the ouster of E. J. Delorey. The Council referred the nomination to its Public Works Committee, with the probability of action thereon next Monday.

The nominee lives at 14356 Greenleaf street, Van Nuys, and maintains offices at 14406 Ventura Boulevard. He retired in 1922 as a captain of the United States Army and has resided since then in Los Angeles. He is engaged in the real estate and insurance business. He is married and has two children.

He enlisted in the Army in 1907 and was commissioned from the ranks. During the World War he served in the Philippines.

He is vice-chairman of the Van Nuys Bank of Italy, president of the Van Nuys Real Estate Board, director of the San Fernando branch of the Chamber of Commerce, and is a Shriner.

AUTO CRASH VICTIM WINS JUDGMENT

Woman Given $10,000 as Jury Rules Insurance Agent Defrauded Her

Because a jury decided that an insurance agent had obtained a settlement of a policy by fraud Mrs. Mary E. Moore obtained a verdict of $10,000 in Superior Judge Keetch's court yesterday.

Mrs. Moore was injured April 11, 1928, when an automobile driven by Horatio S. Davis overturned on Cajon Highway, near San Bernardino. While she was in the hospital, she asserts, the agent approached her, told her Davis had no insurance, and that she had better settle for $500. Acting on his advice, Mrs. Moore signed a release.

Later the agent was dismissed by his company, and in a spirit of resentment, it appeared, told her how his company had deceived her. So she sued for $25,000 damages, asserting fraud.

The Lancer

by Harry Carr

MISS GILDA GRAY'S emotional nature has again conquered her.

Her first husband, who was a Swede bartender, so lacerated her feelings that she had to learn to shimmy.

Her most recent husband so injured her spiritual nature that she is paying a purely platonic visit at the house of a sympathetic gentleman friend.

CRASHES

The only way I can account for the auto massacres of Christmas Day is that the people who drive the old cars want to show the mahouts of the new shining ones that go crawling cautiously that they are not so much, anyhow.

THE PRICE OF PEACE

The fascinating Mrs. Fogarty has withdrawn her suit for breach of promise against Gene Tunney; but I guess that the Fogarty family had a fairly opulent Christmas tree.

BACK TO THE FARM

A farm expert in Chicago says so many small business men have failed in the struggle against competition in the large cities a back-to-the-farm movement, will soon be witnessed.

He seems to leave out the fact that it takes a smart, shrewd business man to make any money out of a farm. Given the requisite amount of capital and sagacity, farm life offers the most satisfaction and contentment of any occupation open to a young man.

This is especially true in California, where the automobile, the radio, the telephone and the rural free delivery of mails has given to every farm all the advantages of city life.

A MANNER OF LIFE

In an older day every farmer was more or less of a success. The desertion of farms began when farmers began to think of farms as a means of making cash money. Their fathers and grandfathers thought of the farm as a place where they produced eggs and ham and bacon and milk to feed the family; and extra calves and hens to sell for the family's shoes and ribbons.

THE HOPI WAY

The Indians of the Southwest have, perhaps, solved the farm problem more successfully than any other people. They have endured droughts lasting twenty years; they have lived on, generation after generation—for 1000 years and more working the same land—yet not working it out.

Their system is to raise food enough for the immediate needs of their families. Their cash money is gained from craftsmanship in the fine arts—and from working as truckmen and laborers for white folks.

DRUNKEN AIRMEN

If one might inquire, just what is a drunken aviator—who has been refused a license by the Department of Commerce—doing up in the air with a plane? Do not licenses mean anything?

MISS MINTER TACITURN

Former Friend of William Desmond Taylor Refuses to Discuss Seven-Year-Old Slaying Mystery

Discussion or comment on the recent revival of the seven-year-old mysterious shooting of William Desmond Taylor, motion-picture director, is a forbidden topic as far as Mary Miles Minter, former film actress, is concerned.

Miss Minter declined to be interviewed or to talk in any way on the matter at her home yesterday, even though her mother, Mrs. Charlotte Shelby, has given her views on the asserted statement of former Gov. Richardson that the mystery of the death of Taylor has been solved.

"I have nothing to say, and will not discuss it," the former film star said.

In assuming this position Miss Minter, whose name was mentioned prominently during the long inquiry following the shooting, and who admitted a close friendship with the murdered man, has taken the same attitude toward the present flurry over the Taylor investigation as Dist.-Atty. Fitts. The District Attorney restated his position yesterday when he said: "I have no comment whatever to make on the case."

It was learned from other sources that there has been no attempt on the part of investigators from the District Attorney's office to locate Mrs. Shelby or her daughter. Neither is wanted for questioning and there is no activity at present in a revival of the attempts to solve the

NEW PARLEY HELD ON DAVIS

Mayor and Police Commissioners Confer on Plan to Oust Chief, City Hall Reports Say

Another conference with Mayor Porter in connection with the efforts of Police Commissioners Drake and Thorpe to remove Chief of Police Davis on the asserted grounds of "inefficiency" and "neglect of duty" was held yesterday, with Commissioners Thorpe, Drake, Coe and Wehn present.

While the Mayor and commissioners had nothing to report on the conference it was learned from sources close to the city's chief executive that the matter of finding some means of demoting the Chief, in order that the new administration may create a vacancy in the Chief's position and make its own selection for the job, again was discussed.

It was reported that from some legal source the group was informed that the Chief can be demoted under civil service. This was scouted by the city civil service department, however, with the explanation that such demotion was voted down by the people some years ago, when it was sought to pass a charter amendment allowing it. The plan was fought by civil service employees.

It is held that the only way the Chief can be demoted is for him to resign in order that he may be restored to the civil service eligible list rating he formerly held as inspector of detectives. Chief Davis, however, has opposed any such move on the ground that his record as Chief is the best evidence

Fidelity Savings Association Largest Beneficiary

Mary Pickford Scheduled to Get $10,163 Back

Persons and concerns in the sixth collection district of California to whom the government has allowed tax refunds for the fiscal year 1929 yesterday were made public by the Treasury Department in a report to Congress, according to dispatches from Washington.

The concern becoming the largest single beneficiary by reason of the refund is the Fidelity Savings and Loan Association of Los Angeles, which will receive $192,844. The lowest amount among those of more than $5000 is for $5018, which has been allowed the Pacific Employers' Insurance Company. Mary Pickford Fairbanks is listed for a refund of $10,163.

Names of those listed in the report for amounts exceeding $5000 follow:

Mrs. Lillian T. Adams, Los Angeles, $71?3.
Altadena Country Club Park, Pasadena, $6715.
Harold L. Arnold, Inc., Los Angeles, $5247.
Estate of Harriet Pillsbury Ayer (Pacific Southwest Trust and Savings Bank, A. W. Foreman, Alice P. Foreman, and Alice T. Pillsbury, executors) Pasadena, $5419.

F. S. Wheeler, Los Angeles, $7050.
Carl Withington, estate, Lyle Woodward Withington, executor, San Diego, $25,580.

CARNEGIE COMP..NY'S TAX REFNUD HIGHEST

WASHINGTON, Dec. 26. (Exclusive)—With a single income-tax refund of $25,847,269, the Carnegie Steel Company of New Jersey, a subsidiary of the United States Steel Corporation, stood highest on the list of 1929 erroneous tax collections sent to Congress today by the Treasury Department.

The Carnegie company refund, by far the largest made to any concern or individual, represented 13 per cent of a grand total of $190,000,000 which Uncle Sam handed back to the payers of income, estate, sales and other kinds of taxes during the twelve-month period ending June 30.

The second highest refund, $6,456,829, was made to the William Waldorf Astor trust of New York. The refund is based on court rulings overturning practices followed by the Treasury in assessing taxes over a period of years.

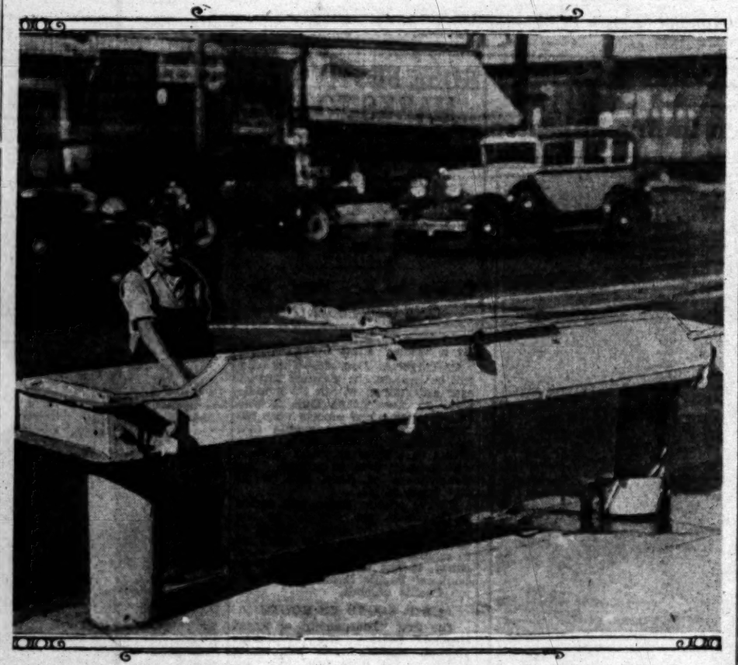
Among others who received refunds were John D. Rockefeller, New York, overtaxed $157,227, and Mary Pickford, Hollywood, who was refunded $10,163.

SET-BACK PROTESTS DENIED

The City Council yesterday denied all protests against the establishment of set-back lines in Mansfield avenue between Fountain and Lexington avenues, and in Bixby avenue from Weston to Two Hundred and Fifty-fifth street. Hearing of protests against the improvement of the Pickford-street and Verdun-avenue improvement district was continued until June 23.

OLD DOBBIN STILL HAS FILLING STATION

Water Trough Splashes Defiance at Motor Age



This Is Where Horses Have Drink on City
Gordon Hahn and the horse trough on South Broadway, near Slauson avenue.

IF ANYONE thinks horses no longer exist in Los Angeles but are to be regarded only as memories of the dead past, he has only to make inquiries of the City Council to learn that he is wrong. For there is a request on file with that body proving that, contrary to prevailing belief, the motor-car industry has not driven all Dobbins to the pastures.

The document, filed by the Board of Humane Commissioners, is an appeal for an appropriation of $105 to be used in transferring a horse trough now located on South Broadway near Slauson avenue to another point about 100 feet south on the same thoroughfare. The old animal service station presents a rare sight to newcomers in the neighborhood, surrounded as it is by automobiles, tire shops and gasoline pumps.

The board's request has been referred to the Finance Committee.

Prior Conviction Charged to Oil Theft Suspect

A previous conviction was asserted yesterday as part of the record of Jack Allen, president of the Racine Oil Company, when he was arraigned before Superior Judge Emmett Wilson for pleading to an indictment charging conspiracy. Allen was indicted on charges of grand theft, perjury and conspiracy in connection with asserted thefts of oil from a refinery. He had pleaded not guilty to the first two charges, and was arraigned yesterday on the conspiracy charge, in which he is named with Warren Black.

Dep. Dist.-Atty. Scheinman asked permission to amend the indictment and to file a prior conviction. He informed Judge Wilson that Allen was convicted in 1912 in St. Joseph, Mo., on a Mann Act charge, and that he was sentenced to Leavenworth prison. At that time, Scheinman said, Allen was known as Lucky Zabina. The motion was granted. Allen will be arraigned today on the amended indictment.

COUNCIL DROPS PLEA FOR MOTORCYCLES

The City Council yesterday dropped the request of the Police Commission for an appropriation of $4860 for new motorcycles, the commission having changed its mind and decided against motorcycles.

COLISEUM CONTRACT UNDER FIRE

Several Urge That City and County Take Control of Stadium for Olympics

The City Council yesterday opened the doors for an attack upon the proposed contract between the Community Development Association, the Sixth District Agricultural Association, the city and county, whereby the first named continues its supervision of the Coliseum during the Olympic Games in 1932 and through the year 1933.

Anthony Pratt, secretary of the Municipal League; A. J. Barnes, once a Councilman, and J. D. McCarthy spoke against executing the contract. Their remarks in the main were that the city and county should take over control of the Coliseum from the development association, which has run it since it was built.

None of the Councilmen took part in the discussion.

Next Monday the Council will consider an ordinance authorizing execution of the contract. Recently the Council appropriated $225,000 for improvements on the stadium, the allocation being contingent upon the execution of the contract.

LINDBERGHS DUE SOON IN LOS ANGELES

Noted Pair Scheduled to Hop Westward Today for Inspection Trip

Col. and Mrs. Charles A. Lindbergh are scheduled to leave this East today on the first leg of a flight to Los Angeles, reports last night from Valley Stream, N. Y., stated.

The noted couple have been expected here for several weeks following completion of their long-distance flying Lockheed monoplane, awaiting delivery to them at the Lockheed factory in Burbank.

J. L. Maddux, head of the western division of Transcontinental Air Transport-Maddux, said the Lindberghs are expected to stop at his home here during their visit.

Eastern reports said Col. Lindbergh, technical director of T.A.T., and Mrs. Lindbergh plan to visit San Francisco and Mexico on an inspection tour of the Maddux lines, recently merged with T.A.T.

It probably will be ten days before the Lindberghs arrive here, reports indicated.

MRS. WYMAN TO SHOW MANY RECIPES TODAY

Every housewife who enjoys trying unusual recipes will be especially interested in the menu at The Times' cooking school at 130 South Broadway today since a hominy corn bread and orange bread for toast are two very different breads from those usually served. Chef Wyman also is going to show the class how to prepare a full meal stuffed potato which is a most appetizing way to use left-over meats. A number of women have inquired about the preparation of the souffles which are served as desserts so Mrs. Wyman will prepare a lemon souffle which will make a delicious dessert and also will demonstrate the making of a coffee custard. The class will be held at 2 o'clock and everyone interested in good cooking is invited to be a guest of The Times.

BENT SPEAKS TODAY AT LIONS' LUNCHEON

Arthur S. Bent, past president of the Chamber of Commerce, will be the principal speaker at the weekly luncheon of the Los Angeles Lions' Club in the Biltmore at noon today. President Glass will preside.

HUSBAND JAILED IN QUIZ ON SHOT

Wife of Tortilla Maker May Die From Wound

She Declares Burglar Fired While She Slept

Woman's Foster Father Held as Material Witness

Discounting the theory that Mrs. Juana Ramirez, 27 years of age, wife of a tortilla manufacturer, was shot by a burglar while she was asleep in her home at 220 West Ann street yesterday morning, police later in the day arrested her husband, Ernesto Ramirez, on suspicion of assault with a deadly weapon with intent to commit murder.

Francisco Valdez, the woman's foster father, is held as a material witness. Valdez, according to Detectives Torres and Underwood lives near by.

Mrs. Ramirez, with a bullet wound in the back, was said to be in a serious condition at the General Hospital.

Both Mrs. Ramirez and her husband told similar stories of the shooting. The latter stated, according to police, that he returned to his home about 4 a.m. after visiting his tortilla factory at 149 West Elmyra street to find several women factory workers with his wife. She said she had been shot while she was asleep and did not know identity of her assailant.

Reconstructing the scene detectives said they believe the husband did the shooting after an altercation which involved another man.

HUSBAND OF SLAIN NEGRO MAID SOUGHT

Following the murder of Mrs. Eleanor Watson, negro maid in the home of Francis E. Faragoh, cinema director, at 1541 Holly Vista Drive late Christmas night, police yesterday were conducting a search for her husband, John Watson.

The latter, according to police reports, visited the Faragoh residence late Wednesday night. Mr. and Mrs. Joseph Faragoh, parents of the director, were alone in the house with Mrs. Watson. Apprised of her husband's arrival and fearing death the maid asked the Faragohs to try to keep the husband away and fled to a bathroom in which she locked herself. Watson, the reports stated, threatened to kill the Faragohs if they interfered, followed his wife and broke down the bathroom door. Two shots then were heard.

A few moments later Watson was seen fleeing from the residence and Mrs. Watson was found dead with a bullet wound in the body and another in the left hand.

Watson is charged with murder in a complaint issued late yesterday by Dep. Dist.-Atty. Grant Cooper.

DOCTOR HAS CLOSE CALL AS PRISONER

Physician Who Treated Suspect's Wounds Gets Suspended Sentence

Admitting that he failed to report promptly on treating Theodore J. Jerke, asserted bandit, for gunshot wounds, Dr. Jesse M. Threadgill, 10569 Kinnard avenue, Westwood, was sentenced to serve ninety days in jail by Municipal Judge Curtis yesterday. Judge Curtis suspended the sentence on condition that the physician observe the law in the future.

Detective Lieutenants James and Leslie charged Threadgill with failing to report his treatment of Jerke's wounds within twenty-four hours as required by a city ordinance. The officers said the asserted bandit persuaded the physician to keep his treatment secret, telling him he had been shot in a domestic row. Threadgill made his report when he read of the holdups in which Jerke is asserted to have participated, the officers declare. Jerke now is awaiting trial by Superior Court on robbery charges.

Remote Chance of Rain Within Fortnight Seen

Rain in two weeks is a remote possibility, according to Col. H. B. Hersey, forecaster of the United States Weather Bureau. A storm along the Alaska coast appeared in the offing, but this means little to Southern California unless the winds veer from the southwest to the northeast, it is asserted.

"We intended to make resolutions that would bring rain just before Christmas, but when the indications failed to bear out our hopes, we decided to wait until the first of the new year," said Col. Hersey yesterday. "Now that Christmas has passed we see no signs of making resolutions about bringing rain until about January 10."

At noon yesterday the temperature was 71 deg. and at 2 p.m. it was 77 deg. This compared with 82 deg. for 2 p.m. on the same day in 1928.

KIWANIS CLUB WILL INSTALL ITS OFFICERS

The installation of new officers for 1930 will take place at the regular meeting of the Los Angeles Kiwanis Club at the Biltmore today noon. President John P. D'Aule will preside and the immediate past-president, Dr. Ernest G. Bashor, will be master of ceremonies. Following is a list of the officers for the coming year; President, Wallace H. Austin; first vice-president, Ben G. Wright; second vice-president, Harry P. Petersmeyer; district trustee, Walter R. Sprinkel; directors, Joseph W. Brigance, Howard A. Campion, Frederick A. Hastings, H. Lewis Haynes, O. G. Lawton, Daniel L. Scott and J. Clark Sellers. Douglas Steade, tenor, will provide the musical entertainment.

PARK CHIEF LAUDS AIMS OF SURVEY

Hjelte Returns from Capital After Being Named on Hoover Subcommittee

A report expected to be stimulating to the development of physical education and recreation is being prepared by President Hoover's committee on child health and protection, according to a statement yesterday by Supt. George Hjelte to the Playground and Recreation Commission, following his return from the conference, held at Washington, D. C.

"The task of the committee," Hjelte stated, "will be to assemble information concerning the status of physical education and recreation throughout the nation, especially with reference to boys and girls under 18 years of age; to state what should constitute an adequate national program affecting these matters, and to set forth ways and means of putting such adequate program into effect. The committee expects to be occupied for nearly one year in the task."

Several subcommittees were formed and Hjelte was appointed to serve on one to study the needs of the entire group out of school hours, he reported. Other members include George Dickey, chairman; Dr. William Burdick of Baltimore and Lee Horner of the Russell Sage Foundation, New York.

Hjelte also made reports on the American Shore and Beach Preservation Association convention in Gulfport, Miss., and the annual meeting of the National Association of Amusement Parks in Chicago, which he attended while in the East.

YOUTH MUST FACE TRIAL AS ROBBER

Sanity Hearing for Bank Bandit Suspect Ends in His Return to Jail

Elmer Jones, 24 years of age, accused of holding up and robbing the branch bank of the Bank of Italy on Sunset Boulevard in October last and obtaining $900, was before Superior Judge Gould in the Psychopathic Court yesterday. After a hearing he was remanded back to the County Jail to await trial in Criminal Court. Jones had been confined in the psychopathic ward of the General Hospital for several days under observation.

Jones told the officers of the court that he has been subject to epileptic fits for a number of years and that he robbed the bank in order to get money to pay for treatments for his affliction. When asked if he had also robbed several oil stations Jones said he did not remember of ever committing robberies of this nature.

The young man, according to his record, was reared at Corning. He came to Los Angeles four years ago.

DAVIS OUSTER PARLEY HELD

(Continued from First Page)

of his fitness for the position he now holds.

In the meantime, the commissioners remain divided two and two, for and against, the filing of the charges which are expected to be brought up at next Tuesday's meeting, when it is expected that Commissioner Wehn will have been released from county grand jury duty and will be able to cast a deciding vote on the charges.

ACTRESS SILENT IN TAYLOR CASE

(Continued from First Page)

riddle of the killing. It is apparent from comments of the authorities who were connected actively with the case at the time that only the apprehension of Edward F. Sands, the Taylor valet, will cause added chapters to the already voluminous records of the murder and subsequent investigations.

PRESS GIVEN JUDGE'S PRAISE

(Continued from First Page)

have informed the public of what was going on in my court. Never have I known a report of any proceedings in my court to reflect anything except the exact facts. Never have I known a report of any proceedings in my court being colored by the reporters in any particular. Never have I known a reporter to violate the highest ethics of his profession or mine in the matter of reporting proceedings in court.

"I thank you gentlemen of the press for your fine conduct, for the great courtesy you have always shown me, for the wonderful way you have reflected to the world the true proceedings in my court."

SHOTS FIRED BY POLICE ONLY HASTEN SUSPECT

Shots were fired around City Market, Seventh street and Central avenue, yesterday, during a police chase of Jack Duncan of 724 South San Pedro street, who later was booked at the City Jail on a charge of intoxication. Policemen Anderson and Houghton had been called by C. J. Manon of 516 Towne avenue, who complained that Duncan hit him on the head. While the policemen were putting Duncan in a police car he dodged away and ran through the City Market. Anderson fired several shots in the air in an effort to halt the man, who ran only faster when he heard the reports. The policemen then pursued in their car and arrested him.

WHAT THE POLICE ARE DOING

(For the purpose of acquainting Los Angeles citizens with the practical working of the city police department, and the results of police activities here, The Times is printing herewith the eighth of a series of articles dealing with the subject.)

Perhaps more interesting to Mr. Average-citizen and his fellow-commuter are the daily and monthly reports of the substation detective divisions of the police department, for they tell him just what the police are doing in the way of curtailing crime in the neighborhood where he lives.

Exclusive of Central there are thirteen substations. They are Hollywood, Wilshire, University, Seventy-seventh street, Newton street, Georgia street, Lincoln Heights, Hollenbeck Heights, Highland Park, Van Nuys, Sawtelle, Venice and San Pedro. In each one is located a divisional unit of the detective bureau. Each is in command of a captain or acting captain of detectives.

Crime conditions in the various sections of the city are reflected in the monthly reports of work accomplished in the five months between July 1 and December 1, last. Taken by division they disclose the following figures:

Georgia street, Captain of Detectives A. T. Slaten, commanding, personnel, 38 men; arrests, 902; felonies, 355, misdemeanors, 443; calls, 9575; investigations, 3483; hours in court, 1126; property recovered, $90,368.81; convictions, 325; released to other officers, 175; released, 20; dismissed, 37; cases pending, 221.

Wilshire Captain of Detectives S. J. McCaleb commanding, personnel, 34 men, arrests, 238; felonies, 130; misdemeanors, 108; calls, 4549; investigations, 928; hours in court on duty, 325; off duty, 111; property recovered, $81,818.25, convictions, 33.

Newton street, Capt. J. B. Miller, commanding, personnel, 18 men; arrests, 281; felonies, 158; misdemeanors, 123, calls; 5236, investigations, 827; hour in court on duty, 628; off duty, 192; property recovered, $47,975.85, convictions, 95.

Hollywood, Capt. W. J. Wallis, commanding, personnel, 26 men; arrests, 270; felonies, 146; misdemeanors, 124; calls, 7049; investigations, 1220; h...s in court on duty, 659; off duty, 61; property recovered, $68,177.56; convictions, 40; released, 52; dismissed, 7, pending, 120.

Hollenbeck Heights, Capt. A. R. Kallmeyer, commanding, personnel, 13 men; arrests, 225; felonies, 109; misdemeanors, 116; calls, 2575; investigations, 900; hours in court on duty, 386; off duty, 69; property recovered, $22,077.50, convictions, 61.

Highland Park, Capt. George E. Smith, commanding, personnel, 4 detectives, arrests, 40; calls, 751; investigations, 564; hours in court on duty, 70; off duty, 17, property recovered, $1055.50.

Lincoln Heights, Capt. D. A. Davidson, commanding; personnel, 11 men; arrests, 225, felonies, 61; misdemeanors, 164; calls, 2723; investigations, 973; hours in court on duty, 376; off duty, 73; property recovered, $8122; convictions, 75.

Seventy-seventh street, Capt. T. Williamson, commanding; personnel, 13 men; arrests, 176; felonies, 98; misdemeanors, 78; calls, 3509; investigations, 1072; hours in court on duty, 322; off duty, 56; property recovered, $25,667.50.

University, Capt. Charles Vernand, commanding; personnel, 22 men; arrests, 239; felonies, 129; misdemeanors, 110; calls, 8315; investigations, 1614; hours in court on duty, 451; off duty, 113; property recovered, $55,047.17; convictions, 113.

Venice, Capt. James F. Bean, commanding; personnel, 6 men; arrests, 50; felonies, 28; misdemeanors, 22; calls, 757; investigations, 202; hours in court on duty, 40; off duty, 39; property recovered, $7709.42.

Van Nuys, Capt. V. E. Newstetter, commanding; personnel, 5 men; arrests, 96; felonies, 53; misdemeanors, 43; calls, 1093; investigations, 322; hours in court, on duty, 35; off duty, 52; property recovered, $1563; convictions, 25.

Sawtelle, Capt. L. L. Curtis, commanding; personnel, 5 men; arrests, 21; felonies, 10; misdemeanors, 11; calls, 1016; investigations, 215; hours in court, on duty, 81; property recovered, $310.

San Pedro, Capt. A. J. Farrell, commanding; personnel, 8 men; arrests, 132; felonies, 69; misdemeanors, 70; calls, 1997; investigations, 601; hours in court, on duty, 403; off duty, 26; property recovered, $7961.88.

Important Calls Handled Here

The telephone switchboard at the Central Police Station detective bureau, through which all calls of bank robberies, murders and burglaries are immediately switched to the various squads and divisions.

wrecked broke all records at the Georgia-street Receiving Hospital for the total number of cases handled by that institution within a forty-eight hour period. This total reached 289 at 8 a.m. yesterday. A large majority of this number of cases cared for were listed as persons injured in traffic accidents.

Reopening of Men's Club to be Celebrated

Celebrating the official reopening of the Municipal Men's Club at 220½ South Main street, an all-day program of events has been arranged for the benefit of men living in the downtown district beginning at 2 o'clock this afternoon. Hubert Whitehead is director of the institution.

Remodeling operations just concluded by the Playground and Recreation Department, which maintains the building as a downtown recreation center for men, have provided a gymnasium, showers, clubrooms, game rooms, reading rooms, library and other facilities. Last year this institution gave recreation to a total of 1,416,384 men.

Today's program will open with a chess and checker tournament. It will be concluded this evening with a formal dedication ceremony directed by Supt. George Hjelte.

...RIZZED ANGOLA BELLES NOT GOING HOLLYWOOD

...ad, they say, sets the style ...entire world these days. ...he gowns, mannerisms or ...ers of Hollywood have no ...among the belles of An...

...ed on the authority of ...Wagener, manager of the ...Hotel, just back from a ...the world.

...ish hair dressing is an an... ...most complex art. ...-skinned belles of "Dark... ...go in for most elaborate ...ted designs. Braids, ...curls and the like are ...the most intricate and ...effects, with the ele... ...rhino bob and ...toque predominat... ...the younger set.

...shingle, Hotelman ...declared yesterday, is not ...Hollywood crop. The hair ...cut and plaited.

In the rhino bob the hair is combed straight back and the effect is striking because of the kinky texture of the raven locks involved.

Most popular of all hair-dressing styles among the African girls, he said, is the permanent toque. The village hair dresser mixes castor oil and other ingredients into a plastic substance which is rubbed thoroughly into the hair of the customer. The result is an encrusted crown noted for its permanency, luster and odor.

"Please don't get the impression that all I saw on my cruise around the world was African women," Wagener pleaded with reporters. "There were many interesting things to see in Japan, China, the Philippines, the Fiji Islands, India and in Europe. But the most interesting—certainly the most appealing, was the lighthouse at the end of the Los Angeles Harbor breakwater when the ship came home," the hotelman declared.

RED LEAFLETS START INQUIRY

Police Asked to Investigate Communist Pamphlets

High-School Pupils Urged to Defy Board Ruling

Supt. Bouelle Explains Plan on Citizenship Rating

Distribution of inflammatory Communistic leaflets near the Roosevelt High School calling upon the students to oppose the denial of diploma to any student who fails in making satisfactory marks in citizenship ratings was placed under investigation yesterday by police of the intelligence department.

Frank A. Bouelle, Superintendent of Schools, also took cognizance of the distribution of the leaflets and explained that one of the requirements for graduation from Los Angeles high schools is satisfactory citizenship ratings. Diplomas, he said, are withheld from any student who allies himself with organizations opposed to the fundamental ideals of American government and fails in the requirement.

DEFIANCE URGED

The leaflets assert denial of "diplomas which have been earned," charge the school authorities with suppression of individual student political opinions, deplore and oppose student military training and issue a call to "defend the soviet union."

"It is," the mimeographed sheets declare, "because these students have dared to express their opinions and have organized the children of the working class to fight against the miserable existing conditions, against the menacing war danger and for the defense of the soviet union that they have been deprived of their diplomas."

Supt. Bouelle denied the assertion of the pamphlets and explained the conditions which govern citizenship ratings in the schools as in any other subject.

BOUELLE EXPLAINS

"The withholding of diplomas from students who have allied themselves with organizations opposed to the fundamental ideals of our form of government is the right of the Board of Education," Mr. Bouelle explained. "If a student denounces the government of the United States and exalts Communism or some other form of government, he has failed to meet the requirements of his school the same as though he had failed in mathematics or in history.

"Our ruling has nothing to do with 'class struggle,' nor with 'the expression of the students' opinions,' as this leaflet declares. Every student is well aware that he must show an understanding of the underlying basis of American citizenship if he expects to graduate with his class."

The leaflets, signed by the Organizational Committee of the Students' Defense League, 309 Stimson Building, make a plea for organization among the students to override the rulings of the Board of Education, and, in addition to calling the youngsters for the defense of the Soviet Union, set forth other typically Communistic demands.

PHILIPPINE SEPARATION TO BE ASKED

Independence for Islands Will be Urged by Group, Moncado Tells Session

Independence of the Philippines will be asked just as soon as America can be convinced that the islands' people are ready for self-government, Hilario C. Moncado, national president, yesterday announced at the convention of the Filipino Federation of America, gathered in Symphony Hall. He added that when the people of the United States recognize that the Filipinos are educated sufficiently and are progressive the federation will plead in a peaceful, constitutional manner for independence of the Philippine Islands.

HILARIO C. MONCADO

"Filipinos owe much to the United States for delivering their country from the rule of Spain," said Moncado. "They feel that what the United States has done for them is far greater than that which any other government could have achieved."

Moncado and Jacob H. Grossman are to speak at a public meeting in Trinity Auditorium commencing at 7 p.m. tomorrow.

FORGERY SUSPECTS ARRESTED

Priestly Vestments Found in Room of Two Accused of Defrauding Stores

Priestly vestments were found last night by detectives searching the apartment of Charles Webb, 42 years of age, and John B. Campbell, 39, at 960 Wilshire Boulevard, following the arrest of the two. Each was booked on charge of suspicion of forgery, while a charge of suspicion of grand theft also was booked against Webb. Detectives arrested the men after receiving complaints from many local storekeepers of worthless checks being passed on them by a man dressed as a priest.

Operatives of the Stores Protective Association had received warning from San Francisco that two men were passing bad checks in cities along the Coast, and that one of the men posed as a priest. Local merchants recently began complaining of the impostor in ministerial cloth.

Detective Lieutenant Williams of the bunko squad and Agent Simpson of the protective organization arrested Webb yesterday in a downtown store. He is asserted to have called there for an expensive fur coat ordered Tuesday and charged to the account of a bona fide charge customer. The detectives report that when they went to Webb's apartment they picked up Campbell and found a priest's vest, collar and other garb. The officers report that Campbell said he had studied for the priesthood.

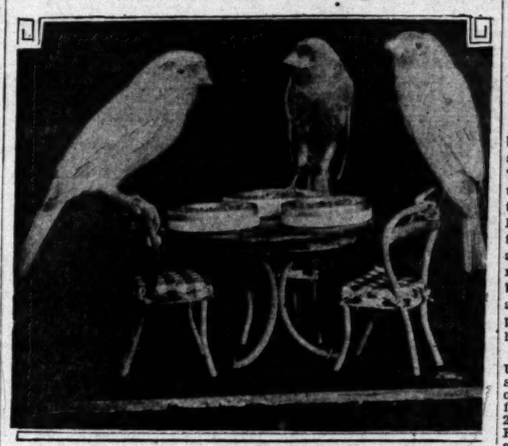
Coulters Pay Workers Bonus

Following a custom of several years' standing, the Coulter Dry Goods Company has paid its employees an annual bonus.

Amounts received varied from 12½ per cent to 33 1-3 per cent of a month's salary, depending upon position and length of time employed. This bonus is given in addition to the summer vacation with pay granted all employees, and to the Saturday vacations during July and August with full pay.

CLEVER CANARIES CUT CAPERS

Pets Trained to Perform Bag o' Tricks



Ritz, Champ and Candy Dine at Table

THREE canaries that do most of the tricks of an average canine or feline house pet—and a few more thrown in for good measure—are twittering their way to neighborhood fame at the home of Mrs. George H Long, 7515 South Hobart Boulevard.

Ritz, Champ and Candy are the three feathered little entertainers which, after two years careful training by their owner, have developed unusual abilities and mastered difficult daily tasks.

For instance, the trio just can't let a day pass without a bath. And courtesy is a keynote in their behavior. When they are hungry they chirp out a plea for bird seed, offered from the hand of Mrs. Long, and after they have dined to the satisfaction of a well-behaved canary, they twitter out thanks.

Exercise is part of their daily routine and they spend much of their time on a ferris wheel and merry-go-round.

When visitors go to the Long residence the birds obey their commands as though they were made by Mrs. Long. They enjoy watching bridge games, Mrs. Long states, and perch on the hands of the person dealing.

FIFTH MAN SOUGHT FOR PRISON FAKE

Accused Radio Thief May be in Gang Charged With Forging Parole Papers

Police and State authorities last night were seeking Willis E. Carter in connection with an asserted scheme of illegally obtaining paroles for convicts at San Quentin, after a search of the man's effects showed letters declared by police investigators to be forged in the name of Representative Carter of Oakland interceding for prison inmates.

With four others in custody, police are seeking Carter to question him on the asserted theft of numerous radio sets, and while pursuing that investigation came upon letters which prompted the inquiry to determine if he was in some way or another connected with the asserted fake parole scheme.

At the request of police, Deputy State Parole Officer Lewis yesterday passed on to his chief, Ed Whyte at San Francisco, a request for photostatic copies of any letters addressed to the Parole Board by Representative Carter and the names of convicts involved so that they may be questioned to determine how Willis Carter happened to get in touch with them or their families or friends.

As to the existence of a wholesale "parole mill," Lewis was dubious. He said the only interest of his office in the matter is to ascertain definitely if Carter, the man being sought, is in any way connected with illegal attempts to obtain paroles for convicts at San Quentin or Folsom.

Colored Folks Accuse Gypsies of Shady Trick

Two residents of the Central-avenue district have been bilked of a total of $2700 through the long-operated system of "blessing" money, it was asserted by police last night, with the arrest of three young gypsy women.

Mrs. Leona George, 24 years of age, Miss Beoney Stanley, 24, and Diana Mitchell, 21, all of whom said they reside at the Lincoln Park Auto Camp, were arrested by Detective - Lieutenant Kimbro, and booked on charges of suspicion of grand theft bunko.

George Lims, colored, 1286 East Forty-seventh Place, appeared at Central Station, and is reported by police to have identified Mrs. George and Miss Stanley as the two women who had him wrap up $400 on the 5th inst., place it under his pillow after they "blessed" it, with the instructions not to look at the package until the next day.

He followed instructions, but when he opened the parcel he told police all he found was a wad of tissue paper.

This same procedure lost $2300 for Mrs. Cora Cox, colored, 1309 South Central avenue, on the same day, she reported to police.

JEWISH CELEBRATION BEGUN

Feast of Lights Commemorates 165 B.C. Victory; Eight Days of Programs Planned

More than 75,000 Jews of Los Angeles, in their homes and synagogues, last night began the observance of Chanukah, the eight-day Feast of Lights in celebration of the victorious revolt of the Jews, 165 B. C., against the tyrannical Syrian, Antiochus, who sought to force the Hellenic culture and the paganism of Greece upon the monotheistic Hebrews.

Although the struggles which ended in the success of the Jews lasted several years, the holiday season, celebrating the victory of Judah, the Maccabees and the rededication of the desolated Jerusalem temple, lasts for only eight days, with an extra candle being lighted each succeeding night in Jewish homes and temples.

PROGRAM TONIGHT

A Chanukah program of special interest will be given at Sinai Temple this evening when traditional Jewish hymns and songs of victory will be sung, followed by an address on "Ancient and Modern Assimilation" by Rabbi Mayer Winkler.

Another service of interest will be conducted at Temple B'nai B'rith this evening, when candles will be lighted, special prayers offered and an address given on "How Jewish Should a Jew Be" by Rabbi Edgar F. Magnin.

"This beautiful feast emphasizes religious liberty, idealism, faith, courage and loyalty," said Dr. Magnin. "Had the Jews failed to win their fight against their intolerant persecutors, today there would be no Jews, no Judaism and no Christianity."

DRAMA IN HEBREW

An elaborate Chanukah program will be presented by Temple Emanu-El Sunday-school pupils in the temple auditorium, 631 South Manhattan Place, at 10 a.m. Sunday. Two dramas will be given by the children, one of them entirely in Hebrew, under direction of Mrs. Bella Hoffman. Vocal solos will be sung by Lillian K. Bacon and violin selections will be given by Dr. Arthur Friedman. Candy will be distributed among the children. The public is invited.

The Jewish Art Institute has arranged for a Chanukah party and musical program to be given next Sunday evening at the institute studio, 631 North Soto street.

McNAMEE'S NEWSREEL DEBUT SET

Radio Man to be Heard With "Times"-Universal Films January 7, Next

Graham McNamee, premier radio broadcaster, will begin news casting, as the talking reporter of The Times-Universal Newsreel, on January 7, 1930, it was announced yesterday by Sam B. Jacobson, editor. McNamee is well known to radio listeners and his verbal descriptions are expected to add vivid interest to news events shown in sound film by The Times-Universal Newsreel at theaters all over the country, especially at an important group of houses in Southern California.

The current issue of The Times-Universal Newsreel shows, with sensational realism, the death plunge of Warrant Officer Ferguson, who fell from a glider at an altitude of 2000 feet over the Golden Gate, San Francisco. A Times-Universal cameraman was cranking a film of Ferguson's glider take-off, after an airplane had towed the glider to high altitude, when a tricky gust of wind upset the motorless flying machine. Ferguson's safety belt broke, hurling him to death.

A massacre of Chinese rebels, riot scene at Auburn prison and the smashing of a fishing fleet off Gloucester, Mass., are other thrilling scenes in this issue of The Times-Universal Newsreel.

ALUMNI TO BANQUET

Local alumni and former students of St. Olaf's College at Northfield, Minn., will meet at 7 p.m. tomorrow at a banquet in Our Saviour's Lutheran Church, Fourteenth and Oak streets. Dr. L. A. Dahl is announced to speak. E. J. Hovden will preside, and Ben Edwards of the musical department of San Bernardino Junior College, is to offer a musical program.

SCHOOL SHOW ACTION TAKEN

Fire Commission Urges New Theater Ordinance

Film Regulations Advised as Safety Measure

Growth of Visual Education Cited by Scott

Action toward adoption by the City Council of the new theater ordinance presented last June was taken by the Fire Commission yesterday at the suggestion of President Werdin. Secretary McKeag was requested by the commission to communicate with the Police and Fire Committee to arrange for a hearing on the new measure, which has been urged by Fire Chief Scott for more than two years.

The new ordinance provides that school and church auditoriums where films are shown and admission is charged shall come under the fire regulations as applied to theaters. It is understood the Board of Education is opposing the measure as applied to schools on the ground that the school district, which includes other cities than Los Angeles, is hampered by different regulations in different cities.

President Werdin and Fire Chief Scott both emphasized the need for the passage of the measure, providing a safe storage place for films in school auditoriums and similar places, the same as in theaters, and for the application of all safety provisions in schools as enforced for theaters.

Chief Scott stated that visual education by films in schools has reached the point where it has become an important study factor and that it promises to expand. For this reason, he said, it is necessary to enforce the safety provisions provided in the new ordinance without delay.

"One o'Clock Saturdays"

BULLOCK'S Stores FOR MEN

BROADWAY, HILL AND SEVENTH

$29.50

After-Christmas —A Clothing Event!

A low price indeed, $29.50, for 2-trouser suits of Bullock standard! A price that brings new style, in this summary event of 1929 . . . the new style of 1930, of Spring fabrics and shades! Here is a most meritorious selection, and one that calls for the attention of all Southern California during this summary week of value in Bullock's University Shop for Men.

2-Trouser Suits, $29.50

Blues, tans, grays, browns, and Oxford shades . . . tailored to the minute of style . . . California specified . . . with the extra pair of trousers that indicate increased comfort, appearance and wear.

Topcoats, $29.50

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example, they should be religiously observed.

—Abraham Lincoln.

Today's Bible Text

"In all things shewing thyself a pattern of good works; in doctrine shewing uncorruptness, gravity, sincerity." Titus ii, 7.

LUCK CHANGED

A strange tale comes of a black cat that turned white with fright during a terrible storm at sea off the British coast. It must have been a wild cat to have its felines so harried.

LOSING CURVES

Now that they are going to iron a few ridges out of the Ridge Route the journey is likely to be a less head-turning affair. The curved line of beauty will be less impressive.

SEARCH FOR SUCKERS

Texas Guinan made fun of both Hollywood and New York and was herself squeezed out of both places. Now they say she is trying to get back into New York with the purpose of opening a new night club. Texas thrives on suckers and wants to be where they are thickest.

NO MONKEY BUSINESS

The director of the American Museum of Natural History has repudiated the Darwin theory—at least that part which carries the argument that men are descended from monkeys. He says that he thought that way once, but does so no longer. He has examined the skulls and skeletons of thousands of apes and humans, reaching back to eons ago and can trace no connection between them at any time or period. Their noodles have never had anything in common and they are structurally as remote as the pollywog and the eagle. There may be plenty of evolution, but it didn't evolute the gorilla into Jack Johnson.

THE NEW CALENDAR

First thing we know this new calendar which has been so highly commended by both business men and publicists will be accepted and in force without unified action by governments. The big mail-order house of Sears-Roebuck is said to have announced its adoption so far as they are concerned with the dawn of the new year. Their new calendar provides thirteen months of four weeks each and should, therefore, be popular with workers. It is richer in pay days. It will be enjoyed by landlords and installment men. They would get one more payment in each year. But any time the railroads and big business feel the urge to put the calendar across they can do so without waiting for the League of Nations to decide.

PUNISHING LOW FLYERS

Due to recent accidents in which flyers crashed into streets or houses in New York and vicinity the aeronautics bureau of the Department of Commerce has been suspending the licenses of all reckless aviators who fly too low over eastern cities. It has been made quite plain by tragic occurrences resulting from the taking of these chances that low flying is a danger to the community.

Despite all warnings and an occasional license revocation, some of our coast aviators are still showing their contempt for the regulations governing aviation in this country. The other day a flyer was arrested near Long Beach for diving at automobiles on the highway. He would swoop down of a sudden, like a hawk after a chicken, frightening motorists who did not know but that the plane was being forced down, threatening disaster to themselves and their passengers. No report of the occurrence was made to the local representative of the Department of Commerce, and so the aviator did not lose his license.

In the majority of such cases the aviator gets off with a reprimand and the exaction of a promise not to repeat his silly performance, which he says was only just for a little sport, no harm being intended.

Anyone who sees a plane flying dangerously low should report its license number, if discernible, to the Department of Commerce aeronautics branch bureau, 1151 South Broadway, together with the circumstances attending the flight, and due attention will be paid to the matter. It is only by proper resentment by the public of these encroachments upon its rights that punishment can be visited upon reckless pilots.

PROHIBITION PROGRESS

In the argument now going on over prohibition enforcement, most reasonable people will consider that Commissioner Doran and Atty.-Gen. Mitchell have the best of Senator Borah and that United States Judge McCormick has not been worsted by Senator Harris. Had the reply to Borah been made by President Hoover, he could have scored tellingly by calling attention to the fact that he asked Congress early in the summer to expedite administrative changes and that that body, which wasted months getting nowhere with the tariff, paid no heed to his request.

That Judge McCormick meant to give comfort to the wets by his statement that the prohibition law must be enforced lawfully, no one who knows him credits. All except a few fanatics understand that prohibition enforcement officers ought not to fly in the face of the Constitution and the statutes which direct how private homes may be entered, and they also understand that there have been cases in which they have done so. That complaints of overzeal have to some extent been proved to be well founded is shown by the corrective measures which have been taken, both under Dr. Doran and under his predecessors. Many officers have been dropped from the rolls and some have been punished for infringing the rights of private citizens. If Senator Harris wants no restrictions placed upon search and seizure, it is his privilege to introduce in Congress an amendment to the Constitution which will give officers a free hand in raiding. But until such an amendment is duly adopted, the present restrictions apply and Judge McCormick is subject to no just criticism for calling attention to that fact, whether he did so as an individual or as a member of the President's law-enforcement commission.

Senator Borah's wholesale condemnation of the prohibition force "from top to bottom" cannot, of course, be justified. There is no claim on anybody's part that the prohibition service is perfect, but there is little doubt that it has been making steady and continuous progress in the face of great difficulties. What one of those difficulties has been was pointed out by President Hoover in his annual message, when he showed the need for codification and clarification of the enforcement statutes and for unification and concentration both of authority and of responsibility.

"I affirm," said Dr. Doran, "that genuine progress is being made in the enforcement of the prohibition laws, that the personnel in the Federal prohibition service is steadily improving in morale and efficiency, that my observation leads me to believe that under the leadership of the President there has been a more helpful attitude on the part of the public, and finally in so far as administration is concerned, a program is ready for submission to the Congress."

It is a matter of common knowledge that these are facts. The Coast Guard is effective against smuggling as never before; Rum Row has practically disappeared from both coasts; many big bootleg gangs have been broken up and there has been a general tightening all along the line. If these measures have not been wholly effective, it is not altogether the fault of the personnel; it is, in part, the fault of Congress, which alone can remedy court congestion, statutory confusion and lack of administrative co-ordination.

Senator Borah seeks immediate perfection. It is not to be had in any human matter, nor is it to be had even measurably if Senator Borah and his colleagues fail to lend a hand.

A HOOK-UP

At the recent harmony banquet at the Hotel Maryland in Pasadena given by the Rose Bowl Association to the officials of the University of Southern California, Toastmaster John Willis Baer said that some folks back East were urging that the New Year's broadcast of the game be confined wholly to football. The references last year to the purple mountains, the sunshine and the human bouquet of colors filling the Bowl seemed to peeve other sections, sitting with their feet in tubs of hot water thawing out their toes.

However, the radio announcer will likely be overcome by the beauty of it and function as usual. It will be hard to omit the sunshine. It would be like forgetting a touchdown.

At that, every knock of an easterner against the pleasant weather is a boost for California. Shoveling coal and resuscitating water pipes are not attractive industries on New Year's.

For the first time the hook-up of the New Year's game will be an international affair. All contiguous countries will listen in on the beauties as well as the prowess of the Southland. What is bad for footballists is meat for tourists.

These little attentions of the climate toward visiting teams are the best form of advertising. Like the movies they broadcast pictures of a contented and happy people. It is partially responsible for the inundation of tourists. To stop this it would be necessary to close down every movie and talkie house and silence all the loud speakers of the country.

The Rose Bowl will be the capital of radioland on New Year's Day. It is the constant capital of health and happiness every day. It is the capital of dreams out over the world everywhere.

And the capitol building is the Rose Bowl with nothing but the blue sky for a roof and the shining sun as its lighting system. The purple mountains are the flowered walls hemming it in. They get into the blood and a visitor soon becomes a regular inhabitant. This is what runs the census takers ragged.

SNOW-BOUND

They have been having snow in Mississippi, Georgia and most of the Southern States. Eighteen inches of the white stuff was reported in Arkansas. It must have made it hard for the Arkansas traveler to navigate. This will be known as the winter of the deep snow below the Mason and Dixon line.

SANTA SCHOOL

Ain't education grand? The professor explains that Santa Claus is a graduate of Yule College. Maybe that is why he got around by degrees. Did anybody give the yell of Yule?

The LEE SIDE O' LA
By Lee Shippey

EDWARD J. DOHERTY, magazine writer, who was here getting material for a serial story of the life of Jeanne Eagels for Liberty Magazine, slipped back to New York without saying good-by to us, and we're glad of it, though he is one whose friendship we treasure. For Eddie had been telling us of an article he was to have in the next week's issue of a certain magazine, and we had assured him we would let nothing prevent us from reading it. So a full week before the date of the issue in which he had told us the story would appear we went to a newsstand and asked for it. "Next week's issue?" repeated the news dealer. "Why, that was all sold out and off the market last week. We've nothing but week after next numbers now."

If you don't watch out, the magazines will have us looking backward at the future, and then we may go nutty—like the magazines.

Truth About Geronimo

Some months ago we wrote a piece about an Angeleno who, as a boy had been on a ranch captured during Geronimo's last raid. The article brought forth a number of letters which showed that throughout the Southwest there are many people who can remember the days and exploits of Geronimo. But we never realized what general interest there is in the famous old Indian till yesterday C. C. Parker showed us a new biography, "The Truth About Geronimo," published by the Yale University Press. Undoubtedly many of the oldtimers of the Southwest will be glad to get hold of that authoritative work.

Famous Ranchos

We have pointed out the fact that big business realizes the value of historic things more than does the average citizen. Henry Ford is by no means the only one who is out to get a corner on famous relics. In Los Angeles the banks are preserving historic relics as part of the community assets which are dearer than gold.

The Title Insurance and Trust Company recently has issued a booklet, "The Romance of the Ranchos," which every lover of the history of Los Angeles ought to possess. It contains the stories of Rancho Topanga Malibu Sequet, Ranchos Los Cerritos and Los Alamitos, Rancho Aguaje de la Centinela, Rancho San Pascual, Rancho Santa Gertrudes, Rancho San Antonio, Rancho Los Feliz, Rancho San Pedro, Rancho Santa Anita, Rancho La Brea, Rancho Cienega O'Paso de la Tierra, Rancho Exmision de San Fernando, Rancho Tajauta, Rancho Repetto, Rancho San Vicente y Santa Monica, Rancho Los Palos Verdes Mision San Gabriel Arcangel and Rancho San Jose de Buenos Ayres.

Advantages of Living in Ontario

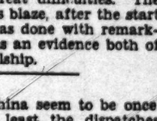
Though the discovery of the hidden is one of this colyum's regular jobs, our recent discovery of Jason Hidden suggests to one reader that he can't be Hidden, now he's found. But he can—for he lives in Ontario.

Misreading the Signs

Leeside: Being a sturdy advocate of the exact interpretation of words, these signs, noted in passing, trouble me:

On a big store: "First Sale in Forty-nine Years." What determination and pluck it must have taken to wait so long for a little business!

On a shoe shop in Seventh street: "Ladies' Heels Straightened While You Wait." Think of the business, if only they could make the same promise for knees!



On a vacant lot, opposite one of our hospitals: "Free Parking for Doctors Only." Yet I didn't see a doctor parked there—only cars.

In the hospital: "Maternity Ward. Children Not Admitted." Really, this race suicide is getting to be a problem!—J. H.

Remembering Saugus

Airplane travel may have its little handicaps to overcome, but you can't ever wreck an airplane by loosening rails or piling ties on the track.

Tip to Ministers

R. H. suggests a way to make sportsmen take more interest in heaven—remind them of what they'll miss if they aren't on hand to see the fun when One-Eyed Connolly meets St. Peter.

Those Awful Fraternities

The other night we were made an honorary member of Alpha Phi Epsilon, and came away from that institution feeling that those who denounce college fraternities are all wrong. We never were in an atmosphere of finer idealism or healthier, saner Americanism than that created by those sincere and talented young people. Though we never attended college, we now are a Sigma Delta Chi, also, and when our twenty-mule-team quartet of boys and our little daughter get into university life we hope they won't miss fraternity and sorority life—and that we'll be able to support them in it. We feel sure it will do them good, and does good for most of the young people privileged to take part in it.

PERSONALITIES VS. MERITS

For the good of the community it is to be hoped that the characteristically intemperate and unfair editorial methods of the local Hearst newspapers shall not be permitted to becloud the real issue and basic merits of the controversy concerning Alphonzo Bell's scheme to establish a cement mill in the Santa Monica Mountains.

Culminating a series of bitter personalities not in any way germane to the subject, vicious ye'low journalism, of which the Hearst papers are the leading exponent in America, over-reached itself in an attack on Bell's daughter, whose misfortunes growing out of an automobile collision tragedy are in no manner related to any phase of the cement-plant dispute.

Public opinion should not be misled by the reprehensible tactics of the Hearst press. Neither should public authorities, justly resenting undeserved abuse from the Hearst newspapers, permit their own outraged feelings to dictate action on the Bell plan not strictly in accord with the general welfare of Los Angeles.

The Times has opposed the Bell cement proposal because this newspaper believes the scheme to be destructive of the ideals of beauty and a menace to the comfort and the health of citizens of this community as well as a repudiation of our residential zoning guarantees of protection to home makers. Los Angeles has a world-wide reputation for the loveliness of its residential districts and it would be a severe blow to our good name abroad as well as a serious inroad upon our security at home if this or any similar plan should be approved.

The cement plant should be accepted or rejected, however, upon genuine issues in which alleged pajama beach parties by city officials, poker games, automobile accidents, personal animosity and attempts at intimidation have no part or place.

MORE FOR MUEZZINS

The grand mufti has decreed that muezzins are worthy of their hire. The muezzins are hereafter to be put on a sort of a union scale which means about $2.50 a month in this country. All a muezzin has to do is to climb to the top of some minaret five times a day and call the faithful Islamites to prayer. He is practically the timekeeper, as the flock virtually fall into posture wherever they happen to be. He doesn't even have to provide seats. Nevertheless, every so often he must climb to the apex of the nearest minaret and blow the bazoo as a signal to the Mahometans to prostrate themselves for devotions. It requires almost sleepless fidelity and some of the muezzins haven't been getting more than 50 cents a month for their zeal. Now they are to be placed upon a reasonably equal footing and they are to pull down at least $2.50 a month. The laborer is worthy of his hire. So they get hire wages.

GOOD WORK BY FIREMEN

That the destruction in the Griffith Park fire was not greater is unquestionably due to the high efficiency of the firemen under Chief Scott and his staff of officers, together with the volunteers who gave them aid. Scores of fine homes seemed doomed in the early hours of the conflagration; they were saved by the strategic placing of men and apparatus and by hard and dangerous work under great difficulties. The snuffing out of this blaze, after the start it had obtained, was done with remarkable speed and was an evidence both of skill and of generalship.

THEIR ANTE

Russia and China seem to be once more at peace—at least the dispatches said that the status quo ante had been restored. But probably the Chinamen will have to ante again in a few minutes.

TIPS

By James J. Montague

I know that in making investments
A man should be canny and wise,
And cling to his pelf
Till he's posted himself
On the worth of the stocks that he buys.
But I'm paying for shares that I purchased
Because somebody said
That somebody said
That somebody said
"It's a winner!"

I mortgaged my house to buy copper,
Without knowing the company's name,
I was somewhat in doubt
As to how I'd come out,
But I bought quite a bit just the same.
It dropped fifty points the next morning,
And I had not a red in my pocket,
But somebody said
That somebody said:
"That stock will go up
Like a rocket!"

At present I'm saving and frugal,
But some day, though I do not know when
It may possible be
That from debt I'll be free
And possess a few dollars again.
I ought to be strong, in the future,
But I'm weak, and I can't deny it
And if somebody says
That somebody says
"That stock is a cinch!"
I shall buy.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

Water Costs Compared

LOS ANGELES, Dec. 24.—[To the Editor of The Times:] On the editorial page of the Los Angeles Times of Monday, December 23, you published a letter signed by Don J. Kinsey, relative to the Los Angeles city-owned Water Bureau. Mr. Kinsey tells us that "The private water companies served the people through the crudest sort of open ditches and small wooden and iron pipes." He fails to tell us that this condition prevailed in 1868, sixty-one years ago, when Los Angeles had only about 5000 inhabitants. He fails to tell us that the Los Angeles City Water Company, which, he says, "operated in Los Angeles before the city-owned Water Bureau was established in 1902," took over a primitive system, consisting of about two miles of wooden pipe, about one mile of iron pipe, and an antiquated water wheel for the raising of the water from the river, and thirty-four years later (1868-1902) finally turned over to the city a system composed of over 325 miles of iron pipe, ranging in size from forty-eight inches to two inches, with many miles of ditches, tunnels, infiltration galleries, reservoirs and pumping plants.

Mr. Kinsey tells us that "Now, under city ownership, the consumer pays only 13 cents per 100 cubic feet or only 78 cents for 600 cubic feet, instead of $1, as the letter writer declares." In this summary fashion does Mr. Kinsey proceed to ignore the fact that the department's minimum charge for water service is $1 per month, and that there is no such thing as a 78-cent water bill!

Mr. Kinsey tells us that "The present maximum city water rate is 13 cents per 100 cubic feet, compared to the old private company rate of 20 cents." In this summary fashion, also, does Mr. Kinsey calmly proceed to utterly ignore the fact that this inequitable and oppressive minimum of $1 a month makes the maximum city water rate for the small water consumers, who are in the great majority, $1 per 100 cubic feet, 50 cents per 100 cubic feet, 33 1-3 cents per 100 cubic feet, 25 cents per 100 cubic feet, 20 cents per 100 cubic feet, 16 2-3 cents per 100 cubic feet, and 14 2-7 cents per 100 cubic feet, instead of 13 cents per 100 cubic feet, according as to the monthly consumption is 100, 200, 300, 400, 500, 600 or 700 cubic feet.

IRA M. WRIGHT.

Dinosaur Tracks

WINSLOW (Ariz.) Dec. 19.—[To Harry Carr—The Lancer:] I thank you most heartily for the fine interest you have displayed in the matter of preserving the dinosaur tracks in my district just north of here. You rendered us a great service in carrying in your "Lancer" column the story of the expedition that intended to remove these prehistoric relics from our State.

I doubt if we could have acted as we did had it not been for the timely warning carried in your column which was brought to my attention by Mr. O. W. Schlueter, trainmaster for the Santa Fe here and one of your subscribers. Mr. Schlueter is a student of these relics and is very much interested in their preservation. We do not have much other than these relics of a prehistoric nature to attract tourists and visitors to our State and to have permitted the removal of such a wonderful collection in their natural State would have been nothing short of sacrilegious. The Governor acted promptly in the matter and protested to the Department of the Interior. Mr. Wilbur immediately issued an order to the Indian agents in the State forbidding the removal of these tracks.

The people in my district thank you sincerely for your attitude in this matter. Trusting I may have the pleasure of meeting you some time, and wishing you many years of success and happiness, I am, with kindest regards,

CHARLES J. McQUILLAN.

How Firm a Foundation

LOS ANGELES, Dec. 19.—[To the Editor of The Times:] I read with intense interest the comprehensive survey of home building in Los Angeles during the last ten years as made by Mr. Gilbert H. Beesemyer of the Guaranty Building and Loan Association.

Surely a city which has expended $640,689,155 in residential construction during a period of ten years, covering a prolonged interval of so-called business depression, must be built on a financial foundation of bedrock.

Give us more of these constructive surveys showing what Los Angeles is accomplishing and not how our noble army of pessimists feels.

E. C. FOSTER.

Poet Laureate Writes

The world has just found out what was the matter with England's poet laureate, Sir Robert Bridges. He has been writing a poem, and an exceedingly long one at that, which probably accounts for his long silence. It is entitled, "The Testament of Beauty," in four books, and was issued on the poet's eighty-fifth birthday. The staid London Times actually raves over the production. "It is the outpouring of the accumulated wisdom, experience, scholarship and poetic craftsmanship of one of the richest and mellowest spirits of our time," says that journal, "and brings the conclusions of a long life to its utmost point of expression." The poem is printed in archaic spelling.—[The Pathfinder.

BOTTLE BABIES

BY ALMA WHITAKER

"A whole nation brought up on the bottle would show coarseness of manners, coldness and hardness in all relations, a lack of refining influence, of tender feeling, the successful cult of which has been the chief service of Christianity to the World."

This is an excerpt from "Character and Conduct of Life," a book by William McDougal, Ph. D. and doctor of psychology. He goes on to suggest that the infant's bottle should be an object of national prohibition rather than the grown-up's liquor.

According to the doctor's inference from his research in these matters, breast babies stand an infinitely better chance of being normal, kind, loyal and generally well-bred human beings.

If he is right, it is quite appalling. For rare is the modern American mother who nurses her own babies. Bottle babies abound on all sides. Even mine had alternate bottles after the first three weeks . . . and since reading Dr. McDougal's book, I am blaming my offsprings' occasional lapses from refinement, tenderness and affection on those dratted bottles. (This, however, does not prevent me using the usual methods of disapproval . . . in fact, I wouldn't let those youngsters know about the bottles for worlds. The fewer alibis they have the better.)

Nevertheless, we do witness an apparent excess of coldness, hardness, coarseness and a general lack of refinement seemingly prevailing. I mean, look how hard it is to make people support Shakespeare, opera, symphony and such like . . . mainly because they have been dubbed refined. (Actually, of course, they are not so very refined. Opera, for instance, reeks of crime.)

Then we have a play like "Bad Babies" running at a seemingly refined woman's club of great influence . . . can it be possible that not only the bad babies in the play but the club women as well were all brought up on the bottle? Ghastly thought.

Then again, some of these amazingly vulgar leg-choruses that the talkies have been producing . . . for example that "Turning on the Heat" number in "Sunny Side Up"—supposedly formed of high society maidens taking part in a charity benefit at one of our most aristocratic American homes. Now really? I mean, one has to be so utterly blandly innocently refined oneself not to understand the extraordinarily coarse innuendo displayed so garishly. (As I was perfectly aware of every vulgarity insinuated, I am writing to my mamma to inquire just to what extent I was raised on the bottle myself.)

Or to bring the subject down to a more domesticated angle . . . A mamma was feeding her bairn by nature's own method in the restroom of a department store recently and, what I feel sure must have been a bottle-fed matron, snorted indignantly that such public vulgarity should not be allowed. So there you are . . . quite confusing, don't you know. In which connection we have the ultra-refinement of certain State film censors that won't permit even a hint of a birth to appear in any picture—even cutting out incidents showing an expectant mamma sewing on baby clothes. Now, just who are the bottle babies in a situation like that?

Now, just where (and upon whom) could Dr. McDougal have made his researchful observations? I am conscious of a passion for detailed information on the subject. There are so many people in town that one suspects of having been bottle babies, if the doctor's theory is correct.

WHERE CAN I LEARN
Civil Service?

BY LOUISE L. TEMPLE

[Prepared in co-operation with the Los Angeles evening high schools. Questions concerning free evening classes will be answered if stamped addressed envelope is inclosed. Address Louise L. Temple, care of The Times. All public school classes are suspended December 16 to 28, reopening December 30.]

About the middle of January there will be both Federal and State examinations for civil service positions. Those interested in training for these examinations may receive free instruction and advice at the Franklin Evening High School, 820 North Avenue Fifty-four, on Tuesday and Thursday evenings from 7 to 9.

The Thurstone Employment Tests are used in training for speed, accuracy and confidence. Filing, grammar, arithmetic, geography, fire insurance data, involved meanings, rules and regulations of the different offices and the rapid checking of various kinds of errors are taught in this class.

The instructor, J. R. Shaw, makes a personal study of the students in his class and tries to guide them into positions where they are especially fitted to succeed. Some weeks are usually necessary to qualify for an examination.

IN A CLUB CAR

You might be a gentle judge—
You look it.
With mild observing eyes
And silvered hair,
I am wondering who you are,
So well mannered and benign,
And if you have the wherewithal,
And the power to fence
And foil the wolfish gent,
With beak so aquiline
And big beguiling eyes,
Sucking a tilted cigar,
Across the aisle.

Portugal has very few schools in comparison with its 6,000,000 inhabitants, but progressive primary work in garden schools has made a splendid start during the past year. W. B. J.

PEN POINTS

A woman's "no" does not always mean "yes," all right, if she is referring to long skirts.

Some people sympathize with the lambs shaved in this street, but W.C.T.U. members are stamping on cigarette butts.

Sin is expensive and many a red-hot mamma hasn't enough to keep reasonably warm since the stock slump.

The power of the printed word! How impressive it is when you can't see the bald-headed little sardine who wrote it.

People who live together become alike—if one loves and the other raises hob and he gets his own way.

It is every man's right to be a cynic in private, but encouraging the census to begin on page 1 is going a little too far.

A free country is one in which the people grouse with the man chased by the police because their ancestors did when the boss passed by.

Modern beds are a good improvement, but they still need a button you can press to open the window.

Americanism: Quitting sticks to be somebody rich enough to afford a quiet place in the country.

You'll observe, Watson, that the note confessing a suicide pact is written by the one who owns the gun.

At this distance you can't tell whether a Chinese revolutionary army is looting or getting back.

Planes never will be as popular as cars. You can't stop whissing past promptings on your nose up if they don't know who you are.

Maybe man is born, but it is the woman that has a little feeling for the kids when they're in bad.

One man can lift Russia's smallest cars. Over here it takes a pretty good tax jack to lift the mortgage on one.

When the hinterland sees a punk play that went big in New York, people said the cast was different, but the big town's highbrow was a bum talkie can't be explained away.

Stalin: A recluse who feeds the world is on the brink of revolution because he can get four bits and start one in China.

Correct this sentence: The I saw the tenor who crooned lovingly over the radio, the flapper, "and I adore him still in spite of his fat."

When a man doesn't come home a civil court with clear head he generally comes out of it washed up.

THE PEACE OF POVERTY

BY CHARLES COKE WOOD

[In the month of January the five great powers, England, France, Italy and Japan, are to hold disarmament conference in London.]

Where fame is dead and quiet deep,
Let Caesars with their sleep;
The fighting fevers burn out,
And put their harried rout;
A poison hissed upon their breath,
And strewed their crimson with death;
Their frenzied blades eaten with rust,
And hush their clashings in the dust.

Ambition's pride forgets its pride,
When Peace and Power make friendly league;
And leaders with same minds of might
Must heal the hurts of hate and spite;
War wastes our wealth and breeds our woe,
And strangles progress in its flow,
By greeds and grudges that ensnare,
And trap the nations unaware.

Some day when foolish hates have ends,
And nations are unmoved friends,
A golden Peace shall float on stars,
And sing across the ocean bars;
Let no discords the music mar
Nor darkness dim the clear star;
The Prophet Lights forever their gleam,
And Peace fulfills her helpful dream.

The Prince of Peace, when time archs meet,
To hush their battles of life that Shall break their fetters and their bands,
With healing in His wounded hands;
No pride of might nor power
May hush the clamors of the hour,
But Peace shall take the helm and controls,
Where every mighty ocean rolls.

When a man doesn't come into a civil court with clean hands he generally comes out all washed up.

THE PEACE OF POWER

BY CHARLES COKE WOODS

[In the month of January, 1930, the five great powers, England, America, France, Italy and Japan, are to hold a disarmament conference in London.]

Where fame is dead and covered deep,
Let Caesars with their ashen sleep;
The fighting fevers burnt them out,
And put their harried souls to rout;
A poison hissed upon their breath,
And strewed their crimson trails with death;
Their frenzied blades corrode with rust,
And hush their clashings in the dust.

Ambition's pride forgets intrigue,
When Peace and Power make friendly league;
And leaders with sane minds of might
Must heal the hurts of hate and spite;
War wastes our wealth and breeds our woe,
And strangles progress in its flow,
By greeds and grudges that ensnare,
And trap the nations unaware.

Some day when foolish boasting ends,
And nations are unwarring friends,
A golden Peace shall flood the stars,
And sing across the ocean bars;
Let no discords the music mar,
Nor darkness dim the rising star;
The Prophet Lights increase their gleam,
And Peace fulfills her brightest dream.

The Prince of Peace, when monarchs meet,
To hush their battles at His feet
Shall break their fetters and their bands,
With healing in His swordless hands;
No pride of might nor pomp of power
May hush the clamors of the hour,
But Peace shall take the high controls,
Where every mighty ocean rolls.

PARK PLANTING AID TENDERED

Association Offered Help in Reclamation of Area Recently Burned

Offers to the Park Commission by the bureau of forestry of the Los Angeles public schools and by the Los Angeles County Conservation Association to assist in the reclamation of the area in Griffith Park which was burned in a fire which swept approximately 1200 acres last week was referred to Park Superintendent Shearer yesterday by the commission.

The bureau of forestry and the association both offered seed with which to plant the damaged portion of the park. The bureau also offered the services of school boys to work under the supervision of the Park Department.

Shearer will investigate and report to the commission.

AIR TRIO TO VISIT LATIN AMERICANS

Southland Pilots to Hop Today on Good-will Trip to Many Republics

Three Southland aviators will hop off at 11 a.m. today from Long Beach municipal airport for a good-will air tour of all the Central-American republics, to which they will carry greetings from California. Heading the party is James Lloyd O'Donnell, president of O'Donnell Aircraft and School of Aviation. Accompanying him are S. S. Cole, copilot, and Will Thornberry, navigator. They will carry emergency rations sufficient for thirty days to be used in case of being forced down.

O'Donnell plans to fly to Mexicali today, and then to Guaymas, from where he will follow the west coast to Guadalajara, at which point he will turn in to Mexico City. After spending a week at the Mexican capital they will fly by easy stages to Guatemala, Salvador, Costa Rica and Panama, returning by way of Honduras and Nicaragua.

The flyers carry letters from local consuls of all these republics to their Presidents, as well as from the city of Long Beach to various chambers of commerce. O'Donnell expects to be six or seven weeks on the tour.

TWO MEN END THEIR OWN LIVES

One Hangs Self in Room of Hotel and Other Uses Revolver in Home

Two men ended their lives late yesterday. One shot himself. The other hanged himself.

The body of a man believed to be John S. Robinson, 40 years of age, employee of the Southern Pacific Railway Company, was found suspended by a leather belt in the clothes closet of a hotel room at 809 East Fifth street. Another leather belt was tied about the feet.

The room door was bolted from the inside and the window also fastened. On a table detectives found a rambling note presenting an apparently incoherent theory on religion.

Letters showed that Robinson had two sons and a sister, Miss Jennie McCresney, 401 Robinson Boulevard, El Paso, Tex.

While his wife was in the living-room below playing the radio, Edward Block, 60, shot himself with a revolver in the bathroom of his home at 837 North Hayward Boulevard, according to police. He died a short time later at the Georgia-street Receiving Hospital. Police say he was in ill health, although his widow stated that he seemed to be in good spirits yesterday.

With his throat and right wrist cut, Frank McNamara, 48, retired business man from Denver, yesterday was taken to the General Hospital in a serious condition following what police reported as an attempted suicide in Santa Monica. Physicians said that the wounds probably will prove fatal. McNamara came here a month ago, suffering a serious nervous breakdown. His wife is reported seriously ill in Denver. He stopped at the home of his brother-in-law, E. L. Moore of Hollister Court, Santa Monica. Moore called in a doctor yesterday, reporting that he had found McNamara in the bathroom slashed by a safety-razor blade. McNamara was treated first at the Santa Monica Clinic.

Of Interest to Women

Society

by JUANA NEAL LEVY

Mr. and Mrs. Robert Callahan entertained Monday evening with a charmingly arranged and interesting party, the especial guest of honor being Charles Wakefield Cadman, who celebrated his birthday anniversary. The occasion also celebrated the wedding anniversary of the hosts. Upon his return home early in the evening Mr. Callahan was quite surprised to find the house brilliantly lighted and elaborately decorated with Christmas greens, holly, poinsettias and other brilliant flowers, the yuletide atmosphere being effectively carried out and the dining-room a blaze of color. He was told that sixty guests had been bidden.

As each guest arrived, the name of some noted musician printed on a card was given, and at a given signal Mrs. Callahan announced that a valuable prize would be given to the guest who could write the greatest number of names of notable persons mentioned, and keen interest was manifested, when W. S. Sharpless was awarded the trophy, having written twenty-eight names in four minutes.

A program was presented by Homer Grunn and Mr. Cadman, while William Edward Johnson sang as did also Miss Louise Hewitt and Chester Watson gave several rollicking Christmas melodies, Mme. Alvina sang and Miss Dorothy Darling, niece of Mr. Callahan now making her home in Hollywood, sang two numbers.

Later a buffet supper was served, those included being Mr. and Mrs. Homer Grunn, Catherine and Edward Leighton, Mr. and Mrs. Ralph Waldo Trine, Robert Stacy-Judd, Miss Marguerite Kline of Arizona, Mme. Alvina of Madrid, Spain; Mr. and Mrs. Roscoe Ates, Mr. and Mrs. W. S. Sharpless, Mr. and Mrs. William Edward Johnson, Miss Lucille Johnson, Mr. and Mrs. Walter Dabney, Mr. and Mrs. Walter Danburg, Mr. and Mrs. C. S. Hutson, Mr. and Mrs. Dale Park, Miss Mamie Voight, Mr. and Mrs. Rex Goodcell, William Fitzsimmons, Senator Damron of New York, Mr. and Mrs. William Howard, Miss Jean Garnier and Mr. and Mrs. John Boos.

Betrothal Announced

An announcement which will be of much interest to many friends in the Southland has just been made in San Francisco of the engagement of Miss Julia Crocker Van Fleet, daughter of the late Judge William Van Fleet and Mrs. Van Fleet, to Allyn Ward Maxwell of New York City, the secret being told at a beautifully appointed luncheon given by Miss Van Fleet at the Francisca Club in honor of Miss Claire Knight, who has returned recently from an extended trip abroad.

Miss Van Fleet belongs to one of the most prominent families of old California, her father having been a noted jurist of the northern city, and she is a grand-daughter of the late Charles Crocker of San Francisco.

Miss Van Fleet visits in Los Angeles frequently with her brother, William Van Fleet, and has a host of warm friends here in the Southland. No date is set as yet for the wedding, which, however, most probably will be an event of the early New Year, and they will make their future home in New York after the honeymoon trip.

ENSIGN HAS CHRISTMAS BRIDE

Wedding of Interest in Naval Circles

[Austin Studios, Long Beach]
Mrs. Lamar Peyton Carver

OF MUCH interest in the naval colony of Southern California was the wedding Christmas Day in the Wee Kirk o' the Heather, Glendale, of Miss Helen Hewitt and Ensign Lamar Peyton Carver, U.S.N. Mr. and Mrs. Carver were the only attendants at the recent wedding of Miss Natalie Savage, daughter of Mrs. H. H. Savage of Banning, and Ensign Daniel Carlson, the ceremony taking place at the Point Fermin home of Chaplain and Mrs. A. G. Vogler the 7th inst., Chaplain Vogler officiating.

Ensign Carver and Ensign Carlson are room-mates aboard the U.S.S. New Mexico and were classmates at Annapolis Naval Academy.

Here With Relatives

Among the visitors whose coming is an incentive for much entertaining is Mrs. Christy Walsh (Madeline Souden) of New York City, who with her small son, Christy, Jr., arrived some time ago and were joined by Mr. Walsh in time for the Christmas holidays. Mrs. Walsh has been ill since her arrival, but her many friends will be glad to know she is improving rapidly.

Mr. and Mrs. Souden gave a family party Christmas Day, the guests including Mr. and Mrs. Walsh and Christy, Jr., and Mr. and Mrs. Edward Austin Calvert Hammond, Jr. (Orine Souden,) the affair taking place at the home, 2190 Ponet Drive, Los Feliz Heights.

Holiday Salon

One of the lovely programs of the week will be that at the Hollywood Plaza this evening, when Lily d'Albert in the costume of her native country, Switzerland, will open the holiday salon, singing Alpine songs, accompanied by Lucille Fancher. Another favorite on the program will be Giuseppe Saccone of Naples, Italy, and the charming harpists, Catherine Jackson and Enona Hopkins, will give several duets. Mrs. Otto Wartweiler, wife of the Swiss Consul, is to preside as hostess, while Gabriel Ravenelle will be in charge of the program.

Among the guests of honor will be Mrs. Lillian Burkhart Goldsmith, who will tell of the Jewish pageant created by her and Ruth Comfort Mitchell, who is so well known in Southern California, and which is to be presented at Shrine Auditorium next month, and thirty ace golfers from all over the United States. Among them Horton Smith will be presented.

Here and There

Among the prominent Southern Californians in the East this season are Mr. and Mrs. Reinsen D. Bird, who are domiciled at the Roosevelt in New York City.

Mrs. Carrie Jacobs Bond, who some months has been located at the Knickerbocker Hotel in Hollywood, has again returned to her hillside home at 1770 North Highland avenue.

Mrs. Ben Givens has returned for the winter to the Vista del Arroyo in Pasadena after several months' sojourn at Beverly Hills Hotel.

Left-over Pie Crust

When putting away the uncooked pie crust to be used a few days later, brush it thickly all over with fat and then place in a covered bowl in the refrigerator. This method will prevent its drying out.

Your Baby and Mine

by MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

This department offers leaflets on weaning and feeding the child from 4 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby, sleeping, walking, teething, thumb sucking, ammoniacal urine, bed wetting, training in cleanly habits, periods of nursing, cod liver oil, orange juice, hives, worms, vomiting, refractory children, prune juice, lime water, rupture, stool and boils and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

SHORT CUTS MAKE SPEEDY WORK OF NIGHT FEEDING

It is a great temptation on cold nights to heat baby's food before going to bed and keep it warm until used. However, good this sounds as an idea, in practice it is really dangerous. Milk must never be warmed and kept warm, for it changes rapidly and spoils, and is actually unfit for use by the time baby wakes to take it.

The best method of getting that night feeding heated with the least possible discomfort to baby and mother is to keep a thermos bottle of hot water in the bedroom. When baby awakens, pop the cold bottle into a deep cup of this hot water and stand it on some heating apparatus—electric stove, canned heat, alcohol lamp or gas stove. One or the other is necessary unless the kitchen is accessible. It takes much less time for the milk to heat if put directly in hot water than if one had to wait until the water itself heats. Turn the bottle at a sharp angle so the bottom doesn't sit flat, or raise it on a block of wood; otherwise the bottom of the bottle may fall off neatly, leaving all the "in" in the cup of water. A sad happening in the middle of the night.

One mother found it quite successful to lay the cold bottle directly on the electric plate and then turn on the heat. If the bottle is turned frequently it heats without breaking. This idea still fills me with fear that it might break, but I am assured by more than one mother that it doesn't.

Don't be persuaded to use milk after it has been heated. Throw out the leftover from any bottle, even if baby takes only a few swallows of it. The rule that milk must be kept ice cold until ready to use holds good even in winter, or the bacteria present in it will multiply to alarming numbers.

Another of those perplexing night problems has to do with changing baby. Shall he be changed or allowed to sleep in wet clothes? It is unwise to chill the baby by undue exposure, for if he becomes cold and uncomfortable it takes him longer to go to sleep again. Bottle babies suffer more in this respect than nursing babies, for the bottle baby has to wait for his bottle long enough to get thoroughly awake and he doesn't have the advantage of a warm mother to snuggle up against and woo him back into snoozeland again.

Keep a fresh, dry pad to slip into baby's wet bed when he wakens. The use of a square of all-wool flannel over the regular cotton diaper will be found to be warm and very absorbent. If baby must be changed, accomplish it without taking him out of bed. Sometimes if he is changed rapidly, the bed dried, clothes straightened and a bottle of warm water is put into his mouth, he'll doze off without a feeding. As this is the method used to accustom babies to the loss of a night feeding it may as well be started early in life. We are getting farther and farther away from any night feeding after 10 o'clock, since babies thrive as well and sleep better without them.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

CORN MEAL CUTLETS

Stir into two cupfuls of cornmeal mush while hot one cupful of grated cheese, one-half a cupful of finely chopped walnut meats, a seasoning of salt and one teaspoonful of onion juice, shape into cutlet forms, dip in beaten egg and roll in fine, stale bread crumbs, fry in deep, hot shortening and serve with a tomato sauce.

CHICKEN ROLLS

Scoop out the inside of round rolls after removing a slice from the top, butter and toast them to a light brown in a slow oven, place in a saucepan one tablespoonful of butter, add one tablespoonful of flour and allow to cook for five minutes without browning, stir in half a cupful of milk and cook until thick and smooth. Add two cupfuls of cooked chicken cut in small dice, four tablespoonfuls of finely chopped cooked ham, one teaspoonful of finely chopped parsley, a seasoning of salt, paprika and a few grains of nutmeg, allow to heat well, fill the rolls with this mixture, sprinkle with buttered bread crumbs, place in the oven to brown.

PUMPKIN PUDDING

To each cupful of pumpkin that has been pressed through a sieve beat in two tablespoonfuls of butter, four tablespoonfuls of milk, a seasoning of salt and paprika and two stiffly beaten egg whites, fill individual molds three-quarters full of the mixture, set them in a pan of hot water and bake until the center is firm. Unmold on serving dishes and pour around a cream sauce that has been seasoned with salt, paprika, mace and celery salt.

HOT TARTAR SAUCE

Mix one-half a teaspoonful of salt with one-third of a teaspoonful of dry mustard, half a teaspoonful of sugar, three teaspoonfuls of sifted flour, three tablespoonfuls of melted butter, two slightly beaten egg yolks, three-quarters of a cupful of warm water and four tablespoonfuls of lemon juice, place the mixture in a double boiler and stir over the fire until thick and smooth. Remove and stir into it two tablespoonfuls of chopped sour pickles, one tablespoonful of chopped capers, one teaspoonful of finely chopped mild onion, two teaspoonfuls of chopped parsley and two teaspoonfuls of French mustard. Serve hot with boiled fish.

Mrs. Wyman does not reply to letters, but requests for recipes are answered in the department, PRACTICAL RECIPES, published every Friday.—(All rights to reproduce reserved by A. L. Wyman.)

Talks Planned on Philosophy

"The Influence of Recent Psychology on Philosophy" will be discussed at a symposium, open to the public, this evening at 8 o'clock in the new Hall of Philosophy of the University of Southern California, Exposition Boulevard and University avenue. This will be a feature of the sixth annual meeting of the Pacific division of the American Philosophical Association, which will meet on the S.C. campus today and tomorrow, with delegates from Seattle, Portland, San Francisco and Arizona attending.

The sessions tonight and tomorrow evening are the only ones open to the public. Tomorrow night at 8 o'clock in Philosophy Hall "Drama as a Cosmic Category" will be discussed by Hartley Burr Alexander of Scripps College, who is president of the group. Other officers include David W. Prall, vice-president; Howard Dykema Roelofs, secretary-treasurer, and H. Wildon Carr, H. G. Townsend, D. S. Mackay and R. M. Blake, members of the executive committee.

WHEN THE SANDMAN COMES

A Bedtime Story

by THORNTON W. BURGESS

FARMER BROWN'S BOY TAKES A HAND

To live in happiness we must
Be honest, reasonable and just.
—Farmer Brown's Boy.

Farmer Brown's Boy coming out of the house to do the morning chores heard the racket going on out in the front yard. He heard the voice of Happy Jack the Gray Squirrel, he heard the voice of Chatterer the Red Squirrel, he heard the voice of Sammy Jay, he heard the voices of a lot of other little people.

"Well, well!" Farmer Brown's Boy exclaimed. "Something has upset those little people. I wonder what it could be."

Just then Black Pussy came tearing around the corner of the house. She darted past Farmer Brown's Boy and into the house. "So!" said Farmer Brown's Boy, "it was you. I might have known it. Whenever I hear a fuss like that I can be pretty certain that you are somewhere around."

But, though Black Pussy was in the house, the noise out front continued. Farmer Brown's Boy noticed this and instead of going out to the barn he went around front. He saw right away that the trouble, whatever it was, centered around something or someone up in that big maple tree. At sight of Farmer Brown's Boy Sammy Jay and the others screamed all the louder. Farmer Brown's Boy walked around with his head tilted back while he looked all through that tree. At first he didn't think to look at the new house up there. When at last he did look he discovered Spooky the Screech Owl right away. Spooky was peering out of the entrance.

Then Farmer Brown's Boy understood: "So!" he exclaimed. "You've stolen Happy Jack's new house. Happy Jack made such a fuss that he brought all the others and all they needed was to see you in order to keep their tongues going. Spooky, you're not at all popular, if I know anything about it. I'd like to know what you are doing in that house, anyway. You lived so long over in that hollow apple tree that I thought you would stay there for the rest of your life. You don't know it, but that house was my Christmas present to Happy Jack. I'm afraid I'll have to take a hand in this. Much as I dislike to interfere, I can't have you stealing my Christmas present from Happy Jack."

Farmer Brown's Boy began to

"So!" he exclaimed. "You've stolen Happy Jack's new house!"

climb up the tree and all the little people became even more excited. They knew he was going to climb up to that house. They wondered what Spooky would do. They wondered what Farmer Brown's Boy would do in case Spooky did nothing. So it was a very exciting time.

When Spooky the Screech Owl saw Farmer Brown's Boy coming he backed into the darkest corner of the house. He hoped Farmer Brown's boy hadn't seen him. He stopped snapping his bill. He kept perfectly still. And then without any warning at all light came pouring into that little house which but a moment before had been dark. You see, there was a door on the back side and Farmer Brown's Boy had opened that door. He reached in and despite the hissing and snapping of Spooky he picked Spooky up.

My, my, my, my, how excited those little people were when they saw Spooky being carried away by Farmer Brown's Boy! They all followed along to see what was going to happen. That is, all but Happy Jack and Chatterer. Happy Jack waited only long enough to make sure that the way was clear before climbing up and into that house. He intended to keep it th'- time if he had to stay there all day.

As for Spooky, where do you think he was being taken to? He was being taken straight back to his old home in the hollow tree of the Old Orchard. And there Farmer Brown's Boy left him, grumbling and mumbling to himself.

NEWS OF THE CAFES

In a setting of old Russia a gala New Year's Eve celebration, with surprise entertainment and a delicously prepared dinner, will be held in the Russian Eagle Cafe, Sunset Boulevard, Beverly Hills, long known as a favorite rendezvous for motion-picture people. The management announced that no expense will be spared in making this the biggest night in the history of the cafe.

FEAST FOR GRID MEN

The alumni of the University of Pittsburgh will entertain the entire Pittsburgh football squad, together with the coaching staff and executives, at dinner in the main dining-room of the Roosevelt Hotel on New Year's Day, following the Trojan-Pittsburgh game at the Rose Bowl. Sam Kress, president of the Bank of Hollywood, and member of the local alumni, is chairman of the entertainment committee, and will be in charge of arrangements for the banquet.

PLAN BRILLIANT NIGHT

Paul Perrot is completing arrangements for a brilliant New Year's Eve celebration to be held at his cafe opposite Westlake Park. One of the finest vaudeville programs of the year has been obtained. Everett Hoagland and his Troubadours will contribute largely to the merriment with their dance music and divertissements especially written for the occasion.

U.S.C. NIGHT PLANNED

Mal Hallett's orchestra will become collegiate tonight, the musicians in this popular troupe donning Trojan rooters's caps and campus sweaters in honor of University of Southern California night, which will be celebrated in the Cocoanut Grove at the Hotel Ambassador. Jess Hibbs, football star, and other prominent Trojans have been invited as guests of honor.

WILD NIGHT PROMISED

Advance reservations from screen people, society patrons, Trojan and Pittsburgh alumni and others forecast a brilliant gathering for the annual New Year's Eve frolic which will be given next Tuesday night at the Montmartre Cafe in Hollywood. Eddie Brandstatter promises special holiday favors, whoopee hats, carnival tooters and other surprises.

CITY TO ACQUIRE TRACK CROSSINGS

The City Council yesterday instructed the City Attorney to institute condemnation proceedings for the acquisition of crossings over the Southern Pacific tracks at Van Nuys Boulevard and Haseltine avenue in connection with the improvement of the Oxnard-street and Van Nuys Boulevard improvement district.

CANTATA TO BE REPEATED

For the benefit of thousands of persons who were turned away from First Methodist Church last Sunday evening, the chorus of 300 singers will repeat the cantata "The Coming of the King," at that church this evening. The doors will open at 7 p.m.

Health and Diet Advice

By DR. FRANK McCOY
Author of "The Fast Way to Health"

Dr. McCoy's menus suggested for the week beginning Sunday:

SUNDAY
Breakfast
French Omelet (whites of two eggs and two ounces milk)
Stewed Pears
Lunch
Spinach Cooked Celery
Stuffed Tomatoes
Dinner
Broiled Chicken or Rabbit
Cooked Lettuce Mashed Pumpkin
Salad of String Beans, Celery and Cucumbers Molded in Gelatine
Apple Whip

MONDAY
Breakfast
Retoasted Breakfast Food With Milk or Cream
Stewed Raisins
Lunch
Celery Soup
Baked Potato
Salad of Chopped Raw Cabbage
Dinner
Broiled Steak Cooked Rutabagas
String Beans
Salad of Lettuce and Tomatoes
Stewed Apricots

TUESDAY
Breakfast
Coddled Eggs Melba Toast
Stewed Prunes
Lunch
Oranges, With a Handful of Pecans
Dinner
Leg of Mutton Stewed Tomatoes
Salad of Cold Cooked Asparagus on Lettuce
Jello or Jell-well With Cream

WEDNESDAY
Breakfast
Baked Stuffed Apple
Retoasted Cereal Biscuit
Dinner
Ripe Olives Salted Nuts
Stuffed Celery
Baked Ham or Chicken
Shredded Wheat Dressing
Baked Ground Beets and Turnips
Brussels Sprouts
*Pineapple-Almond Cream
Supper
Cold Sliced Ham or Chicken
Combination Salad

THURSDAY
Breakfast
Poached Egg Melba Toast
Stewed Figs
Lunch
Spinach Carrots
Shredded Lettuce
Dinner
Vegetable Soup
Baked Squash Asparagus
Salad of Chopped Cabbage and Celery
Prune Whip

FRIDAY
Breakfast
Cottage Cheese Baked Apple
Lunch
Peanut Butter Soup
Combination Salad of Celery, Lettuce, Tomatoes
Dinner
Broiled White Fish
Cooked Spinach McCoy Salad
No Dessert

SATURDAY
Breakfast
French Omelet Crisp Waffle
Stewed Pears
Lunch
Eight-ounce Glass of Buttermilk
Ten or Twelve Dates
Dinner
Salisbury Steak
Cooked Carrots and Peas
Sliced Cucumbers
Ice Cream

*Pineapple-almond cream: Into the stiffly beaten whites of three eggs fold the contents of a small can of shredded pineapple which has been chilled and drained. In another bowl beat about a quarter of a pint of thick cream and fold in a third of a cupful of crushed toasted almonds. Fold cream and pineapple mixtures together and place on ice. Serve very small portions on slices of pineapple. Top with a dash of whipped cream and garnish with one of the little green emeraldettes if desired. These little fruit garnishes may be purchased in bottles at any grocery store and are nothing more than bleached or white raisins tinted with a harmless fruit coloring, adding a very pleasing appearance to the dish when used in this manner. They also come in red, green, etc.

Money Need Emphasized in Seal Drive

Appeal to all persons who have received Christmas seals through the mail to make early remittance for them was addressed yesterday by Mrs. R. D. Shepherd, member of the board of the Los Angeles Tuberculosis Association, which sponsored the campaign.

"I feel sure that if people realize the good accomplished with funds from the sale of the seals they will lose no time in remitting promptly," said Mrs. Shepherd. "The sale of the association's aids occurs at this time, and unless sufficient funds are raised this year the 1930 program of maintaining tuberculosis clinics will be impaired."

Mrs. Shepherd pointed out that the use of the seals is not limited to the Christmas holidays, but is a year-round humanitarianism the year round. Seals may be obtained from the association by phoning Trinity 0111.

Scratch Proof

When you sally forth in a new pair of tan shoes, step at the first shoe-shining parlor and have them professionally shined to prevent scratches will affect only the surface.

HIGH LIGHTS OF HISTORY 1535

The Story of the World War
305—Renewal of Meuse-Argonne Drive.

by J. CARROLL MANSFIELD

HAVING REPAIRED THE ROADS LEADING TO THE FRONT AND BROUGHT UP HIS ARTILLERY, GEN. PERSHING WAS READY TO RENEW HIS SMASHING ASSAULTS ON THE GERMAN LINES BETWEEN THE MEUSE AND THE AISNE. THE GENERAL ATTACK WAS TO BEGIN EARLY IN THE MORNING OF OCTOBER 4 (1918)

PERSHING PLANNED TO DELIVER A HARD BLOW IN THE DIRECTION OF FLEVILLE (SEE MAP) TO TURN THE FLANK OF THE GERMANS IN THE ARGONNE FOREST AND FORCE THEIR RETREAT. IF SUCCESSFUL THIS MOVE WOULD RELIEVE THE PRESSURE ON THE 77TH DIVISION.

THERE WAS PROMISE OF EVEN BLOODIER FIGHTING THAN BEFORE. COMMANDING THE APPROACH TO FLEVILLE, THE GERMAN BATTERIES PLANTED ON HIGH HILLS COULD SWEEP THE VALLEY OF THE AIRE AND THE AMERICANS WOULD HAVE TO ADVANCE THROUGH THIS PLUNGING FIRE.

DESPERATELY STRIVING TO HALT THE AMERICAN ADVANCE, THE ENEMY WAS THROWING EVERY AVAILABLE REGIMENT INTO THE FIGHT. FROM THE AISNE TO FRESNES-EN-WOEVRE 23 GERMAN DIVISIONS WERE IN LINE OR IN SUPPORT. CONTINUED.

with a harmless fruit coloring, giving a very pleasing appearance to the dish when used in this manner. They also come in red, yellow, etc.

Money Need Emphasized in Seal Drive

Appeal to all persons who have received Christmas seals through the mail to make early remittance for them was addressed yesterday by Mrs. R. D. Shepherd, member of the board of the Los Angeles Tuberculosis Association, which sponsored the campaign.

"I feel sure that if people realized the good accomplished with funds from the sale of the seals they would lose no time in remitting payment," said Mrs. Shepherd. "The sale is the association's sole source of revenue, and unless sufficient funds are raised this year the 1930 program of maintaining tuberculosis clinics will be impaired."

Mrs. Shepherd pointed out that use of the seals is not limited to the Christmas holidays, but is a sign of humanitarianism the year around. Seals may be obtained from the association by phoning TRinity 6501.

PRACTICAL RECIPES

[Editor's note and information regarding preparations and ingredients will be covered in this column. Address all requests to Practical Recipes, Laboratory Kitchen, Glendale.—Ed.]

CHEESE CAKE

E. E. Centro, Cal. The cheese recipe was published in the recipe column of December 8, 1929, and you can procure numbers from The Times office.

BROWN SPONGE PIE

(CORRECTED)

Santa Monica, Cal.: Sorry a mistake was made and it should read one-third of a cupful of sugar and the grated rind of one lemon. Mix the yolks of the eggs well with the cupful of sugar and three tablespoonfuls of water, then add the milk, one-third cupful of lemon juice, one tablespoonful of melted butter, and the beaten whites of the two eggs folded in last. Pour into an unbaked crust, place in a hot oven and after ten minutes, reduce the heat and continue the baking.

DATE PUDDING

Mrs. L., Los Angeles, Cal.: Place one pound one-half a pound of ground suet, cream it with one and a half cupful of powdered sugar, then rubbed smooth add one pound of finely chopped seeded dates, two cupfuls of grated stale bread crumbs, a half a teaspoonful each of the grated rind of one orange, the five slightly beaten eggs, one tablespoonful of orange juice, one teaspoonful of lemon juice, and mix well and pour into a well-buttered mold, steam in a pan of boiling water in a moderate oven for three and one-half hours. Serve with hard sauce.

IMITATION CAVIAR

Hollywood, Cal.: Your letter to The Times to a Miss [illegible] was turned over to me to answer. You ask how to prepare it. It's an impossible thing for me to do. In the first place we get here are not the fish that are used in caviar, and any preparation of it is too intricate for any housewife.

GRAPE-JUICE JELLY

One tablespoonful of gelatine, one-half cupful of cold water, one and a cupful of boiling water, one-half cupfuls of grape juice, one-fourth of a teaspoonful of salt. Soak the gelatine in cold water for five minutes, dissolve in the boiling water, allow to cool, add the grape juice, salt and sugar to taste, turn into individual molds that have been wet with cold water.

RIPE OLIVES

Mrs. J. McK., Hawthorne, Cal.: Your letter for curing olives was turned over to me as the practical recipe column of December 6, Friday, and you should receive back numbers from your request from The Times Office at Broadway. The green and ripe will have to be done separately.

PINEAPPLE, PEAR AND CHERRY SALAD

Santa Ana, Cal.: Allow half a grapefruit for each service, carefully scoop out all of the pulp and save the shells. Remove all the white membrane and combine an equal amount of the pulp with the same amount of fresh or canned pears cut in small dice, add a medium-sized bottle of red and one of green cherries, chopped in small pieces, add a fourth of a teaspoonful of salt, and one-quarter of a cupful of lemon juice, mix well, let stand in the ice box overnight to chill. Drain the fruits and fill the shells with the mixture, mask the top, covering entirely with mayonnaise, and garnish with four halves of strawberries and the center with a cherry, serve each portion with a slice of pineapple that has been marinaded in lemon juice and the center filled with cherries or strawberries.

GERMAN STOLLEN

H. M. K., Coronado, Cal.: Sift eight cupfuls of flour into a bowl, heat two cupfuls of milk, until lukewarm, add to it one teaspoonful of salt, and one tablespoonful of sugar, dissolve in the milk one yeast cake, mix this into the flour, place in a bowl and let rise until double in bulk, then add one-half a pound or one cupful of well-creamed butter to the mixture that has been creamed with half a cupful of sugar and the yolks of four eggs, then add one and one-half cupfuls of seeded raisins and four ounces of powdered almonds, two teaspoonfuls of grated lemon rind, work this all together, beating it with the hands (not kneading,) let the dough rise at least three hours, roll, press down and fold over double, then form into two long loaves narrow at the end, brush the top with melted butter, let rise again for three-quarters of an hour and bake in a moderate oven.

ORANGE FROSTING

J. B. H., Hollywood, Cal.: Try this frosting and see if it is what you have eaten. I have never tasted the orange rolls you speak of so I am doing the best I can for you.

Seven-eighths of a cupful of sugar, one-fourth of a teaspoonful of grated orange rind, the white of one egg, three tablespoonfuls of orange juice, half a teaspoonful of lemon juice, and a few grains of salt, place the sugar, orange rind and unbeaten egg white with the orange juice in a double boiler, and beat constantly with a rotary beater while cooking over boiling water for seven minutes, remove from the heat, add the lemon juice and salt, and beat thoroughly until stiff enough to spread on the rolls.

Filipinos to Pay Homage to Rizal

Respecting the memory of Dr. Jose Rizal, Philippine national hero, a program will be given in Music Arts Hall, 233 South Broadway, next Monday. The day is the thirty-third anniversary of the death of Dr. Rizal.

Mayor Porter is expected to appear on the program which will be given from 1 p.m. to 7 p.m under auspices of Ang Bantay, only Filipino weekly in the United States.

This Afternoon at 2:00

AN INTERESTING lecture and practical demonstration on the preparation and cooking of foods suitable for use in every household.

GREAT FUTURE SEEN IN RADIO

Leader in Field Forecasts Eclipse of Past Strides

International Network Will Go Into Remote Areas

Attractive Array of Offerings to be on Air Tonight

BY JOHN S. DAGGETT

Within the next few years vast improvements, overshadowing in importance the developments of the past decade, great as they have been, are anticipiated by leading executives and scientists in the radio industry, according to William A. Winterbottom, vice-president of R.C.A. Communications, Inc.

The development of the present international radio network, penetrating thirty countries during the past ten years, was outlined by Mr. Winterbottom when he appeared before the Senate Interstate Commerce Committee. Now, he told the committee, having made connections with the most important countries of the world, his company is preparing to enter the more remote and less accessible areas, and next year will establish circuits to Russia, Czecho-Slovakia, Chile and Northern China.

DEVELOPMENT JUST BEGUN

"Those actively engaged in radio communication," he declared, "believe that the job is only just "begun. Something more rapid, more efficient and less expensive must be produced. You have been told of fac-simile transmission; this new method promises some day to completely revolutionize the art of record communication.

"The Radio Corporation of America has spent more than $1,000,000 on fac-simile development and must keep on spending because the present stage of development promises so much for the future. I have fac-simile inventors in England, Germany and France, all working on the solution of this one problem. It is another international race to commercially solve a great secret. We hope the honors ultimately will be awarded to American genius.

HIGH EFFICIENCY

"American communication companies are highly efficient, and have been quite successful in competition with foreign communication companies. They have contributed by far the major technical advances in the art of communication—wire, cable and radio—during the past decade. The great foreign communication companies now have acknowledged American supremacy and leadership. To offset our technical advantage the majority, during the past year, have entered combines or mergers, the better to complete with our world progress.

Such mergers, he said, already have been consummated in Great Britain and France and are projected in Germany and Italy. Nevertheless, he added, "America's position in the field of international communication never was so strong as it is today. Our duty now is to keep it so."

TODAY'S FEATURES

KHJ, the Don Lee station, between 8 and 8:30 o'clock tonight, will present Leo Leonard, vaudeville singer, in his first appearance in the West; the Three Co-eds, a harmony team, and Raymond Paige and his orchestra in a special arrangement of "Mary Had a Little Lamb," played in grand opera style. On Saturday KHJ will present the Hallelujah Quartet from 9 to 10 p.m. These artists will sing negro spirituals.

KNX promises an entertaining half-hour from 7:30 to 8 o'clock tonight, when a program of music of the type popular years ago will be featured. From 9:45 to 10 o'clock there will be prize-fight broadcast.

Scene II of Act I of Victor Herbert's operetta, "Babes in Toyland," will be broadcast this evening from 6:30 to 7 over KFI. Jessica Dragenetto, soprano, and Robert Simmons, tenor, will sing the leading roles. At 9 o'clock the Welsh Choir will be heard from KFI.

Reserve Officer Group Chooses Chiefs for Year

Election and installation of officers for the ensuing year marked the annual dinner-meeting last night of the Los Angeles chapter of the Reserve Officers' Association in the Alexandria. Capt. Frank B. Belcher was elected president, and the following were named vice-presidents: Lieutenant-Colonel Shirley W. Bowles, Maj. Samuel C. Haver, Lieut.-Col. Frank R. MacReynolds, Capt. Raymond A. Nelson, Lieut. Stewart Patton and Lieut.-Col. Ernest H. Wilcox. Lieut. Harry K. Boone is secretary-treasurer. The retiring president and secretary-treasurer, respectively, are Capt. Walter B. Clausen and Maj. Lawrence Mott. An address was delivered by Col. Leroy F. Smith of the Better America Federation.

The new officers, it is announced, will proceed immediately with plans for the association's annual convention to be held in Los Angeles in April, 1930.

Werner Reports on Park Funds

City Attorney Werner yesterday filed with the City Council his opinion that the park department can furnish some of its funds for the maintenance of the forestry department, and that the Council can allocate city funds to the park department, specifying, however, that they be expended for the benefit of the forestry department.

Two Arraigned as Accomplices in Store Theft

Brown Higman and John C. Hurst, accused of complicity in robbing a radio store at 6103 South Western avenue, were arraigned before Municipal Judge Ambrose yesterday and their preliminary hearing set for Tuesday, the same date on which Mrs. Edna Carter and Philip Valentine, already arraigned on the same charge, are to appear.

Higman, following a statement by Detective Lieutenant R. Y. Savage, arresting officer, that he could not be linked with the asserted burglaries, was released on his own recognizance, while bail on Hurst was set at $20,000.

Willis E. Carter, asserted head of the gang, is being sought by police, according to Savage.

Bessie Love and Local Man Will be United Today

Bessie Love, film actress, will become the bride of William Hawks, business man, today at 7:30 p.m., when they will be married at St. James' Episcopal Church. Rev. Ray O. Miller will officiate. The wedding will culminate a romance of some months in Hollywood.

The matron of honor will be Blanche Sweet, while the attendants will be Bebe Daniels, Carmel Myers, Edith and Irene Mayer, Norma Shearer, Athole Shearer and Mary Astor. Howard and Kenneth Hawks, brothers, will attend the bridegroom, while the ushers will include Fred Spradling, Bob Schlaudeman, Irving Thalberg and William Davey.

The couple plan a short honeymoon trip, after which Miss Love will return to her work.

Suspect Fired at Policemen, Says Complaint

Accused of having fired four shots at police officers and trusties accompanying them while they were removing liquor from his cellar, John E. Barton of 416 South Gates street yesterday was named in a complaint charging him with assault with a deadly weapon.

According to the complaint filed by Dep. Dist.-Atty. Richardson, Barton shot at Police Officers Woodward, Pining and Teeter and the trusties from the rear porch of his home. Barton's wife was arrested earlier in the day and the officers returned to the home to seize liquor said to have been stored in the cellar.

SAFEWAY STORES
DISTRIBUTION WITHOUT WASTE

One of our Customers who drives a car ~~~

told us the other day that by shopping at Safeway she made her car pay for its upkeep.

"I like the location of your stores," she said, "I am most always sure of a convenient place to park and I save enough to go a long way toward paying the total expense of operating my car. Your men always load my purchases in my car for me so there is no work to do in shopping here. I am sure if more women who drive a car would try your stores once they would soon do all of their food buying at them"

Prices Effective Dec. 27th to 31st, inclusive

HOLY LAND RIOT DETAILS AIRED

Alkow Returns Home and Explains Friction

Zionist Observer Asserts Religion Not Basis

He Criticises British Rule and Predicts Change

After several months of looking on from the inside at the recent Arab uprising in Palestine, Jacob M. Alkow representative of the Zionist Organization of America, feels that his experiences, covering everything from being beaten and robbed to acting as interpreter for the British Army, entitle him to real first-hand information concerning the state of affairs among the Jews there. He arrived in Los Angeles yesterday for a ten-day stay, during which time he will fill a number of speaking engagements and will make his headquarters at the Zionist Organization offices at 742 South Hill street.

"I find," he said, "that people in this country have the wrong impression about the recent trouble in Palestine. They think that it was a racial fight between the Arab and the Jew and that it was partially religious. This is not so. It was a clash between reaction and civilization and it was brought about because of the wealthy Arab landowners and the reactionary clerics, who keeping the lower class Arabs in a state of almost virtual slavery, resented the new standards and the improved conditions brought to the country by the Jews from Europe.

ARABS FRIENDLY

"As a matter of fact, I know from innumerable personal observations that the Arabs are friendly to the Jews and the more progressive ones want to see more Jews come there. The country is rich in potentialities and there is room for thousands more there. Right now there are 20,000 Jews in Europe ready to leave for Palestine and it is with these Jews and others all over the world, who for one reason or another feel that they must get to Palestine, that the Zionist movement is concerned."

Alkow, who about three and one-half years ago was a rabbi in Los Angeles and a year ago superintendent of the Jewish schools here, left the city some nine months ago to study political and economic conditions abroad so that he might return to acquaint the Jews of this country with actual conditions in Palestine and to interest them in the Zionist movement, the main purpose of which is for the Jews of this country to help their countrymen all over the world to return to Palestine if they wish to do so.

SAW MANY ATTACKS

After attending the Zionist Congress in Zurich, Alkow went to Palestine, arriving there about four days before the Arab outbreak. At the theater one night he heard the announcement, he said, that Arabs from the outlying country were pouring into Jerusalem and the next day, with a party of American boys, he went there and joined the Jewish Self-Defense Corps.

He saw the murderous attacks of the Arabs on the Jews, he said, and was himself the victim of a severe beating and robbery. Later he joined the British Army as an interpreter translating from Arabic to Hebrew to English and in this way was enabled to get at the very heart of the situation there.

"British rule in Palestine," he said, "not only is extremely lax but it is inefficient in every respect. The English at home realise this and understand what is needed there and they are making changes which, eventually, will bring about a greatly improved state of affairs."

Last night Alkow had a conference with the Zionist leaders of the city as a result of which speaking engagements were arranged for every night next week. On Monday at 2:30 p.m. he will speak to about 50 women at the Sinai Temple. Following his visit here he will go to Arizona and Colorado on a lecture tour before returning to his headquarters in New York City.

JEWISH OBSERVER BEATEN BY ARABS

Jacob M. Alkow

Burglar Gets $2300 in Cash

Entering the establishment through a skylight, a burglar broke open an office safe in the L. A. Duncan & Co. electrical equipment shop at 2891 West Pico street early yesterday morning and obtained $2300 in cash, it was reported to police.

Of the total amount taken $800 was listed as belonging to the United States postoffice and the remainder to the proprietor. In breaking open the safe the burglar used tools found in the shop. He made his exit through a jimmied window.

EFFORT TO KILL SELF ADMITTED BY WOMAN

Overcome by poison she had swallowed, Mrs. Florence Finck, 39 years of age, was found lying on the floor of her home at 6003½ Winans Drive yesterday. A Christmas quarrel with her husband was the cause of her act, Mrs. Finck told the officer. She said that Finck, who has been living at the Elks' Club for the past two months, called on her Christmas night, and that they quarreled. Mrs. Finck was removed to the Dickey & Cass Emergency Hospital, where Dr. McDonald treated her and said she likely will not die. Finck had his wife removed to Sylvan Lodge Hospital.

BORDER KILLING VEIL MAY LIFT

Agua Caliente Slaying Laid to Dead Duelist

Foe in Long Beach Shooting Freed at Inquest

Tells Coroner Man Helped Murder Money Guards

John Nelson, alias Edward Ames, killed Sunday night in a gun battle with Marcel Dellan in Long Beach, was identified yesterday at the Coroner's inquest over the fatal shooting as the missing suspect in the Agua Caliente messenger holdup in which two men were killed.

The identification of the dead man as the third conspirator in the robbery and subsequent slaying of the two guards came from Dellan, who testified in his own behalf at the hearing.

Dellan practically was exonerated of all blame after the jury heard the story of the death of Ames from numerous witnesses. A verdict that Dellan fired in self-defense was returned at the close of the inquest. Dellan is being held in the Long Beach jail, to await action of the District Attorney's office of San Diego on charges that he, too, may be implicated in the Agua Caliente robbery.

ACTION TO BE DROPPED

It was intimated that no further action will be taken against Dellan over his shooting of Ames. Report of the inquest and testimony will be placed in Dist.-Atty. Fitts's hands today.

Police testimony revealed that Ames and Dellan had been connected with numerous liquor and drug smuggling deals during the past year, and Dellan testified that he had known Ames for several years and associated with him in illegal liquor transactions. Ames appeared at the home of Dellan on Sunday night and finding Dellan seated at a telephone, attempted to slash him with a knife. A fight started and Ames invited Dellan out in the yard to settle their difficulties. Dellan followed Ames to the porch and both drew pistols and began firing. Neighbors corroborated the testimony of Dellan.

TELLS OF ROBBERY

In telling of the Agua Caliente robbery plans, Dellan said that Ames joined Mark Colson and Thomas Cochran in a scheme to hold up the two messengers and escape with the funds they were transporting to a San Diego bank. Cochran and Colson were apprehended two days after the robbery and killing of the two guards and subsequently were sent to prison.

At the close of the inquest Long Beach police reported they had learned that Mrs. Zelda Dellan, wife of the admitted liquor dealer, and Mrs. Helen Blake, were with Ames a short time before he started his fight with Dellan. It also was revealed that Mrs. Dellan and mes had been engaged in a partnership in liquor selling, but police are inclined to believe Dellan was not aware of this until after the fatal fight.

The recent British communications merger gives Britain control of more than one-half of the world's cable mileage.

FINN DEATH WITNESS FOUND

Aide of Fitts Expects to Get New Information on Last Hours of Wealthy Iowan and His Wills

Discovery of a new witness who may be able to aid in the investigation now being conducted by the office of the District Attorney into the death and circumstances surrounding two purported wills of the late George Lafayette Finn, former Iowa State Senator, was announced yesterday.

According to Chief Trial Deputy Beecher, Mrs. Pearl Crane of 331 West Thirty-seventh street, communicated with the District Attorney's office and signified her willingness to co-operate in the investigation. Mrs. Crane, according Beecher, was in close touch with Finn before his death. Beecher said he is unable to disclose the nature or extent of her knowledge of the case.

KIN RAISES ISSUE

The inquiry into the death of Finn and his asserted wills was begun last Monday, when Mrs. Gladys McAfee, grandniece, and her attorney appeared at Beecher's office. Following an interview which, according to Beecher, presented possibilities of Finn having died an unnatural death and of forgery in connection with his asserted wills, the deputy assigned Chief Investigator O'Brien to question persons known to have come in contact with Finn during his fatal illness.

Finn died last January at a Los Angeles hotel, where he long had made his home. He is asserted to have made a will disposing of his estate estimated at several hundred thousand dollars in which Mrs. McAfee and the State of California were named as beneficiaries. A subsequent will and revocation is asserted to have disinherited both.

FACTS IN CASE SOUGHT

No charges have been made and the office of the District Attorney is merely endeavoring to arrive at the facts, Beecher said.

According to Beecher, those who probably will be questioned are Dr. Frank Murphy, Finn's physician; John Dickey and Frank Remington, nurses, and Jane Corwin Finn, niece.

O'Brien said yesterday he will begin the questioning immediately.

Schooner With Liquor Seized

BOSTON, Dec 26. (AP)—The auxiliary schooner Irene C, out of Weymouth, N. S., with 1500 cases of champagne aboard, was seized by the Coast Guard off Boston light today.

The liquor is estimated to be worth $180,000.

LOCAL TEACHER DIES ON ARIZONA RANCH

TUCSON (Ariz.) Dec. 26. (AP)—Coming to spend Christmas Day with her brother on a ranch near here, Addie Hanna, 62 years of age, Los Angeles school-teacher, died from a heart attack soon after her arrival. The body will be sent to the Coast city tomorrow and funeral services will be conducted Saturday.

PARKING BAN REQUESTED

A request that parking be prohibited on the west side of Gower street between Melrose avenue and Gregory street was received by the City Council yesterday from G. N. Seward. The request was referred to the Police Commission and the Traffic and Lighting Committee.

Body of Man Found in Hotel; Inquiry Ordered

An unidentified man was found dead yesterday in a washroom of a hotel at 626 West Ninth street, the cause of death apparently being a fracture of the skull. A Filipino bus boy discovered the body in the room, which was locked on the inside.

County Autopsy Surgeon Wagner was ordered to perform an autopsy. The dead man was about 40 years of age and fairly well dressed. In a pocket were found notes, one addressed to David Fields and Scotty Duncan, giving notice of an increase of rent, and signed "Landlady," while the other was headed 210 San Fernando Building, and told "Friend Bill" that the writer had been in a hospital. It was signed David Fields.

TWO IOWANS BURNED IN CROSSING CRASH

FORT DODGE (Iowa) Dec 26. (AP) John Adams, 23 years of age, and Marvin Beechle, 22, of Sac City, Iowa, were burned to death when their car caught fire after crashing into an Illinois Central freight train near Ulmer, west of here, today.

THEFT SUSPECT TO BE RETURNED

Asserted Rebuilder of Stolen Cars Held in Alabama

University station detectives plan to leave today for Birmingham, Ala., to return Henry L. Bolton, 35-year-old former operator of a used-car agency at 1638 West Jefferson street, to face indictments charging seven counts of automobile grand theft and one forgery count involving $3147.

Bolton, alias Jennings, formerly of Hamilton, Ont., was taken into custody last week by Birmingham police on a charge of operating an unlicensed employment agency there. Harry Atham, alias Leroy, was arrested with Bolton, but local police report the former is not wanted here.

Detective Lieutenants Holt and Huling of University station asserted that Bolton operated the automobile agency as a blind in which he reconstructed stolen cars and sold them. Although the indictment cites the asserted theft of seven cars, local police reported that Bolton was involved in the reconstruction of approximately 130 automobiles.

He operated his agency, according to the detectives, for several months and left Los Angeles November 15, last.

The forgery warrant, obtained through the investigation of Detective Lieutenants Magness and Spencer, charges that Bolton passed spurious checks in connection with his auto business.

The automobiles sold by Bolton, the investigating officers repart, were brought to Bolton by an organized ring of car thieves, were remodeled, repainted, their motor numbers changed and then sold.

TROLLEY LINE'S STAR DIM

Fate of Glendale-Montrose Railway Company Not Decided Despite Annual Deficit

The fate of the Glendale-Montrose Railway Company, the electric line serving La Crescenta, Montrose, Verdugo Woodlands, much of the east side of Glendale and west side of Eagle Rock, again is engaging the attention of communities affected by it as well as officials of the line because of the closing year adding still more losses to the line's accumulation of annual deficits.

The line, which is owned by Riverside Cement Company, will show for 1929, it was learned, a net loss of about $15,500 out of a gross income of approximately $125,000. This loss is understood to be, however, somewhat less than the loss incurred in 1928 operations. Financially the line long has been a white elephant, it is admitted freely by officials of the company.

LINE TO CONTINUE

But what to do about it has not yet been decided, Vice-President L. C. Barton said last night, except that the line is to go on just as it has been doing until some decision, not now on the horizon, is made.

One possibility discussed in the affected territory is that the company may petition the State Railroad Commission for permission to abandon the line. This has been reported but was denied, for the time at least, by Barton, last night. The carrier transports an average of 90,000 passengers a month, it was learned.

If it be abandoned, the Pacific Electric Railway, which runs through the middle of Glendale, might extend its bus service to connect some of the residents in the territory with its line and the Los Angeles Street Railway Corporation might extend its bus service to care for the rest by taking them to connect with the city line in Eagle Rock. A stage now operates between Los Angeles and La Crescenta, near much of the line's right of way.

EXTENSION URGED

Some interests in the community affected have sought to have the line extend itself from Glendale Junction along the Union Pacific Railroad down into Los Angeles and so provide a better suburban service between the city and the communities. This, however, never has progressed far beyond the proposal stage. The four miles of the line in Glendale nearest the junction are upon a right of way leased from the U.P. and the line for some time has had a joint passenger and freight services arrangement with the U.P.

The fact that the railway is standard gauge is a financial bar to the possibility that has been discussed also of connecting it with the city railway at Eagle Rock and entering Los Angeles from that avenue. The city lines are narrow gauge and to enable either equipment to be used on the other would necessitate laying at least a third rail, which would be a costly undertaking.

The line extends ten miles from La Crescenta to Glendale Junction, where it connects with the U.P. at San Fernando and Verdugo roads. It extends slightly more than two miles also from Broadway, at a point near Brand Boulevard in Glendale, to the center of Eagle Rock.

INHALATOR CREW LOSES BATTLE FOR GIRL'S LIFE

Firemen of the harbor district last night lost a twenty-six-hour battle to save the life of a San Pedro girl by means of an inhalator, when Fay Tearle, 9-year-old victim of a baffling clot on the spinal cord, died in her home without regaining consciousness.

The child was stricken several days ago with convulsions and partial paralysis. Dr. C. C. Mason of Long Beach, the family physician, diagnosed her sufferings as the result of a blood-clot that had formed on the spinal cord at a point near the neck. On Christmas Day Fay lost consciousness and her parents, Mr. and Mrs. E. A. Tearle, summoned Dr. Mason and several other physicians, who in turn sought help of the fire department.

Battalion Chief C. A. Miller and Firemen Jacobs, Carlson and Meacham rushed to the Tearle home at 304 North Pacific avenue, San Pedro, arriving at 4:45 p.m. and beginning work with the department inhalator at once in an effort to prolong life. The patient died at 7:10 o'clock last night.

A post-mortem examination was being planned last night to ascertain the nature of the fatal clot.

SPORTS
Los Angeles Times

FRIDAY MORNING, DECEMBER 27, 1929. C

ITTSBURGH ELEVEN PRACTICES AT ST. LOUIS

HERE ARE THE CLAWS OF THE PITTSBURGH PANTHER

You'll hear a lot about these six young men between now and January 2. They form a part of the array of backfield talent that Coach Jock Sutherland is bringing west to shoot against the Trojans in the Rose Bowl battle New Year's Day. Both "Pug" Parkinson and Toby Uansa have been prominently mentioned for all-American honors this year, and not without due cause. Parkinson was the best fullback in the East, and one of the best in the country, both offensively and defensively. Baker and Edwards work alternately at quarterback. Wallnchus plays half along with Uansa, and although he isn't as spectacular as "Tumbling Toby," he is well rated by his coach as a steady, consistent performer. Hood is the unknown quantity in the Panther backfield, and is rumored to be able to toss 60 and 70-yard passes. He subs for Parkinson at full.

Tuffy Favored to Defeat Rubbery Johnny in Garden Feature Battle

BY EDWARD J. NEIL
Associated Press Sports Writer

NEW YORK, Dec. 26. (AP)—The ugly duckling of the prize ring, rubbery Johnny Risko, has it in his power again to break the hopes and spirit of another young aspirant for heavyweight honors. The bounding one from Cleveland, a constant menace to every battler who rears his head above the crowd, will provide the test of fire and leather tomorrow night for Gerald Ambrose Griffiths in an important ten-round tilt at Madison Square Garden. The winner will be among

BY BOB RAY

California's Trojan ... have defeated the Hol... Athletic Club, Los Angeles ... basketball ... tonight ... the Rocky ... Conference ... Angeles ... The ... takes ... at the ... auditorium ... and will ... opener ... became ... second clash being ... for tomorrow night on ... court.

SAM BARRY

The Trojans under the direction of Sam Barry, recently acquired cage mentor from the University of Iowa, have been improving with every start and loom as strong contenders for the Pacific Coast Conference championship which they last won in 1928.

To date the Trojans have been performing without the services of Jesse Mortensen star center and forward, and Tony Jurich, the brilliant pivot man on the frosh team last season. Both of these athletes are still with the football squad, which is preparing for Southern California's New Year's Day clash with Pittsburgh at Pasadena, but in their absence Barry has uncovered some new talent that figures to make Mortensen and Jurich fight hard to win regular positions.

The Trojans will line up tonight with Gardner and Pierce as forwards, Frank Smith, who has been high-point man in

PITT BACKS SPARKLE

Uansa, Parkinson Head Brilliant Array of Talent Heading West for Tilt With Trojans

BY RALPH HUSTON

Pacific Coast Conference coaches who have spent the last three or four years trying to figure out an effective defense for Coach Howard Jones's football teams are eagerly awaiting the New Year's Day contest, for Jones seems to be up against just what they have been puzzling over.

Coach Walter Steffen of Carnegie Tech put the matter quite tersely when he remarked: "If we held our secondary defense back, Saunders murdered our line, and if we moved it up, Saunders passed over their heads." Steffen couldn't figure it out, and conference coaches seem to be experiencing difficulty in achieving the desired results.

HOWARD JONES

In Pittsburgh Jones is up against almost the same problem. If he moves up his secondary to stop "Pug" Parkinson's powerful drives through the line there won't be anybody left to stop "Tumbling Toby" Uansa. And if he leaves 'em back to halt the flashy halfback, Parkinson is likely to pound the line to shreds. All of which seems to indicate that both teams ought to score a-plenty.

Parkinson is a senior, and is making his second trip to the Rose Bowl. He subbed for "Bullet" Booth here two years ago. Built like a box car, with big legs, steel ribs, and a bullet-proof head, the Panther fullback has been a riot all year. For instance, against Penn State he plunged 84 yards for a touchdown in exactly eleven plays after the opening kick-off in the second half. In fact, he scored all of the Pitt points in the 20-7 victory over State.

DISCOVERS SPEED

He was just an ordinary fullback last season, but discovered how to increase speed, and this year has been an outstanding star, gaining considerable all-American mention. He was the key man in the Panther victory over Nebraska, battering the Cornhuskers to pieces. He does all of the punting, much of the passing and is a highly efficient interference man. Working at the fullback spot in "formation B" he handles the ball on a lot of reverses, and his fumbles have been few and far between.

He stands an even six feet, is 22 years of age, and weighs 208 pounds, which bulk he hurls into holes in the line to smash up the enemy in-

(Continued on Page 11, Column 3)

THE GREAT SHIRES IS VICTOR IN EASY BOUT

BUFFALO (N. Y.) Dec. 26. (AP)—C. Arthur Shires, Chicago baseball player and aspiring prize ring star, scored the second knockout of his career when he floored Bad Billy Bailey after one minute and twenty seconds of slugging in the first round here tonight.

The battle was just one flurry of action and punches until Bailey went down. In the first exchange Bailey landed flush on Shires's mouth and brought the blood. Then the ball player-fighter raked Bailey with a succession of rights and lefts, staggered him and wrestled him along the ropes.

Two powerful rights to the chin finally crumped Bailey.

Shires made a speech, saying he would fight any man in the world of not too great ring experience. He weighed 179½ and Bailey 184½.

Eight Named to Start in Opening Race

AGUA CALIENTE RACE TRACK, BAJA CALIFORNIA (Mex.) Dec. 26. Eight high-class handicap horses were named today for Saturday's opening-day handicap.

The Agua Caliente stables' Scimitar was handed top weight of 126 pounds by Racing Secretary Jack B. Campbell, Wirt G. Bowman, stablemate of Scimitar, was second high in the imposts with 109 pounds. The field will go at a mile and a sixteenth for a purse of $2000 added.

Sprinters will meet in the secondary feature of the day, the Los Angeles, at five and one-half furlongs. Six other races will make up the balance of the opening program.

Following are the owners, entries,

(Continued on Page 11, Column 1)

BRUINS AND UTAH FIVE TO TANGLE

First Game of Cage Series Will be Played Tonight at Olympic Auditorium

Resuming the search for intersectional basketball laurels, the Bruin basketeers of U.C.L.A. will collide with the powerful University of Utah cagers tonight in the first of a three-game series to be played in the Olympic Auditorium. The other two games of the series will be played tomorrow and Monday nights.

CAPT. LARRY WILDS

In their intersectional basketball contests to date the Bruins stand even up, with one game won and one game lost. The local quintet lost, 47 to 40, last Saturday night at the Olympic to the powerful Brigham Young University court team, and revenged themselves Monday night in the Manual Arts High School gymnasium to the tune of 47 to 43 in an exceptionally close contest.

The Utah Indians compete in the same circuit as the Brigham Young Cougars, the Rocky Mountain Conference, a loop noted for good cazaba squads. The Salt Lake City boys haven't shown any evidence so far this season of failing to uphold the conference reputation, so local cage fans are looking for red-hot tussles in the series with the Bruins. The Utah team will arrive in Los Angeles this morning from San Francisco, where it has engaged in a two-game series with the St. Mary's College team. The Indians won the first game of the series Monday night by the score of 35 to 22.

Vadal Peterson coaches the Utah

DRAW UP PLAN TO DECIDE C.I.F. TIE GRID GAMES

BY IRVING ECKHOFF

Realizing that the manner in which tie football games are decided in C.I.F. play-offs is not a howling success, plans were announced yesterday by Seth Van Patten, director of athletics for the southern section of the C.I.F., for bigger and better ways to settle prep football ties.

At present there are three plans under consideration, and the C.I.F. office is looking for more.

The trio of plans were submitted recently when the C.I.F. council held a meeting to work on the constitution.

The first one came from Fullerton High. Their idea is to decide the victory according to Pop Warner's new scoring brain-child. That of first downs, and if the first downs should also be equal to decide it on the total amount of yardage gained from scrimmage.

The second plan came from John Hunt, assistant county Superintendent of Schools. Hunt's theory is to give each team a series of four downs, the choice of defensive or offensive being decided by a coin toss. This plan is a much fairer and on the whole a better one than the one now in use. At present the alternate-play rule is enforced, first one team having the ball for a single play and then the other taking possession for one play. The ball is put into motion on the 50-yard line and its position after each eleven has had their four plays decides the victory.

Hunt's plan would make the tie play-off more like a football game, the victory being given the team that either makes a touchdown, or the eleven that makes the most yardage on the four downs.

The third idea submitted is somewhat similar to Hunt's theory. J. W. Means, vice-principal of Tustin High, brought it in from the Orange County League. The ball is put in play on the 40 or 50-yard line and a series of four plays is given instead of a series of first

(Continued on Page 11, Column 2)

PANTHERS PLAN STOPS AT DALLAS, EL PASO, TUCSON

Sutherland Says Team in Fine Shape, but Bewails Lack of Work on Southern California Plays

ST. LOUIS, Dec. 26. (AP)—The Pittsburgh University football team, bound for Pasadena, Cal., to meet the University of Southern California New Year's Day, resumed its westward journey tonight after a five-hour layover in St. Louis during which the entire squad of thirty-three players went through light signal practice and otherwise limbered up.

The practice session was held on Francis Field at Washington University, where the players were taken after being greeted this afternoon at Union Station by a delegation of Pittsburgh alumni and representatives of the Chamber of Commerce.

JOCK SUTHERLAND

They went from here to Kansas City and planned to make stops at Dallas, Tex.; El Paso, Tex., and Tucson, Ariz. for practice work.

"My boys are in good shape, but have had very little chance to practice against Southern California plays," said Coach John R. Sutherland. "The weather conditions at Pittsburgh have made it practically impossible for us to do outdoor work. Keeping fit has been our main task." The players appeared to be confident.

The Pittsburgh coach declared his chief worry was to combat the players' fear that it would be too warm to play at Pasadena. Sutherland is particularly anxious to win in order to avenge the 7-to-6 defeat which his team suffered at the hands of Stanford at Pasadena two years ago.

At Francis Field the players did a

(Continued on Page 10, Column 3)

Oiler Hockey Team Smashes Tigers, 2 to 0

Tom Murray's Richfield Oilers staged a sensational comeback to smash the San Francisco Tigers, 2 to 0, in a California pro league game at the Winter Garden. Beaten, 3-1 and 11-1, in their last two local appearances, the Oilers staged one of the most savage and surprising comebacks in local puck history to blank the Tigers.

Guy Poole scored in the first period on a perfect pass from Jake Lawrence, and "Midget" Nichols tallied unassisted in the second chapter, to give the Oilers their two scores.

The Tigers tried desperately to come from behind in the third period, but the Richfield defenses, sadly lacking in the past few games, were impregnable last night, and successfully withstood the challenge of almost the entire San Francisco team.

The comedy of the evening was furnished by "Rudy" Kawles of the Tigers, who spent most of his time picking himself off the ice, and in his spare moments attempted to slug it out with the Richfield team, individually or collectively.

Two National League Fielding Leaders Not to Be Regulars When 1930 Race Opens

SHEELY, HIGH ARE VICTIMS

Suhr Will be First Sacker for Bucs Next Year

Frisch Slated to Take Over Third-Base Position

Lerian, Leader of Catchers, Killed in Accident

BY BRIAN BELL
Associated Press Sports Writer

NEW YORK, Dec. 26. (AP)—National League fielding averages made public today suggest that it does not always profit a baseball player to lead the league. Two of the athletes who showed the way at their respective positions in 1929 probably will not be regulars in 1930.

Early Sheely, Pittsburgh, topped the first basemen with an average of .996, but he is slow of foot and Gus Suhr, for whom he was traded to San Francisco, will get the Pirate call next year. Andy High, St. Louis, led the third baseman with .9672, but Frankie Frisch is expected to move from second to third for the Cardinals in the spring. High won by a whisker from Arthur Whitney of the Phillies, whose average was .9671.

Hughie Critz, the Reds' spark plug, was the leading secondbaseman with an average of .974 and Travis Jackson of the Giants was at the head of the shortstops, showing a mark of .969. The veteran Rabbit Maranville, Boston Braves, was second.

Ethan Allen, Cincinnati, gave the Reds another place by leading the outfielders with an average of .988.

Mike Gonzales of the Cubs had the best average for the catchers, with .992. The Cuban veteran, however, played in only sixty games. The leader for the receivers participating in more than 100 games was the late Walter Lerian of the Phillies, whose last average was .986. Lerian died in October as the result of an auto accident.

Twenty-one pitchers had perfect fielding averages, but Dazzy Vance, Brooklyn, led in total chances with sixty-two, divided into thirteen putouts and forty-nine assists.

Two fielding records were bettered during the season and another tied. Earl Clark, Boston, set a new record for putouts and chances accepted by an outfielder May 10 when he registered twelve putouts and one assist in center field. The former record for putouts was eleven by Max Carey, Pittsburgh, July 25, 1921, and for chances accepted, eleven, held by seven National League outfielders.

Horace Ford, Cincinnati, had eleven putouts at shortstop, September 18, tying the mark set by William Fuller, New York, August 20, 1895.

GRIFFITHS, RISKO TANGLE TONIGHT

(Continued from Ninth Page)

those present when the Garden nominates a rival for Jack Sharkey in the second annual duel of the southland at Miami, Fla., February 27.

The plump baker boy already has engaged Griffiths once, losing to him on a foul in seven rounds earlier this season. With any other fighter than Risko that would indicate that Gerald Ambrose, who was dedicated to fighting from the moment he was christened, had something of an edge.

Risko, however, is the master of prize ring form reversals. The late Tex Rickard, in a moment of exasperation, named him "The Spoiler" and named him well. His hobby has always seemed to be the trimming of logical heavyweight contenders after "blowing" decisions to very ordinary athletes.

In the course of various elimination tournaments, Risko defeated Jack Delaney, Paulino Uzcudun, George Godfrey and finally Jack Sharkey and would have faced Gene Tunney in the heavyweight king's last stand but for losing a hairline decision to Tom Heeney in Detroit in 1927. Yet Risko has been beaten by Romero Rojas, Sully Montgomery, and was technically knocked out by Chuck Wiggins. Max Schmeling also stopped him here last year.

Griffiths, a rushing, swinging socker with a host of backers and believers, has only one bad mark on his record. Jimmy Braddock, the light-heavyweight contender, caught him charging in one night in the Garden and laid him low with a right smash to the head. Since then Tuffy graduated to the heavyweight ranks and whipped Paulino among others.

Despite Risko's record he will enter the ring in his favorite role as the underdog. He has never been beaten, never except when favored in the betting. The odds on Griffiths are 7 to 5. Johnny will have a weight advantage of about ten pounds, with Griffiths scaling about 184.

In two ten-round preliminaries Larry Johnson, hard-hitting negro stablemate of Griffiths, will battle Joe Sekyra, the Dayton blond, and Harold Mays will oppose Paul Cavaller in an all-New Jersey duel.

AIR SERVICE TO BORDER

To accommodate horse racing fans, a daily plane service to Agua Caliente will be started tomorrow by Western Air Express, according to C. W. Smith, general traffic manager. The ship, a twelve-passenger trimotor will leave the local terminal at 12:20 p.m., and will return from the resort at 4:45 p.m. All planes will land directly at the Agua Caliente Hotel, Smith said. The trip requires a trifle over an hour.

Santa Claus in Visit to Eric Pedley

Eric Pedley, the famous Midwick polo star who has done much to bring the name of Midwick and Los Angeles into the limelight, last night announced the arrival of a son and heir born Christmas Day whom he has already signed up for the Midwick team of 1950.

If young Pedley turns out to be the player his dad is, he will be a welcome addition to most any team at that time.

Casaba, Grid Sports Alike

BY SOL METZGER

Football fans will get a great kick out of basketball if they sense the similarity of the two sports. Yesterday we compared two basketball plays with two we had seen in football. Here's another. Ever see a back breaking down the side-lines chased by an opponent who was slightly behind and coming in at an angle for him?

The clever back will change his pace, if he hasn't enough speed to outrun the tackler, and seek to cut in behind the tackler. Basketball players do much the same thing. Take Michigan, for example, on its quick break following possession of the ball on a rebound. Her tall center, taking the long pass, will dribble if free.

Last year as he neared the foul-line he noted an opponent coming in for him at an angle from the rear said opponent headed to meet him closer to the basket. Slap, both feet went down upon the floor. The dribble ceased and the ball was on its way for the basket before the opponent could change course or stop in time to interfere. Tomorrow—another fast break stunt.

BRUINS, UTAH MEET TONIGHT

(Continued from Ninth Page)

five, and has developed a classy machine, according to all reports. Capt. Jerry Smith, forward; Pete Dow, forward, and Lorraine Cox, center, are the big noises in the Indian basket barrage. In addition to those three, two guards, "Red" Clark and Dick Lund, come through with scores when called upon.

This week-end series will be the second meeting between the two schools in basketball. Last year the Bruins and Indians divided a two-game, closely fought series played in Salt Lake City. This year's series of three games will decide the question of basketball supremacy between the two institutions.

Coach Caddy Works's machine has greatly increased in precision and power since the start of the season. The Bruins rang up two easy victories against La Verne College and Pomona College by the respective scores of 37 to 22 and 48 to 19, and then subdued the Hollywood Athletic Club with little difficulty by the score of 44 to 32. However, in their next opponent, the local cagers ran into some stormy opposition. Brigham Young captured the first game of the series, and then forced Works's boys to the utmost before allowing them to annex the second game.

Capt. Larry Wilds, flashy forward, and Carl Knowler, lanky center, led the Bruin attack, and are expected to shine in tonight's game. The two have alternated so far in the games played to date in being high-point man on the team. Carl Shy, running guard, and Frank Lubin, giant guard, who also jumps center, are the bulwarks in the Bruin zone defense.

"Biff" Jones May Get Bid From Oregon

EUGENE (Or.) Dec. 26. (AP)—Rumors were current here today that Capt. Biff Jones, West Point football coach, may be approached in connection with the vacant coaching position at the University of Oregon to succeed Capt. John J. McEwan, resigned.

Jack W. Benefil, graduate manager; Virgil Earl, director of athletics, and Del Stanard, representing the alumni on the athletic council, have gone to Palo Alto to see the Army-Stanford game, Saturday.

Jones is admittedly looking for a coaching post since his contract with Army expires this season and the Army rule permits but a three-year tenancy. Jones's present salary of an Army captain is understood to be considerably less than the $8000 Oregon is willing to pay.

President Arnold Bennett Hall said today he knows nothing of a possible interview with Jones by university officials.

Tom Stoddard, president of the student body, was on vacation today and could not be reached.

RABBIT PUNCHES

BY PAUL LOWRY

A STANFORD WAIL

YOU can't blame old Pop Warner for bewailing the loss of Walt Heinecke in the Stanford line-up against Army tomorrow. The squat center has been such an invaluable man in a quiet and unostentatious way the past two years that only his defection on the eve of the intersection clash with the Cadets from West Point has turned the spotlight in his direction.

But nobody more than Warner himself knows what the absence of Heinecke in the middle of the line means to the Cardinal team. Even as a sophomore—before he had earned a regular berth on the varsity—Heinecke was avaluable player.

Warner once took him on a northwestern invasion because Heinecke knew the signals for five positions and could play them in very creditable fashion—center, guard, tackle, end and quarterback.

It was Heinecke who saved the day for Stanford in the New Year's Day game with Pittsburgh two years ago.

He went in as a substitute tackle for Freeman just in time to block Pitt's try for goal after touchdown.

It was the margin by which Stanford won, 7 to 6.

And it was Heinecke who broke up the sequence of Pitt's plays when toward the fag end of the game the Panthers were marching for the Stanford goal and another touchdown.

He broke through the line and socked one of the Pitt backs (I believe it was Booth) for a loss on third down, and smashed the Panther parade.

The following fall he was consistency itself after earning a regular berth as center and this year he and Roy Riegels of California have battled tooth and toenail to be called the best center on the Coast.

Heinecke won the nod, and received favorable mention on many all-American teams.

THE MULLER CASE AGAIN

MR. ONE-EYED CONNELLY, the celebrated gate crasher—or at least a letter writer operating under One-Eyed's typed signature, comes to bat on the Brick Muller pass in the California-Ohio State game nearly nine years ago.

One-Eyed dished out the sandwiches to the press boys that day, so he should know something about the situation. At any rate he dispatched the following typed missive on the subject, vindicating the conductor of this column on the error contained in the record books giving Muller's pass as 70 yards.

"Christmas Day, 1929.

"Dear Paul: I noticed in your column this morning a squawk from a Mr. G. W. Premo of Bakersfield about Muller's pass to Brodie Stevens in the New Year's game of 1921. I was at that game and every other game but one that has been played in the Pasadena classic, and luckily that pass was made directly in front of the place where I was sitting. I took particular attention to the place from which the ball was thrown and Muller was on the California 48-yard line.

"How I remember the incident so well was that I got into a big argument at the time about a long-distance pass that I had seen for a gain of 85 yards in the Pitt-Penn State game of Thanksgiving day of 1907 or 1908. The ball was thrown by Dick Hollitzel, whom I consider the greatest pass thrower of all times. The touchdown scored on the play was made by Artie or Frank Griggs. These three players were the big stars of the Panthers of that year. All three went into professional baseball the next season, direct from college, Hollitzel going to Cincinnati, then under the management of Clarke Griffith, and one of the Griggs to Cleveland and the other to the St. Louis Browns. Hollitzel afterwards starred in several world's series with the Boston Red Sox and Artie Griggs after a couple of seasons drifted to the Coast League to play with the old Vernon Tigers. The score of that particular game was Pitt 7, Penn State 0.

"I have never seen any of you football experts comment on that great pass but if you ask Jock Sutherland to have Davis, the sports editor of the Pittsburgh Press, look over back files you can verify the truth of the same.

"ONE-EYED CONNELLY."

* * *

OLD-TIMERS PERK UP

MR. RALPH HUSTON, who dug up the story about Mr. Van Voy Baker, the man who taught Walter Camp how to play football, reports that the yarn has stirred up fond memories in other old-timers.

He is in receipt of a letter from Mr. McHenry Train of Balboa Island, who claims to have played at Columbia in 1875-76-77, playing against Mr. Baker, the hero of Mr. Huston's Sunday yarn in the Times sports section.

Mr. Train is approaching his seventy-first birthday. He hopes to meet Mr. Baker and also over old times. He writes Mr. Huston as follows about the old days:

"Princeton and Harvard defeated us on several occasions, but I recall one game when we beat Yale at old 'Hamilton Park,' New Haven, with a badly crippled team. Substitutes were a rarity in those days."

Mr. Train also mentioned the fact that his father George Francis Train, who died in 1904, was prominent in the organization of the 'Credit Mobilier,' the original trust which built the Union Pacific.

Mr. Huston does me a grave injustice when he suggests that I no doubt remember the "Mobilier" from my college economics.

KENTUCKY JOE ANDERSON

JOE ANDERSON, the middleweight Jimmy Dougherty had under his wing out here for several fights, has opened a gymnasium in Covington, Ky., his home town.

And the reports are that the boy is doing well. Also that he plans to fight some more in the near future.

Sammy Smiley, who trained Anderson for two or three of his bouts here, is with Anderson and helping him in the development of amateur fighters. He writes that two amateur champs have been developed in the Anderson gym already.

State Soccer Series Starts

First-round play in the California State championship soccer football series opens at Loyola Field Sunday afternoon with two games scheduled. No league games will be played Sunday and no games will be held at Tournament Park, Pasadena. All interest centers in the State competition and two of the best games of the season are expected. The feature game at 3 o'clock, will bring the Hollywood Sheiks against the Vikings, while the fast-improving Pasadena A.C.C. eleven tackles the L.A.A.C. Mercuries in the 1 o'clock preliminary.

Another holiday game between picked teams of the city and Southern California leagues will be played at Loyola Field on New Year's Day.

SPRADLING TO LEAD IOWA CAGE CAMPAIGN

IOWA CITY (Iowa) Dec. 26. (AP)—Robert Spradling, an Indiana boy who chose to come to the University of Iowa rather than Purdue, where his brother George made basketball history a few years ago, seems destined to lead Iowa's first cage campaign in many years outside of the Western Conference. Spradling, forced to take over the center duties when several basketball regulars were declared ineligible a few weeks ago, has been the key man in the Hawkeye attack.

Mercuries Face Tigers Tonight

The Los Angeles Athletic Club basketball team tackles a strong Southern California Conference quintet tonight when the Mercuries face Coach Ed Kienholz's Occidental College Tigers at the Glendale High School gymnasium.

Occidental is the present holder of the Southern Conference championship and is being made the favorite to retain the title in the coming league season. The Mercuries went through a tough game with Brigham Young University last night, but will be in good shape to meet the Bengals tonight.

Coach Twogood will start McHose and Rariden, forwards; Wilcox, center, and De Mers and Gage, guards.

The clubmen meet U.C.L.A. at the Mercury gymnasium, January 4, and play Henry's Clothiers of Wichita, Kan., January 6, and the Tulsa Eagles, January 8.

EXPECT RECORD FOR HERMOSA FISHING

HERMOSA BEACH, Dec. 21.—With the winter deep-sea fishing season now at its height, angling on the big Olympic barge, anchored two miles off shore here, is passing through a great session. The daily catches are getting larger, and a seasonal record for winter hauls is almost certain to be established, according to Capt. J. M. Andersen, skipper of the big vessel. Mackerel, sole, sculpin, sandabs, smelt, perch and halibut are all included in the daily catches brought ashore by visiting anglers.

ACTION RESUMED IN NET BATTLES

Second Annual Ambassador Play Continued

Quality of Competition is Improving in Tourney

Jimmy Bobbitt Has Close Call With Billy Doeg

With the quality of tennis getting better as the finals approach in the second semiannual Ambassador Hotel junior tennis tournament, which is being played this week on the courts of the hotel, active play was resumed yesterday after a suspension in the schedule over Christmas Day. Several feature matches were outstanding which helped to enliven the interest of tennis fans, the number of which are increasing daily.

Jimmy Bobbitt of Pasadena, defending champion in the junior boys' class and seeded third, barely eked out a victory over young Billy Doeg, seeded fifth, in a three-set quarterfinal duel yesterday, winning by scores of 6-2, 4-6, 6-3. Bobbitt took the first set with ease, dropped the second, due to Doeg's superb placements, and finished in the third set just an edge better than his victim.

The appearance of Ellsworth Vines, national junior boys' doubles champion, was gratifying to many racket enthusiasts. The Pasadena junior had little difficulty in trouncing James Booge to the tune of 6-1, 6-3, to gain the quarterfinal bracket. Vines is seeded first in the junior singles and should not encounter much difficulty until the finals.

Charles Hunt of San Francisco, national junior boys' 15 years and under doubles champion with Jay Cohn, arrived yesterday and waltzed through his first two matches with ease, defeating B. Pirie, 6-1, 6-0, and M. Wood, 6-3, 6-3. Hunt's partner, Cohn of Santa Monica, scored somewhat of an upset when he defeated Orville Scholts of U.C.L.A. yesterday in three sets of brilliant tennis, 2-6, 6-2, 6-2, in the junior boys' singles 18 years and under. In the 15 years and under division, Cohn trounced Vic Layng of Pasadena, losing only one game in the first set.

Dorothy Wokman of El Monte, defending champion in the junior girls' singles 18 years and under, who is seeded third, romped through a match with Bettsy Fuller without losing a game. However, Kate Northcote and Marjorie Lacey had a little harder time, with Miss Northcote copping the honors of their match by scores of 4-6, 6-2, 7-5.

So far in the junior boys' singles, Bobbitt is leading the field, having established himself comfortably in the semifinals, with the rest in the quarterfinals. In the younger junior boys' singles, the field has been narrowed down to the quarterfinals. As yet, the junior girls' doubles and the junior girls' singles 15 years and under, have not begun, but will start within the next day or so. Due to such a heavy entry list, it is most probable that the mixed doubles will be omitted.

Yesterday's results follow:

Junior boys' singles, 18 years and under: O. Carter defeated J. Pike, 6-3, 6-3; L. Smeaton defeated G. Carter by default; C. Scholts defeated K. Patterson, 4-6, 6-4, 6-1; J. Bobbitt defeated R. Doeg, 6-2, 6-2; B. Vines defeated J. Booge, 6-1, 6-3; V. Law defeated D. Belote, 6-1, 6-3; H. Butler defeated J. Law, 6-3, 6-4; J. Cohn defeated C. Scholts, 2-6, 6-2, 6-2.

Junior boys' singles, 15 years and under: C. Hunt defeated R. Pirie, 6-1, 6-0; Hunt defeated M. Wood, 6-3, 6-3; J. Patterson defeated J. Creamer, 6-0, 6-1; V. Layng defeated C. Mako by default; M. Woodside defeated B. Underwood, 6-3, 7-5; J. Cohn defeated V. Layng, 6-1, 6-0; R. Haight defeated P. Robinson, 6-3, 6-2; B. Seward defeated J. Levy, 6-2, 6-2.

Junior girls' doubles—Roush and Smith defeated Miller and Hickman, 6-0, 6-2.

Junior girls' singles, 18 years and under—J. Clark defeated R. Bishop by default; K. Northcote defeated M. Lacey, 4-6, 6-2, 6-3; D. Workman defeated Patty Fuller, 6-0, 6-0; P. Howard won first set from J. Nevins, 6-3 (will finish match at 7:30 a.m.)

Tomorrow's schedule follows:

8 a.m.—B. Georgi vs. B. Seward; Dorothy Workman vs. winner Howard-Nevins.

8:45 a.m.—M. Wilbourne vs. E. Rathbone; B. Layng vs. M. Woodside.

9:30 a.m.—M. Butler vs. C. Robbins; Frances Herron vs. Hilda Bottcher.

10:15 a.m.—Peggy Henry vs. Arline Eselman, Bobbitt and McDavitt vs. Patterson and Sheilshear.

11 a.m.—Helen Marlowe vs. winner Rathbone-Wilbourne; Violet Doeg vs. Kate Northcote; Jane Grannis vs. Margaret Sturgeon (at L.A.A.C.)

11:45 a.m.—W. Haight vs. J. Cohn, C. Hunt vs. L. Patterson.

12:30 p.m.—F. Dean vs. Gertrude Schulze, E. Dean vs. Jane Holmes.

1:15 p.m.—L. Stoeffler vs. Cohn, Mavis Clark vs. winner Grannis-Sturgeon.

2 p.m.—E. Vines vs. G. McCabe, Layng and Layng vs. Boore and Pierman.

2:45 p.m.—Butler and Pike vs. Miller and Kurtz, Vines and Robbins vs. Rouah and Smith.

3:30 p.m.—Paulco and Rosenstein vs. Patterson and McCabe, Hunt and Cohn vs. Bartelman and Cheatum.

TAMIO ABE LIKELY TO PLAY AT MIDWICK

According to word received from Dick Charnock, A. G. Spalding & Bros.' representative, yesterday, it is practically certain that Tamio Abe, captain and No. 1 man on the Japan Davis Cup squad, will be able to play in the Midwick Country Club invitational tennis tournament which is to be held at the club on Friday, Saturday and Sunday, January 1, 2 and 3. Abe had his passport arranged so that he won't have to be in New York until January 10. On January 11, Abe is going to sail for Europe, where he is to prepare for Japan's challenge in the Davis Cup rounds next summer.

It was also announced that Alfred Wright, Jr., has gone to San Francisco to see whether or not William (Little Bill) Johnston, former national champion, and Jim Davies, Johnston's doubles partner, will be able to compete in the Midwick tournament. Charnock reported that Ellsworth Vines has arranged to play with Art Kussman in the doubles.

WILLIE HOPPE IN WIN OVER COCHRAN

NEW YORK, Dec. 26. (AP)—Willie Hoppe, once the billiard master, won the first pair of 50-point blocks today in his 600-point three-cushion billiard match here with Welker Cochran, also a former champion.

Hoppe won the afternoon block, 50 to 49, and the evening block, 50 to 38, giving him a first-day lead of 100 to 87. Play lasted thirty-nine innings in the afternoon. Hoppe's high run was 13, Cochran's 6. Hoppe ran out in forty-one innings tonight and they shared high-run honors at five apiece.

ALL-AMERICAN FLAVOR INSURED

Pittsburgh Coming Here Top-Heavy With Stars Who Won Places on Mythical Teams; Pollard First Luminary to Perform in Tournament of Roses Classic

BY BRAVEN DYER

From the standpoint of all-American attractions this forthcoming Tournament of Roses classic has all other similar games backed off the map. Pittsburgh offers four players who have been picked rather generally while Southern California has one who rates with the best in the country, another who was selected on Walter Eckersall's first eleven and a third who is good enough, right now, to play on any team in the land.

The Pitt stars are Tom Parkinson, fullback; Ray Montgomery, guard; Joe Donchess, end; and Octavius Toby (Horseface) Uansa.

Southern California offers Francis Tappaan, end; Capt. Nathan Barragar, guard, picked by Eckersall; and "Racehorse Russell" Saunders, unhonored and unsung among the all-American heroes but a great ball carrier for all that.

Only once has there been an array of talent to approach this in Rose Bowl games. That was when Notre Dame played Stanford in 1925 and Knute Rockne presented his famous Four Horsemen and Seven Males.

Fritz Pollard, who played with Brown against Washington State in 1916, was the first all-American to perform at the Rose Bowl. However, he did not win recognition until the season after that game. Washington State won, 14 to 0.

The following year Oregon University ruined Pennsylvania, 14 to 0, despite the presence of Berry, all-American halfback on the Penn team. The wet field hampered Berry a lot.

In 1918 the Marine Corps of Mare Island played the Camp Lewis all-stars and the next year the Great Lakes Naval Training Station eleven fought it out with the Mare Island boys.

January 1, 1920, brought Harvard University here to play Oregon and also served to introduce all-American Eddie Casey to the fans of the West. The score was 7 to 6 in Harvard's favor.

The following year it was Ohio State vs. California. Pete Stinchcomb was an all-American halfback for the Buckeyes, having been picked on the 1926 team.

When California encountered W. and J. next season Brick Muller had won all-American recognition. Russell Stein, the great President tackle, was in the same class.

There were no outstanding all-Americans in action when Southern California defeated Penn State, 14 to 3, the following year, nor when the Navy tied Washington a season later, but this dearth was made up for when Knute Rockne brought his famous Four Horsemen west for the 1925 game. Harry Stuhldreher, quarterback, was practically the unanimous choice all over the country, while Don Miller, Elmer Layden and Sleepy Crowley were named by many critics. Adam Walsh, center, also won recognition. Jim Lawson of Stanford and Ernie Nevers were all-American players, although Nevers did no win his spurs until the following fall.

When Alabama defeated Washington in 1926 George Wilson was blossoming into all-American form. He was named on the 1925 eleven along with Nevers. Johnny Mack Brown wasn't selected by many critics before the game but after the contest many agreed that they had made a mistake in failing to pick this fleet-footed halfback. Pooley Hubert got some recognition at quarterback.

It was when Crimson Tide came into the following year Coach Wallace Wade had one bonafide all-American in "Wu" Winslett, the pass-throwing end. Freddy Pickhard, giant tackle and captain of the Alabamans, was also named on many teams. Ted Shipkey, Stanford end, was picked by quite a few critics as was Capt. Swar at guard.

In 1928 Pittsburgh brought the famous Gibby Welch to Pasadena. Stanford produced Post and Robesky, guards, but neither was picked until that fall. The Cards copped, 7 to 6.

Last year California had Capt. Irvine Phillips, named on many teams at end, while Georgia Tech offered Petah Pund, the goodly center who was rather a country-wide selection. Warner Mizell, Tech halfback, was also picked on a number of teams. He and Stumpy Thomason, both halfbacks, did a lot of damage to California and Tech won that now famous struggle, 8 to 7.

Brigham Young Cagers Defeat Mercury Five

Spurting by the Mercury outfit like nobody's business in a terrific last half scoring spree that was personally led by young Mr. Brinley, Brigham Young University's wandering Cougars defeated the L.A.A.C. quintet, 45 to 39, in a fast game played at the losers' gym.

The Mercuries, thanks to Rags Wilcox's ability to hit the hoop conveniently often, were out in front, 22 to 17, when the first half ended, but the Cougars evidently had not celebrated the holiday quite so strenuously and had enough stamina in the final period to overcome that four-point margin with considerable to spare.

After Walker had started the scoring with a field goal, B.Y.U. was never able to get past the Clubmen until the middle of the second half, although they did manage to work into a tie a couple of times. After tieing the score, 28 to 28, Brinley got hot and put his team ahead, 32-28, with a couple of tap shots under the basket. Once in front, the Cougars saw to it that they stayed there, at times playing keep-away with the ball to lure the Mercury defense out of position and then suddenly breaking down the court for set-up shots.

Brinley was high-point man of the game, chalking up 17 digits, one more than Wilcox registered for L.A.A.C. Magleby, star B.Y.U. guard, sunk the casaba for 11 points and played a brilliant floor game. Curly Raridan scored eleven times for the Mercuries and also looked sweet. Magleby and Walker of B.Y.U. both went out on four personal fouls.

The Brigham Young five journeys to Long Beach tonight for a crack at the strong Pacific Coast Club quintet. Tomorrow night the Cougars play at the Hollywood Athletic Club, while on Monday they tangle with the Oxy Tigers at Glendale High.

The L.A.A.C. five is scheduled to meet Occidental tonight on the Glendale High court. Line-ups:

B.Y.U.		L.A.A.C.
Hommey (8)	F.	Raridan (11)
Brinley (17)	F.	McHose (8)
Walker (3)	C.	Wilcox (10)
Magleby (11)	G.	Gage (2)
Cooper (2)	G.	De Mers (2)

SCORE BY HALVES

B.Y.U.	17	28—45
L.A.A.C.	22	17—39

Substitutions—B.Y.U.: Staples (2), Reeves (2), c; Bailiff, g. L.A.A.C.: Hoses, f.; Farrell, f.; Oliver, g.

Officials: Dubin, referee; Dempsey, umpire.

SHELL OILS WINS AMATEUR CONTEST

Returning to winning form after dropping four straight tilts the Shell Oilers defeated the Van Fleet-Durkee sextet, 4 to 1, at the Palais De Glace last night. The Oilers are topping the Southern California senior ice hockey loop. Buster Smith tallied three goals, and Frenchie Herbert added the fourth. Gene Proulx, star defense man for the losers, was on the sick list. Wally Richards scored their lone goal.

OSCAR BAKER COPS

CHICAGO, Dec. 26. (Exclusive)—Oscar (Moon) Baker, Los Angeles sensational heavyweight, who scored numerous victories along the Pacific Coast, knocked out Eddie O'Day of Philadelphia in the first round of their scheduled ten-round bout on Promoter Dick Curley's card tonight at the Ashland Auditorium.

Johnston is Believer in Overclubbing

BY SOL METZGER

One reason for the [illegible] popular Jimmy Johnston [illegible] tional amateur at Pebble [illegible] September was his [illegible] Johnston never was guilty [illegible] clubbing. Other [illegible] example, on the [illegible] where the tee was [illegible] many players chose [illegible] niblicks for the pitch. They [illegible] play a full shot and [illegible] shots oftentimes go wrong.

When Johnston played [illegible] he used a mashie [illegible] short backspin with [illegible] In short he got the [illegible] with a minimum of [illegible]

Learn to play your [illegible] idea that direction and [illegible] is the necessary factor [illegible] ball on the green. If [illegible] solely for distance, [illegible] when underestimated [illegible] constant that you will [illegible] ing the correct direction [illegible] row—another important [illegible] iron play.

Why waste the [illegible] lower your score by [illegible] structions? Get [illegible] passed a free lesson [illegible] which you will [illegible] requesting it. Address [illegible] in care of The Times, and [illegible] a stamped, addressed [illegible]

LOCAL OLYMPIC FIVE MEETS DONS TONIGHT

Coach Benson's [illegible] Olympic basketball [illegible] town tonight. The [illegible] to Santa Ana to [illegible] eyes against the [illegible] gan is slated to [illegible] Junior College [illegible] gan is slated to [illegible] ward with Don [illegible] ward. Shook and [illegible] ning guard, and [illegible] standing guard [illegible] up. The club [illegible] floor a slight [illegible] Dons, having [illegible] Junior College [illegible] Jaysee, 22-13.

CARDS, CADETS MARKING TIME

(Continued from Ninth Page)

season has produced a different backfield star: the Oregon, Rothert; the U.S.C. game, Moffatt (if any); the big game, Smalling. Somebody else altogether may take the limelight Saturday.

LINE-UPS ANNOUNCED

Capt. Jones has definitely determined to start the eleven which played the entire game against Notre Dame and with the illness of Heirecke precluding him from all chance of starting, following line-ups are official:

Army	Pos.	Stanford
Carlmark	L.E.	Preston
Price	L.T.	Thompson
Humber	L.G.	Driscoll
Miller	C.	Taylor
Hillsinger	R.G.	Bardin
Perry	R.T.	Tandy
Messenger	R.E.	Muller (C.)
Carver	Q.	Fleishhacker
Cagle (C.)	L.H.	Prentrup
Hutchinson	R.H.	Rothert
Murrell	F.	Smalling

Stanford held a short signal practice this afternoon which was an uneventful contrast to the brisk scrimmages of the early part of the week. Physicians declared all the men except Heinecke are in top condition. Heinecke has a bad case of bronchitis which will not permit him to play, though he will be able to see the game from the bench.

The Army fracas was to be the last game of his Stanford career, which began auspiciously two years ago, when, playing tackle in the Stanford-Pitt Rose Bowl game, he blocked an attempted goal conversion and saved the Cardinals' chances. Last year at New York he was one of the stars of the perfectly functioning Stanford line.

Pop Warner told Heinecke at the hospital that he would rather have lost any other man than him.

Hollywood to Face Cougars

A first-hand chance to break its losing streak of two games will be accorded the Hollywood Athletic Club basketball squad of Coach Bill Paige tomorrow night when the Movie City tossers meet the fast Brigham Young University Cougars at Hollywood.

While already beaten by U.S.C. and U.C.L.A., the H.A.C. has shown sufficient improvement to warrant Paige hoping for a victory over so strong a team. The victory can come, particularly if the clubmen equal the form shown in outscoring the Bruins during the second half of their game last week.

Capt. Chuck Kearney, playing center, has been a disappointment so far this season, but may hit his stride tomorrow night and run up his usual respectable total of points. If he does it will give Paige three scorers on whom to rely, Kearney, Ken Schneider and Herb Cole.

IMPOSTER GETS SENTENCE

CHICAGO Dec. 26. (AP)—Danny Murphy, vagrant who posed in Police Court as a member of the world's champion Philadelphia Athletics two decades ago, was sentenced to thirty days in jail and fined $100 and costs today by Judge Samuel Heller, from whom he almost won a dismissal and a Christmas dinner by his impersonation before the court learned of the imposture.

Johnston is Believer in Overclubbing

BY SOL METZGER

One reason for the victory popular Jimmy Johnston in the ... tional amateur at Pebble Beach ... September was his choice of ... Johnston never was guilty of ... clubbing. Other entries were, ... example, on the short seventh where the tee was above the ... many players chose their mashie niblicks for the pitch. They had play a full shot and force it; ... shots oftentimes go wrong.

When Johnston played this ... he used a mashie and employed ... short backspin with perfect ... In short he got the desired distance with a minimum of effort.

Learn to play your irons with ... idea that direction and not ... is the necessary factor in laying ... ball on the green. If you ... solely for distance, as one ... when underclubbing, the chance ... constant that you will fall in ... ing the correct direction. Tomorrow—another important point ... iron play.

Why waste the years trying to lower your score by disregarding directions? Sol Metzger has prepared a free leaflet on "The Five" which he will send to any ... requesting it. Address Sol Metzger, in care of The Times, and ... a stamped, addressed envelope.

PANTHERS STOP AT ST. LOU

(Continued from Ninth Page)

lot of kicking and catching the ... then went through setting-up ... cises and charging drill with ... nal practice winding up the ... out.

To casual observers the team ... not appear to be particularly ... but it did look fast. Dana ... able to run with sure-footed ... even in the deep mire of the field.

Sutherland smiled at every question relating to the outcome of ... game and also parried requests ... his opinion of the relative merits ... his team and Notre Dame.

"We could probably beat Notre Dame one day and they probably would turn around and beat us ... next," Sutherland remarked.

TROJANS RESUME WORK AFTER DAY OF REST

After a day of rest over Christmas, the Trojans of Southern California went back to work at Bovard Field yesterday afternoon in preparation for next Wednesday's ... tantic encounter with Pitt.

The drill was a long one, but there was no rough stuff. Howard Jones feels that his boys got by rather nicely against Washington State and Carnegie Tech without very much preliminary scrimmage and does not plan to kill his players off prior to the Pitt struggle. There may be a light scrimmage session this afternoon. The Trojan mentor does not desire to lose any of his athletes through injuries and for this reason will go light on the heavy stuff.

Tomorrow morning's practice will be the last at Bovard Field, for the afternoon the Trojan squad will move to the Vista del Arroyo Hotel in Pasadena. Workouts on Friday and Tuesday will be held at Tournament Park or some other Pasadena gridiron.

Boxing Board Has Licenses for New Year

The 1930 boxing and wrestling licenses are ready for distribution, the State Athletic Commission announced yesterday. Fighters, wrestlers, trainers, managers and promoters can get their new license by applying to the board. The list is expected to be bigger than ever before and Commissioner Woods and his chief ins..., Frank Moran, are anticipating a heavy rush on their office during the next two weeks.

Army Eleven to be Feted Here Sunday

Gen. William R. Smith, commandant of the United States Army College at West Point, N. Y., together with the officers of his staff and cadets making up the Army's football team, will be honored with a public reception arranged by the Chamber of Commerce, which is to be held Sunday night at the Ambassador Hotel.

The Army team is now at Palo Alto, having made the trip west to meet the Stanford University football eleven, on the northern college's campus tomorrow. With members of the team and officers, the Army party numbers 110, which is further swelled by a party of newspaper correspondents and other notables who are traveling on the same train.

Arriving here early Sunday, the cadets and their officers will be met by Charles A. Cooke, official greeter for the chamber, and an official representative of the city. They will be taken on an auto tour of the city, with stops planned at motion-picture studios and other points of interest, the tour being timed to permit their arrival at the Ambassador by 6 p.m. Dinner will be served in the Cocoanut Grove at the hotel at 6:30, and reservations for the affair are open to the public and may be made through the chamber's tourist department.

No More Davis Cup Play for Bill Tilden

PARIS, Dec. 26. (AP)—Big Bill Tilden, in the midst of intense training for the French covered courts championships opening here tomorrow, paused long enough today to outline his tennis plans for coming campaigns and reiterate that his days of Davis Cup play are over.

"I will not play Davis Cup tennis any more, but I do intend to compete in the French hard court and the Wimbledon championships," Tilden said.

Tilden served as captain of the American forces in last year's unsuccessful attempt to lift the Davis Cup from the French defenders and was named for the 1930 squad.

Following the covered courts tourney here, Tilden will leave for the Riviera, where he plans to compete at Monte Carlo, Cannes and Nice. He is entered in the singles competition here and will pair with Charles Kingsley of England in the doubles.

PITT BOASTS GREAT BACKS

Uansa, Parkinson at Head of Talented Array

Baker's Generalship Aids in Unbeaten Season

Hood Rated as Dark Horse of Panther Backfield

(Continued from Ninth Page)

...terference in such a way that the opposing back hasn't any place to go.

Toby Uansa also was out west two years ago, subbing for "Gibby" Welch, the all-American. This year Uansa has gained similar honors. Three times this year he has run for touchdowns in the opening minute of play. He did it for 80 yards against Duke, and repeated later in the game. Against Ohio State he sped around end for 73 yards and a touchdown. He galloped 51 yards through tackle against Carnegie Tech.

All of which indicates that "Tumbling Toby" is considerable of a ball packer along Marshall Duffield's lines. He stands five feet nine inches and weighs 175 pounds. His greatest assets are a pair of snaky hips and a quick change of pace, and he really doesn't need much more.

Cornelius McGillicuddy, Roger Peckinpaugh and Bill Wambsganss would never fit in box scores, so the baseball writers changed them to Connie Mack, Peck and Wamby, respectively. You'd never recognize Frank Butkiewicz if you saw it in a Pitt varsity roster, but if anybody mentioned Frank Baker, you'd probably know immediately that he was the smart little quarterback who has so ably conducted the Panther grid campaigns throughout the year. Butkiewicz worked a hardship on reporters, linotypers, telegraphers and radio announcers; so they unanimously changed it to Baker, and that's the way he's become famous.

WIRY PLAYER

Baker is built along the lines of Tappaan and Pinckert of the Trojans. He weighs only 166 pounds, but he's tough and wiry, and can stand up under as much punishment as anybody. Like all Stanford quarterbacks of past years, at least, he doesn't carry the ball, but merely barks the signals, and runs interference. He has been good enough to beat out Edwards in his junior year, which ought to indicate that he's a pretty fair quarterback.

In his junior year he subbed for Edwards, but this season has shown so much improvement that he is Sutherland's first choice for the signal-barking job. His major asset, of course, is brains, but he backs it up with some excellent blocking, some capable passing, and fair kicking, when necessary.

Bill Walinchus, the other halfback, hasn't achieved a lot of notoriety, largely because Uansa does all of the ball-carrying necessary for the two of them, but he runs a lot of interference, as do Pinckert and Edelson of the Trojans, and he's rated pretty highly by his coach.

Edwards, the sub quarter, is a senior, with plenty of experience, but he lacks the driving power of Baker. The latter has a vitriolic voice, and he keeps the squad going at top speed. Edwards can be substituted at any time without detracting from the mechanical efficiency of the squad.

Franklin Hood is the dark horse of the entire squad. He has been kept under wraps all season. He is said to be a remarkable passer, capable of tossing the leather sixty or seventy yards, but he never has been caught doing it in public. Pitt has managed to pile up convincing victories with a straight running attack, but if the going is tough in the Rose Bowl, and Hood is sent in, look out for some "Brick" Muller heaves!

DRAW UP PLAN FOR TIE GAMES

(Continued from Ninth Page)

downs. Otherwise the two plans are alike.

Dates for the Southern California track and field trials and finals were announced. The trials will be held April 26, with the finals on the following Saturday, May 3. The State C. I.F. meet will be held on May 10. None of the sites have been selected as yet, but in all probability the State meet will be staged in San Francisco Bay region. Berkeley and Palo Alto have both been mentioned as possible locations.

Definite plans for a Southern California football play-off for 1930 haven't been worked out yet, but it will follow this year's system to a great extent. Only one change is expected to be made, that of dividing the leagues into two separate divisions, a major and a minor group and then having two Southern California champions, one for the large schools and the minor for the smaller institutions.

Basketball and baseball play-offs will follow the same plan used in 1929.

TROJAN CAGERS TACKLE AGGIES

(Continued from Ninth Page)

most of their practice games, at center, and Capt. Johnny Lehners and Caldwell, a transfer from Phoenix Junior College, at the guard berths. Smith and Lehners are letter men. Hirdler, Boelter, Nibley and Cano are other forwards who figure to see action against the Aggies.

Little is known about the strength of the Utah Aggie quintet, but if they are anything near as good as the Brigham Young University five, which has been barnstorming here for the past week, the Trojans are due for a couple of exciting evenings. The Aggies are coached by E. L. Romney, a brother of Ott Romney, present B.Y.U. mentor, who turned out sensational teams at Montana State before being secured to coach basketball at Brigham Young.

KENNEDY CLAIMS TITLE

Les Puls Oar in for Pacific Coast Heavyweight Laurels; De Mave Here for Fight

Les Kennedy is the heavyweight champion of the Pacific Coast so far as claiming the title and offering to defend it against anybody. The Long Beach fighter yesterday said he would visit the offices of the State Athletic Commission this week and push his claim.

Jack De Mave, who arrived here yesterday after being snowbound in the Middle West for twenty-four hours, meets Kennedy next Tuesday night at the Olympic. The club is testing out December 31 or New Year's Eve as a fight night.

So far there have been quite a number of new reservations from parties making their plans for a New Year celebration. The Christmas show proved to be one of the best gates of the mouth, when Goldie Hess and Baby Sal played to a $6500 gate.

Matchmaker Wadhams said he would make every attempt to match the winner of the De Mave-Kennedy bout with Frankie Campbell for a January 21 date. That is the only open night in the month.

Goldie Hess called at the Olympic yesterday and signed a contract to meet Cecil Payne on the night of January 7. It will be a rematch between them. They fought a sensational ten-round bout recently, with Payne taking a close decision. Fidel La Barba and Ignacio Fernandez box on January 14.

The Olympic will stage a battle royal on the Kennedy-DeMave bill next week as an added feature. Benny Miller, popular local youngster, and Leo Hernandez meet in the six-round semi-wind-up with Jack Silver and Zenayda Chavez in the special event.

De Mave will open training today here. He is a big-looking fellow on the order of Kennedy. He fought Jack Sharkey, Jack Renault and other eastern top-runners among the heavies.

HERNANDEZ FINISHES CAMPAIGN TOMORROW

The 1929 ring campaign of Leo Hernandez, the young Mexican welterweight who turned professional last spring, will be brought to a close tomorrow night at the Main-street Athletic Club. Jack (Baby) Grand, rugged Norwegian puncher, will be Hernandez's twenty-fourth opponent. Hernandez has lost two decisions and has scored eighteen knockouts.

Jimmy Alvarado and Clark Anderson, featherweights, meet in the semi-wind-up tomorrow night with four other bouts also listed.

QUINTERO STARTS TRAINING

TAMPA (Fla.) Dec. 26. (AP)—Young Manuel Quintero, Tampa junior welterweight, who is to meet Sammy Mandel, Rockford, Ill., world's lightweight boxing champion, at Miami Beach, January 10, began training here today.

All-Star Mat Card Planned for New Year

"Carnation" Lou Daro, local mat promoter, stated yesterday that the first wrestling show of the new year would be held here at the Olympic the night of January 8.

Mat programs will be presented every other Wednesday night, thereafter, as in the past. The promoter definitely set the opening date of next year's shows yesterday, when he became certain he would be able to get several mat stars from the outside to come to Los Angeles for that card.

Daro has been working for the past week lining up several of the veteran top-notchers and several of the new young heavyweight sensations. He plans to have an all-star card January 8, and his present intentions are to match a few of the veterans with the young top-notchers who have never met before.

EADES WINS OVER PASADENA RIVAL

Dud Eades, the old Pasadena warhorse, chalked up another victory last night, when he won a ten-round decision over Young Peter Jackson, aspiring lightweight, in the main event at the Pasadena arena. Johnny Jordan outpointed Sailor Freddie Ramierez, in the special. The four-rounders: Ray Molina outpointed Johnny Previs, four rounds; Phil Blood knocked out Connie Sambrio, two rounds; Cliff Barrier outpointed Frankie Abendino, four rounds.

POLOISTS PLAY TODAY

Midwick and San Mateo Squads Slated to Tangle in Game This Afternoon on Alhambra Turf

The San Mateo polo...ists who opened the local season with a win over the Midwick riders last Sunday will again engage the purple-clad horsemen today and Sunday at the Alhambra field. In the first affair the players showed almost midseason form, seldom missing their shots for goal and riding with a zest and an abandon that was a joy to behold.

In both of the ensuing games the San Mateo team will comprise Kenneth Walsh and Lindsay Howard from the northern city and Elmer Boeseke and Howland Paddock who are Midwick players, but who are joining the San Mateo team for this series in order to equalize the teams. Midwick's line-up has been announced by Capt. Wesley J. White, in charge of polo at Midwick, as Jim Spalding, Neil McCarthy, Eric Pedley and Gordon Cronkhite. The fans should enjoy the battle between Pedley and Boeseke, the two finest players in the West, who ordinarily appear on the field as team-mates but who nevertheless can play just as hard against each other as otherwise.

The fifty Argentine ponies which completed an 8000-mile journey to enter the polo tournaments at Midwick, are rapidly recovering from their forty-two days of travel. Some of them have not entirely lost their sea-legs but otherwise look in the pink of condition. And don't think that horses don't get seasick the same as humans, particularly on a lightly loaded ship in rough weather. Mr. Thomas C. Nelson who arrived with the ponies reported an unusually rough voyage and opined that while he likes California very much, he doubts if he will ever attempt the trip again under such conditions. Mr. Nelson has made several trips to New York in charge of the ponies used by the Argentine team in their international series with America. He reports that his present string as a whole are as fine a lot of ponies as have ever come out of the Argentine and that when the players arrive in about two weeks they will be as well mounted, if not better, than any team that has ever appeared on the Coast.

Make 1930 a California Year!

Los Angeles Times Annual MIDWINTER Number

IF TOURISTS KNEW~

Approximately 100 million Americans have never yet set foot in California, while millions of others have "done" the State on a 3-day tour.

Los Angeles has a two-sided tourist job—to get more tourists to come; to lengthen their present short average visit. Doubling the number and at the same time tripling their stay, means a 600% greater tourist business.

To attract long-stay tourists means to present a long-stay program, and that means the ANNUAL MIDWINTER NUMBER.

The MIDWINTER NUMBER combines the "come" urge with the "stay" urge. It not only points out the thrills of doing but shows the charm of leisure and living. It impels the desire: "Let's go for a full year!"

25¢ Anywhere in U.S. Canada, or Mexico Mailed Postpaid

6 Beautiful Magazines in Colors and Roto-Out Jan. 2.

The ANNUAL MIDWINTER NUMBER is a non-profit-seeking publication made possible by the co-operation of advertisers and The Times.

THE SON OF TARZAN

By Edgar Rice Burroughs

Hidden in the bush at one side of the trail, safe from the eyes of the searchers should they miss their fellow and return for him, the lad choked the life from his victim. Then a strange desire seized him. His whole being quivered and thrilled. Involuntarily he leaped to his feet and placed ne foot upon the body of his kill. He raised his face to the heavens to voice a strange, weird cry surging within him.

But no sound passed his lips—he just stood there a full minute, his face uplifted, his chest heaving to his pent emotion, like a statue of vengeance. The silence that marked the first great kill of the son of Tarzan was to typify all his future kills—just as the hideous victory cry of the bull-ape marked the kills of his mighty sire, Tarzan of the Apes. Akut, meantime, had turned back to search for the boy.

Soon the ape was startled to see a strange figure moving through the trees. It was the boy, yet could it be? In his hand was a long spear, down his back hung an oblong shield. On his arm and ankle were bands of brass and iron, while around his middle was twisted a loin cloth. A knife was thrust through its folds. The old ape could scarcely believe his eyes. The boy hastened forward and proudly recounted the details of his exploit.

They made a detour around the hostile village. Now for days the boy practiced with his spear until he gained a proficiency only attained by youthful muscles. Under Akut's guidance he came to know every jungle spoor and know the different beasts by scent. His nose could tell whether up-wind there were two lions or four. Much more the ape taught him—but far more was a species of intuition inherited from his father. He had come to love the jungle life.

REG'LAR FELLERS

Brides Take Notice

By Gene Byrnes

YOU KNOW I'M A PRETTY GOOD COOK MYSELF! I COOKED TOAST ONCET!
RESTAURA
YOU COOKED TOAST ALL BY YOURSELF HOW DIDJA DO IT?
ALL Y'HAFTA DO IS CUT A SLICE OF BREAD AN' PUT IT IN THE TOASTER AN' LEAVE IT THERE UNTIL IT GETS BLACK ON ONE SIDE THEN TURN IT OVER TILL IT GETS BLACK ON THE OTHER SIDE.....
THEN TAKE IT OUT AN' THROW IT AWAY AN' CUT YOURSELF ANOTHER SLICE OF BREAD AN' PUT JELLY ON IT AN' IT TASTES SWELL!

GASOLINE ALLEY

Modern Youth

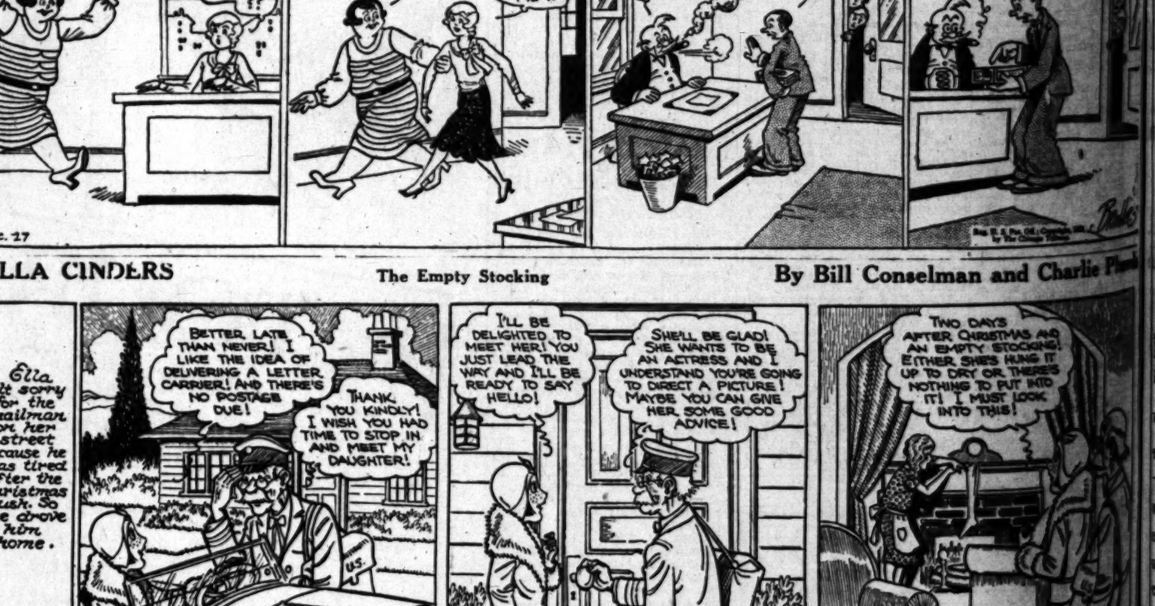
By

YOU'VE DONE WELL GETTING WOOD FOR THE FIREPLACE, SKEEZIX. NOW I'M READY TO DO MY PART. HOW ABOUT A MOVIE.
YOU BET!
HERE'S A NICE WILD WESTERN WITH INDIANS AND BUFFALOES. IT ISN'T A TALKIE, IF THAT MAKES ANY DIFFERENCE.
I DON'T LIKE STILL PICTURES.
LETS GO TO THE SPEAK-EASIES!

THE GUMPS

A Father's Advice to His Son

By Sidney



WELL NOW - THERE YOU ARE YOU HAVE A START FOR A GREAT FUTURE - YOU OUGHT TO BUILD UP A FORTUNE - LET THIS BE THE FOUNDATION
LOOK AT THE BANK UNCLE BIM GAVE ME PAPA - IT'S GOT TEN PENNIES IN IT
BUILD YOUR FUTURE AS YOU WOULD THE HOUSE YOU'RE TO LIVE IN - START AT THE FOUNDATION AND BUILD UP - AM I RIGHT UNCLE?
YOUR FATHER IS RIGHT CHESTER. NO MATTER WHAT YOU UNDERTAKE IN THIS WORLD - TO BE SUCCESSFUL - YOU MUST ALWAYS BEGIN AT THE BOTTOM OF THE LADDER
HOW ABOUT GETTING OUT OF A WINDOW IN CASE OF FIRE?

HAROLD TEEN

Everybody Doin' It

By Carl E

WELL POP! OLD ST NICK'S NOT IS OVER - I'M GOIN' DOWN TOWN WITH MY LADY THIS P M. - MY MIND CAREFREE - NO BUNDLES - NO PUSHIN' SURGING MOB!
YEP
BE A MAN! GEDUNK!
TIME CREEPS EVER ON-AND ON-AND ON-AND ON-ANON. WELL! ANYHOW YOU GET TH' IDEA! EIGHT HOURS LATER
ABEDRAGGLED BEING WENDS HIS WEARY WAY HOME!
OUCH POP! A STEAMING GEDUNK TO REFRESH MY JADED JOINTS!
MY GOODNESS! DOIN' YOUR XMAS SHOPPIN' EARLY FOR 1930?
BE A MAN! GEDUNK!
DON'T BE SIL - I PUT IN TH' DAY HELPIN' TH' QUEEN CHANGE HER 1929 CHRISMUS PRESENTS!
WHOA TILLIE

WINNIE WINKLE, THE BREADWINNER

He Knows the Ropes

By Brann

WINNIE!
GREAT GOSH! WHAT'S EATING YOU, DOT??
COME QUICK!! MCPINCH IS HONESTLY GIVING SOMETHING AWAY! I JUST SAW HIM HAND THE BOSS A CIGAR!!
EITHER THERE'S SOMETHING THE MATTER WITH HIM OR YOU'RE KIDDING ME!!
PHOOEY!! THIS CHRISTMAS CIGAR IS KIND OF PUNK YOU JUST GAVE ME, MR. MCPINCH!
YOU SHOULD WORRY, MR. DIBBS! YOU ONLY GOT ONE!!
I'VE GOT A WHOLE BOX OF THEM!!

ELLA CINDERS

The Empty Stocking

By Bill Conselman and Charlie Plu

Ella felt sorry for the mailman on her street because he was tired after the Christmas rush. So she drove him home.
BETTER LATE THAN NEVER! I LIKE THE IDEA OF DELIVERING A LETTER, CARRIER! AND THERE'S NO POSTAGE DUE!
THANK YOU KINDLY! I WISH YOU HAD TIME TO STOP IN AND MEET MY DAUGHTER!
I'LL BE DELIGHTED TO MEET HER! YOU JUST LEAD THE WAY AND I'LL BE READY TO SAY HELLO!
SHE'LL BE GLAD! SHE WANTS TO BE AN ACTRESS AND I UNDERSTAND YOU'RE GOING TO DIRECT A PICTURE! MAYBE YOU CAN GIVE HER SOME GOOD ADVICE!
TWO DAYS AFTER CHRISTMAS AND AN EMPTY STOCKING! EITHER SHE'S HUNG IT UP TO DRY OR THERE'S NOTHING TO PUT INTO IT! I MUST LOOK INTO THIS!

PETEY—

The Breaks.

By C. A. Voi

—I SENT THAT AWFUL! MRS. BROWN TELLS ME THAT LAMP I SENT HER CAME ALL SMASHED UP!— AND MRS. ATKINS NEVER RECEIVED WHAT I SENT HER AT ALL—
—THAT PACKAGE OF THINGS I SENT TO THE SQUINCHES ARRIVED ALL RUINED TOO!—
—WHAT A SHAME AUNTIE
—IT'S FUNNY, BECAUSE WE GOT EVERYTHING THAT WAS SENT TO US — AND IN GOOD CONDITION!
?
!
—YEAH, WE AIN'T GOT A BIT OF LUCK!!

VIADUCT PLANS AFOOT AT PORT

Pedestrian Walk to Liner Terminal on Docket

New Passenger Depot Group Also Projected

Move Aims at Solution of Traffic Problem

BY WALDO DRAKE

Plans are being completed by the Harbor Department for early construction of a pedestrian viaduct over Pier A avenue, at Wilmington, as a means of eliminating the present traffic congestion at the passenger terminals in that area, it was announced yesterday by Port Manager Burt Edwards.

A new passenger station for the convenience of steamer passengers will also be built immediately there by the Pacific Electric Railway, said Mr. Edwards. The viaduct, to be of steel construction, will cross Pier A avenue opposite Berth 155 and extend over to the Lassco terminals, thus serving all vessels in that area.

A depot will be built on the west side of the highway, where room will be provided for all busses, taxicabs and other passenger vehicles to load or discharge passengers and baggage. Ship porters, instead of being forced to cross in front of heavy vehicle traffic, will carry baggage across the viaduct, which will be of sufficient width for a two-way thoroughfare.

Mr. Edwards believes that the projected viaduct, together with additional parking area and recent opening of Harbor Boulevard from Wilmington to the Pier A passenger terminal area, will successfully solve the rapidly increasing traffic problem. Construction of the modern interburban station at Pier A will also fill a distinct need, while the Harbor Department also has tentative plans for establishing a restaurant at the base of the viaduct.

MANY TOURISTS DUE ON LINER CALIFORNIA

Panama-Pacific liner California will be in from New York, via Havana and the canal, at daylight tomorrow with 516 cabin passengers, chiefly easterners coming to Southern California for the winter season.

Californian, returning on the California include Theodore Von Storch Vandling of Beverly Hills, William and Herbert W. McMorine of Piedmont, Claude V. Garrow, also of Piedmont; William J. Lindenberger, San Francisco broker, with Mrs. Lindenberger; Mr. and Mrs. F. B. Travers, Miss E. G. Palmer and Miss C. A. Gifford, all of Berkeley; Miss Doris Kemmerle, Miss Marie Levey and Clarence J. Wetmore of Oakland.

Charles I. Houghton, veteran marine insurance broker, was wearing an ear-to-ear smile about the water front yesterday. An eight-pound son and heir to the Houghton estates arrived early yesterday at the San Pedro General Hospital.

Royal Mail's motor liner Lochgoil will get out this evening for the north after discharging coke, pipe, nitrate of lime and glass from North Europe and 14,000 stems of bananas from the canal.

The cover page of the current issue of the Merchant Marine Bulletin, official publication of the United States Shipping Board, carries an aerial view of Los Angeles Harbor, while inside is an interesting article on Pacific sailors, "The Souls of Merchant Seamen," by Capt. Walter J. Petersen, general manager of the Marine Service Bureau.

Furness Pacific Line's motorship Pacific President is due Sunday morning from the United Kingdom with 1200 tons of freight and six cabin passengers for the port. The travelers include Miss Violet E. Bedford, Mr. and Mrs. Donald S. McCannel, Joseph Patrick, with Mrs. Patrick and Miss Dorothy C. Pellew.

The Calmer, a steamer of 865 tons net, arrived from Ensenada under command of Capt. A. P. Somellera yesterday, for cleaning and painting at the Craig shipyards, Long Beach. She recently was purchased by the Bernstein brothers, for operation between
